SUCH, IN EXAMINING EACH OF THE PRIORITIZED COMMUNITY HEALTH NEEDS, EXISTING COMMUNITY ASSETS WERE IDENTIFIED BEFORE CONSIDERING ANY NEW STRATEGIES THAT L+M MIGHT INITIATE AND/OR THOSE TO BE CONTINUED. WHERE THERE IS AN EXISTING COMMUNITY-BASED PROGRAM ADDRESSING ANY OF THE PRIORITIZED NEEDS, OR DUE TO RESOURCE LIMITATIONS, L+M WILL WORK TO SUPPORT AND BUILD CAPACITY OF THOSE PROGRAMS RATHER THAN TO CREATE SOMETHING NEW.

THERE ARE THREE SPECIFIC EXAMPLES OF AREAS WHERE THE DATA DEMONSTRATE THAT THE L+M COMMUNITY IS AN OUTLIER AS COMPARED TO NATIONAL BENCHMARKS. THE USE OF TOBACCO IN THE L+M SERVICE AREA, WHILE HAVING DECREASED, CONTINUES TO EXCEED THE HEALTHY PEOPLE 2020 GOAL. L+M OFFERS CESSATION SUPPORT TO EMPLOYEES PRESENTLY. ALTHOUGH THIS INDICATOR IS DIRECTLY LINKED TO THE PRIORITY AREA OF CANCER, DUE TO RESOURCE LIMITATIONS, L+M WILL NOT UNDERTAKE PROGRAMMING INTENDED FOR THE WIDER COMMUNITY RELATED TO TOBACCO CESSATION.

SIMILARLY, ALTHOUGH EXCESSIVE DRINKING IN ADULTS OVER AGE 18 IN NEW LONDON COUNTY EXCEEDS THE NATIONAL BENCHMARK, AND CAN BE LINKED TO CANCER AND MENTAL HEALTH PRIORITY AREAS, L+M WILL SUPPORT EFFORTS LED BY COMMUNITY PARTNERS BUT WILL NOT TAKE THE LEAD IN PROGRAMMING AROUND THIS ISSUE. FOR EXAMPLE, MUCH WORK AROUND SUBSTANCE ABUSE AND ADDICTION ISSUES IS BEING CARRIED OUT BY THE SOUTHEASTERN CT REGIONAL ACTION COUNCIL, AN ENTITY ESTABLISHED BY THE CT LEGISLATURE TO ASSIST COMMUNITIES IN THIS AREA. ADDITIONALLY, THERE ARE COMMUNITY PARTNERS RECEIVING FEDERAL AND STATE GRANT FUNDS TO ADDRESS THIS AREA. L+M PARTNERS IN THESE EFFORTS BUT WILL NOT INITIATE NEW STRATEGIES.

LAST, THE URBAN CENTER OF NEW LONDON CONTINUES TO DEMONSTRATE VARIANCE FROM STATE RATES IN BIRTHS TO TEENS AND SEXUALLY TRANSMITTED INFECTIONS. ALTHOUGH L+M WILL WORK TO SUPPORT COMMUNITY PARTNERS IN ADDRESSING THESE ISSUES, RESOURCE LIMITATIONS WILL NO LONGER ALLOW L+M TO PLAY A LEADERSHIP ROLE.

Report of Independent Auditors

To the Board of Trustees of
Lawrence + Memorial Hospital

We have audited the accompanying consolidated financial statements of Lawrence + Memorial Hospital (a subsidiary of Lawrence + Memorial Corporation, the "Hospital"), which comprise the consolidated balance sheets as of September 30, 2013 and 2012, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lawrence + Memorial Hospital (a subsidiary of Lawrence + Memorial Corporation, the "Hospital") and its subsidiary at September 30, 2013 and September 30, 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

T: (860) 241 7000, F: (860) 241 7590, www.pwc.com/us

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information, on pages 26 through 31, is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position and results of operations of the individual organizations. Accordingly, we do not express an opinion on the financial position, results of operations, and changes in net assets, of the individual organizations. However, the consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and, in our opinion, based on our audits is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

1. Significant Accounting Policies and Organization

Organization
Lawrence + Memorial Hospital (the "Hospital"), a nonprofit organization incorporated under the General Statutes of the State of Connecticut, is a wholly owned subsidiary of Lawrence + Memorial Corporation (the "Corporation"). The Board of the Corporation elects a Board of Directors who manages the property and affairs of the Hospital.

Principles of Consolidation
The consolidated financial statements include the accounts of the Hospital and its wholly owned subsidiary, Associated Specialists of Southeastern Connecticut, Inc. ("Associated Specialists"). All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates
The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital's significant estimates include the collectability of patient accounts receivable, useful lives of fixed assets, estimated settlements due to third party payors, valuation of certain investments, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Regulatory Matters
The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access ("OHCA").

Temporarily and Permanently Restricted Net Assets
Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and its subsidiary in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Donor Restricted Gifts
Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents
The Hospital and its subsidiary consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Investments
Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices where available or net asset values provided by investment managers. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements
Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Hospital for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets in active markets, quoted prices in markets that are not active, or can be corroborated by observable market data for substantially the same term of the assets.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others
The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates.

Assets Limited as to Use
Assets limited as to use include assets set aside by the Board of Directors and contribution receivables for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, the Hospital's interest in externally managed trusts, unexpended bond proceeds for construction purposes, and assets held by trustees under indenture agreements relating to financing activities with the State of Connecticut Health and Education Facilities Authority ("CHEFA") are also included therein.

Property, Plant and Equipment
Property, plant and equipment are recorded at cost, or, if received as a donation, at the fair value on the date received. The Hospital provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Non-operating Gains and Losses
Activities other than in connection with providing health care services are considered to be non-operating.

Excess of Revenues Over Expenses
The consolidated statement of operations includes excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments
Certain investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Hospital for debt of the same remaining maturities.

Medical Malpractice Self-Insurance
The Hospital purchases claims made-based professional and general liability insurance to cover medical malpractice claims from L + M Indemnity, Ltd. The Hospital has adopted the policy of self-insuring the tail coverage portion of its malpractice insurance coverage. Management has accrued the estimate of losses anticipated to be incurred.

Income Taxes
The Hospital and its wholly owned subsidiary, Associated Specialists, are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c) (3) of the Internal Revenue Code.

Inventories
Inventory consists of supplies, both medical and general, pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets
Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay
Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. This payout is only upon termination of employment.

Subsequent Events
The Hospital has performed an evaluation of subsequent events through January 10, 2014, which is the date the financial statements were issued.

The Hospital's negotiations with two of its three unions, AFT Healthcare, AFT-CT, AFT, AFL-CIO, Local 5049 (registered nurses) and AFT Healthcare, AFT-CT, AFLCIO, Local 5051 (licensed practical nurses and technicians) for a new contract resulted in a 4-day strike that commenced on November 27, 2013. The Hospital brought in temporary replacement workers, and, in order to provide ongoing patient care given the threat of additional, intermittent strikes, had a lockout of employees through December 18, 2013. The lockout was lifted and employees returned to work without a contract being reached. Contract negotiations will be resumed in February 2014. In response to the strike, the Hospital initially curtailed services in its Intensive Care Unit and for elective surgeries, both of which are being gradually returned to full service. The Hospital is monitoring the negative impact of the strike and lockout on both revenues and expenses. Negotiations with the two unions are ongoing, however, no assurance can be given regarding the outcome of such negotiations.

2. Revenues from Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2013	2012
Gross charges from services to patients	$ 718,354,285	$ 704,064,528
Less: Charity care	7,125,259	5,799,817
Charges from services to patients, net of charity care	711,229,026	698,264,711
Deductions		
Allowances	394,797,284	371,565,459
State of Connecticut uncompensated care system (receipts)	1,047,636	(2,579,127)
Total deductions	395,844,920	368,986,332
Net revenues from services to patients	$ 315,384,106	$ 329,278,379

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Corporation, and these differences are accounted for as allowances. The state of Connecticut has reduced Uncompensated Care Payments to all hospitals beginning July 2013 for a three year period. The impact to L + M Hospital in Fiscal Year 2013 is a reduction of $3,000,000, with further reductions to occur in Fiscal Year 2014 and 2015. In 2013, the Corporation paid cash into the State of Connecticut Uncompensated Care Pool that exceeded the amount was received from the State. Fiscal year 2013 resulted in a decrease in net revenue whereas fiscal year 2012 was an increase to net revenue.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately $1,126,576 and $4,271,085 in 2013 and 2012, respectively.

During 2013 and 2012, approximately 33% of net patient service revenue was received under the Medicare program, and 12% and 11%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Non compliance could result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines, but also includes certain cases where incurred charges are significant when compared to income. These charges are not included in net patient service revenues for financial reporting purposes.

Fair value for Level 1 is based upon quoted prices in active markets that the Hospital has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Hospital does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Hospital's ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Hospital believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Hospital within Level 3 of the fair value hierarchy defined above:

4. Endowments

The Hospital's endowment consists of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

The Hospital understands net asset classification guidance requires that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Hospital classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Hospital considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Hospital and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Hospital.
- The investment policies of the Hospital.

Endowment Funds With Deficits

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets.

Endowment Investment Return Objectives and Risk Parameters
The Hospital has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Strategies Employed for Achieving Endowment Investment Objectives
To achieve its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term objectives within prudent Hospital risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives
Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment and operating funds.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

On September 15, 2011 the Connecticut Health and Education Facilities Authority ("CHEFA") issued $58,940,000 of Series F Bonds (the "Series F Bonds") on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the "Obligated Group" under the Series F Bond agreements). The Series F Bonds are structured with a term bond due July 1, 2036, with annual sinking fund payments due each July 1st commencing July 1, 2012. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 which began on January 1, 2012.

On June 24, 2004 CHEFA issued $22,990,000 of Series E Bonds (the "Series E Bonds") on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the "Obligated Group" under the Series E Bond agreement). The Series E Bonds are structured with a term bond due July 1, 2034, with annual sinking fund payments due each July 1st commencing July 1, 2023.

Interest on the Series E Bonds accrues at the weekly rate and is payable on the first business day of each month commencing July 1, 2004.

Under the terms of the trust indenture for the Series E Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts sufficient to enable the Authority to pay principal and interest on the Series E Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

The Series E Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. The Hospital maintains a letter of credit in the amount of $22,900,000 which expires on December 31, 2014. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are equal quarterly installments beginning in the first quarter that is at least 367 days after the initial draw down on the letter of credit. The Series E Bonds have been successfully remarketed in the past and there have been no draws on the letter of credit.

In accordance with the long-term loan agreement with CHEFA, certain trustee funds are required to be maintained. These funds provide for debt service and other related payments. The income derived from these funds is required to be reinvested in the trustee funds and is not available for current operating purposes.

The fair value of the Series E Bonds, using discounted cash flow analyses, approximates carrying value at September 30, 2013 and 2012. The fair value of the Series F Bonds using discounted cash flows was $55,830,117.25 and $62,036,108.50 for years ending September 30, 2013 and September 30, 2012, respectively.

The tax exempt lease (the "Easy Loan") was obtained on June 27, 2013 in the principal amount of $12,000,000. This is a seven year equipment lease on specific capital purchases that is administered through CHEFA and Bank of America-Merrill Lynch. This loan will be amortized monthly through June 27, 2020 at a nominal annual interest rate of 1.759%.

On October 10, 2013 Series G was issued in a private placement offering with Bank of America-Merrill Lynch and CHEFA in the amount of $30,000,000 with an interest of 3.20% until October 1, 2023 with an option to extend at a negotiated rate with a maturity date of July 1, 2038. On November 5, 2013, Series H was issued by CHEFA to refinance Series E. Series H was issued in the amount of $21,405,000 with a variable rate and a maturity date of July 1, 2034. This bond has a letter of credit guaranteed by T.D. Bank.

Principal repayments on the CHEFA bonds are as follows:

Years	Annual Principal Repayment
2014	$ 2,725,000
2015	2,835,000
2016	2,975,000
2017	3,130,000

	$ 76,420,000

The Hospital made cash interest payments of $2,682,472 and $2,118,293 in fiscal year 2013 and 2012, respectively. No interest was capitalized during 2013 or 2012.

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the plan. The plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pension as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

The following table sets forth the Plans' funded status and amounts recognized in the consolidated balance sheet at September 30, 2013 and 2012 (measurement date of September 30):

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

	2013	2012
Discount rate	3.95 %	5.34 %
Average rate of compensation increases	2.50 %	3.50 %
Expected return on assets	7.50 %	7.50 %

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2013	2012
Discount rate	4.51 %	3.95 %
Average rate of compensation increases	2.50 %	2.50 %

The Plan's asset allocations as of September 30 are as follows:

Asset Category	2013	2012
Cash	3 %	5 %
Bonds	23	29
Hedge funds	30	29
Marketable equities	44	37
Total	100 %	100 %

The expected rate of return on assets is calculated based on past experience.

Expected benefits to be paid under the plans are as follows:

Fiscal Years Beginning October 1,	Expected Benefits
2013	$ 6,998,164
2014	7,263,769
2015	7,511,189
2016	7,928,299
2017	8,074,614
Expected aggregate for 5 fiscal years beginning 2018	44,653,466

Annual contributions are determined by the Hospital based upon calculations prepared by the plan's actuary. Expected contributions to the plans for 2014 are approximately (unaudited):

Pension	$ 6,400,000
Retiree health	108,195

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 9.0% in 2013 reducing to 5.0% by the year 2021 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated post-retirement benefit obligation and service cost plus interest cost by approximately $71,000 and $97,000, respectively, at September 30, 2013 and 2012. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately $65,000 and $88,000, respectively, at September 30, 2013 and 2012.

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2013:

	Level 1	Level 2	Level 3	2013

There were no transfers between levels during 2013 or 2012.

The table below represents the change in fair value measurements for Level 3 investments held by the plan for the years ended September 30:

	2013	2012
Beginning balances	$ 28,795,536	$ 26,524,387
Realized gains	33,459	144,819
Fees	(65,081)	(54,861)
Unrealized gains	3,130,044	2,181,191
Purchases	-	5,475,369
Sales	-	(5,475,369)
Ending balances	$ 31,893,958	$ 28,795,536

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations combine tested theory and informed market judgment to balance investment risks with the need for high returns.

The Hospital's 401(k) plan covers eligible employees who elect to participate. Eligible employees may contribute a percentage of their salary. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Contributions charged to operations were approximately $4,047,828 and $3,911,714 for 2013 and 2012, respectively.

9. Functional Expenses

The Hospital provides general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2013	2012
Health care services	$ 237,473,487	$ 237,543,779
General and administrative	81,280,293	78,382,764
	$ 318,753,780	$ 315,926,543

10. Contingencies

The Hospital is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Hospital's financial position, results of operations, changes in net assets or cash flows.

Report of Independent Auditors

To the Board of Trustees of
Lawrence & Memorial Hospital

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, changes in net assets, and cash flows present fairly, in all material respects, the financial position of Lawrence & Memorial Hospital (a subsidiary of Lawrence & Memorial Corporation, the "Hospital") at September 30, 2012 and 2011, and the results of their operations, their changes in net assets, and of their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These consolidated financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information, on pages 23 through 28, is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position and results of operations of the individual organizations. Accordingly, we do not express an opinion on the financial position, results of operations, and changes in net assets, of the individual organizations. However, the consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and, in our opinion, based on our audits is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

1. Significant Accounting Policies and Organization

Organization
Lawrence & Memorial Hospital (the "Hospital"), a nonprofit organization incorporated under the General Statutes of the State of Connecticut, is a wholly-owned subsidiary of Lawrence & Memorial Corporation (the "Corporation"). The Board of the Corporation elects a Board of Directors who manages the property and affairs of the Hospital.

Principles of Consolidation
The consolidated financial statements include the accounts of the Hospital and its wholly owned subsidiary, Associated Specialists of Southeastern Connecticut, Inc. ("Associated Specialists"). All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates
The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital's significant estimates include the collectibility of patient accounts receivable, useful lives of fixed assets, estimated settlements due to third party payors, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Regulatory Matters
The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access ("OHCA").

Temporarily and Permanently Restricted Net Assets
Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and its subsidiary in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Donor Restricted Gifts
Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents
The Hospital and its subsidiary consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Investments
Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements
Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Hospital for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets in active markets, quoted prices in markets that are not active, or can be corroborated by observable market data for substantially the same term of the assets.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others
The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates.

Assets Limited as to Use
Assets limited as to use include assets set aside by the Board of Directors to fund the deductible portion of malpractice insurance coverage (maintained in an irrevocable trust), contribution receivables and for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, funds held in trust by others, unexpended bond proceeds for construction purposes, and assets held by trustees under indenture agreements relating to financing activities with the State of Connecticut Health and Education Facilities Authority ("CHEFA") are also included therein.

Property, Plant and Equipment
Property, plant and equipment are recorded at cost, or, if received as a donation, at the fair value on the date received. The Hospital provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Nonoperating Gains and Losses
Activities other than in connection with providing health care services are considered to be nonoperating.

Excess of Revenues Over Expenses
The consolidated statements of operations includes excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments
Certain investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Hospital for debt of the same remaining maturities.

Benefit Plans
The Hospital has a defined benefit plan and a defined contribution plan (see Note 8).

Medical Malpractice Self-Insurance
The Hospital purchases claims made-based professional and general liability insurance to cover medical malpractice claims from L & M Indemnity, Ltd. The Hospital has adopted the policy of self-insuring the tail coverage portion of its malpractice insurance coverage. Management has accrued the estimate of losses anticipated to be incurred.

Income Taxes
The Hospital and its wholly owned subsidiary, Associated Specialists are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c) (3) of the Internal Revenue Code.

Inventories
Inventory consists of supplies, both medical and general pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets
Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay
Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. This payout is only upon termination of employment.

Subsequent Events
The Hospital has performed an evaluation of subsequent events through December 14, 2012, which is the date the financial statements were issued.

2. Revenues from Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2012	2011
Gross charges from services to patients	$ 704,064,528	$ 666,081,059
Less: Charity care	5,735,971	6,368,501
Charges from services to patients, net of charity care	698,328,557	659,712,558
Deductions		
Allowances	371,629,305	336,363,800
State of Connecticut uncompensated care system (receipts)	(2,579,127)	(1,926,932)
Total deductions	369,050,178	334,436,868
Net revenues from services to patients	$ 329,278,379	$ 325,275,690

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Hospital, and these differences are accounted for as allowances. The Hospital receives cash from the State of Connecticut Uncompensated Care Pool. The Hospital records this as an increase to their net revenues from services to patients.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately $4,271,085 and $3,852,000 in 2012 and 2011, respectively.

During 2012 and 2011, approximately 33% and 32%, respectively, of net patient service revenue was received under the Medicare program, and 11% and 12%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines, but also includes certain cases where incurred charges are significant when compared to income. These charges are not included in net patient service revenues for financial reporting purposes.

3. Investments

Investments at September 30 consist of:

	2012	2011
Pooled endowment funds

Fair value for Level 1 is based upon quoted prices in active markets that the Hospital has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Hospital does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Hospital's ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Hospital believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Hospital within Level 3 of the fair value hierarchy defined above:

4. Endowments

The Hospital's endowment consists of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

The Hospital understands net asset classification guidance requires that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Hospital classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Hospital considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Hospital and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Hospital.
- The investment policies of the Hospital.

Endowment Funds With Deficits
From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets.

Endowment Investment Return Objectives and Risk Parameters
The Hospital has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Strategies Employed for Achieving Endowment Investment Objectives
To achieve its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term objectives within prudent Hospital risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives

Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment, Kitchings and operating funds. The Hospital will designate the spending amount on an as-needed basis for the special account.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

On September 15, 2011 CHEFA issued $58,940,000 of Series F Bonds (the "Series F Bonds") on behalf of the Hospital and the Corporation (collectively referred to as the "Obligated Group" under the Series F Bond agreements). The Series F Bonds are structured with a term bond due July 1, 2036, with annual sinking fund payments due each July 1st commencing July 1, 2012. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 beginning January 1, 2012.

The proceeds of the Series F Bonds will be used to refund the outstanding Authority Revenue Bonds, Lawrence & Memorial Hospital Issue, Series D (the "Series D Bonds") and to fund all or a portion of the following capital projects: (i) replacement of a linear accelerator on the main campus of the Hospital; (ii) capital improvements for infrastructure renovation and improvement on the main campus, including heating, ventilation, and air conditioning project; (iii) replacement of a catheterization lab and equipment on the main campus; (iv) acquisition of approximately 100 acres of land in Waterford, Connecticut for development of a new cancer center ; and (v) acquisition and installation of Magnetic Resonance Imaging ("MRI") and CT equipment at the Crossroads facility

On June 24, 2004 CHEFA issued $22,990,000 of Series E Bonds (the "Series E Bonds") on behalf of the Hospital and Lawrence & Memorial Corporation (collectively referred to as the "Obligated Group" under the Series E Bond agreement). The Series E Bonds are structured with a term bond due July 1, 2034, with annual sinking fund payments due each July 1st commencing July 1, 2023. Interest on the Series E Bonds accrues at the weekly rate and is payable on the first business day of each month commencing July 1, 2004.

The proceeds of the Series E Bonds were used to finance the acquisition, construction, capital improvements, renovation, and/or equipping of the expansion of the Hospital's Pequot Health Center, including a new 37,000 square foot building addition to house an ambulatory surgery unit, MRI series, and mobile medical technologies. The proceeds were also used to fund the debt service reserve fund and costs related to the issuance and interest related to the Series E Bonds. Under the terms of the trust indenture for the Series E Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts

sufficient to enable the Authority to pay principal and interest on the Series E Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

Effective January 16, 2008, the Hospital refinanced its CHEFA Series E bonds with JPMorgan Chase Bank, N.A. This reoffering does not update information contained in the original official statement but provides a new letter of credit, which expires in January 2013.

The Series E Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are equal quarterly installments beginning in the first quarter that is at least 367 days after the initial draw down on the letter of credit. The Series E Bonds have been successfully remarketed and there have been no draws on the letter of credit.

In accordance with the long-term loan agreement with CHEFA, certain trusteed funds are required to be maintained. These funds provide for debt service and other related payments. The income derived from these funds is required to be reinvested in the trusteed funds and is not available for current operating purposes.

The agreements will remain in force until principal and interest on the bonds and any other costs of the Authority with respect to the project have been fully paid or provided for. Annual payments due under the loan agreements include interest on the outstanding bonds.

The fair value of the Series E Bonds, using discounted cash flow analyses approximates carrying value at September 30, 2012 and 2011. The fair value of the Series 2011F Bonds using discounted cash flows was $62,036,108.50 and $58,940,000.00 for years ending September 30, 2012 and September 30, 2011 respectively

2015	2,835,000

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the Plan. The Plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment. Assets of the Plan include mutual funds, marketable equity securities, corporate and government bonds, notes and hedge funds. The investments have been selected to generate a return on the investments and protect the principal.

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pension as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

The following table sets forth the Plans' funded status and amounts recognized in the consolidated statements of financial position at September 30, 2012 and 2011 (measurement date of September 30):

Amortization of net loss/(gain)	2,164,266	2,581,545	(49,599)	(55,084)

Benefit cost	$ 3,995,947	$ 4,302,812	$ 9,703	$ 3,934

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

	2012	2011
Discount rate	5.34 %	5.07 %
Average rate of compensation increases	3.50 %	4.25 %
Expected return on assets	7.50 %	8.50 %

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2012	2011
Discount rate	3.95 %	5.34 %
Average rate of compensation increases	2.50 %	3.50 %

The Plan's asset allocations as of September 30, 2012 and 2011 are as follows:

Asset Category	2012	2011
Cash	5 %	5 %
Bonds	29	30
Hedge funds	29	31
Marketable equities	37	34
Total	100 %	100 %

The expected rate of return on assets is calculated based on past experience.

