

# Rhode Island Department of Health

## WIC Program - 2024

### Approved Formulas, Exempt Formulas (EXF) and WIC-Eligible Nutritionals (WEN)

#### Standard Contract Infant Formulas 20 calories/oz:

These formulas will be given unless a physician diagnoses a medical condition that warrants a specialty formula. No prescription form is required for infants less than 12 months old.

#### Similac Advance, Similac Soy Isomil, Similac Sensitive, Similac Total Comfort

#### Specialty Formulas: Retail

Medical documentation is required for issuance of these formulas (WIC-23). Non-specific symptoms such as colic, gas, fussiness, spitting up, constipation, feeding difficulty, intolerance, picky eater, or slow weight gain are not qualifying medical conditions and will not be approved. Once approved, participants can purchase with their eWIC card at WIC-approved grocery stores/pharmacies. *(Listed alphabetically)*