Expected benefits to be paid under the Plans are as follows:

Fiscal Years Beginning October 1,	Expected Benefits
2012	$ 6,507,731
2013	6,713,876
2014	6,982,706
2015	7,173,109
2016	7,566,083
Expected aggregate for 5 fiscal years beginning 2017	41,508,308

Annual contributions are determined by the Hospital based upon calculations prepared by the Plan's actuary. Expected contributions to the Pension and Retiree Health Plan for 2013 are approximately:

Pension	$ 4,800,000
Retiree health	125,931

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 9.0% in 2011 reducing to 5.0% by the year 2016 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated post-retirement benefit obligation and service cost plus interest cost by approximately $97,000 and $84,000, respectively, at September 30, 2012 and 2011. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately $88,000 and $77,000, respectively, at September 30, 2012 and 2011.

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the staff pension plan at September 30, 2012:

	Level 1	Level 2	Level 3	2012
Investments, at fair value				
Cash	$ 4,711,241	$ -	$ -	$ 4,711,241
Bonds	28,278,732	-	-	28,278,732

Marketable equities	32,342,939	4,169,861	-	36,512,800
Total investments, at fair value	$ 65,332,912	$ 4,169,861	$ 28,795,536	$ 98,298,309

The following table summarizes the fair values of investments by major type held by the staff pension health plan at September 30, 2011:

	Level 1	Level 2	Level 3	2011
Investments, at fair value				
Cash	$ 3,847,979	$ -	$ -	$ 3,847,979

Total investments, at fair value	$ 55,677,854	$ 3,285,344	$ 26,524,387	$ 85,487,585

There were no transfers between levels comparing last to this year for assets that are in the portfolio.

The table below represents the change in fair value measurements for Level 3 investments held by the staff pension plans' years ended September 30, 2012 and 2011, respectively:

	2012	2011
Beginning balances	$ 26,524,387	$ 24,333,144
Realized gains	144,819	25,446
Fees	(54,861)	(57,862)
Unrealized gains	2,181,191	223,659
Purchases	5,475,369	2,000,000
Sales	(5,475,369)	-
Ending balances	$ 28,795,536	$ 26,524,387

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations for both plans combine tested theory and informed market judgment to balance investment risks with the need for high returns.

The Hospital's 401(k) plan covers eligible employees who elect to participate in the Plan. Eligible employees may contribute a percentage of their salary to the Plan. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Plan contributions charged to operations were approximately $3,911,714 and $3,677,042 for 2012 and 2011, respectively.

9. Functional Expenses

The Hospital provides general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2012	2011
Health care services	$ 249,658,098	$ 246,193,019
General and administrative	78,382,764	77,940,078
	$ 328,040,862	$ 324,133,097

10. Contingencies

The Hospital is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Hospital's financial position, results of operations, changes in net assets or cash flows.

FORM 990, PART III, LINE 4A, DESCRIPTION OF PROGRAM SERVICE:

YALE NEW HAVEN HEALTH SYSTEM (YNHHS OR THE SYSTEM), CONNECTICUT'S LEADING HEALTHCARE SYSTEM, WAS FORMED IN 1996 TO ENHANCE THE QUALITY AND SCOPE OF HEALTHCARE SERVICES FOR RESIDENTS OF CONNECTICUT AND BEYOND. YNHHS INCLUDES THREE DELIVERY NETWORKS: BRIDGEPORT HOSPITAL, GREENWICH HOSPITAL AND YALE-NEW HAVEN HOSPITAL, AND A PHYSICIAN FOUNDATION, NORTHEAST MEDICAL GROUP. YNHHS HAS CLINICAL RELATIONSHIPS WITH SEVERAL OTHER HOSPITALS IN CONNECTICUT AND NUMEROUS OUTPATIENT LOCATIONS THROUGHOUT THE STATE. YNHHS IS AFFILIATED WITH YALE UNIVERSITY IN SUPPORT OF PATIENT CARE, MEDICAL EDUCATION AND CLINICAL RESEARCH.

YNHHS PROVIDES QUALITY ACCESSIBLE CARE TO A BROAD PATIENT POPULATION. THE SYSTEM IS COMMITTED TO CREATING A CULTURE OF SAFETY FOR PATIENTS. IT CONTINUED A MULTI-YEAR INITIATIVE TO BECOME A HIGH RELIABILITY ORGANIZATION (HRO), IN COLLABORATION WITH THE CONNECTICUT HOSPITAL ASSOCIATION.

THE SYSTEM HAS FURTHER CONTINUED AND BEEN SUCCESSFUL IN ITS EFFORTS TO IMPROVE QUALITY OUTCOMES WHILE REDUCING EXPENSES IN A TIME OF GREAT CHANGE IN HEALTHCARE REIMBURSEMENT IN ORDER TO CONTINUE ITS MISSION OF PROVIDING QUALITY AFFORDABLE CARE TO A BROAD PATIENT POPULATION REGARDLESS OF ABILITY TO PAY AND OTHERWISE WITHOUT DISCRIMINATION, FURTHERING MEDICAL EDUCATION AND ADVANCEMENTS IN HEALTHCARE THROUGH CLINICAL RESEARCH. SPECIFICALLY, IT HAS LED CLINICAL INITIATIVES DESIGNED TO REDUCE CLINICAL VARIATION, POTENTIALLY AVOIDABLE

COMPLICATIONS AND EXCESS COST THROUGH BEST PRACTICES AND IMPROVED CARE MODELS - AND IN DOING SO IDENTIFIED OPPORTUNITIES FOR IMPROVEMENT IN LENGTH OF STAY, READMISSIONS, EXPENSE REDUCTIONS, REVENUE IMPROVEMENT AND INCREASED VOLUME.

FOR EXAMPLE, AN INITIATIVE TO STANDARDIZE DRUG INVENTORIES AT ALL THREE SYSTEM HOSPITALS RESULTED IN SIGNIFICANT SAVINGS AND HELPED ELIMINATE "DUPLICATE THERAPIES" - DEFINED AS USING SIMILAR, BUT MORE COSTLY MEDICATIONS TO TREAT THE SAME CONDITIONS. THE PROJECT EARNED BAXTER HEALTHCARE CORPORATION'S LEADERSHIP EXCELLENCE AWARD IN PHARMACY AND WAS RECOGNIZED AS PART OF AN EXCELLENCE AWARD FOR SUPPLY CHAIN MANAGEMENT FROM VHA INC., A NATIONAL NETWORK OF NOT-FOR-PROFIT HEALTHCARE ORGANIZATIONS.

EPIC, THE SYSTEM'S ELECTRONIC MEDICAL RECORD SYSTEM, WAS UPGRADED IN 2014 TO OPTIMIZE USAGE AND ADD NEW TOOLS, SEARCH FUNCTIONS AND SAFETY FEATURES, AND WAS FURTHER EXTENDED INTO COMMUNITY PRACTICES IN 2014. YNHHS AND ITS MEMBER HOSPITALS WERE AGAIN SELECTED AS ONE OF THE MOST WIRED HEALTH SYSTEMS IN THE NATION BY HOSPITALS AND HEALTH NETWORKS MAGAZINE WITH CLINICAL INFORMATION TECHNOLOGY INITIATIVES THAT ENHANCE ACCESS AND CONTINUITY FOR PATIENTS AND PROVIDERS IN THE DELIVERY OF HEALTHCARE.

TO SUPPORT ITS' THREE-FOLD STRATEGY, IT WAS PARAMOUNT THAT THE YALE-NEW HAVEN HEALTH SYSTEM PARTNER WITH YALE UNIVERSITY TO CREATE A CUTTING EDGE DATA AND ANALYTICS TEAM THAT WOULD COMBINE DISPARATE REPORTING RESOURCES FROM YNHHS, YALE MEDICAL GROUP (YMG), YALE SCHOOL OF MEDICINE (YSM). THE NEW DEPARTMENT CALLED THE JOINT DATA ANALYTICS TEAM (JDAT)

Name of the organization: YALE NEW HAVEN HEALTH SERVICES CORP

Employer identification number: 22-2529464

WAS FORMED ON OCTOBER 1, 2014 TO SUPPORT THE ORGANIZATIONS IN A DATA DRIVEN, TRANSPARENT AND SECURITY FOCUSED MISSION UNDER THE LEADERSHIP OF THE YNHHS AND YSM CHIEF MEDICAL INFORMATION OFFICER. SINCE ITS' FORMATION, JDAT HAS HAD NUMEROUS SUCCESSES INCLUDING CREATING A CENTRALLY MANAGED AND SINGLE PORTAL FOR ALL DATA REQUESTS, BUILDING A RESEARCH FOCUSED TEAM OF ANALYSTS, CREATING STANDARDIZED METRICS AND DASHBOARDS ACROSS THE INSTITUTIONS AND DEVELOPING THE 'HELIX' BRAND REPRESENTING THE ENTERPRISE DATA WAREHOUSE AND ALL ANALYTICS PRODUCED BY THE 60+ MEMBER TEAM. EACH JDAT ANALYST HAS OBTAINED AT LEAST ONE EPIC CERTIFICATION AND ALL ARE TRAINED IN THE LATEST BUSINESS INTELLIGENCE (BI) TECHNOLOGIES AS WELL AS DATABASE QUERYING TOOLS.

YNHHS CONTINUED TO SERVE A BROAD PATIENT POPULATION EXPANDING ITS CLINICAL SERVICE PARTNERSHIPS AND PROGRAMS TO MAKE CARE MORE ACCESSIBLE AND AVAILABLE ACROSS THE STATE. FURTHERING EXPANDING ACCESS TO CARE, YNHHS PARTNERED WITH ANOTHER AREA NONPROFIT HEALTH SYSTEM TO PROVIDE EMERGENCY HOSPITAL-TO-HOSPITAL TRANSPORT BY HELICOPTER. SPECIFIC EXAMPLES OF CLINICAL SERVICE PARTNERSHIPS AND PROGRAM EXPANSIONS IMPLEMENTED DURING 2014 INCLUDE:

- THE YALE-NEW HAVEN CHILDREN'S HOSPITAL SPECIALTY CENTER IN TRUMBULL OPENED.
- YNHHS AND MILFORD HOSPITAL SIGNED AN AGREEMENT TO BRING VARIOUS YALE-NEW HAVEN HOSPITAL PROGRAMS TO THE MILFORD CAMPUS, INCLUDING A 24-BED INPATIENT REHABILITATION UNIT.
- BRIDGEPORT HOSPITAL EXPANDED ITS CARDIAC SURGERY PROGRAM BY INTEGRATING WITH YALE-NEW HAVEN HOSPITAL AND YALE SCHOOL OF MEDICINE.
- SMILOW CANCER HOSPITAL AT YALE-NEW HAVEN, IN COLLABORATION WITH THE PHYSICIANS AND STAFF FORMERLY OF ONCOLOGY ASSOCIATES OF BRIDGEPORT (WHO

JOINED THE YALE SCHOOL OF MEDICINE), BEGAN TO PROVIDE CANCER SERVICES AT BRIDGEPORT HOSPITAL'S TRUMBULL AND FAIRFIELD LOCATIONS IN SEPTEMBER.

- PEDIATRIC AND HEART AND VASCULAR SERVICES WERE EXPANDED AT GREENWICH HOSPITAL.

- YNHHS EXTENDED MATERNAL FETAL MEDICINE, HEART AND VASCULAR SERVICES AND NEUROSURGICAL SERVICES TO LAWRENCE & MEMORIAL HOSPITAL.

- YALE-NEW HAVEN CHILDREN'S HOSPITAL ESTABLISHED A RELATIONSHIP WITH STAMFORD HOSPITAL TO PROVIDE PEDIATRIC EMERGENCY DEPARTMENT SERVICES.

- COLLABORATING WITH EASTERN CONNECTICUT HEALTH NETWORK, YNHHS EXPANDED HEART AND VASCULAR AND SLEEP MEDICINE SERVICES.

THE SERVICE EXCELLENCE COUNCIL CONTINUED TO IDENTIFY STRATEGIES AND IMPLEMENT MEASURES THAT IMPROVE THE PATIENT EXPERIENCE. THE HOSPITAL CONSUMER ASSESSMENT OF HEALTHCARE PROVIDERS AND SYSTEMS (HCAHPS) SURVEY, DEVELOPED BY THE CENTERS FOR MEDICARE AND MEDICAID SERVICES, WAS ONE OF MANY MEASURES OF THE PATIENT EXPERIENCE. IN MARCH, HCAHPS REPORTED THAT GREENWICH HOSPITAL HAD THE HIGHEST RANKING FOR BOTH "OVERALL RATING" AND "WILLINGNESS TO RECOMMEND" IN THE STATE OF CONNECTICUT AS WELL AS THE NEARBY NEW YORK COUNTIES. THE ANNUAL YNHHS SERVICE EXCELLENCE CONFERENCE DREW MORE THAN 950 ATTENDEES AND 96 PRESENTATIONS ON PROJECTS THAT STAFF DEVELOPED TO IMPROVE THE OVERALL PATIENT EXPERIENCE.

A REFRESHED DIVERSITY AND INCLUSION PROGRAM WAS IMPLEMENTED TO HELP EMPLOYEES BETTER UNDERSTAND AND WORK WITH DIVERSE PATIENT AND STAFF POPULATIONS. FOR THE SECOND CONSECUTIVE YEAR, YNHHS HOSPITALS WERE NAMED "LEADERS IN LGBT HEALTHCARE EQUALITY" BY THE NATIONAL HUMAN RIGHTS CAMPAIGN FOUNDATION FOR COMMITMENT TO EQUITABLE, INCLUSIVE CARE

FOR LESBIAN, GAY, BISEXUAL AND TRANSGENDER PATIENTS AND FAMILIES.

YNHHS FORMED A SYSTEM-WIDE PRICING ALIGNMENT COMMITTEE AND A NEW PATIENT AND FAMILY ADVISORY COMMITTEE TO ADDRESS THE PRICING OF OUR HEALTHCARE SERVICES, TAKING A PROACTIVE STANCE ON PRICING TRANSPARENCY, AND ADVISING LEADERS ON BILLING APPROACHES AND THE SIMPLIFICATION OF PATIENT BILLS. THE PATIENT AND FAMILY ADVISORY COMMITTEE HAS GUIDED THE HEALTH SYSTEM TOWARD SIMPLER, MORE UNDERSTANDABLE PATIENT STATEMENTS AND MORE EFFECTIVE COMMUNICATIONS TO PATIENTS REGARDING THE PRICES OF SERVICES. COST ESTIMATES FOR PATIENTS PRIOR TO SERVICE WERE IMPLEMENTED SYSTEM-WIDE IN 2014. VIRTUALLY ALL HEALTH BENEFIT PLANS NOW CONSIST OF SUBSTANTIAL DEDUCTIBLES AND COPAYMENTS; YNHHS RECOGNIZES THE IMPORTANCE TO CONSUMERS OF UNDERSTANDING THEIR FINANCIAL OBLIGATIONS AND RESOURCES AVAILABLE TO THEM TO HELP PAY FOR MEDICALLY NECESSARY CARE AND, TO THAT END, IS WORKING TO PROVIDE GREATER TRANSPARENCY OF PRICING, AND AWARENESS AROUND FINANCIAL ASSISTANCE PROGRAMS AVAILABLE TO HELP CONSUMERS PAY THEIR MEDICAL BILLS, IF NEEDED.

YNHHS CONTINUES TO BUILD ITS CAPABILITIES TO MANAGE POPULATION-BASED HEALTH CARE, INCLUDING WAYS TO ADDRESS THE INTERRELATED FACTORS THAT IMPACT THE HEALTH OF SPECIFIC POPULATIONS OF PATIENTS. THE GOAL OF BUILDING A SCALABLE INFRASTRUCTURE AND IMPLEMENTING TARGETED PROGRAMS TO BETTER COORDINATE THE PREVENTIVE, WELLNESS AND MEDICAL CARE OF PATIENTS ACROSS THE HEALTHCARE CONTINUUM WAS EVIDENCED IN MANY WAYS.

IN 2014, NORTHEAST MEDICAL GROUP ACHIEVED LEVEL III (THE HIGHEST LEVEL) PATIENT CENTERED MEDICAL HOME (PCMH) RECOGNITION FROM THE NATIONAL

COMMITTEE ON QUALITY ASSURANCE (NCQA) IN 12 PRIMARY CARE PRACTICES, UTILIZING A CARE MANAGEMENT MODEL THAT USES EMBEDDED AND CENTRALIZED CARE COORDINATORS AND PATIENT NAVIGATORS TO MANAGE THE CARE OF PATIENTS. THESE MODELS OF CARE FOCUS ON IMPROVING ACCESS AND COORDINATING PATIENT CARE ACROSS THE HEALTHCARE CONTINUUM THROUGH THE PRIMARY CARE PROVIDER'S OFFICE. THIS HELPS ENSURE THAT PATIENTS RECEIVE THE CARE THEY NEED, WHEN THEY NEED IT, THEREBY IMPROVING BOTH THE PHYSICIAN'S AND PATIENT'S EXPERIENCE WHILE LOWERING COSTS. ACROSS YNHHS, PATIENT REGISTRIES WERE ESTABLISHED FOR DIABETES, CARDIOVASCULAR DISEASE AND GERIATRICS WHICH IMPROVED OUR AFFILIATED PROVIDERS' ABILITY TO IDENTIFY PATIENTS IN NEED OF SUPPORT.

YNHHS CONTINUED TO ENHANCE CARE MANAGEMENT WITH ITS EMPLOYEES RESULTING IN A SIGNIFICANT IMPROVEMENT IN HEALTHCARE UTILIZATION PATTERNS AND REDUCING THE PER MEMBER PER MONTH INDEX OF TARGETED PATIENTS WHILE MAINTAINING A GREATER THAN 97 PERCENT PARTICIPANT SATISFACTION RATING. IN 2014 THE PROGRAM GREW TO NEARLY 500 PARTICIPANTS AND INCLUDED A LOWER ACUITY HEALTH COACHING PROGRAM AT ALL YNHHS CAMPUSES.

YNHHS ALSO LAID THE GROUNDWORK FOR A CLINICALLY INTEGRATED NETWORK OF PHYSICIANS, HOSPITALS AND OTHER HEALTHCARE PROVIDERS TO PROVIDE PATIENTS WITH SAFE, HIGH-QUALITY, COORDINATED AND COST-EFFECTIVE HEALTHCARE SERVICES. CALLED TOTAL HEALTH, THIS COLLABORATIVE NETWORK DELIVERS HEALTH CARE THAT IS PATIENT-FOCUSED, PHYSICIAN-LED AND COMMITTED TO OUR COMMUNITIES. IT IS ANTICIPATED, THAT TOTAL HEALTH WILL GROW THE INFRASTRUCTURE, RESOURCES, POLICIES, PROCESSES AND ORGANIZATIONAL STRUCTURE NEEDED TO SUPPORT A NETWORK OF PHYSICIANS AND PRACTICES WORKING WITH EACH OTHER AND WITH YNHHS TO DELIVER

EVIDENCE-BASED CARE TO IMPROVE THE QUALITY, EFFICIENCY AND COORDINATION OF HEALTH CARE SERVICES. THE CONIFER VALUE-BASED CARE SUITE OF TECHNOLOGIES WILL ASSIST CLINICAL INTEGRATION WITH A FOCUS ON PHYSICIAN DASHBOARDS FOR METRIC REPORTING FROM THE POPULATION LEVEL DOWN TO THE PATIENT LEVEL. TOTAL HEALTH IS ONE OF SEVERAL WAYS YNHHS IS CHANGING TO MEET THE CHALLENGES AND DEMANDS OF THE 2010 PATIENT PROTECTION AND AFFORDABLE CARE ACT IN INCREASING QUALITY, AFFORDABILITY AND ACCESS TO HEALTH CARE.

EACH YEAR YNHHS DELIVERY NETWORKS PROVIDE OVER $565.3 MILLION (AT COST) IN COMMUNITY BENEFIT AND COMMUNITY-BUILDING ACTIVITIES. AS PART OF THE SYSTEM-WIDE COMMITMENT TO SERVE AS STRONG COMMUNITY PARTNERS, EACH YNHHS DELIVERY NETWORK PROVIDED NUMEROUS HEALTH SCREENINGS, COMMUNITY EDUCATION SESSIONS, COMMUNITY-BUILDING EVENTS, COMMUNITY LEADERSHIP ACTIVITIES AND GRANTS AND ASSISTANCE TO IMPROVE AND ENHANCE THE HEALTH OF ITS LOCAL COMMUNITY. IN ADDITION, THE AREA OF COMMUNITY BENEFITS ALSO INCLUDES COSTS ASSOCIATED WITH HEALTH PROFESSIONS EDUCATION, UNCOMPENSATED AND UNDER-COMPENSATED CARE. BASED ON THE RESULTS OF LAST YEAR'S COMMUNITY HEALTH NEEDS ASSESSMENTS, EACH YNHHS HOSPITAL IMPLEMENTED COMMUNITY HEALTH IMPROVEMENT PLANS WITH PARTNERS IN THEIR LOCAL COMMUNITIES THAT ADDRESSED THEIR TOP THREE PUBLIC HEALTH ISSUES.

BUILDING ON THE SUCCESS OF LAST YEAR'S "KNOW YOUR NUMBERS" EMPLOYEE WELLNESS PROGRAM, YNHHS OFFERED "KNOW YOUR NUMBERS PLUS" TO FURTHER SUPPORT EMPLOYEE WELLNESS. EMPLOYEES WHO COMPLETED A HEALTH SCREENING AND DOCUMENTATION OF HEALTHY BEHAVIOR RECEIVED A $500 CREDIT TOWARD THE COST OF THEIR ANNUAL MEDICAL PREMIUM. MORE THAN 10,000 SYSTEM EMPLOYEES PARTICIPATED IN HEALTH SCREENINGS.

THE LIVINGWELLCARES ON SITE CARE COORDINATION PROGRAM, WHICH PROVIDES FREE, CONFIDENTIAL HEALTHCARE COORDINATION SERVICES TO EMPLOYEES, INCREASED ENROLLMENT. THE PROGRAM EXPANDED THIS YEAR FROM A FOCUS ON DIABETES TO CORONARY ARTERY DISEASE, CONGESTIVE HEART FAILURE, ASTHMA, COPD, HYPERTENSION, HYPERLIPIDEMIA AND CERTAIN MUSCULOSKELETAL CONDITIONS. PARTICIPANTS DEMONSTRATED DECREASED BLOOD PRESSURE, CHOLESTEROL AND HEMOGLOBIN LEVELS OVER THE PAST YEAR, AND RANKED THEIR SATISFACTION WITH THE PROGRAM AT 97 PERCENT.

THE E-LEARNING DEPARTMENT PROVIDED 381,000 HOURS OF ONLINE EDUCATION TO MORE THAN 20,000 EMPLOYEES. AMONG OTHER THINGS THE CENTER PROVIDED HIGH-IMPACT TRAINING THAT INCLUDED EBOLA PREPAREDNESS TRAINING FOR PERSONAL PROTECTIVE EQUIPMENT.

TO FACILITATE ITS STRATEGIES DESIGNED TO PREPARE YNHHS TO CONTINUE TO DELIVER COMPREHENSIVE, INTEGRATED, QUALITY HEALTH CARE IN A CONSUMER FRIENDLY AND ACCESSIBLE MANNER IN A CHANGING AND CHALLENGING ENVIRONMENT, YNHHS FORMED AN "OBLIGATED GROUP" TO ENHANCE THE SYSTEM'S ACCESS TO AND COORDINATED DEPLOYMENT OF CAPITAL.

PART I, LINE 3C:

THE FINANCIAL ASSISTANCE POLICY PROVIDES THAT THE PATIENT MUST SUBMIT A FINANCIAL ASSISTANCE APPLICATION. THE FINANCIAL ASSISTANCE POLICY PROVIDES FOR ELIGIBILITY OF CARE REGARDLESS OF INCOME.

PART I, LINE 7:

THE HOSPITAL USES A COST ACCOUNTING SYSTEM, TSI, TO CALCULATE THE AMOUNTS PRESENTED IN PART I, LINE 7. THE COST ACCOUNTING SYSTEM ADDRESSES ALL PATIENT SEGMENTS.

PART III, LINE 2:

IN ACCORDANCE WITH THE ESTABLISHED POLICIES OF THE HOSPITAL, DURING THE REGISTRATION, BILLING AND COLLECTION PROCESS A PATIENT'S ELIGIBILITY FOR FREE CARE FUNDS IS DETERMINED. FOR PATIENTS WHO WERE DETERMINED BY THE HOSPITAL TO HAVE THE ABILITY TO PAY BUT DID NOT, THE UNCOLLECTED AMOUNTS ARE BAD DEBT EXPENSE. THE HOSPITAL'S COST ACCOUNTING SYSTEM UTILIZES PATIENT-SPECIFIC DATA TO ACCUMULATE AND DERIVE COSTS RELATED TO THESE BAD DEBT ACCOUNTS.

PART II, COMMUNITY BUILDING ACTIVITIES:

YALE-NEW HAVEN HOSPITAL IS ONE OF THE LARGEST EMPLOYERS IN THE REGION AND THE SECOND LARGEST IN THE CITY OF NEW HAVEN WITH 12,152 EMPLOYEES IN 2014. THE HOSPITAL PROVIDES IN-KIND AND FINANCIAL SUPPORT FOR SEVERAL ECONOMIC INITIATIVES THROUGHOUT THE CITY OF NEW HAVEN. MEMBERS OF THE HOSPITAL'S LEADERSHIP AND MANAGEMENT STAFF ALSO SUPPORT ECONOMIC DEVELOPMENT BY SERVING ON THE BOARDS OF THE GREATER NEW HAVEN CHAMBER OF COMMERCE, GUILFORD CHAMBER OF COMMERCE, ECONOMIC DEVELOPMENT CORPORATION OF NEW HAVEN, REGIONAL GROWTH PARTNERSHIP, REGIONAL LEADERSHIP COUNCIL, ARTS COUNCIL OF GREATER NEW HAVEN, INTERNATIONAL FESTIVAL OF ARTS AND IDEAS, MARKET NEW HAVEN, TWEED NEW HAVEN, AND THE TENNIS FOUNDATION OF CONNECTICUT. THROUGH THESE ORGANIZATIONS, YALE-NEW HAVEN HOSPITAL ADVOCATES FOR AND FACILITATES INCREASED ECONOMIC DEVELOPMENT FOR THE AREA.

YALE-NEW HAVEN HOSPITAL, ALONG WITH MANY OTHER HOSPITALS ACROSS THE COUNTRY, UTILIZES THE COMMUNITY BENEFITS INVENTORY FOR SOCIAL ACCOUNTABILITY (CBISA) DATABASE DEVELOPED BY LYON SOFTWARE TO CATALOG ITS COMMUNITY BENEFIT AND COMMUNITY BUILDING ACTIVITIES AND THE GUIDELINES DEVELOPED BY THE CATHOLIC HOSPITAL ASSOCIATION (CHA) IN ORDER TO CATALOG THESE BENEFITS. THESE TWO ORGANIZATIONS HAVE WORKED TOGETHER FOR OVER 20 YEARS TO PROVIDE SUPPORT TO NOT-FOR-PROFIT HOSPITALS TO DEVELOP AND SUSTAIN EFFECTIVE COMMUNITY BENEFIT PROGRAMS. THE MOST RECENT VERSION OF THE CHA GUIDE FOR PLANNING AND REPORTING COMMUNITY BENEFIT DEFINES COMMUNITY BUILDING ACTIVITIES AS PROGRAMS THAT ADDRESS THE ROOT CAUSES OF HEALTH PROBLEMS, SUCH AS POVERTY, HOMELESSNESS AND ENVIRONMENTAL PROBLEMS. THESE ACTIVITIES ARE CATEGORIZED INTO EIGHT DISTINCT AREAS INCLUDING PHYSICAL IMPROVEMENT

AND HOUSING, ECONOMIC DEVELOPMENT, COMMUNITY SUPPORT, ENVIRONMENTAL IMPROVEMENTS, LEADERSHIP DEVELOPMENT AND TRAINING FOR COMMUNITY MEMBERS, COALITION BUILDING, ADVOCACY FOR COMMUNITY HEALTH IMPROVEMENTS, AND WORKFORCE DEVELOPMENT. YALE NEW HAVEN HEALTH ENHANCES THE LIVES OF THOSE WE SERVE BY PROVIDING ACCESS TO INTEGRATED, HIGH-VALUE, PATIENT-CENTERED CARE IN COLLABORATION WITH OTHERS WHO SHARE OUR VALUES. AS SUCH, YALE-NEW HAVEN HOSPITAL IS INCREASINGLY AWARE OF HOW SOCIAL DETERMINANTS IMPACT THE HEALTH OF INDIVIDUALS AND COMMUNITIES. A PERSON'S HEALTH AND CHANCES OF BECOMING SICK AND DYING EARLY ARE GREATLY INFLUENCED BY POWERFUL SOCIAL FACTORS SUCH AS EDUCATION, INCOME, NUTRITION, HOUSING AND NEIGHBORHOODS. DURING FISCAL YEAR 2014, YALE-NEW HAVEN HOSPITAL PROVIDED $3.5 MILLION IN FINANCIAL AND IN-KIND DONATIONS TO SUPPORT AFFORDABLE HOUSING PROGRAMS, JOB TRAINING, ECONOMIC DEVELOPMENT AND OTHER ESSENTIAL SERVICES. THE HOSPITAL CONSIDERS THESE INVESTMENTS PART OF ITS OVERALL COMMITMENT OF BUILDING STRONGER NEIGHBORHOODS. EXAMPLES BELOW FOCUS ON THE AREAS OF REVITALIZING OUR NEIGHBORHOODS, CREATING EDUCATIONAL OPPORTUNITIES, AND WORKFORCE DEVELOPMENT INITIATIVES.

REVITALIZING OUR NEIGHBORHOODS-

OVER THE PAST SEVERAL YEARS, YALE-NEW HAVEN HOSPITAL HAS MADE SIGNIFICANT INVESTMENTS TOWARDS THE REVITALIZATION OF THE CITY OF NEW HAVEN, ADDRESSING THE AREAS OF ADEQUATE, AFFORDABLE AND SAFE HOUSING. ACCORDING TO THE LATEST CENSUS DATA, 27% OF HOMES IN NEW HAVEN WERE OWNER-OCCUPIED COMPARED TO 63 PERCENT IN THE STATE OF CONNECTICUT. AS A RESULT, THE NEW HAVEN POPULATION IS INCREASINGLY MOBILE. TO REVERSE THIS TREND, YALE-NEW HAVEN HOSPITAL HAS FOCUSED ON INCREASING PERMANENT HOME OWNERSHIP THROUGH THE FOLLOWING TWO INITIATIVES.

Part VI Supplemental Information (Continuation)

IN 2006, YALE-NEW HAVEN HOSPITAL AND ITS MEDICAL STAFF BEGAN A MULTI-YEAR PARTNERSHIP WITH HABITAT FOR HUMANITY OF GREATER NEW HAVEN TO BUILD HOMES IN NEW HAVEN'S HILL NEIGHBORHOOD FOR LOW-INCOME FAMILIES. TO DATE, THIS COLLABORATION HAS JOINTLY BUILT SIX HOMES WITH THE MOST RECENT BUILD COMPLETED IN 2013. OVER 300 EMPLOYEE VOLUNTEERS HAVE COLLECTIVELY INVESTED MORE THAN 4,000 HOURS IN THIS PROJECT, WHILE YALE-NEW HAVEN HOSPITAL SPONSORED THE BUILDING MATERIALS FOR EACH HOME.

THE HOME OWNERSHIP MADE EASIER (H.O.M.E.) PROGRAM AT YALE-NEW HAVEN HOSPITAL PROVIDES HOSPITAL EMPLOYEES WITH UP TO $10,000 IN FORGIVABLE LOANS TO HELP PURCHASE THEIR FIRST HOME IN THE CITY OF NEW HAVEN. THIS YEAR, THE PROGRAM HELPED 16 EMPLOYEES AND THEIR FAMILIES. SINCE THE PROGRAM'S INCEPTION IN 2006, A TOTAL OF 119 HOMES HAVE BEEN PURCHASED BY YALE-NEW HAVEN HOSPITAL EMPLOYEES. TO DATE $902,500 IN FINANCIAL ASSISTANCE HAS BEEN PROVIDED TO EMPLOYEES IN THE FORM OF DOWN PAYMENTS AND MORTGAGE PAYMENTS. AMONG THE HOMES PURCHASED THROUGH THE H.O.M.E. PROGRAM WAS ONE HABITAT FOR HUMANITY PROPERTY.

RESULTS FROM THE FALL 2012 COMMUNITY ALLIANCE FOR RESEARCH AND ENGAGEMENT AT YALE SCHOOL OF PUBLIC HEALTH SURVEY OF NEW HAVEN'S LOW-INCOME NEIGHBORHOODS, INCLUDING THE HILL NORTH NEIGHBORHOOD WHERE THE HOSPITAL IS LOCATED, PROVIDE EVIDENCE THAT ACCESS TO HEALTHY AFFORDABLE FOOD IS A MAJOR PUBLIC HEALTH CONCERN. FOR EXAMPLE, ABOUT 40% OF RESPONDENTS SAID THEY WERE NOT ALWAYS ABLE TO AFFORD TO BUY VEGETABLES, FRUIT, HEALTHY OILS OR WHOLE GRAINS. OVER THE PAST FOUR YEARS, YALE-NEW HAVEN HOSPITAL HAS BEEN A PROUD SPONSOR, ALONG WITH THE CONNECTICUT MENTAL HEALTH CENTER, OF THE CITY SEED, INC. FARMER'S MARKET IN THE HILL NEIGHBORHOOD. THE FARMER'S MARKET IS HELD IN THE CONNECTICUT MENTAL HEALTH CENTER PARKING LOT ADJACENT TO THE YALE-NEW

LUKE'S EPISCOPAL CHURCH IN NEW HAVEN AS WELL AS ST. ANN'S SOUP KITCHEN IN HAMDEN.

THE 2013-2014 HOSPITAL-SPONSORED, EMPLOYEE UNITED WAY CAMPAIGN RAISED OVER $148,450 TO SUPPORT THE NONPROFITS SERVED BY THE GREATER NEW HAVEN UNITED WAY. THROUGH THE HOSPITAL'S ANNUAL SCHOOL READINESS DRIVE, WHICH IS PART OF THE CAMPAIGN, EMPLOYEES DONATED APPROXIMATELY 14,000 SCHOOL SUPPLIES TO STUDENTS AT TWO NEW HAVEN ELEMENTARY SCHOOLS IN NEW HAVEN'S HILL COMMUNITY. REPRESENTATIVES FROM THE HOSPITAL REGULARLY SERVE ON FOUR OF THE CITY OF NEW HAVEN POLICE DEPARTMENT COMMUNITY SUBSTATION MANAGEMENT TEAMS WHILE ATTENDING OTHER MEETINGS ON AN AD HOC BASIS. THE DECENTRALIZATION OF POLICE SERVICES AND THE ESTABLISHMENT OF SUBSTATION MANAGEMENT TEAMS IN EACH OF NEW HAVEN'S 10 COMMUNITY POLICING DISTRICTS HAS BEEN ONE OF THE MOST IMPORTANT COMMUNITY POLICING INITIATIVES IN NEW HAVEN. COMMUNITY SUBSTATION MANAGEMENT TEAMS HELP IDENTIFY AND DEVELOP STRATEGIES TO RESOLVE NEIGHBORHOOD PROBLEMS UTILIZING LOCAL RESOURCES. THE MANAGEMENT TEAMS ARE COMPRISED OF THE POLICE SUPERVISOR, BEAT OFFICERS, BLOCK WATCH MEMBERS, ALDERPERSONS, REPRESENTATIVES OF

NEIGHBORHOOD BASED AGENCIES, SUCH AS THE HOSPITAL, AND ANY CITIZEN WHO TAKES AN ACTIVE INTEREST IN NEIGHBORHOOD IMPROVEMENT.

CREATING EDUCATIONAL OPPORTUNITIES-

HIGHER EDUCATIONAL ATTAINMENT IS ASSOCIATED WITH BETTER HEALTH STATUS AND LONGER LIFE. FOR EXAMPLE, ADULTS AGED 25-50 YEARS WHO HAVE A COLLEGE DEGREE WILL ON AVERAGE LIVE FIVE YEARS LONGER THAN THOSE WITH LESS THAN A HIGH SCHOOL EDUCATION. ACCORDING TO RECENT CENSUS STATISTICS, ONLY 80.5% OF INDIVIDUALS IN THE CITY OF NEW HAVEN HAD ATTAINED THE EQUIVALENT OF A HIGH SCHOOL EDUCATION OR GREATER COMPARED TO NEARLY 90% STATEWIDE. ADDITIONALLY, NEW HAVEN YOUTH HAVE LOWER HIGH SCHOOL COMPLETION RATES AND SCORE WELL BELOW THEIR STATE-WIDE PEERS ON THE CONNECTICUT MASTERY TEST. IN RESPONSE TO THESE STATISTICS, YALE-NEW HAVEN HOSPITAL SUPPORTED A VARIETY OF EDUCATIONAL PROGRAMS IN 2014.

IN 2011, REFLECTING ITS STRONG COMMITMENT TO THE NEW HAVEN COMMUNITY AND SUPPORT OF EDUCATION, YALE-NEW HAVEN HOSPITAL COMMITTED TO A MULTI-YEAR CONTRIBUTION TOTALING $2.0 MILLION OVER FOUR YEARS TO SUPPORT NEW HAVEN PROMISE. NEW HAVEN PROMISE IS A COLLEGE SCHOLARSHIP AND SUPPORT PROGRAM FOR THE CITY'S PUBLIC SCHOOL STUDENTS. YALE-NEW HAVEN'S CONTRIBUTION FUNDS THE INITIATIVE'S PARTNERSHIP COMPONENT. ITS GOAL IS TO MAKE HIGHER EDUCATION AN EXPECTATION AND REALITY FOR MORE NEW HAVEN STUDENTS. THE PROGRAM IS ADMINISTERED BY THE COMMUNITY FOUNDATION OF GREATER NEW HAVEN. THOUGH THE IMPACT OF THE NEW HAVEN PROMISE PROGRAM WILL NOT BE MEASURABLE FOR SEVERAL YEARS, NEW HAVEN PROMISE HAS OVER 220 STUDENTS ENROLLED IN 17 CONNECTICUT COLLEGES AND UNIVERSITIES. FOR A SIXTH YEAR, YALE-NEW HAVEN PROVIDED SCHOLARSHIP OPPORTUNITIES FOR STUDENTS ATTENDING ACHIEVEMENT FIRST'S NEW HAVEN SCHOOLS. ACHIEVEMENT FIRST OPERATES A NETWORK OF 17 PUBLIC CHARTER SCHOOLS IN NEW HAVEN, BRIDGEPORT AND

Part VI Supplemental Information (Continuation)

HARTFORD, CT, AND BROOKLYN, NY. APPROXIMATELY 1,400 STUDENTS ATTEND THE ACHIEVEMENT FIRST NEW HAVEN SCHOOLS. THE 12-YEAR HISTORY OF ACHIEVEMENT FIRST PROVES THAT THE ACHIEVEMENT GAP CAN BE CLOSED.

OVER THE PAST SEVERAL YEARS, THE HOSPITAL HAS PROVIDED IN-KIND STAFF SUPPORT FOR THE CITY OF NEW HAVEN'S YOUTH @ WORK PROGRAM. YOUTH @ WORK IS A PUBLIC-PRIVATE PARTNERSHIP OF THE CITY OF NEW HAVEN, THE NEW HAVEN BOARD OF EDUCATION AND WORKFORCE ALLIANCE. THE PROGRAM PROVIDES SUMMER AND YEAR-ROUND OPPORTUNITIES, WORK PLACE EXPOSURE AND WORK READINESS ACTIVITIES TO YOUTH WHO MAY BE CHALLENGED BY SOCIO-ECONOMIC OR ACADEMIC BARRIERS TO WORKPLACE SUCCESS. THE PROGRAM TARGETS IN-SCHOOL YOUTH, AGES 14-21, WHO ARE NEW HAVEN RESIDENTS OR ATTEND NEW HAVEN PUBLIC SCHOOLS. EARLY WORK EXPERIENCES SERVE AS THE FOUNDATION FOR FUTURE SUCCESS IN THE WORKPLACE AND HAVE PROVEN EFFECTIVE IN HELPING YOUTH ESTABLISH CONNECTIONS WITH EMPLOYERS, ENCOURAGE RESPONSIBILITY, FOSTER INDEPENDENCE, DEVELOP TECHNICAL SKILLS, DEVELOP COMMUNICATION AND INTERPERSONAL SKILLS, CLARIFY WORK VALUES AND FUTURE WORK PREFERENCES AND ALLOW FOR INTERACTION WITH CARING ADULTS. IN 2014, FOUR STUDENTS PARTICIPATING IN THE YOUTH @ WORK PROGRAM WERE PLACED AT YALE-NEW HAVEN.

THE YALE-NEW HAVEN HOSPITAL SCHOOL-TO-CAREER PROGRAM IS A MULTIFACETED INTERNSHIP AND MENTORING PROGRAM FOR NEW HAVEN PUBLIC HIGH SCHOOL STUDENTS. COMPONENTS INCLUDE AN INTERNSHIP PROGRAM (CLINICAL CAREER PATHWAYS, BUSINESS AND NON-CLINICAL TECHNICAL AND GENERAL), DEVELOPING TOMORROW'S PROFESSIONALS PROGRAM, YALE-NEW HAVEN HOSPITAL AND ACES YOUTH EMPLOYABILITY PROGRAM. OVER 30 STUDENTS PARTICIPATED IN THE SCHOOL-TO-CAREER PROGRAM IN 2014. IN ADDITION TO THE SCHOOL-TO CAREER PROGRAM, THE HOSPITAL REGULARLY HOSTS SEVERAL SCHOOL TOURS OF THE LABORATORY, DIETARY, PHARMACY, AND OTHER AREAS PROVIDING INSIGHT INTO

VARIOUS HEALTH CARE CAREER OPPORTUNITIES FOR STUDENTS.
THE HOSPITAL HAS PARTNERSHIPS WITH THREE LOCAL SCHOOLS. THE HILL REGIONAL CAREER HIGH SCHOOL PARTNERSHIP PROVIDES STUDENTS THE OPPORTUNITY TO EXPLORE MEDICAL AND OTHER HOSPITAL CAREERS, AS WELL AS OBTAIN A CERTIFICATION AS A NURSE ASSISTANT. THE JOHN C. DANIELS SCHOOL PARTNERSHIP INCLUDES AN ANNUAL "MOCK TRIAL" THROUGH THE HOSPITAL'S LEGAL & RISK MANAGEMENT DEPARTMENT, WHICH PROVIDES STUDENTS AN OPPORTUNITY TO PARTICIPATE IN AN ACTUAL TRIAL AT THE FEDERAL COURTHOUSE COMPLETE WITH A SUPERIOR COURT JUDGE. THE WASHINGTON ELEMENTARY SCHOOL PARTNERSHIP PROVIDES STUDENTS WITH ACADEMIC EXPERIENCES THAT DEMONSTRATE THE RELEVANCE OF CLASSROOM CURRICULUM TO SKILLS NEEDED IN THE WORKPLACE AND EXPOSES THEM TO CAREERS IN HEALTH CARE.
IN FISCAL YEAR 2014, YALE-NEW HAVEN HONORED THE LEGACY OF REVEREND MARTIN LUTHER KING, JR. THROUGH AWARDS AND SCHOLARSHIPS TO ENCOURAGE THE NEXT GENERATION OF COMMUNITY LEADERS. THIS INCLUDED A $1,000 COMMUNITY SERVICE AWARD TO THREE HIGH SCHOOL STUDENTS IN NEW HAVEN WHO SET AN EXAMPLE IN THE COMMUNITY AND GRANTS TOTALING $3,000 TO NEW HAVEN K - 8 SCHOOLS IN SUPPORT OF MARTIN LUTHER KING, JR. DAY ACTIVITIES THAT CARRY ON THE FALLEN CIVIL RIGHTS LEADER'S WORK AND PHILOSOPHY.
STUDENT NUTRITION IS ANOTHER AREA OF FOCUS FOR YALE-NEW HAVEN HOSPITAL, SINCE MISSING OR SKIPPING MEALS UNDERMINES CHILDREN'S ACADEMIC PERFORMANCE. IN 2014, YALE-NEW HAVEN PROVIDED A GRANT TO SUPPORT THE FOOD AND NUTRITION PROGRAM AT ST. MARTIN DE PORRES ACADEMY. AS PART OF ITS PARTNERSHIP WITH THE WASHINGTON ELEMENTARY SCHOOL, THE HOSPITAL PROVIDED IN-KIND RESOURCES TO SUPPORT EDUCATION INITIATIVES RELATED TO FOOD AND NUTRITION. ADDITIONALLY, THE HOSPITAL'S OUTPATIENT NUTRITION COORDINATOR CONTINUED TO SERVE IN AN ADVISORY AND EDITORIAL CAPACITY FOR A STATE-WIDE HEALTHY BEATS NEWSLETTER FOR MIDDLE AND HIGH SCHOOL

STUDENTS. YALE-NEW HAVEN ALSO PROVIDES SUPPORT TO OTHER ORGANIZATIONS ADDRESSING THE ISSUE OF FOOD INSECURITY.

IN ADDITION TO SUPPORTING YOUTH THROUGH ITS PARTNERS IN EDUCATION PROGRAMS AND COMMUNITY INVESTMENT PROGRAMS, THE HOSPITAL DONATES ANNUALLY TO LOCAL NON-PROFIT ORGANIZATIONS THAT SERVE YOUTH WITH EDUCATIONAL PROGRAMS, AFTER-SCHOOL AND ENRICHMENT ACTIVITIES, SKILL BUILDING AND PROVIDING A PLACE TO CALL HOME. IN FISCAL YEAR 2014, THESE ORGANIZATIONS INCLUDED ACES, BOYS & GIRLS CLUB OF NEW HAVEN, CONCEPTS FOR ADAPTIVE LEARNING, FAMILY CENTERED SERVICES OF CT, L.E.A.P., SOLAR YOUTH, AND MORE.

WORKFORCE DEVELOPMENT INITIATIVES-

LIKE MANY CITIES ACROSS THE COUNTRY, THE NEW HAVEN WORKFORCE HAS EXPERIENCED DIFFICULT TIMES DURING THE ECONOMIC DOWNTURN. ACCORDING TO RECENT CENSUS INFORMATION, THE UNEMPLOYMENT RATE IN THE CITY OF NEW HAVEN WAS 12.1% COMPARED TO 8.4% STATE-WIDE. AS WITH EDUCATIONAL ACHIEVEMENT, THERE IS STRONG EVIDENCE THAT HIGHER SOCIAL AND ECONOMIC STATUS AND SMALL GAPS IN INCOME EQUALITY ARE ASSOCIATED WITH BETTER HEALTH. AS THE SECOND LARGEST EMPLOYER IN NEW HAVEN, YALE-NEW HAVEN HOSPITAL PROVIDES IN-KIND AND FINANCIAL SUPPORT FOR EMPLOYMENT AND TRAINING PROGRAMS OFFERED BY AREA NOT-FOR-PROFIT ORGANIZATIONS SUCH AS THE ONES DESCRIBED BELOW.

IN 2011, YALE-NEW HAVEN COMMITTED TO A MULTI-YEAR DONATION TOTALING $500,000 OVER FOUR YEARS TO SUPPORT THE CONNECTICUT CENTER FOR ARTS AND TECHNOLOGY (CONNCAT), WHICH PROVIDES TRAINING FOR APPROXIMATELY 100 LOCAL UNEMPLOYED AND UNDEREMPLOYED ADULTS A YEAR FOR PHLEBOTOMY, MEDICAL CODING AND BILLING JOBS. THE HOSPITAL ALSO PROVIDES INTERNSHIPS FOR STUDENTS BEING TRAINED AT CONNCAT. IN ADDITION TO FINANCIAL

SUPPORT, STAFF MEMBERS FROM THE HOSPITAL SERVE ON THE CONNCAT BOARD OF DIRECTORS AND IN AN ADVISORY CAPACITY FOR THE DEVELOPMENT OF THE PROGRAM'S CURRICULUM. IN 2014, OVER 100 YOUTH IN GRADES 4-11 PARTICIPATED IN CONNCAT'S YEAR ROUND PROGRAM AND 46 ADULT LEARNERS WERE ENROLLED IN THEIR PHLEBOTOMY AND MEDICAL CODING JOB TRAINING PROGRAMS WITH 100% PLACEMENT AND COMPLETION OF OFFSITE EXTERNSHIPS PROVIDING HANDS ON EXPERIENCE. OVER 73% OF CONNCAT GRADUATES ARE NOW EMPLOYED. SINCE 1996, THE HOSPITAL'S AWARD-WINNING HOPE (HAVING AN OPPORTUNITY TO PREPARE FOR EMPLOYMENT) TRAINING AND SKILLS DEVELOPMENT PROGRAM HAS HELPED MORE THAN 100 ADULTS TRANSITION FROM INCOME SUPPORT SITUATIONS INTO EMPLOYMENT. INITIALLY TARGETED TO WOMEN, THE PROGRAM NOW INCLUDES MEN. PARTICIPANTS RECEIVE CLASSROOM TRAINING AND ONE-ON-ONE MENTORING ON TOPICS SUCH AS INTERVIEWING, RESUME PREPARATION, TIME MANAGEMENT AND CUSTOMER SERVICES, AND ARE TAUGHT ABOUT WORKPLACE DIVERSITY AND MEETING EMPLOYER EXPECTATIONS.

HOSPITAL LEADERSHIP SERVES ON THE ADVISORY COMMITTEE FOR THE NEW HAVEN REENTRY ROUNDTABLE EMPLOYMENT COMMITTEE, FELLOWSHIP PLACE, JOB CORPS AND THE NEWLY FORMED STATE-WIDE HEALTH AND LIFE SCIENCES ADVISORY BOARD AS WELL AS THE GOVERNING BOARDS OF CAREER RESOURCES, INC. AND THE WORKFORCE ALLIANCE.

PART III, LINE 4:

Y-NHH'S COMMITMENT TO COMMUNITY SERVICE IS EVIDENCED BY SERVICES PROVIDED TO THE INDIGENT AND BENEFITS PROVIDED TO THE BROADER COMMUNITY. SERVICES PROVIDED TO THE INDIGENT INCLUDE SERVICES PROVIDED TO PERSONS WHO CANNOT AFFORD HEALTH CARE BECAUSE OF INADEQUATE RESOURCES AND/OR WHO ARE UNINSURED OR UNDERINSURED.

Y-NHH MAKES AVAILABLE FREE CARE PROGRAMS FOR QUALIFYING PATIENTS. IN

ACCORDANCE WITH THE ESTABLISHED POLICIES OF Y-NHH, DURING THE REGISTRATION, BILLING AND COLLECTION PROCESS A PATIENT'S ELIGIBILITY FOR FREE CARE FUNDS IS DETERMINED. FOR PATIENTS WHO WERE DETERMINED BY Y-NHH TO HAVE THE ABILITY TO PAY BUT DID NOT, THE UNCOLLECTED AMOUNTS ARE BAD DEBT EXPENSE. FOR PATIENTS WHO DO NOT AVAIL THEMSELVES OF ANY FREE CARE PROGRAM AND WHOSE ABILITY TO PAY CANNOT BE DETERMINED BY Y-NHH, CARE GIVEN BUT NOT PAID FOR, IS CLASSIFIED AS CHARITY CARE. DURING THE YEAR ENDED SEPTEMBER 30, 2014, Y-NHH AMENDED ITS CHARITY CARE POLICY. BASED UPON THE POLICY CHANGE, Y-NHH EXPERIENCED INCREASED CHARITY CARE WRITE-OFFS DURING THE YEAR. TOGETHER, CHARITY CARE AND BAD DEBT EXPENSE REPRESENT UNCOMPENSATED CARE. THE ESTIMATED COST OF TOTAL UNCOMPENSATED CARE IS APPROXIMATELY $132.4 MILLION AND $115.0 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013, RESPECTIVELY. THE ESTIMATED COST OF UNCOMPENSATED CARE IS BASED ON THE RATIO OF COST TO CHARGES, AS DETERMINED BY CLAIMS ACTIVITY.

THE ESTIMATED COST OF CHARITY CARE PROVIDED WAS $85.3 MILLION AND $54.3 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013, RESPECTIVELY. THE ESTIMATED COST OF CHARITY CARE IS BASED ON THE RATIO OF COST TO CHARGES. THE ALLOCATION BETWEEN BAD DEBT AND CHARITY CARE IS DETERMINED BASED ON MANAGEMENT'S ANALYSIS ON THE PREVIOUS 12 MONTHS OF HOSPITAL DATA. THIS ANALYSIS CALCULATES THE ACTUAL PERCENTAGE OF ACCOUNTS WRITTEN OFF OR DESIGNATED AS BAD DEBT VERSUS CHARITY CARE WHILE TAKING INTO ACCOUNT THE TOTAL COSTS INCURRED BY THE HOSPITAL FOR EACH ACCOUNT ANALYZED.

FOR THE YEARS ENDED SEPTEMBER 30,2014 AND 2013, BAD DEBT EXPENSE, AT CHARGES, WAS $72.8 MILLION AND $82.2 MILLION, RESPECTIVELY. FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013, BAD DEBT EXPENSE, AT COST, WAS $47.1 MILLION AND $60.7 MILLION, RESPECTIVELY. THE BAD DEBT EXPENSE IS MULTIPLIED BY THE RATIO OF COST TO CHARGES FOR PURPOSES OF INCLUSION IN

Part VI Supplemental Information *(Continuation)*

THE TOTAL UNCOMPENSATED CARE AMOUNT IDENTIFIED ABOVE.

THE CONNECTICUT DISPROPORTIONATE SHARE HOSPITAL PROGRAM (CDSHP) WAS ESTABLISHED TO PROVIDE FUNDS TO HOSPITALS FOR THE PROVISION OF UNCOMPENSATED CARE AND IS FUNDED, IN PART, BY AN ASSESSMENT ON HOSPITAL NET PATIENT SERVICE REVENUE. DURING THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013, THE HOSPITAL RECEIVED $26.6 MILLION AND $58.0 MILLION, RESPECTIVELY, IN CDSHP DISTRIBUTIONS, OF WHICH APPROXIMATELY $17.1 MILLION AND $33.3 MILLION, RESPECTIVELY WAS RELATED TO CHARITY CARE. Y-NHH MADE PAYMENTS INTO THE CDSHP OF $73.5 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013, RESPECTIVELY, FOR THE ASSESSMENT. ADDITIONALLY, Y-NHH PROVIDES BENEFITS FOR THE BROADER COMMUNITY WHICH INCLUDES SERVICES PROVIDED TO OTHER NEEDY POPULATIONS THAT MAY NOT QUALIFY AS INDIGENT BUT NEED SPECIAL SERVICES AND SUPPORT. BENEFITS INCLUDE THE COST OF HEALTH PROMOTION AND EDUCATION OF THE GENERAL COMMUNITY, INTERNS AND RESIDENTS, HEALTH SCREENINGS, AND MEDICAL RESEARCH. THE BENEFITS ARE PROVIDED THROUGH THE COMMUNITY HEALTH CENTERS, SOME OF WHICH SERVICE NON-ENGLISH SPEAKING RESIDENTS, DISABLED CHILDREN, AND VARIOUS COMMUNITY SUPPORT GROUPS. Y-NHH VOLUNTARILY ASSISTS WITH THE DIRECT FUNDING OF SEVERAL CITY OF NEW HAVEN PROGRAMS, INCLUDING AN ECONOMIC DEVELOPMENT PROGRAM AND A YOUTH INITIATIVE PROGRAM.

IN ADDITION TO THE QUANTIFIABLE SERVICES DEFINED ABOVE, Y-NHH PROVIDES ADDITIONAL BENEFITS TO THE COMMUNITY THROUGH ITS ADVOCACY OF COMMUNITY SERVICE BY EMPLOYEES. Y-NHH'S EMPLOYEES SERVE NUMEROUS ORGANIZATIONS THROUGH BOARD REPRESENTATION, MEMBERSHIP IN ASSOCIATIONS AND OTHER RELATED ACTIVITIES. Y-NHH ALSO SOLICITS THE ASSISTANCE OF OTHER HEALTHCARE PROFESSIONALS TO PROVIDE THEIR SERVICES AT NO CHARGE THROUGH PARTICIPATION IN VARIOUS COMMUNITY SEMINARS AND TRAINING PROGRAMS.

Part VI Supplemental Information *(Continuation)*

PART III, LINE 8:

THE ENTIRE MEDICARE LOSS PRESENTED SHOULD BE TREATED AS A COMMUNITY BENEFIT FOR THE FOLLOWING REASONS: THE IRS COMMUNITY BENEFIT STANDARD INCLUDES THE PROVISION OF CARE TO MEDICARE BENEFICIARIES, IRS REVENUE RULING 69-545 INDICATES THAT HOSPITALS OPERATE FOR THE PROMOTION OF HEALTH IN THE COMMUNITY WHEN IT PROVIDES CARE TO PATIENTS WITH GOVERNMENTAL HEALTH BENEFITS, THE ORGANIZATION PROVIDES CARE TO MEDICARE PATIENTS REGARDLESS OF MEDICARE SHORTFALLS (REDUCING THE BURDEN ON THE GOVERNMENT), AND MANY OF THE MEDICARE PARTICIPANTS WOULD HAVE QUALIFIED FOR THE CHARITY CARE OR OTHER MEANS TESTED PROGRAMS ABSENT BEING ENROLLED IN THE MEDICARE PROGRAM. THE MEDICARE SHORTFALL REPORTED IS DETERMINED BY THE HOSPITAL'S COST ACCOUNTING SYSTEM, TSI.

PART III, LINE 9B:

IT IS THE HOSPITAL'S POLICY TO TREAT ALL PATIENTS EQUITABLY WITH RESPECT AND COMPASSION, FROM THE BEDSIDE TO THE BILLING OFFICE. THE HOSPITAL WILL PURSUE PATIENT ACCOUNTS, DIRECTLY AND THROUGH ITS COLLECTION AGENTS, FAIRLY AND CONSISTENTLY TAKING INTO CONSIDERATION DEMONSTRATED FINANCIAL NEED. AS PART OF ITS COLLECTION PROCESS, THE HOSPITAL WILL MAKE REASONABLE EFFORTS TO DETERMINE IF AN INDIVIDUAL IS ELIGIBLE FOR FINANCIAL ASSISTANCE UNDER ITS FINANCIAL ASSISTANCE POLICY. IN THE EVENT A PATIENT IS ELIGIBLE FOR FINANCIAL ASSISTANCE, THE HOSPITAL WILL NOT ENGAGE IN ANY EXTRAORDINARY COLLECTION ACTION AS DEFINED BY LAW AND HOSPITAL POLICY.

PART VI, LINE 2:

COMMUNITY NEEDS ARE ROUTINELY REVIEWED AND ADDRESSED AS PART OF THE OPERATIONS AND SERVICE LINE TEAMS AT YALE-NEW HAVEN HOSPITAL.

THESE MULTI-DISCIPLINARY GROUPS PROVIDE ANALYSIS AND INSIGHT INTO PATIENT UTILIZATION TRENDS ACROSS OUR DELIVERY OF CARE AND ARE REVIEWED IN TANDEM WITH CARE MANAGEMENT AND PATIENT SATISFACTION RESULTS AND OTHER COMMUNITY FEEDBACK. COUPLED WITH THE RECENTLY COMPLETED COMMUNITY NEEDS ASSESSMENT, THIS INFORMATION ASSISTS WITH THE DEVELOPMENT OF NEW INITIATIVES, PARTNERSHIPS, PROGRAMS AND SERVICES TO BENEFIT OUR COMMUNITY.

PART VI, LINE 3:

Report of Independent Auditors

The Board of Trustees
Yale-New Haven Hospital and Subsidiaries

We have audited the accompanying consolidated financial statements of Yale-New Haven Hospital and Subsidiaries, which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. Organization and Significant Accounting Policies

Organization

YNH Network Corporation and Subsidiaries (YNHNC) was a Connecticut not-for-profit, non-stock corporation established to promote and carry out charitable, scientific and educational activities. YNHNC was the sole member of Yale-New Haven Hospital, Inc. (the Hospital or Y-NHH), Yale-New Haven Care Continuum Corporation (YNHCCC), and the parent organization of Yale-New Haven Ambulatory Services Corporation and Subsidiaries (ASC) and York Enterprises, Inc. and Subsidiaries (York). YNHNC controlled, through contractual agreements, Quinnipiac Medical P.C. (QMPC) and Community Healthcare Physicians (CHCP). YNHNC had an affiliation agreement with Yale-New Haven Health Services Corporation (YNHHSC) in which YNHHSC was the sole member of YNHNC.

The Hospital is a voluntary association incorporated under the General Statutes of the State of Connecticut.

In fiscal year 2014, the Hospital and its parent company, YNHNC, were merged in connection with the formation of an Obligated Group and are now referred to as Yale-New Haven Hospital and Subsidiaries. As a result, the Hospital's financial statement reporting entity changed to include YNHCCC, ASC and York previously reported in the consolidated financial statements of YNHNC, retrospective to October 1, 2012. The change in reporting entity was retrospectively applied to the consolidated financial statements of the Hospital for all years presented. The Hospital controls, through contractual agreements, QMPC and CHCP.

YNHHSC is the sole member of two similar organizations, Bridgeport Hospital (BH) and Greenwich Health Care Services, Inc. (GHCS). Each of these three tax-exempt organizations serves as the sole member/parent for its respective delivery network of regional health care providers and related entities. YNHHSC is also the sole member of Northeast Medical Group, Inc. (NEMG).

Concurrent with the issuance of the Connecticut Health and Educational Facilities Authority (CHEFA) Revenue Bonds, Yale-New Haven Health Obligated Group Issue, Series A, B, C, D and E dated May 20, 2014, six members of the Yale New Haven Health System and Subsidiaries were combined to form an Obligated Group. The Obligated Group comprises YNHHSC, Y-NHH, Yale-New Haven Care Continuum Corporation, Bridgeport Hospital, the Bridgeport Hospital Foundation and NEMG (the Obligated Group). YNHHSC serves as agent of the Obligated Group. The members of the Obligated Group have adopted certain governance

provisions in their certificates of incorporation and by-laws pursuant to which YNHHSC retains the authority to directly take certain actions on behalf of each Obligated Group member without the approval of the Board of Trustees (the Board) of the applicable Obligated Group member, including the incurrence of indebtedness on behalf of each Obligated Group member, the management and control of the liquid assets of each, and the appointment of the president and chief executive officer of each Obligated Group member.

The Hospital is the parent of:

YNHCCC, a Connecticut non-stock corporation, is a wholly owned subsidiary of the Hospital. YNHCCC provides long-term care for those unable to live independently and short-term rehabilitation for patients who have experienced elective surgery, an injury, or a traumatic major illness. Its services include respite care for family members and caregivers, recovery for victims of strokes, orthopedic recovery services, medications and diagnostic services (such as radiological services).

ASC, a Connecticut non-stock, taxable corporation, is a wholly owned subsidiary of Y-NHH, and is 51% owner of Shoreline Surgery Center, LLC (SSC) and SSC II, LLC.

York, a Connecticut corporation formed for the purpose of initiating or acquiring business entities. Currently, York has two subsidiaries: Medical Center Pharmacy and Home Care, Inc. (MCP) and Medical Center Realty, Inc. (MCR). MCP is a Connecticut stock, for-profit company, which operated a retail pharmacy with multiple locations until February 2011. MCR is a Connecticut stock, for-profit company, which owns or holds leases on YNHHSC's affiliated commercial space. York is the sole shareholder of MCP and MCR.

QMPC and CHCP are Connecticut stock, for-profit, professional corporations formed in 1994 and 1996, respectively, to employ New Haven area primary care physicians. All of the stock of QMPC and CHCP is owned by the Chief of Staff of the Hospital, who has assigned his rights in QMPC and CHCP to the Hospital. QMPC and CHCP were dissolved effective September 27, 2013.

Caritas Insurance Company, Ltd. (Caritas) is a Vermont-domiciled, captive insurance company licensed under Chapter 141 of Title 8 of the Vermont Statutes Annotated. Caritas is a tax-exempt supporting organization having the Hospital as its sole shareholder. Caritas provides excess professional liability coverage and general liability coverage. Prior to the 2012 acquisition of the stock of Caritas by Y-NHH from the Hospital of Saint Raphael (HSR), Caritas was a wholly-owned subsidiary of HSR.

Lukan Indemnity Company, Ltd. (Lukan) is a Bermuda-domiciled captive insurance company that provides primary professional liability coverage. Prior to the 2012 acquisition of the stock of Lukan by Y-NHH from HSR, Lukan was a wholly owned subsidiary of HSR.

The Hospital and subsidiaries operate with a separate Board of Trustees, management staff and medical staff; however, YNHHSC must approve the strategic plans, operating and capital budgets, and Board of Trustees appointments of the Hospital.

Acquisitions

On June 1, 2014, NEMG and YNHHSC acquired certain assets of PriMed, LLC (PriMed), a physician practice for approximately $54.2 million. YNHHSC contributed the entire purchase price, of which $25 million was transferred from the Hospital to YNHHSC. PriMed is a multi-specialty group of approximately 120 providers in 36 locations across Fairfield County and New Haven County, Connecticut. PriMed also is the sole member of a gastroenterology surgery center, the Fairfield County Endoscopy Center, and offers a number of ancillary services, such as a sleep laboratory, cardiac diagnostic testing, physical therapy and nutritional counseling. Under the terms of the transaction, NEMG and YNHHSC acquired substantially all the assets of PriMed and a 40% interest in the gastroenterology surgery center.

On October 11, 2013, the Hospital purchased 100% controlling interest of Saint Raphael Magnetic Resonance Center (SRMP) for approximately $7.4 million. Prior to the purchase of this practice by the Hospital, the controlling interest in SRMP was owned through a 50/50 joint venture between ASC and Medical Imaging Associates, P.C. ASC transferred its 50% ownership to the Hospital. In connection with this transaction, the Hospital recorded goodwill in the amount of $5.9 million.

Disposal

In August 2013, ASC discontinued the operations of Temple Recovery Care Center, a ten-bed rehabilitation center, located at the New Haven Hotel. The following table summarizes the disposal group (in thousands).

	September 2013
Carrying value of disposed assets	$ 136
Revenue	1,084
Loss of disposed group	(1,844)

1. Organization and Significant Accounting Policies (continued)

Principles of Consolidation

The accompanying consolidated financial statements present the accounts and transactions of the Hospital and its wholly owned subsidiaries. All significant intercompany revenue and expenses and intercompany balance sheet accounts have been eliminated in consolidation.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectibles for accounts receivable for services to patients, and liabilities, including estimated net settlements with third-party payors and professional liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the amounts of revenue and expenses reported during the period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

During the years ended September 30, 2014 and 2013, the Hospital recorded a change in estimate of approximately $8.9 million and $3.6 million, respectively. Included in the change are amounts related to favorable third-party payor settlements.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time period or purpose and appreciation on permanently restricted net assets. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity. The Hospital is a partial beneficiary to various perpetual trust agreements. Assets recorded under these agreements are recognized at fair value. The investment income generated from these trusts is unrestricted and the assets are classified as permanently restricted.

The restricted funds investments are pooled with unrestricted investments to facilitate their management. Investment income is allocated to the restricted funds using the market value unit method. The Board approves spending for certain pooled funds based on total return. Realized gains and losses from the sale of securities are computed using the average cost method.

1. Organization and Significant Accounting Policies (continued)

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized until the conditions on which they depend are substantially met. Contributions receivable to be received after one year are discounted at a discount rate commensurate with the risks involved. Amortization of the discount is recognized as revenue and is classified as either unrestricted or temporarily restricted in accordance with donor-imposed restrictions, if any, on the contributions.

Contributions receivable, included in other receivables and other assets in the accompanying consolidated balance sheets at September 30, 2014 and 2013, are expected to be received as follows (in thousands):

	September 30	
	2014	**2013**
Less than one year	**$ 3,979**	$ 8,691
One to five years	**1,285**	1,158
	5,264	9,849
Less unamortized discount on contributions receivable (0.2% to 3.7%)	**(52)**	(60)
	5,212	9,789
Allowance for uncollectible contributions	**(156)**	(294)
	$ 5,056	$ 9,495

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

1. Organization and Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, which are not classified as assets limited as to use and which are not maintained in the short- or long-term investment portfolios.

Cash and cash equivalents are maintained with domestic financial institutions with deposits that exceed federally insured limits. It is the Hospital's policy to monitor the financial strength of these institutions.

Accounts Receivable

Patient accounts receivable result from the health care services provided by the Hospital. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to third-party payor programs.

Loan Receivable

On September 2014, the Hospital entered into a term loan agreement as part of a transaction with a health care provider more fully described in Note 10. The term-loan agreement has a term that coincides with an agreement for the Hospital to lease an Inpatient Rehabilitation Unit (IRU). The term of the IRU Lease Agreement is five years and provides the Hospital with two five-year renewal options at the end of each term.

The term loan bears interest of 6.5% annually that is payable monthly. The loan is collateralized by certain property owned by a subsidiary of the health care provider.

1. Organization and Significant Accounting Policies (continued)

Investments

The Hospital has designated its investment portfolio as trading. Investment income or loss (including realized gains and losses on investments, interest and dividends) and the change in net unrealized gains and losses are included in the excess of revenue over expenses unless the income or loss is restricted by donor or law.

Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value (quoted market prices) in the accompanying consolidated balance sheets.

Certain alternative investments (non-traditional, not-readily-marketable assets) are structured such that the Hospital holds limited partnership interests or pooled units and are accounted for under the equity method and utilizing Yale University's (the University) reported net asset value per unit for measurement of the units' fair value for the Yale University investment. Individual investment holdings within the alternative investments may, in turn, include investments in both non-marketable and market-traded securities. Valuations of those investments and, therefore, the Hospital's holdings may be determined by the investment manager or general partner. Fund of funds investments are primarily based on financial data supplied by the underlying investee funds. Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment. The equity method reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The investments may indirectly expose the Hospital to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts and other derivative products. While these financial instruments may contain varying degrees of risk, the Hospital's risk with respect to such transactions is limited to its capital balance in each investment. The financial statements of the investees are audited annually by independent auditors. Future funding commitments for alternative investments aggregated approximately $2.5 million at September 30, 2014.

The Hospital participates in the Yale New Haven Health System Investment Trust (the Trust), a unitized Delaware Investment Trust created to pool assets for investment by the Health System non-profit entities. The Trust is comprised of two pools: the Long-Term Investment Pool (L-TIP) and the Intermediate-Term Investment Pool (I-TIP). Governance of the Trust is performed by the Yale New Haven Health System Investment Committee.

1. Organization and Significant Accounting Policies (continued)

Under the terms of the investment management agreement with the Trust, withdrawals of the Hospital's investment in the L-TIP can be made annually by the Hospital on July 1. Amounts withdrawn are subject to a schedule that allows larger withdrawals with longer notice periods. As of September 30, 2014, the Hospital can withdraw 100% of its investment in the L-TIP on July 1, 2015. Withdrawals of the Hospital's investment in the I-TIP in any amount can be made quarterly with 30 days advance notice.

The Trust has an agreement with the University's investment office (the Investment Management Agreement) which allows the University to manage a portion of the Trust's investments as part of the University's Endowment Pool (the Pool). For each of the years ended September 30, 2014 and 2013, the Trust transferred $100.0 million to the University in exchange for units in the Pool. The Trust's interest in the Pool is reported at fair value based on the net asset value per units held. The Pool invests in domestic equity, foreign equity, absolute return, private equity, real assets, fixed income and cash.

Under the terms of the investment management agreement with the University, withdrawals of the Trust's investment in the Pool can be made annually by the Trust on July 1. For withdrawals of amounts less than $150.0 million or 75% of the Trust's investment in the Pool, $100.0 million or 50% of the Trust's investment in the Pool, and $50.0 million or 25% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 180 days, 90 days, and 30 days, respectively, prior to the University's fiscal year ending June 30. For withdrawals greater than $150.0 million or more than 75% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 270 days prior to the University's fiscal year end of June 30.

In March 2006, the Hospital entered into an arrangement with the University whereby the University will manage certain Board-designated assets of the Hospital. These Board-designated assets are commingled in the University's endowment pool. At September 30, 2014 and 2013, the carrying value of assets managed by the University under this arrangement was approximately $10.4 million and $9.4 million, respectively. Because of the limitations on their use, the assets are separately classified from assets invested under the Investment Management Agreement.

1. Organization and Significant Accounting Policies (continued)

In 2011, the investment management agreement between the Trust and the University was modified to allow the Trust to obtain a cash advance, up to a maximum of $75 million, on a monthly basis. For these advances interest of U.S. Prime rate, plus 2% will be paid by the Trust. Repayments on the advances are made by the Trust by way of redemptions of a sufficient number of Trust's units in the Endowment using the June 30 unit valuation. No advances have been requested or taken by the Trust.

Short-term investments represent those securities that are available for the Hospital's operations and can be converted to cash within one year.

Inventories

Inventories are stated at the lower of cost or market. The Hospital values its inventories using the first-in, first-out method with the exception of pharmacy inventories, which are valued at average cost.

Assets Limited as to Use

Assets so classified represent assets held by trustees under indenture agreements, beneficial interest in perpetual trusts and designated assets set aside by the Board for future capital improvements and other Board approved uses. The Board retains control and, at its discretion, may use for other purposes assets limited as to use for plant improvements and expansion. Amounts required to meet current liabilities are reported as current assets. These funds consist primarily of U.S. Government securities, mutual funds and money market funds.

Perpetual Trusts

The Hospital is the beneficiary of certain perpetual trusts held and administered by others. The present values of the estimated future cash receipts, which are measured based on the fair value of the assets held by the trust, are recognized as assets and contribution revenue at the dates the trusts are established. Distributions from the trusts related to earnings and investment income are recorded as contributions and the carrying value of the assets is adjusted for changes in the fair value.

1. Organization and Significant Accounting Policies (continued)

Interest Rate Swap Agreements

The Hospital utilizes interest rate swap agreements to reduce risks associated with changes in interest rates. Interest rate swap agreements are reported at fair value. The Hospital is exposed to credit loss in the event of non-performance by the counterparties to its interest rate swap agreements. The Hospital is also exposed to the risk that the swap receipts may not offset its variable rate debt service. To the extent these variable rate payments do not equal variable interest payments on the bonds, there will be a net loss or net benefit to the Hospital.

Benefits and Insurance

The Hospital is effectively self-insured for medical, hospitalization, dental and prescription drug benefits provided to employees. The Hospital makes annual contributions to the YNHHSC Voluntary Employee Beneficiary Association (VEBA) plan to fund medical, dental, hospitalization, group term life insurance and prescription drug benefits. Annually, premiums are set to reflect the estimated cost of benefits. During the years ended September 30, 2014 and 2013, the Hospital made actuarially determined contributions, net of premium adjustments, to the VEBA plan of approximately $138.7 million and $138.6 million, respectively.

The Hospital is self-insured for workers' compensation claims. Estimated amounts are accrued for claims, including claims incurred but not reported (IBNR) and are based on the Hospital specific experience. At September 30, 2014 and 2013, the estimated discounted liabilities for self-insured workers' compensation claims and IBNR aggregated approximately $21.3 million, discounted at 2.5%, and $21.1 million, discounted at 2.5%, respectively, and are included in accrued expenses in the accompanying balance sheets.

Professional Liability Insurance

The Hospital participates in the YNHHSC coordinated professional liability program. Based on the terms of the agreement with YNHHSC, the Hospital records the actuarially determined liabilities for incurred but not reported professional and general liabilities and has recorded a deposit (asset) for liabilities transferred in the year ended September 30, 1998.

1. Organization and Significant Accounting Policies (continued)

Property, Plant and Equipment

Property, plant and equipment purchased are carried at cost and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in income from operations. Depreciation of property, plant and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives ranging from 3 to 50 years. The cost of additions and improvements are capitalized and expenditures for repairs and maintenance, including the cost of replacing minor items not considered substantial enhancements, are expensed as incurred.

The Hospital and the Housing Authority of New Haven (HANH) entered into an agreement to swap parcels of land on the Legion/Howard/Sylvan/Ward block located in New Haven, Connecticut. As part of the key terms of the agreement, HANH pledged an account to the Hospital in the amount of $5.7 million. The pledged account was established at the time the Hospital conveyed the land to HANH in July 2010. If HANH failed to meet certain requirements of the agreement, including conveying its land parcel to the Hospital, the Hospital had the right to withdraw from the pledged account in the amount of $5.2 million. On November 21, 2013, all criteria was met and HANH conveyed its land parcel to the Hospital in the amount of $5.2 million.

Goodwill

Goodwill is not amortized but instead tested at least annually for impairment or more frequently when events or changes in circumstances indicate that the assets might be impaired. This impairment test is performed annually at the reporting unit level. The Hospital evaluates goodwill at the entity level as management has determined that the Hospital's operation comprise a single reporting entity. Goodwill is considered to be impaired if the carrying value of the reporting unit, including goodwill, exceeds the reporting unit's fair value. Reporting unit fair value is estimated using both income (discounted cash flows) and market approaches.

The discounted cash flow approach requires the use of assumptions and judgments including estimates of future cash flows and the selection of discount rates. The market approach relies on comparisons to publicly traded stocks or to sales of similar companies. The Hospital has determined that no goodwill impairment exists at September 30, 2014.

1. Organization and Significant Accounting Policies (continued)

Deferred Revenue

Deferred revenue includes amounts which have been received that relate to future years. Amounts will be reduced as revenue is earned.

Excess of Revenue over Expenses

In the accompanying consolidated statements of operations and changes in net assets, excess of revenue over expenses is the performance indicator. Peripheral or incidental transactions are included in excess of revenue over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue; other gains and losses are classified as non-operating.

Contributions of, or restricted to, property, plant and equipment, transfers of assets to and from affiliates for other than goods and services, and pension and other post-retirement liability adjustments are excluded from the performance indicator but are included in the change in net assets.

Income Taxes

YNHCCC and the Hospital are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code (the Code), and are exempt from Federal income taxes on related income pursuant to Section 501(a) of the Code. YNHCCC and the Hospital are also exempt from state income tax.

ASC and York are subject to federal and state corporate income taxes. Deferred income taxes are provided on temporary differences between financial statement and tax reporting. The provision for income taxes and deferred taxes are not material to the consolidated financial statements.

Operating Expenses

The Hospital records amounts received from the University, area hospitals and other local healthcare providers for costs incurred on behalf of those organizations as reductions to expenses. For the years ended September 30, 2014 and 2013, the Hospital recorded approximately $60.5 million and $67.3 million, respectively, as reductions to expenses.

1. Organization and Significant Accounting Policies (continued)

Deferred Financing Costs

The Hospital capitalizes costs incurred in connection with the issuance of long-term debt and amortizes these costs over the life of the respective obligations using the effective interest method. The accumulated deferred financing cost was approximately $0.2 million and $1.5 million at September 30, 2014 and 2013, respectively.

Impairment of Assets

The Hospital reviews property, equipment and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If such impairment indicators are present, the Hospital recognizes a loss on the basis of whether these amounts are fully recoverable.

Reclassifications

Certain reclassifications have been made to the year ended September 30, 2013, balances previously reported in the consolidated financial statements in order to conform with the year ended September 30, 2014, presentation. Approximately $16.7 million reported as a reduction to gross accounts receivable are now classified as allowances for uncollectible accounts, charity care, and free care on the accompanying consolidated balance sheet to conform with current year presentation. See Note 3 for additional information relative to the amendment of Y-NHH's Charity Care policy.

New Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers* (Topic 606), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The adoption of ASU 2014-09 is required on October 1, 2017, and management is currently evaluating the effect of this guidance on its financial statements.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges and per diem payments. Net patient service revenue is affected by the State of Connecticut Disproportionate Share program, includes premium revenue and is reported at the estimated net realizable amounts due from patients, third-party payors and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations.

Third-party payor receivables included in other receivables were $0.9 million and $5.7 million at September 30, 2014 and 2013, respectively. Third-party payor receivables included in other long-term assets were $7.9 million at September 30, 2013. Third-party payor liabilities included in other current liabilities were $36.2 and $15.1 million at September 30, 2014 and 2013, respectively. Third-party payor liabilities included in other long-term liabilities were $47.4 million and $40.1 million at September 30, 2014 and 2013, respectively.

The Hospital has established estimates based on information presently available, of amounts due to or from Medicare, Medicaid and third-party payors for adjustments to current and prior year payment rates, based on industry-wide and the Hospital specific data. Such amounts are included in the accompanying consolidated balance sheets. Additionally, certain payors' payment rates for various years have been appealed by Y-NHH. If the appeals are successful, additional income applicable to those years might be realized. In April, 2014, YNHHS began participation in the Centers for Medicare & Medicaid Services Bundled Payments for Care Improvement initiative. Under the Bundled Payments for Care Improvement initiative, YNHHS has entered into payment arrangements that include financial and performance accountability for episodes of care.

Revenue from Medicare and Medicaid programs accounted for approximately 33% and 11%, respectively, of Y-NHH's net patient service revenue for the year ended September 30, 2014, and approximately 32% and 14%, respectively, of Y-NHH's net patient service revenue for the year ended September 30, 2013. Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 36% and 28% for the years ended September 30, 2014, and 2013. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

Y-NHH believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing except as disclosed in Note 10. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on Y-NHH. Cost reports for the Hospital, which serve as the basis for final settlement with government payors, have been settled by final settlement for various years ranging through 2010 for Medicare and through 2009 for Medicaid. Other years remain open for settlement.

The significant concentrations of accounts receivable for services to patients include 36% from Medicare, 14% from Medicaid, and 50% from non-governmental payors at September 30, 2014, and 34% from Medicare, 14% from Medicaid, and 52% from non-governmental payors at September 30, 2013.

Net patient service revenue is comprised of the following for the years ended September 30, 2014 and 2013 (in thousands):

	2014	2013
Gross revenue from patients	**$ 8,501,209**	$ 8,355,658
Deductions:		
Contractual allowances	**5,922,235**	5,868,328
Charity and free care (at charges)	**129,991**	87,700
Provision for doubtful accounts	**72,829**	82,200
Net patient service revenue	**$ 2,376,154**	$ 2,317,430

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

Patient service revenue for the years ended September 30, 2014 and 2013, net of contractual allowances and discounts (but before the provision for bad debts), recognized from these major payor sources based on primary insurance designation, is as follows, in thousands:

	2014	2013
Third party	$ 2,350,870	$ 2,282,412
Self-pay	98,113	117,218
Total all payors	$ 2,448,983	$ 2,399,630

Deductibles and copayments under third-party payment programs within the third-party payor amount above are the patient's responsibility and Y-NHH considers these amounts in its determination of the provision for bad debts based on collection experience. Accounts receivable are also reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, Y-NHH analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

Y-NHH's allowance for doubtful accounts totaled approximately $171.5 million and $168.4 million at September 30, 2014 and 2013, respectively. The allowance for doubtful accounts for self-pay patients was approximately 88.5% and 88.8% of self-pay accounts receivable as of September 30, 2014 and 2013, respectively.

3. Uncompensated Care and Community Benefit Expense

Y-NHH's commitment to community service is evidenced by services provided to the indigent and benefits provided to the broader community. Services provided to the indigent include services provided to persons who cannot afford health care because of inadequate resources and/or who are uninsured or underinsured.

3. Uncompensated Care and Community Benefit Expense (continued)

Y-NHH makes available free care programs for qualifying patients. In accordance with the established policies of Y-NHH, during the registration, billing and collection process a patient's eligibility for free care funds is determined. For patients who were determined by Y-NHH to have the ability to pay but did not, the uncollected amounts are bad debt expense. For patients who do not avail themselves of any free care program and whose ability to pay cannot be determined by Y-NHH, care given but not paid for, is classified as charity care. During the year ended September 30, 2014, Y-NHH amended its Charity Care policy. Based upon the policy change, Y-NHH experienced increased charity care write-offs during the year.

Together, charity care and bad debt expense represent uncompensated care. The estimated cost of total uncompensated care is approximately $132.4 million and $115.0 million for the years ended September 30, 2014 and 2013, respectively. The estimated cost of uncompensated care is based on the ratio of cost to charges, as determined by claims activity.

The estimated cost of charity care provided was $85.3 million and $54.3 million for the years ended September 30, 2014 and 2013, respectively. The estimated cost of charity care is based on the ratio of cost to charges. The allocation between bad debt and charity care is determined based on management's analysis on the previous 12 months of hospital data. This analysis calculates the actual percentage of accounts written off or designated as bad debt versus charity care while taking into account the total costs incurred by the hospital for each account analyzed.

For the years ended September 30, 2014 and 2013, bad debt expense, at charges, was $72.8 million and $82.2 million, respectively. For the years ended September 30, 2014 and 2013, bad debt expense, at cost, was $47.1 million and $60.7 million, respectively. The bad debt expense is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above.

The Connecticut Disproportionate Share Hospital Program (CDSHP) was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by an assessment on hospital net patient service revenue. During the years ended September 30, 2014 and 2013, the Hospital received $26.6 million and $58.0 million, respectively, in CDSHP distributions, of which approximately $17.1 million and $33.3 million, respectively was related to charity care. Y-NHH made payments into the CDSHP of $73.5 million for the years ended September 30, 2014 and 2013, respectively, for the assessment.

3. Uncompensated Care and Community Benefit Expense (continued)

Additionally, Y-NHH provides benefits for the broader community which includes services provided to other needy populations that may not qualify as indigent but need special services and support. Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings, and medical research. The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children, and various community support groups. Y-NHH voluntarily assists with the direct funding of several City of New Haven programs, including an economic development program and a youth initiative program.

In addition to the quantifiable services defined above, Y-NHH provides additional benefits to the community through its advocacy of community service by employees. Y-NHH's employees serve numerous organizations through board representation, membership in associations and other related activities. Y-NHH also solicits the assistance of other healthcare professionals to provide their services at no charge through participation in various community seminars and training programs.

The pool combines an orientation to equity investments with an allocation to non-traditional asset classes such as an absolute return, private equity, and real assets.

Y-NHH's ownership percentage of the Trust was approximately 90.5% and 89.1% as of September 30, 2014 and 2013, respectively. Y-NHH's prorata portion of the Trust's investments are included above in the table.

5. Endowment

Y-NHH's endowment includes donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Y-NHH has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (CUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Y-NHH classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment related to Y-NHH's beneficial interest in perpetual trusts made in accordance with the direction of the applicable donor gift instrument at the time of the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by Y-NHH in a manner consistent with the standard of prudence prescribed by CUPMIFA. In accordance with CUPMIFA, Y-NHH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of Y-NHH and

5. Endowment (continued)

the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of Y-NHH; and (7) the investment and spending policies of Y-NHH.

Return Objectives and Risk Parameters

Y-NHH has adopted investment and spending policies for endowed assets that attempt to provide a predictable stream of funding to programs supported by its endowment. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity. Under these policies, as approved by the Board, the endowment assets are invested in a manner that is intended to produce results that over time provide a rate of return that meets the spending policy objectives adjusted for inflation. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, Y-NHH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Y-NHH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

Y-NHH has a policy of appropriating for distribution each year based on a combination of the weighted average of the prior year spending adjusted for inflation and the amount that would have been spent using a predetermined percentage of the current market value of the endowment fund. In establishing this policy, Y-NHH considered the long-term expected return on its endowment.

6. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes (in thousands):

	September 30 2014	2013
Plant improvement and expansion	$ 13,005	$ 6,938
Specific hospital operations, teaching, research, free care and training	51,313	53,044
	$ 64,318	$ 59,982

Permanently restricted net assets of approximately $35.9 million and $27.2 million at September 30, 2014 and 2013, respectively, consist of donor restricted endowment principal and beneficial interests in perpetual trusts. The income generated from permanently restricted funds is expendable for purposes designated by donors, including research, free care, health care and other services.

In September 2006, the Hospital issued Series J revenue bonds totaling approximately $280.9 million. The proceeds, including a premium of approximately $10.1 million, were used to finance a portion of the construction costs of a Cancer Hospital. The bond premium was being amortized and was included in capitalized interest through March 2010. As of the opening of the Cancer Hospital, the bond premium was amortized in the statement of operations. The Series J revenue bonds were issued in three sub-series as follows: (1) Series J-1, approximately

7. Debt (continued)

$174.4 million, consisting of approximately $83.7 million of serial bonds and approximately $90.7 million in term bonds bearing interest at 5% per annum; (2) Series J-2, approximately $40.0 million of revenue bonds bearing interest at 3.65% at September 30, 2007; (3) Series J-3, approximately $66.5 million of revenue bonds bearing interest 3.70% at September 30, 2007. The series J-2 and J-3 revenue bonds were refunded during the year ended September 30, 2008, by the issuance of Series L revenue bonds.

In May 2008, the Hospital issued Series K and Series L revenue bonds totaling approximately $216.6 million. The Series K revenue bonds were issued as Variable Rate Demand Bonds (VRDBs) in two sub-series, Series K-1 and K-2, of approximately $54.6 million each, with an effective rate of 3.11%. The proceeds from the Series K issuance were used to refund the Series I revenue bonds. The Series L revenue bonds were issued as VRDBs in two sub-series, Series L-1 and L-2, of approximately $53.7 million each, with an effective rate of 3.68%. The proceeds from the Series L issuance were used to refund the Series J-2 and J-3 revenue bonds.

In December 2010, the Hospital issued Series M revenue bonds totaling approximately $104.4 million. The proceeds, including a premium of approximately $1.0 million, were used to finance costs for the expansion and renovations to the Adult Emergency Department, the purchase and installation of machinery and equipment, various renovations and improvements to the Hospital's infrastructure. The premium was being amortized and included in capitalized interest through December 2012. As of the completion of these projects, the bond premium was amortized in the consolidated statement of operations. The Series M revenue bonds were issued as one series consisting of approximately $33.9 million of serial bonds bearing interest at 4.69%, and approximately $17.6 million, $17.8 million, and $35.1 million in term bonds bearing interest at 5.25%, 5.75%, and 5.50%, respectively, per annum.

On August 30, 2011, the Hospital entered into a loan agreement with a bank for $40.0 million. The Hospital agreed to repay the aggregate principal amount in five equal annual payments of $8.0 million, beginning on October 1, 2012. The loan bore interest at a rate equal to London Interbank Offered Rate (LIBOR) plus 0.50% per annum with an option to convert to a fixed rate loan upon formal notification to the bank, which may include a portion of or the total outstanding loan balance at the time notification is made. The loan was fully repaid by the issuance of the Series N, Series O, and Series 2013 bonds.

7. Debt (continued)

In July 2012, the Hospital entered into a line of credit with a bank in the amount of $27.0 million which was subsequently increased to $187.0 million. In July 2012, the Hospital drew the unconditional loan of $27.0 million to outfit a new facility. In September 2012, the Hospital drew the remaining $160.0 million. The line of credit required the Hospital to repay the bank in 24 equal monthly installments commencing on August 1, 2013. The full amount of the remaining balance was due on July 12, 2015. This obligation bore interest at a rate equal to LIBOR plus 0.45% per annum. The line of credit was fully repaid and cancelled by the issuance of the Series N, Series O, and Series 2013 bonds.

In September 2012, the Hospital drew on its $50.0 million line of credit with a bank, established in January 2012, in the amount of $25.0 million. This line of credit required repayment of the aggregate principal amount on the 364th day subsequent to the advance. This obligation bore interest at a rate equal to LIBOR plus 0.50% per annum. The line of credit was repaid in December 2012.

In January 2013, the Hospital issued Series N and Series O revenue bonds totaling approximately $100.0 million. The Series N revenue bonds were issued as fixed rate bonds with an effective interest rate of 4.27%. The Series O revenue bonds were issued as VRDBs with an effective interest rate of 2.84%. The proceeds, including a premium of approximately $5.2 million for the Series N revenue bonds, were used to refinance a line credit. The bond premium is being amortized as interest expense in the statement of operations and changes in net assets.

In January 2013, the Hospital issued Series 2013 taxable bonds totaling approximately $132.0 million. The Series 2013 taxable bonds were issued as fixed rate bonds with an effective interest rate of 4.13%. The proceeds were used to finance and refinance the costs of certain projects and activities in furtherance of the Hospital's tax-exempt purpose, including the refinancing of certain existing indebtedness.

In June 2014, the Obligated Group issued Series A revenue bonds totaling approximately $102.3 million and Series B revenue bonds totaling approximately $168.3 million. The Series A revenue bonds were issued as fixed rate bonds with an effective interest rate of 3.77%. The Series B revenue bonds were issued as floating rate notes with an effective interest rate of 2.30%. The proceeds from the Series A revenue bonds, including a premium of approximately $14.8 million, and the proceeds from the Series B revenue bonds, were used to defease Y-NHH's Series J-1 and M revenue bonds. The bond premium is being amortized as interest expense using the effective interest method in the consolidated statement of operations and changes in net assets.

7. Debt (continued)

In June 2014, the Obligated Group issued Series C revenue bonds totaling approximately $83.6 million and Series D revenue bonds totaling approximately $108.3 million. The Series C revenue bonds were issued as VRDBs with an effective interest rate of 3.11%. The proceeds from the Series C issuance were used to refund Y-NHH's Series K revenue bonds. The Series D revenue bonds were issued as VRDBs with an effective interest rate of 3.68%. The proceeds from the Series D issuance were used to refund Y-NHH's Series L revenue bonds.

As a result of the above transactions, the Hospital incurred a loss on extinguishment of debt totaling approximately $32.6 million during the fiscal year ended September 30, 2014.

The Series C, Series D and Series O VRDBs are required to be supported by letter of credit facilities (LOCs) which have been executed with three financial institutions. These LOCs are scheduled to expire on May 2, 2016, June 23, 2017 and February 14, 2018, respectively.

In June 2014, the Obligated Group issued Series E revenue bonds totaling approximately $80.9 million. The Series E revenue bonds were issued as fixed rate bonds with an effective interest rate of 3.47%. The proceeds included a premium of approximately $10.1 million. Of the proceeds, $50 million were used to finance costs for the installation of machinery and equipment and various renovations and improvements to the Hospitals' infrastructure. The remaining proceeds were used by BH. The premium is being amortized and included in capitalized interest. Upon completion of these projects, the bond premium will be amortized as interest expense in the consolidated statement of operations and changes in net assets.

In June 2014, the Obligated Group issued Series 2014 taxable bonds totaling approximately $50.7 million. The Series 2014 taxable bonds were issued as fixed rate bonds with an effective interest rate of 4.37%. The proceeds were used to finance the costs of certain projects and activities in furtherance of the System's tax-exempt purpose.

The terms of the various financing arrangements between CHEFA, the Obligated Group, and the financial institutions providing the LOCs and the Obligated Group provide for financial covenants regarding the Obligated Group's debt service coverage ratio and liquidity ratio. As of September 30, 2014, the Obligated Group was in compliance with such covenants.

7. Debt (continued)

Sinking fund installment amounts are to be made in accordance with the Series A, B, C, D, E, N and O financing agreements. Required monthly payments on the revenue bonds by the Hospital to a trustee are in amounts sufficient to provide for the payments of principal, interest and sinking fund installments, in accordance with the terms of the agreements and certain other annual costs of CHEFA.

Arbitrage rules apply for Series J-1, Series M and Series E tax-exempt debt. The rules require that, in specified circumstances, earnings from the investment of tax-exempt bond proceeds which exceed the yield on the bonds must be remitted to the Federal government.

In connection with the formation of the Obligated Group the Series A, B, C, D, E, N and O tax-exempt bonds and the Series 2013 and 2014 taxable bonds became an obligation of the Obligated Group and as such are reflected as intercompany debt with YNHHSC. Under the terms of the Master Indenture all members of the Obligated Group are jointly and severally liable for debt issued by YNHHSC on behalf of the Obligated Group.

Scheduled principal payments on all debt, including capital lease obligations, are as follows (in thousands):

	Debt	Capital Lease Obligations
2015	$ 7,626	$ 6,150

Total capital lease obligations		$ 53,801

Capitalized interest at September 30, 2014 and 2013, totaled $29.9 million and $27.0 million, respectively.

7. Debt (continued)

YNHHSC, on behalf of the Obligated Group, has entered into interest rate swap agreements with financial institutions related to the Obligated Group's Series B, Series C and Series D debt. The Series C and Series D swaps were carried over as part of the refunding of the Series K and Series L debt.

The swap agreements fix the interest rate at a level viewed as desirable by the Hospital. Such agreements expose the Hospital to credit risk in the event of non-performance by the counterparties, some of which is collateralized. At September 30, 2014 and 2013, the fair value of all swap agreements based on current interest rates was approximately $32.3 million and $22.3 million, respectively, representing a payable to the counterparties (recorded in other long-term liabilities).

The following table summarizes the interest rate swap agreements (in thousands):

Swap Type	Expiration Date	Hospital Receives	Hospital Pays	Notional Amount at September 30 2014	2013

On September 20, 2012, the Hospital entered into a Forward Starting Interest Rate swap (the Series O swap), a LIBOR Swap Rate Lock and a Security Industry and Financing Markets Association (SIFMA) Rate Lock swap with two different counterparties. The agreements require the Hospital to pay a fixed rate and receive a floating rate based on LIBOR or SIFMA. The change in market value, as well as the net interest paid or received under the swap agreement, for the Series L swap was capitalized as part of the interest costs related to construction of the Cancer Hospital until construction was complete. Once the Cancer Hospital became operational these amounts were recorded in the consolidated statements of operations and changes in net assets.

7. Debt (continued)

In June 2014, YNHHSC, on behalf of the Obligated Group, entered into LIBOR swap rate locks with two counter parties (the Series B swaps). For the Series B swaps, there was an unfavorable change in fair value of $7.1 million for the year ended September 30, 2014, which was recorded in excess of revenue over expenses. No collateral was required under the Series B swap agreements for the year ended September 30, 2014.

For the Series K/C swap, there was a favorable change in fair value of approximately $1.0 million and $4.5 million, respectively, for the years ended September 30, 2014 and 2013, which was recorded in the excess of revenue over expenses. No collateral was required under the Series K/C swap agreement for the years ended September 30, 2014 and 2013.

For the Series L/D swap, there was an unfavorable change in fair value of approximately $2.2 million for the year ended September 30, 2014, and a favorable change in fair value of approximately $7.5 million for the year ended September 30, 2013, which was recorded in the excess of revenue over expenses. No collateral was required under the Series L/D swap agreement for the years ended September 30, 2014 and 2013.

For the Series O swap, there was an unfavorable change in fair value of $0.6 million for the year ended September 30, 2014, which was recorded in excess of revenue over expenses. For the Series O swap and the LIBOR Swap Rate Lock swap, there was a favorable change in fair value of $2.5 million and $1.0 million, respectively, for the year ended September 30, 2013, which was recorded in excess of revenue over expenses. No collateral was required under the Series O swap agreement for the years ended September 30, 2014 and 2013.

In February 2013, the SIFMA Rate Lock Swap and the LIBOR Swap Rate Lock were terminated. Upon termination, gains of $0.8 million and $4.5 million, respectively, were recorded in non-operating gains and losses, net.

For the years ended September 30, 2014 and 2013, the Hospital paid approximately $22.8 million and $23.2 million, respectively, for interest related to long-term debt, exclusive of the swap agreements.

In September 2008, SSC obtained a line of credit in the amount of $1,000,000. The interest was payable at the bank's prime rate through March 31, 2009. On April 1, 2009, the line of credit converted to a fixed-term loan due in equal monthly installments through August 31, 2013. The loan was repaid on August 13, 2013.

7. Debt (continued)

The debt agreements of SSC included the pledging as collateral SSC's owned equipment and fixtures, inventory and receivables. The debt agreements contained covenants related to the maintenance of financial ratios, including debt service coverage and days cash on hand. At September 30, 2013, SSC was in compliance with the financial ratio covenants.

The Hospital entered into a contract to lease space in a building adjacent to the Hospital. The Hospital's rental obligation commenced in December 2009. This capital lease has a term of twenty years from the commencement date with the option to extend the lease for four successive terms of ten years. Rental payments increase by 5% every five years. The Hospital is also subject to additional rent for its share of expenses, as defined in the contract. The Hospital has the option to purchase the property at the end of the fifth, tenth or twentieth year or at the end of each of the first three ten-year extension periods.

In January 2013, the Hospital entered into a transaction in connection with a building at 2 Howe Street, New Haven, Connecticut which was previously accounted for by the Hospital as a capital lease. Under the terms of the capital lease, the Hospital was obligated to purchase the building after an initial lease term of 3 years. In satisfaction of that obligation, the Hospital purchased the building and immediately sold the building to a third-party investor. The Hospital currently leases the building from the investor under a long-term operating lease. The Hospital owns the land on which the building is located and has entered into a prepaid long-term ground lease with the investor.

Assets recorded under the capital lease obligations totaled $70.2 million as of September 30, 2014 and 2013. Accumulated depreciation for the capital lease obligations totaled $19.0 million and $16.5 million at September 30, 2014 and 2013, respectively.

8. Pensions and Postretirement Benefits

Y-NHH has qualified and non-qualified defined benefit pension plans covering substantially all employees and executives. The benefits provided are based on age, years of service and compensation. Y-NHH's policy is to fund the pension benefits with at least the minimum amounts required by the Employee Retirement Income Security Act of 1974.

Y-NHH also sponsors contributory 403(b) and 401(k) plans covering substantially all employees. YNHNC's contributions for the 403(b) plan are made to a matching 401(a) plan and are determined based on employee contributions and years of service. The Hospital expensed

approximately $32.9 million and $16.6 million relating to the defined contribution plan for the years ended September 30, 2014 and 2013, respectively. Amounts due to the defined contribution plan amounted to $16.5 million at September 30, 2014, and is included in accrued expenses in the accompanying balance sheets. Y-NHH maintains a Section 457 non-qualified deferred compensation plan. Contributions are made on a pre-tax basis. The balances recorded at September 30, 2014 and 2013, in other assets and other long-term liabilities were $32.5 million and $27.3 million, respectively.

Effective September 30, 2013, the qualified defined benefit pension plan and the 401(a) plan were amended to reduce the percentage of employee compensation contributed by the Hospital to the qualified defined benefit pension and to increase the percentage of employee compensation contributed by the Hospital to the 401(a) plan for plan years commencing after December 31, 2013. The amendment to the qualified defined benefit pension plan resulted in a decrease to the projected benefit obligation at September 30, 2013, of approximately $23.9 million.

Y-NHH also provides certain health care and life insurance benefits upon retirement to substantially all its employees. Y-NHH's policy is to fund these annual costs as they are incurred from the general assets of Y-NHH. The estimated cost of these postretirement benefits is actuarially determined and accrued over the employees' service periods.

Included in unrestricted net assets at September 30, 2014 and 2013, are the following amounts that have not yet been recognized in net periodic pension cost: unrecognized prior service credit of $22.4 million and $23.8 million, respectively, and unrecognized actuarial losses of $162.0 million and $118.6 million, respectively. The prior service credit and actuarial loss included in unrestricted net assets and expected to be recognized in net periodic pension cost during the year ending September 30, 2015, are $2.0 million and $7.8 million, respectively.

8. Pensions and Postretirement Benefits (continued)

Assumed health care cost trend rate assumptions have a significant effect on the amounts reported. A 1% change in the assumed healthcare cost trend rate would have the following effects (in thousands):

	1% Increase	1% Decrease

Y-NHH's investment strategy for its pension assets balances the liquidity needs of the pension plan with the long-term return goals necessary to satisfy future pension obligations. The target asset allocation seeks to capture the equity premium granted by the capital markets over the long-term, while ensuring security of principal to meet near-term expenses and obligations through the fixed income allocation. The allocation of the investment pool to various sectors of the markets is designed to reduce volatility in the portfolio. Y-NHH's pension portfolio return assumption of 7.75% is based on the targeted weighted-average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension expenses. The actual return on assets of the pension plan was 7.4% for the years ended September 30, 2014 and 2013.

8. Pensions and Postretirement Benefits (continued)

The future cash flows of Y-NHH relative to retirement benefits are expected to be as follows (in thousands):

	Defined Benefit Pension Plans	Postretirement Benefits Plan
Estimated benefit payments related to years ending September 30:		
2015	$ 26,684	$ 2,088
2016	26,260	2,400
2017	28,075	2,640

2019	31,788	3,231
2020 to 2024	187,937	22,055

Y-NHH expects to contribute approximately $40.0 million for pension benefits and $2.1 million for postretirement benefits payments in fiscal 2015.

9. Professional Liability Insurance

In 1978, the Hospital and a number of other academic medical centers formed the Medical Centre Insurance Company, Ltd (the Captive) to insure for professional and comprehensive general liability risks. In 1997, the Captive formed MCIC Vermont, Inc. to write direct insurance for the professional and general liability risks of the shareholders. Since 1997, the Captive has acted as a reinsurer for varying levels of per claim limit exposure. MCIC Vermont, Inc. has reinsurance coverage from outside reinsurers for amounts above the per claim limits. Premiums are based on modified claims made coverage and are actuarially determined based on actual experience of the Hospital, the Captive and MCIC Vermont, Inc.

In fiscal 1998, the Hospital entered into a purchase and sales management agreement with YNHHSC that transferred the Hospital's participation in the Captive to YNHHSC for its book value as calculated by the Captive. Under the terms of the agreement, the Hospital retains certain elements of control and assumes limited risk associated with the ongoing operation of the Captive. The Hospital pays insurance premiums to YNHHSC.

9. Professional Liability Insurance (continued)

Additionally, because the purchase and sales management agreement entered into with YNHHSC in 1998 meet criteria for deposit accounting, the Hospital recorded an actuarially determined liability for IBNR professional and general liabilities with an offsetting deposit (asset) of an equal amount (approximately $11.8 million).

The estimate for modified claims-made professional liabilities and the estimate for incidents that have been incurred but not reported aggregated approximately $105.2 million and $111.2 million at September 30, 2014 and 2013, respectively for the Hospital. The undiscounted estimate for incidents that have been incurred but not reported aggregated approximately $40.6 million and $33.3 million for the Hospital at September 30, 2014 and 2013, respectively, and is included in professional insurance liabilities in the accompanying consolidated statements of financial position at the actuarially determined present value of approximately $36.8 million and $29.9 million, respectively, based on a discount rate 2.5% for the years ended September 30, 2014 and 2013, respectively.

The Hospital has recorded related insurance recoveries receivable of approximately $68.4 million and $81.3 million at September 30, 2014 and 2013, respectively, in consideration of the expected insurance recoveries for the total discounted modified claims-made insurance. The current portion of professional liabilities and the related insurance receivable represents an estimate of expected settlements and insurance recoveries over the next 12 months.

Lukan, the Hospital sponsored professional liability program, continues to manage all incidents and claims reported to Lukan prior to the 2012 acquisition of the Saint Raphael Healthcare System Inc. (SRHS), as well as extending professional liability coverage for post acquisition risks to certain affiliated community clinicians.

Prior to the acquisition of SRHS, Caritas provided excess professional liability and general liability insurance to SRHS and their employed clinicians. Caritas continues to manage all incidents and claims reported prior to the acquisition of SRHS.

Caritas and Lukan have recorded the undiscounted estimate for claims-made professional liabilities and the estimate for incidents that have been incurred but not reported aggregated of approximately $29.6 million and $38.7 million at September 30, 2014 and 2013, respectively, and are included in professional liabilities in the accompanying consolidated statements of financial position.

9. Professional Liability Insurance (continued)

The estimates for professional insurance liabilities are based upon complex actuarial calculations which utilize factors such as historical claims experience for Y-NHH and related industry factors, trending models, estimates for the payment patterns of future claims and present value discount factors. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Revisions to estimated amounts resulting from actual experience differing from projected expectations are recorded in the period the information becomes known or when changes are anticipated.

10. Commitments and Contingencies

Leases

YNHH leases certain office, clinical and parking spaces under non-cancelable operating leases that range in terms ending in 2015 through 2039. Future minimum lease payments under these leases are as follows (in thousands):

2015	$ 18,589

2017	14,697
2018	14,200

Y-NHH incurred net rent expense under these leases of approximately $18.7 million for the year ended September 30, 2014, and $16.6 million for the year ended 2013.

Cancer Hospital

The Hospital has a shared facilities and services agreement with the University in connection with the Cancer Hospital which is recorded as deferred revenue. Deferred revenue, from this agreement, at September 30, 2014 and 2013, was $44.0 million and $45.2 million, respectively.

10. Commitments and Contingencies (continued)

Inpatient Rehabilitation Unit Agreement

During September 2014, the Hospital entered into an agreement with another health care provider to provide a framework for implementing programs in a manner that is consistent with the charitable mission of each organization and the communities they serve. Under the terms of the agreement the Hospital will utilize beds at the health care provider's location under a lease arrangement to provide inpatient rehabilitation services to its patients and will furnish an $8.0 million term loan.

Litigation

Various lawsuits and claims arising in the normal course of operations are pending or are in progress against the Hospital. Such lawsuits and claims are either specifically covered by insurance as explained in Note 9 or are deemed to be immaterial. While the outcomes of the lawsuits and claims cannot be determined at this time, management believes that any loss which may arise from these actions will not have a material adverse effect on the consolidated financial position or changes in net assets of the Hospital.

The Hospital has received requests for information from certain governmental agencies relating to, among other things, patient billings. These requests cover several prior years relating to compliance with certain laws and regulations. Management is cooperating with those governmental agencies in their information requests and ongoing investigations. The ultimate results of those investigations, including the impact on the Hospital, cannot be determined at this time.

Included in the consolidated statement of changes in net assets are amounts funded by the Hospital for physician related strategic mission support for NEMG of approximately $14.0 million and $11.8 million for the years ended September 30, 2014 and 2013, respectively.

13. Other Revenue

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement or upgrade certified EHR technology. In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments. Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal fiscal year 2015.

13. Other Revenue (continued)

The Hospital uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized when the Hospital is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received. Medicare EHR incentive payment revenue was approximately $2.0 million and $2.6 million, respectively, and Medicaid EHR incentive payment revenue was approximately $1.0 million and $1.6 million, respectively, for the years ended September 30, 2014 and 2013. EHR incentive payment revenue is included in other revenue in the accompanying consolidated statement of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were calculated. Additionally, the Hospital's attestation of compliance with the meaningful use criteria is subject to audit by the federal government.

15. Fair Value Measurements

In determining fair value, the Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Hospital also considers nonperformance risk in the overall assessment of fair value.

ASC 820-10, *Fair Value Measurements and Disclosures,* establishes a three tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

- Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.
- Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.
- Level 3: Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

15. Fair Value Measurements (continued)

The fair value of debt was approximately $808.5 million and $674.6 million at September 30, 2014 and 2013, respectively. The fair value of the capital leases was approximately $54.5 million and $55.5 million at September 30, 2014 and 2013, respectively. The fair value of long-term debt is classified as Level 2 in the fair value hierarchy as it uses a combination of quoted market prices and valuation based on current market rates.

The amounts reported in the table as detailed above do not include assets invested in the Hospital's defined benefit pension plan (see Note 8). In addition, included in the table above are investments at September 30, 2014 and 2013, in common collective trusts totaling approximately $148.7 million and $95.9 million, respectively, other alternative investments totaling approximately $20.0 million and $19.4 million, respectively, and perpetual trusts totaling approximately $17.8 million and $12.5 million, respectively, that are accounted for under the equity method of accounting (see Note 1). The interest rate swaps listed above are classified in the accompanying balance sheets as other long-term liabilities at September 30, 2014 and 2013.

The following is a summary of total investments as of September 30, 2014, with restrictions to redeem the investments at the measurement date, any unfunded capital commitments and investment strategies of the investees (in thousands):

16. Subsequent Events

In October 2014, the Hospital disposed of its interest in the Captives through a novation agreement with Medical Centre Insurance Company, Ltd (MCIC) for a total price of approximately $40.2 million. The novation agreement assigns and transfers all of the Captives' past, present and future rights, risks, liabilities and obligations, and transfers substantially all of the assets of the Captives to MCIC. The Hospital will dissolve the Captives during fiscal year 2015.

Subsequent events have been evaluated through December 23, 2014, which is the date the consolidated financial statements were available to be issued. No events, except as noted above, have occurred that require disclosure or adjustment of the consolidated financial statements.

THESE TWO ORGANIZATIONS HAVE WORKED TOGETHER FOR OVER TWENTY YEARS TO PROVIDE SUPPORT TO NON-FOR-PROFIT HOSPITALS TO DEVELOP AND SUSTAIN EFFECTIVE COMMUNITY BENEFIT PROGRAMS.

THE MOST RECENT VERSION OF THE CHA GUIDE FOR PLANNING AND REPORTING COMMUNITY BENEFIT DEFINES COMMUNITY BUILDING ACTIVITIES AS PROGRAMS THAT ADDRESS THE ROOT CAUSES OF HEALTH PROBLEMS, SUCH AS POVERTY, HOMELESSNESS AND ENVIRONMENTAL PROBLEMS. THESE ACTIVITIES ARE CATEGORIZED INTO EIGHT DISTINCT AREAS INCLUDING PHYSICAL IMPROVEMENT AND HOUSING, ECONOMIC DEVELOPMENT, COMMUNITY SUPPORT ENVIRONMENTAL IMPROVEMENTS, LEADERSHIP DEVELOPMENT AND TRAINING FOR COMMUNITY MEMBERS, COALITION BUILDING, ADVOCACY FOR COMMUNITY HEALTH IMPROVEMENTS, AND WORKFORCE DEVELOPMENT.

Report of Independent Auditors

The Board of Directors
Bridgeport Hospital and Subsidiaries

We have audited the accompanying consolidated financial statements of Bridgeport Hospital and Subsidiaries, which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Bridgeport Hospital and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2014

1. Organization and Significant Accounting Policies

Bridgeport Hospital & Healthcare Services, Inc. (BHHS) was a Connecticut not-for-profit, nonstock corporation established to promote and carry out charitable, scientific, and educational activities. BHHS was the sole member of the following not-for-profit, nonstock corporations: Bridgeport Hospital; Bridgeport Hospital Foundation, Inc. (the Foundation); Southern Connecticut Health System Properties, Inc. (Properties); and the BHHS. BHHS had an affiliation agreement with Yale-New Haven Health Services Corporation (YNHHSC) in which YNHHSC was the sole member of BHHS.

The Hospital is a voluntary association incorporated under the General Statutes of the State of Connecticut.

In 2014, the Hospital and BHHS were merged in connection with the formation of an obligated group and are now referred to as Bridgeport Hospital and Subsidiaries (BH or the Hospital). As a result, the Hospital's financial statement reporting entity changed to include the Foundation and Properties, which were previously reported in the consolidated financial statements of BHHS. The change in reporting entity was retrospectively applied to the financial statements for the Hospital for all periods presented. YNHHSC is now the sole member of BH.

YNHHSC is the sole member of two similar organizations: Yale New Haven Hospital and Subsidiaries (Y-NHH) and Greenwich Health Care Services, Inc. (GHCS). Each of these three tax-exempt organizations serves as the sole member/parent for its respective delivery network of regional health care providers and related entities. YNHHSC is also the sole member of Northeast Medical Group, Inc. (NEMG).

The Hospital is now the sole member of the Foundation and Properties. The Hospital provides health care services to the Fairfield County community. The Foundation solicits contributions for the benefit of the Hospital and all other tax-exempt health care organizations associated with the Hospital. Properties is a real estate holding company.

Concurrent with the issuance of the Connecticut Health and Educational Facilities Authority (CHEFA) Revenue Bonds, Yale-New Haven Health Obligated Group Issue, Series A, B, C, D, and E dated May 20, 2014, six members of the Yale New Haven Health System and Subsidiaries were combined to form an Obligated Group. The Obligated Group comprises YNHHSC, Y-NHH, Yale-New Haven Care Continuum Corporation, the Hospital, the Foundation, and NEMG (the Obligated Group). YNHHSC serves as agent of the Obligated Group. The members

of the Obligated Group have adopted certain governance provisions in their certificates of incorporation and bylaws pursuant to which YNHHSC retains the authority to directly take certain actions on behalf of each Obligated Group member without the approval of the board of trustees of the applicable Obligated Group member, including the incurrence of indebtedness on behalf of each Obligated Group member, the management and control of the liquid assets of each, and the appointment of the president and chief executive officer of each Obligated Group member.

The Hospital and subsidiaries operate with a separate Board of Trustees, management staff, and medical staff; however, YNHHSC must approve the strategic plans, operating and capital budgets, and Board of Trustees appointments of the Hospital.

The accounting policies that affect significant elements of the Hospital's consolidated financial statements are summarized below.

Change in Reporting Entity

The change in reporting entity was retrospectively applied to the consolidated financial statements of the Hospital for all periods presented. The impact of the change in reporting entity on selected previously reported financial statement line items is as follows:

Principles of Consolidation

The accompanying consolidated financial statements present the Hospital and its subsidiaries. In consolidating the financial statements of the Hospital and its subsidiaries, all significant intercompany revenues and expenses and intercompany balance sheet amounts have been eliminated in consolidation.

1. Organization and Significant Accounting Policies (continued)

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectibles for accounts receivable for services to patients, and liabilities, including estimated receivables and payables to third-party payors, and professional liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the amounts of revenue and expenses during the reporting period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

During 2014 and 2013, the Hospital recorded a change in estimate of approximately $2.7 million and $6.4 million, respectively. Included in the change are amounts related to favorable third-party payor settlements.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the Hospital has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity. See Notes 5 and 6 for additional information relative to temporarily and permanently restricted net assets.

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value on the date the promise is received. All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

1. Organization and Significant Accounting Policies (continued)

Pledges receivable, included in other current assets and other assets in the accompanying consolidated balance sheets at September 30, 2014 and 2013, are expected to be received as follows (in thousands):

	2014	2013
Due in one year or less	$ 558	$ 591
Due after one year through five years	645	214
Total pledges receivable	1,203	805
Less unamortized discount on contribution receivable (0.1% to 1.8%)	(9)	–
Less allowance for doubtful pledges	(36)	(24)
Pledges receivable, net	$ 1,158	$ 781

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, that are not classified as assets limited as to use or held in the long-term investment portfolio.

Cash and cash equivalents are maintained with domestic financial institutions with deposits that exceed federally insured limits. It is the Hospital's policy to monitor the financial strength of these institutions.

Accounts Receivable

Patient accounts receivable result from the health care services provided by the Hospital. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowances for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage, and other collection indicators. See Note 2 for additional information relative to third-party payor programs.

1. Organization and Significant Accounting Policies (continued)

Investments

The Hospital has designated its investment portfolio as trading. Investment income or loss (including realized gains and losses on investments, interest, and dividends) and the change in net unrealized gains and losses are included in the excess of revenue over expenses unless the income or loss is restricted by donor or law.

Investments in marketable equity securities with readily determinable fair market values and all investments in debt securities (marketable investments) are measured at fair value based on quoted market prices.

Certain alternative investments (non-traditional, not-readily-marketable assets) are structured such that the Hospital holds limited partnership interests or pooled units and are accounted for under the equity method and utilizing Yale University's (the University) reported net asset value per unit for measurement of the units' fair value for the Yale University investment.

Individual investment holdings within the alternative investments may, in turn, include investments in both non-marketable and market-traded securities. Valuations of those investments and, therefore, the Hospital's holdings may be determined by the investment manager or general partner. Fund of funds investments are primarily based on financial data supplied by the underlying investee funds. Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment. The equity method reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The investments may indirectly expose the Hospital to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts, and other derivative products. While these financial instruments may contain varying degrees of risk, the Hospital's risk with respect to such transactions is limited to its capital balance in each investment. The financial statements of the investees are audited annually by independent auditors.

The Hospital participates in the Yale New Haven Health System Investment Trust (the Trust), a unitized Delaware Investment Trust created to pool assets for investment by the Health System non-profit entities. The Trust comprises two pools: the Long-Term Investment Pool (L-TIP) and the Intermediate-Term Investment Pool (I-TIP). Governance of the Trust is performed by the Yale New Haven Health System Investment Committee.

1. Organization and Significant Accounting Policies (continued)

Under the terms of the investment management agreement with the Trust, withdrawals of the Hospital's investment in the L-TIP can be made annually by the Hospital on July 1. Amounts withdrawn are subject to a schedule that allows larger withdrawals with longer notice periods. As of September 30, 2014, the Hospital can withdraw 100% of its investment in the L-TIP as of July 1, 2015. Withdrawals of the Hospital's investment in the I-TIP in any amount can be made quarterly with 30 days' advance notice.

The Trust has an agreement with the University's investment office (the Investment Management Agreement) that allows the University to manage a portion of the Trust's investments as part of the University's Endowment Pool (the Pool). For each of the years ended September 30, 2014 and 2013, the Trust transferred approximately $100.0 million to the University in exchange for units in the Pool. The Trust's interest in the Pool is reported at fair value based on the net asset value per units held. The Pool invests in domestic equity, foreign equity, absolute return, private equity, real assets, fixed income, and cash.

Under the terms of the Investment Management Agreement with the University, withdrawals of the Trust's investment in the Pool can be made annually by the Trust on July 1. For withdrawals of amounts less than $150.0 million or 75% of the Trust's investment in the Pool, $100.0 million or 50% of the Trust's investment in the Pool, and $50.0 million or 25% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 180 days, 90 days, and 30 days, respectively, prior to the University's fiscal year ending June 30. For withdrawals greater than $150.0 million or more than 75% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 270 days prior to the University's fiscal year ending June 30.

In 2011 the Investment Management Agreement between the Trust and the University was modified to allow the Trust to obtain a cash advance, up to a maximum of $75 million, on a monthly basis. For these advances, an interest charge of prime plus 2% will be paid by the Trust. Repayments on the advances are made by the Trust by way of redemptions of a sufficient number of the Trust's units in the Endowment using the June 30 unit valuation. No advances have been requested or taken by the Trust.

Net realized gains and losses on investments and interest and dividends are included in excess of revenue over expenses unless the income or loss is restricted by donor or law. The change in unrealized gains and losses on all investments is included in the excess of revenue over expenses unless the income or loss is restricted by the donor.

1. Organization and Significant Accounting Policies (continued)

Assets Limited as to Use

Assets limited as to use include assets held by trustee under bond indenture agreements. Amounts required to meet current liabilities are reported as current assets. These funds primarily consist of equities, corporate obligations, U.S. government obligations, mutual funds, marketable securities, and money market funds. Changes in unrealized gains and losses are recorded in the excess of revenue over expenses and losses.

Inventories

Inventories, included in prepaid expenses and other current assets, are stated at the lower of cost or market. BH values its inventories using the first-in, first-out method.

Deferred Financing Costs

Deferred financing costs represent costs incurred to obtain long-term financing. Amortization of the costs is provided using a method that approximates the interest method over the remaining term of the applicable indebtedness. The accumulated amortization of deferred financing costs was approximately $0.2 million and $0.1 million at September 30, 2014 and 2013, respectively. See Note 7 for additional information relative to debt-related matters.

Benefits and Insurance

The Hospital provides medical, dental, hospitalization, and prescription drug benefits to employees for which it is self-insured. Liabilities have been accrued for claims, including claims incurred but not reported (IBNRs), which are based on specific experience. At September 30, 2014 and 2013, the estimated liability for self-insured employee medical, prescriptions, and other benefit claims and IBNRs aggregated approximately $1.0 million and $0.9 million, respectively, and is included in accrued expenses in the accompanying consolidated balance sheets.

The Hospital is effectively self-insured for workers' compensation claims. Estimated amounts are accrued for claims, including IBNRs, which are based on specific experience. At September 30, 2014 and 2013, the estimated liability for self-insured workers' compensation claims and IBNRs aggregated approximately $6.1 million and $5.6 million, respectively, discounted at 2.5% in 2014 and in 2013, and is included in other long-term liabilities in the accompanying consolidated balance sheets.

1. Organization and Significant Accounting Policies (continued)

Property, Plant, and Equipment

Property, plant, and equipment purchased are carried at cost, and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation and amortization are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in operations. Depreciation of property, plant, and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives ranging from 3 to 50 years.

Acquisitions

During 2013, the Hospital acquired substantially all of the business, assets, and operations of Robert D. Russo and Associates Radiology P.C. (Russo Radiology). The acquisition includes installment payments totaling approximately $15.0 million, including interest, ranging from approximately $1.5 million to $3.9 million due from May 2013 through June 2017. At September 30, 2014 and 2013, the Hospital has a liability of approximately $6.3 million and $9.5 million, respectively, remaining. The Hospital has accounted for the business combination by applying the acquisition method of accounting in accordance with Accounting Standards Codification (ASC) 805, *Business Combinations*. As a result of the transaction, goodwill in the amount of approximately $13.5 million was recorded and is included in other assets at September 30, 2014 and 2013.

In 2011, the Hospital acquired certain tangible and intangible assets of Cardiac Specialists, P.C. for approximately $1.6 million. As a result of the transaction, goodwill in the amount of approximately $0.8 million was recorded and is included in other assets at September 30, 2014 and 2013.

On June 1, 2014, NEMG and YNHHSC acquired certain assets of PriMed, LLC (PriMed), a physician practice, for approximately $54.2 million. YNHHSC contributed the entire purchase price, of which $25.0 million was transferred from the Hospital to YNHHSC. PriMed is a multi-specialty group of approximately 120 providers in 36 locations across Fairfield County and New Haven County, Connecticut. PriMed also is the sole member of a gastroenterology surgery center, the Fairfield County Endoscopy Center, and offers a number of ancillary services such as a sleep laboratory, cardiac diagnostic testing, physical therapy, and nutritional counseling. Under the terms of the transaction, NEMG and YNHHSC acquired substantially all the assets of PriMed and a 40% interest in the gastroenterology surgery center.

1. Organization and Significant Accounting Policies (continued)

The Hospital is required to review its goodwill for impairment annually. Based on the Hospital's review at September 30, 2014 and 2013, goodwill was determined not to be impaired.

Excess of Revenue over Expenses

In the accompanying statements of operations and changes in net assets, excess of revenue over expenses is the performance indicator. Peripheral or incidental transactions are included in excess of revenue over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue; other gains and losses are classified as non-operating gains and losses.

Contributions of, or restricted to, property, plant, and equipment; transfers of assets to and from affiliates for other than goods and services; and pension and other post-retirement liability adjustments are excluded from the performance indicator but are included in the changes in net assets.

Income Taxes

The Hospital and the Foundation are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and are exempt from federal and state income taxes on related income pursuant to Section 501(a) of the Code. Properties is a tax-exempt organization pursuant to Section 501(c)(2) of the Code and also is not subject to federal and state income taxes.

Asset Retirement Obligation

The Hospital maintains an asset retirement obligation liability related to the estimated future costs to remediate environmental liabilities in certain buildings. The asset and asset retirement obligation liability were approximately $0.3 million and $11.0 million, respectively, at September 30, 2014, and approximately $0.4 million and $12.1 million, respectively, at September 30, 2013.

1. Organization and Significant Accounting Policies (continued)

Reclassifications

Certain reclassifications have been made to the year ended September 30, 2013, balances previously reported in the consolidated financial statements in order to conform with the year ended September 30, 2014, presentation. Approximately $12.9 million reported as a reduction to accounts receivable is now classified as allowances for uncollectible accounts, charity care, and free care on the accompanying balance sheet to conform with current year presentation. See Note 3 for additional information relative to the amendment of the Hospital's Charity Care policy.

New Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The adoption of ASU 2014-09 is required on October 1, 2017, and management is current evaluating the effect of this guidance on its financial statements

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges, and per diem payments. Net patient service revenue is affected by the Connecticut Disproportionate Share Hospital Program (CDSHP), includes premium revenue, and is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

Third-party payor receivables included in other current assets were approximately $4.2 million and $2.7 million at September 30, 2014 and 2013, respectively. Third-party payor receivables included in other long-term assets were approximately $3.4 million at September 30, 2013. Third-party payor liabilities included in other current liabilities were approximately $4.0 million and $4.5 million at September 30, 2014 and 2013, respectively. Third-party payor liabilities included in other long-term liabilities were approximately $18.3 million and $13.4 million at September 30, 2014 and 2013, respectively.

The Hospital has established estimates based on information presently available of amounts due to or from Medicare, Medicaid, and third-party payors for adjustments to current and prior year payment rates, based on industry-wide and Hospital-specific data. Such amounts are included in the accompanying balance sheets. Additionally, certain payors' payment rates for various years have been appealed by the Hospital. If the appeals are successful, additional income applicable to those years might be realized. In April 2014, the Hospital began participation in the Centers for Medicare & Medicaid Services Bundled Payments for Care Improvement initiative. Under the Bundled Payments for Care Improvement initiative, the Hospital has entered into payment arrangements that include financial and performance accountability for episodes of care.

Revenue from Medicare and Medicaid programs accounted for approximately 36% and 20%, respectively, of the Hospital's net patient service revenue for the year ended September 30, 2014, and 38% and 18%, respectively, for the year ended September 30, 2013. Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 39% and 34%, respectively, for the year ended September 30, 2014, and approximately 39% and 31%, respectively, for the year ended September 30, 2013. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term.

The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital. Cost reports for the Hospital, which serve as the basis for final settlement with government payors, have been settled by final settlement through 2010 for Medicare and 2008 for Medicaid. Other years remain open for settlement.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

The significant concentrations of accounts receivable for services to patients include 42% from Medicare, 17% from Medicaid, and 41% from nongovernmental payors at September 30, 2014, and 31% from Medicare, 13% from Medicaid, and 56% from nongovernmental payors at September 30, 2013.

Net patient service revenue comprises the following for the years ended September 30, 2014 and 2013 (in thousands):

	2014	2013
Gross revenue from patients	$ 1,693,080	$ 1,512,520
Deductions:		
Contractual allowances	1,184,162	1,027,832
Charity and free care (at charges)	49,238	37,935
Provision for doubtful accounts	20,305	27,926
Net patient service revenue	$ 439,375	$ 418,827

Patient service revenue for the years ended September 30, 2014 and 2013, net of contractual allowances and discounts (but before the provision for bad debts), recognized from these major payor sources based on primary insurance designation is as follows (in thousands):

	2014	2013
Third-party	$ 441,363	$ 431,452
Self-pay	18,317	15,301
Total all payors	$ 459,680	446,753

Deductibles and copayments under third-party payment programs within the third-party payor amount above are the patient's responsibility, and the Hospital considers these amounts in its determination of the provision for bad debts based on collection experience. Accounts receivable are also reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the Hospital analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

The Hospital's allowance for doubtful accounts totaled approximately $46.4 million and $42.2 million at September 30, 2014 and 2013, respectively. The allowance for doubtful accounts for self-pay patients was approximately 87.5% and 78.5% of self-pay accounts receivable as of September 30, 2014 and 2013, respectively. Overall, the total of self-pay discounts and write-offs did not change significantly in 2014.

3. Uncompensated Care and Community Benefit Expense

The Hospital's commitment to community service is evidenced by services provided to the poor and benefits provided to the broader community. Services provided to the poor include services provided to persons who cannot afford health care because of inadequate resources and/or who are uninsured or underinsured.

The Hospital makes available free care programs for qualifying patients. In accordance with the established policies of the Hospital, during the registration, billing, and collection process a patient's eligibility for free care funds is determined. For patients who were determined by the Hospital to have the ability to pay but did not, the uncollected amounts are bad debt expense. For patients who do not avail themselves of any free care program and whose ability to pay cannot be determined by the Hospital, care given but not paid for is classified as charity care. During the year ended September 30, 2014, the Hospital amended its Charity Care policy. Based upon the policy change, the Hospital experienced increased charity care write offs during the year.

Together, charity care and bad debt expense represent uncompensated care. The estimated cost of total uncompensated care is approximately $31.2 million and $27.9 million for the years ended September 30, 2014 and 2013, respectively. The estimated cost of uncompensated care is based on the ratio of cost to charges, as determined by claims activity. The estimated cost of charity care is based on the ratio of cost to charges. The allocation between bad debt and charity care is determined based on management's analysis on the previous 12 months of hospital data. This analysis calculates the actual percentage of accounts written off or designated as bad debt versus charity care while taking into account the total costs incurred by the hospital for each account analyzed.

The estimated cost of charity care provided was approximately $22.1 million and $16.8 million for the years ended September 30, 2014 and 2013, respectively. The estimated cost of charity care is based on the ratio of cost to charges, as determined by Hospital-specific data.

3. Uncompensated Care and Community Benefit Expense (continued)

For the years ended September 30, 2014 and 2013, bad debt expense, at charges, was approximately $20.3 million and $27.9 million, respectively. For the years ended September 30, 2014 and 2013, bad debt expense, at cost, was approximately $9.1 million and $11.1 million, respectively. The bad debt expense is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above.

The CDSHP was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by a 1% assessment on hospital net inpatient service revenue. During the years ended September 30, 2014 and 2013, the Hospital received approximately $14.4 million and $17.7 million, respectively, in CDSHP distributions, of which approximately $10.2 million and $12.6 million, respectively, related to charity care. The Hospital made payments into CDSHP of approximately $16.9 million for the years ended September 30, 2014 and 2013, respectively, for the 1% assessment.

Additionally, the Hospital provides benefits for the broader community, which includes services provided to other needy populations that may not qualify as poor but need special services and support. Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings, and medical research. The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children, and various community support groups. The Hospital voluntarily assists with the direct funding of several City of Bridgeport programs, including an economic development program and a youth initiative program.

In addition to the quantifiable services defined above, the Hospital provides additional benefits to the community through its advocacy of community service by employees. The Hospital's employees serve numerous organizations through board representation, membership in associations, and other related activities. The Hospital also solicits the assistance of other health care professionals to provide their services at no charge through participation in various community seminars and training programs.

4. Investments and Assets Limited as to Use

[e]The Yale University Endowment Pool maintains a diversified investment portfolio through the use of external investment managers operating in a variety of investment vehicles, including separate accounts, limited partnerships and commingled funds. The pool combines a strong orientation to equity investments with a strong allocation to non-traditional asset classes such as an absolute return, private equity, and real assets.

4. Investments and Assets Limited as to Use (continued)

The Hospital ownership percentage of the Trust was approximately 7.6% and 9.2% as of September 30, 2014 and 2013, respectively. The Hospital's pro rata portion of the Trust's investments is included in the above table.

The Hospital has a 47.6% equity interest in Century Financial Services, Inc. (Century). At September 30, 2014 and 2013, the investment is included in other assets in the accompanying consolidated balance sheets. The investment in Century is carried on the equity basis of accounting and is adjusted for the Hospital's proportionate share of undistributed earnings or losses. Dividends received are deducted from the carrying value of the investment.

5. Endowment

The Hospital's endowment includes donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Hospital has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (CUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Hospital classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment related to the Hospital's beneficial interest in perpetual trusts made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard of prudence prescribed by CUPMIFA. In accordance with CUPMIFA, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the Hospital and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the Hospital; and (7) the investment and spending policies of the Hospital.

6. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets of approximately $33.3 million and $32.0 million for the years ended September 30, 2014 and 2013, respectively, are available for specific hospital operations, teaching, research, indigent and free care, and training.

Permanently restricted net assets of approximately $21.7 million and $20.8 million for the years ended September 30, 2014 and 2013, respectively, consist of donor-restricted endowment principal. The income generated from permanently restricted funds is expendable for purposes designated by donors, including the support of various health care services. Net assets of the Bridgeport Hospital Auxiliary, Inc. are included in temporarily restricted net assets.

7. Debt (continued)

In November 2010, the Hospital obtained a $6.6 million term loan from the CHEFA. The proceeds of the loan were to be used for the purchase and installation of energy savings equipment and various renovations and improvements to the Hospital's infrastructure. The loan is to be paid in monthly installments over ten years at a fixed interest rate of 3.22%.

In May 2012, the Series D tax-exempt revenue bonds were issued through CHEFA under a master trust indenture for approximately $36.4 million, with coupons ranging from 2.0% to 5.0%, and a final maturity of July 2025. The proceeds, including a premium of approximately $4.1 million, were held in an escrow account and used for the retirement of the outstanding Series A and C tax-exempt revenue bonds and to pay for certain bond issuance costs of approximately $0.8 million. The bond premium is being amortized using the effective interest method and is included in interest expense in the accompanying statement of operations and changes in net assets. In connection with the formation of the Obligated Group, the Series D and E debt became an obligation of the Obligated Group and as such is reflected as intercompany debt with YNHHSC.

In June 2012, the Hospital obtained a $5.5 million term loan from CHEFA. The loan is to be paid in monthly installments over five years at a fixed rate of 1.66% with the proceeds to be used for medical and cafeteria equipment. The loan is secured by the equipment purchased with the proceeds of the loan.

In December 2012, in connection with the purchase of a radiology practice, the Hospital entered into a note payable with the seller in the amount of $15.1 million. The note is to be repaid in monthly installments over five years as discussed in Note 1.

In September 2013, the Hospital entered into and drew in full its $25.0 million line of credit with a bank. The bank line of credit requires payment of the outstanding principal amount 12 months subsequent to the initial advance. The obligation bears interest at a rate equal to one-month LIBOR (London Interbank Offered Rate) plus 1.50% per annum. The bank line of credit was paid in full and closed in September 2014.

7. Debt (continued)

In June 2014, the Obligated Group issued Series E revenue bonds totaling approximately $80.9 million. The Series E revenue bonds were issued as fixed rate bonds with an effective interest rate of 3.47%. The proceeds included a premium of approximately $10.1 million. Approximately $40.0 million of the proceeds were used to finance costs for the installation of machinery and equipment and various renovations and improvements to the Hospital's infrastructure. The remaining $50.0 million was used for renovations at Y-NHH. The premium is being amortized and included as interest expense in the consolidated statement of operations and changes in net assets.

In connection with the formation of the Obligated Group, the Series D and E tax-exempt bonds became an obligation of the Obligated Group and as such are reflected as intercompany debt with YNHHSC. Under the terms of the Master Indenture, all members of the Obligated Group are jointly and severally liable for debt issued by YNHHSC on behalf of the Obligated Group.

The terms of the various financing arrangements between CHEFA, the Obligated Group, and the financial institutions providing the letters of credit and the Obligated Group provide for financial covenants regarding the Obligated Group's debt service coverage ratio and liquidity ratio. As of September 30, 2014, the Obligated Group was in compliance with such covenants.

In November 2013, BH entered into an arrangement with a developer to construct a 120,000-square-foot medical office building and adjacent garage in Fairfield County, Connecticut. The arrangement contains provisions for Bridgeport Hospital to begin leasing the property for a 25-year period beginning in April 2016. Management has evaluated the terms of the arrangement and recorded the project as a capital lease. Upon completion, the total estimated capital lease obligation will approximate $102.0 million.

At September 30, 2014, construction costs totaled approximately $20.2 million and are included in construction in progress on the accompanying consolidated balance sheet.

8. Retirement Benefit Plans

The Hospital has a defined benefit pension plan covering substantially all employees. The benefits are based on years of service and employees' average compensation as defined by the plan documents. The Hospital makes contributions in amounts sufficient to meet the required benefits to be paid to plan participants as they become due as required under the Employee Retirement Income Security Act of 1974.

On June 30, 2006, the Hospital froze its defined benefit plan. On October 1, 2006, the Hospital instituted a defined contribution plan covering substantially all employees. The Hospital matches employee 403(b) contributions on a bi-weekly basis, as defined by the defined contribution plan documents, and provides an annual contribution to the employees' accounts based on each

employee's year of service and compensation. The Hospital expensed approximately $9.4 million and $9.5 million relating to the defined contribution plan for the years ended September 30, 2014 and 2013, respectively. Amounts due to the defined contribution plan amounted to approximately $5.2 million at September 30, 2014 and 2013, and are included in accrued expenses in the accompanying balance sheets.

The Hospital's investment strategy for its pension assets balances the liquidity needs of the pension plan with the long-term return goals necessary to satisfy future pension obligations. The target asset allocation seeks to capture the equity premium granted by the capital markets over the long-term while ensuring security of principal to meet near term expenses and obligations through the fixed income allocation. The allocations of the investment pool to various sectors of the markets are designed to reduce volatility in the portfolio.

The Hospital's pension portfolio return assumption of 6.75% is based on the targeted weighted average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension expenses.

Cash Flows

Contributions: The Hospital's and its affiliates' expected contribution to the defined benefit pension plan in 2015 is approximately $10.5 million.

Estimated Future Benefit Payments: The Hospital and its affiliates expect to pay the following benefit payments as appropriate (in thousands):

2015	$ 7,944
2016	8,289

9. Professional Liability and Self-Insurance Arrangements

Y-NHH and a number of academic medical centers are shareholders in the Medical Center Insurance Company, Ltd. (the Captive). The Captive was formed to insure for professional and comprehensive general liability risks of its shareholders and certain affiliated entities of the shareholders. On October 1, 1997, the Hospital was added to the Y-NHH program as an additional insured. The Captive and its wholly owned subsidiary write direct insurance and reinsurance for varying levels of per claim limit exposure. The Captive has reinsurance coverage from outside reinsurers for amounts above the per claim limits. Premiums are based on modified claims made coverage and are actuarially determined based on actual experience of the Hospital and the Captive. The Hospital pays insurance premiums to YNHHSC.

The estimate for modified claims-made professional liabilities and the estimate for incidents that have been incurred but not reported aggregated approximately $41.4 million and $44.8 million at September 30, 2014 and 2013, respectively. The undiscounted estimate for incidents that have been incurred but not reported aggregated approximately $15.7 million and $13.6 million at September 30, 2014 and 2013, respectively, and is included in professional insurance liabilities in the accompanying balance sheets at the actuarially determined present value of approximately $13.9 million and $12.1 million, respectively, based on a discount rate of 2.5% for the years ended September 30, 2014 and 2013.

The Hospital has recorded related insurance recoveries receivable of approximately $27.6 million and $32.7 million at September 30, 2014 and 2013, respectively, in consideration of the expected insurance recoveries for the total discounted modified claims-made insurance. The current portion of professional liabilities and the related insurance receivable represent an estimate of expected settlements and insurance recoveries over the next 12 months.

The Hospital's estimates for professional insurance liabilities are based upon complex actuarial calculations that utilize factors such as historical claims experience for the Hospital and related industry factors, trending models, estimates for the payment patterns of future claims, and present value discount factors. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Revisions to estimated amounts resulting from actual experience differing from projected expectations are recorded in the period the information becomes known or when changes are anticipated.

10. Commitments and Contingencies

Various lawsuits and claims arising in the normal course of operations are pending or are in progress against the Hospital. Such lawsuits and claims are either specifically covered by insurance as explained in Note 9 or are deemed immaterial. While the outcome of these lawsuits cannot be determined at this time, management believes that any loss which may arise from these actions will not have a material adverse effect on the consolidated financial position or results of operations of the Hospital.

The Hospital and its subsidiaries have various lease agreements, some of which provide for adjustments to future lease payments.

The Hospital has an irrevocable letter of credit with a bank to provide coverage to the State of Connecticut for workers' compensation claims. There were no amounts outstanding under this letter of credit during 2014 and 2013.

The Hospital obtained a surety bond to provide coverage to the State of Connecticut for unemployment compensation in 2012. There were no amounts outstanding in 2014 or 2013.

The Hospital has various lease agreements. Lease expense for the years 2014 and 2013, was approximately $5.4 million and $4.7 million, respectively. Future minimum payments under these leases are as follows:

13. Other Revenue (continued)

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments depends on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments. Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal year 2015.

The Hospital uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized when the Hospital is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received. Medicare EHR incentive payment revenue was approximately $2.3 million and $2.6 million for the years ended September 30, 2014 and 2013, respectively. Medicaid EHR incentive payment revenue was approximately $0.7 million and $1.0 million for the years ended September 30, 2014 and 2013, respectively. EHR incentive payment revenue is included in other revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were calculated.

Additionally, the Hospital's attestation of compliance with the meaningful use criteria is subject to audit by the federal government.

15. Fair Values Measurements

In determining fair value, the Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Hospital also considers nonperformance risk in the overall assessment of fair value.

ASC 820, *Fair Value Measurement*, establishes a three-tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

- Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.

15. Fair Values Measurements (continued)

- Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.
- Level 3: Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

Financial assets carried at fair value as of September 30, 2014 and 2013, are classified in the following tables in the three categories described above (in thousands):

PART I, LN 7 COL(F):

PART II - COMMUNITY BUILDING ACTIVITIES

BRIDGEPORT HOSPITAL (BH) IS THE LARGEST PRIVATE EMPLOYER IN BRIDGEPORT WITH 2,477 EMPLOYEES IN 2012. THE HOSPITAL HAS TAKEN A LEADERSHIP ROLE IN IMPROVING THE HEALTH IN THE COMMUNITY IT SERVES BY PROVIDING IN-KIND AND FINANCIAL SUPPORT FOR INITIATIVES THROUGHOUT THE GREATER BRIDGEPORT AREA. MEMBERS OF THE HOSPITAL'S LEADERSHIP AND MANAGEMENT STAFF ALSO SUPPORT ECONOMIC DEVELOPMENT BY SERVING ON THE BOARDS OF THE BRIDGEPORT REGIONAL BUSINESS COUNCIL, BRIDGEPORT CHAMBER OF COMMERCE, AREA ROTARY CLUBS AND NON-PROFIT CULTURAL VENUES. THERE IS CONSIDERABLE RESEARCH

Part VI Supplemental Information

LINKING THE IMPACT OF SOCIOECONOMIC CONDITIONS TO ONE'S HEALTH. SOCIAL DETERMINANTS OF HEALTH INCLUDE HOUSING, EDUCATION, EMPLOYMENT/EMPLOYABILITY AND NEIGHBORHOOD CONDITIONS.

BRIDGEPORT HOSPITAL ALONG WITH MANY OTHER HOSPITALS ACROSS THE COUNTRY UTILIZES THE COMMUNITY BENEFITS INVENTORY FOR SOCIAL ACCOUNTABILITY (CBISA) DATABASE DEVELOPED BY LYON SOFTWARE TO CATALOG ITS COMMUNITY BENEFIT AND COMMUNITY BUILDING ACTIVITIES AND THE GUIDELINES DEVELOPED BY THE CATHOLIC HOSPITAL ASSOCIATION (CHA) IN ORDER TO CATALOG THESE BENEFITS. THESE TWO ORGANIZATIONS HAVE WORKED TOGETHER FOR OVER TWENTY YEARS TO PROVIDE SUPPORT TO NON-FOR-PROFIT HOSPITALS TO DEVELOP AND SUSTAIN EFFECTIVE COMMUNITY BENEFIT PROGRAMS.

THE MOST RECENT VERSION OF THE CHA GUIDE FOR PLANNING AND REPORTING COMMUNITY BENEFIT DEFINES COMMUNITY BUILDING ACTIVITIES AS PROGRAMS THAT ADDRESS THE ROOT CAUSES OF HEALTH PROBLEMS, SUCH AS POVERTY, HOMELESSNESS AND ENVIRONMENTAL PROBLEMS. THESE ACTIVITIES ARE CATEGORIZED INTO EIGHT DISTINCT AREAS INCLUDING PHYSICAL IMPROVEMENT AND HOUSING, ECONOMIC DEVELOPMENT, COMMUNITY SUPPORT ENVIRONMENTAL IMPROVEMENTS, LEADERSHIP DEVELOPMENT AND TRAINING FOR COMMUNITY MEMBERS, COALITION BUILDING, ADVOCACY FOR COMMUNITY HEALTH IMPROVEMENTS, AND WORKFORCE DEVELOPMENT.

WHILE BH'S VISION IS TO BE THE PREFERRED HEALTHCARE PROVIDER IN THE REGION, THE HOSPITAL IS INCREASINGLY AWARE OF HOW SOCIAL DETERMINANTS IMPACT THE HEALTH OF INDIVIDUALS AND COMMUNITIES. A PERSON'S HEALTH AND CHANCES OF BECOMING SICK AND DYING EARLY ARE GREATLY INFLUENCED BY POWERFUL SOCIAL FACTORS SUCH AS EDUCATION, INCOME, NUTRITION, HOUSING

Part VI Supplemental Information

AND NEIGHBORHOODS. DURING FISCAL YEAR 2012, BRIDGEPORT HOSPITAL PROVIDED $104,000 IN FINANCIAL AND IN-KIND DONATIONS TO SUPPORT JOB TRAINING, ECONOMIC DEVELOPMENT AND OTHER ESSENTIAL SERVICES. THE HOSPITAL CONSIDERS THESE INVESTMENTS PART OF ITS OVERALL COMMITMENT OF BUILDING STRONGER NEIGHBORHOODS. EXAMPLES BELOW FOCUS ON THE AREAS OF REVITALIZING OUR NEIGHBORHOODS AND CREATING EDUCATIONAL OPPORTUNITIES.

REVITALIZING OUR NEIGHBORHOODS

SEVERAL YEARS AGO, THE CITY OF BRIDGEPORT ORGANIZED NEIGHBORHOOD REVITALIZATION ZONES (NRZ) IN ORDER TO EXPAND AND IMPROVE BUSINESS AND HOUSING IN LOW-TO-MODERATE INCOME NEIGHBORHOODS OR AREAS WITHIN NEIGHBORHOODS. THE NRZS RECEIVED TECHNICAL ASSISTANCE FROM THE CITY AND OUTSIDE CONSULTANTS, AND ENGAGE NEIGHBORHOOD RESIDENTS, NON-PROFITS, AND FAITH-BASED ORGANIZATIONS TO MEET AND FORM STAKEHOLDER GROUPS. THESE GROUPS IDENTIFY THE PRIORITIES AND NEEDS OF THE NEIGHBORHOODS AND ARE ELIGIBLE TO BORROW STATE MONEY TO PURCHASE BLIGHTED PROPERTIES OR OFFER LOW-INTEREST LOANS TO QUALIFYING BUSINESSES FOR FACADE IMPROVEMENTS. HOSPITAL LEADERSHIP HAS BEEN ACTIVELY ENGAGED IN THE NRZ PROCESS FROM THE ONSET WITH REPRESENTATIVES SERVING ON COMMITTEES ORGANIZED IN THE CITY'S EAST END AND EAST SIDE, WHICH ARE BOTH LOCATED NEAR THE HOSPITAL.

DURING 2012, BRIDGEPORT HOSPITAL WORKED CLOSELY WITH THE CITY OF BRIDGEPORT TO DEVELOP AND IMPLEMENT AN NRZ IN THE MILL HILL NEIGHBORHOOD, WHICH DIRECTLY SURROUNDS THE HOSPITAL. IN ORDER TO BE RECOGNIZED AS AN NRZ, THE GROUP MUST RECEIVE APPROVAL FROM THE CITY COUNCIL AND DEVELOP A REVITALIZATION OR STRATEGIC PLAN FOR THE NEIGHBORHOOD. THE PROCESS FOR THE MILL HILL AREA TO BECOME AN NRZ WAS

Part VI Supplemental Information

INITIATED THROUGH A NEIGHBORHOOD WORKSHOP HELD ON JUNE 30, 2013.

SIX YEARS AGO, PRIOR TO THE CITY'S EFFORT TO DEVELOP AN NRZ IN MILL HILL, THE HOSPITAL CREATED WHAT IS NOW CALLED THE BRIDGEPORT HOSPITAL COMMUNITY PARTNERSHIP. THIS UNIQUE PROGRAM WAS DEVELOPED TO IMPLEMENT MEASURABLE AND SUSTAINABLE QUALITY-OF-LIFE ENHANCEMENTS IN THE NEIGHBORHOODS DIRECTLY SURROUNDING THE HOSPITAL. OVER 900 NEIGHBORHOOD RESIDENTS RECEIVE INVITATIONS TO ATTEND THE HOSPITAL-SPONSORED MEETINGS. THE RESIDENTS IDENTIFIED ISSUES OR CONCERNS THEY HAD RELATED TO THEIR NEIGHBORHOOD, AND THE HOSPITAL WORKED WITH ITS NETWORK OF LOCAL GOVERNMENT AND COMMUNITY ORGANIZATIONS TO ADDRESS THESE ISSUES. IN 2012, EXPERT SPEAKERS AT COMMUNITY PARTNERSHIP MEETINGS PROVIDED INFORMATION ABOUT SUCCESSFUL AGING, ECONOMIC DEVELOPMENT INITIATIVES IN THE NEIGHBORHOOD SUCH AS PLANS FOR THE FORMER GE COMPLEX ON BOSTON AVENUE AND THE PROPOSED GRANT STREET PLAZA TO IMPROVE SAFETY.

THE HOSPITAL ALSO PROVIDED OPERATIONAL SUPPORT TO THE EAST END COMMUNITY COUNCIL, A GROUP OF COMMUNITY RESIDENTS, BUSINESS, CIVIC, RELIGIOUS LEADERS AND COMMUNITY POLICE OFFICERS. THE EAST END COMMUNITY COUNCIL WORKS COLLABORATIVELY TO ENHANCE THE QUALITY OF LIFE IN THE NEIGHBORHOOD THROUGH VARIOUS INITIATIVES INCLUDING SAFE STREETS, FOOD PANTRIES, ANNUAL TOY DRIVES AND A LITTLE LEAGUE TEAM.

BRIDGEPORT HOSPITAL, ALONG WITH OTHER AREA BUSINESSES, IS A FOUNDING MEMBER OF THE SEAVIEW AVENUE BUSINESS ALLIANCE. THE SEAVIEW AVENUE BUSINESS ALLIANCE IS A NON-PROFIT ORGANIZATION DEDICATED TO IMPROVING STREETSCAPES AND IMPROVING THE AREA ALONG THE SEAVIEW AVENUE CORRIDOR. THE ORGANIZATION ALSO PROVIDES ANNUAL SCHOLARSHIPS TO STUDENTS

Part VI Supplemental Information

GRADUATING FROM HARDING HIGH SCHOOL WHO PLAN TO ATTEND COLLEGE. IN 2012, THE HOSPITAL PROVIDED FINANCIAL AND IN-KIND SUPPORT FOR THESE EFFORTS.

CREATING EDUCATIONAL OPPORTUNITIES

SINCE HIGHER EDUCATIONAL ATTAINMENT IS ASSOCIATED WITH BETTER HEALTH STATUS AND LONGER LIFE, DISPARITIES ACROSS SOCIOECONOMIC STATUS GROUPS IN THE U.S. HAVE RECEIVED INCREASING ATTENTION IN RECENT YEARS FROM RESEARCHERS, THE HEALTH POLICY COMMUNITY, AND THE GENERAL PUBLIC. FOR EXAMPLE, ADULTS AGED 25-50 YEARS WHO HAVE A COLLEGE DEGREE WILL ON AVERAGE LIVE FIVE YEARS LONGER THAN THOSE WITH LESS THAN A HIGH SCHOOL EDUCATION. ACCORDING TO THE BRIDGEPORT CHILD ADVOCACY COALITION, ONLY 70% OF BRIDGEPORT'S GRADUATING CLASS OF 2012 WENT ON TO POST-SECONDARY EDUCATION, COMPARED TO 86% STATEWIDE. RESULTS FROM THE CONNECTICUT MASTERY TEST CONSISTENTLY DEMONSTRATE AN ACHIEVEMENT GAP BETWEEN BRIDGEPORT YOUTH AND THEIR STATEWIDE PEERS.

REFLECTING ITS STRONG COMMITMENT TO THE BRIDGEPORT COMMUNITY AND SUPPORT OF EDUCATION, BRIDGEPORT HOSPITAL CONTINUED MENTORING AND CAREER EXPLORATION OPPORTUNITIES DURING THE YEAR. ONE EXAMPLE IS THE NEWLY CREATED YALE-BRIDGEPORT GEAR UP PARTNERSHIP, WHICH PROVIDES EARLY EXPOSURE TO CAREER OPPORTUNITIES FOR STUDENTS TO IMPROVE THEIR ENGAGEMENT AND MOTIVATION IN SCHOOL. THE FUNDING FOR THIS PROJECT TARGETS BRIDGEPORT STUDENTS WHO ARE IN THE GRADUATING CLASSES OF 2014 AND 2017 AND WILL FOLLOW THOSE STUDENTS FROM SEVENTH GRADE THROUGH THEIR FRESHMAN YEAR IN COLLEGE AS PART OF A RESEARCH STUDY THROUGH YALE UNIVERSITY. OVER 45 SEVENTH GRADERS ATTENDED A CAREER FAIR AND TOUR OF BRIDGEPORT HOSPITAL AS PART OF THE PROGRAM. ADDITIONAL PARTNERS

Part VI Supplemental Information

INCLUDE THE BRIDGEPORT REGIONAL BUSINESS COUNCIL, ST. VINCENT'S MEDICAL CENTER, UNITED WAY OF COASTAL FAIRFIELD COUNTY, PEOPLE'S BANK, FAIRFIELD UNIVERSITY, SACRED HEART UNIVERSITY, UNIVERSITY OF BRIDGEPORT, HOUSATONIC COMMUNITY COLLEGE AND NORWALK COMMUNITY COLLEGE.

HOSPITAL STAFF FROM VARIOUS DEPARTMENTS INCLUDING THE EMERGENCY DEPARTMENT, WOMEN'S CARE CENTER, SURGICAL SERVICES, CENTRAL STERILE PROCESSING, FOOD AND NUTRITION SERVICES, AND PHYSICAL THERAPY PARTICIPATED IN MENTORING PROGRAMS COORDINATED THROUGH THE HOSPITAL'S HUMAN RESOURCES AND VOLUNTEER SERVICES DEPARTMENTS. OVER 30 AREA HIGH SCHOOL STUDENTS PARTICIPATED IN THE PROGRAMS, WHICH INCLUDE E-MENTORING, AN INTERNSHIP PROGRAM AND TEEN CAMP FOCUSED ON PROVIDING BASIC KNOWLEDGE AND INSIGHT INTO THE SKILLS REQUIRED FOR A NUMBER OF CAREERS IN HEALTHCARE.

A SCHOOL SUPPLY DRIVE WAS HELD AT THE HOSPITAL FOR STUDENTS AT THE HALL ELEMENTARY SCHOOL. HOSPITAL EMPLOYEES CONTRIBUTED NOTEBOOKS, BINDERS, BACKPACKS, RULERS, PACKAGES OF PAPER, CRAYONS AND PENCILS AND OTHER ITEMS TO HELP ASSIST THE 350 STUDENTS TO BEGIN THEIR SCHOOL YEAR. HALL ELEMENTARY SCHOOL IS LOCATED IN THE MILL HILL NEIGHBORHOOD OF BRIDGEPORT.

AS MENTIONED IN THE PREVIOUS SECTION, BRIDGEPORT HOSPITAL THROUGH THE SEAVIEW AVENUE BUSINESS ALLIANCE PROVIDED SCHOLARSHIPS TO SENIORS FROM HARDING HIGH SCHOOL WHO WILL BE ATTENDING COLLEGE. THE HOSPITAL IS ALSO A MEMBER OF THE BRIDGEPORT CHILD ADVOCACY COALITION, WHICH IS A COALITION OF ORGANIZATIONS, PARENTS AND OTHER CONCERNED INDIVIDUALS COMMITTED TO IMPROVING THE WELL-BEING OF BRIDGEPORT'S CHILDREN THROUGH

RESEARCH, ADVOCACY, COMMUNITY EDUCATION AND MOBILIZATION.

PART III, LINE 4: FOOTNOTE FROM AUDITED FINANCIAL STATEMENTS:

THE HOSPITAL'S COMMITMENT TO COMMUNITY SERVICE IS EVIDENCED BY SERVICES PROVIDED TO THE POOR AND BENEFITS PROVIDED TO THE BROADER COMMUNITY. SERVICES PROVIDED TO THE POOR INCLUDE SERVICES PROVIDED TO PERSONS WHO CANNOT AFFORD HEALTHCARE BECAUSE OF INADEQUATE RESOURCES AND/OR WHO ARE UNINSURED OR UNDERINSURED.

THE HOSPITAL MAKES AVAILABLE FREE CARE PROGRAMS FOR QUALIFYING PATIENTS. IN ACCORDANCE WITH THE ESTABLISHED POLICIES OF THE HOSPITAL, DURING THE REGISTRATION, BILLING AND COLLECTION PROCESS A PATIENT'S ELIGIBILITY FOR FREE CARE FUNDS IS DETERMINED. FOR PATIENTS WHO WERE DETERMINED BY THE HOSPITAL TO HAVE THE ABILITY TO PAY BUT DID NOT, THE UNCOLLECTED AMOUNTS ARE BAD DEBT EXPENSE. FOR PATIENTS WHO DO NOT AVAIL THEMSELVES OF ANY FREE CARE PROGRAM AND WHOSE ABILITY TO PAY CANNOT BE DETERMINED BY THE HOSPITAL, CARE GIVEN BUT NOT PAID FOR, IS CLASSIFIED AS CHARITY CARE. TOGETHER, CHARITY CARE AND BAD DEBT EXPENSE REPRESENT UNCOMPENSATED CARE. THE ESTIMATED COST OF TOTAL UNCOMPENSATED CARE IS APPROXIMATELY $17.7 MILLION AND $16.5 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011, RESPECTIVELY. THE ESTIMATED COST OF UNCOMPENSATED CARE IS BASED ON THE RATIO OF COST TO CHARGES, AS DETERMINED BY CLAIMS ACTIVITY. THE ALLOCATION BETWEEN BAD DEBT AND CHARITY CARE IS DETERMINED BASED ON MANAGEMENT'S ANALYSIS ON THE PREVIOUS 12 MONTHS OF HOSPITAL DATA. THIS ANALYSIS CALCULATES THE ACTUAL PERCENTAGE OF ACCOUNTS WRITTEN OFF OR DESIGNATED AS BAD DEBT VS. CHARITY CARE WHILE TAKING INTO ACCOUNT THE TOTAL COSTS INCURRED BY THE HOSPITAL FOR EACH ACCOUNT ANALYZED.

THE ESTIMATED COST OF CHARITY CARE PROVIDED WAS $11.2 MILLION AND $11.7 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011, RESPECTIVELY. THE

Part VI Supplemental Information

ESTIMATED COST OF CHARITY CARE IS ESTIMATED USING THE RATIO OF COST TO GROSS CHARGES APPLIED TO THE GROSS UNCOMPENSATED COST ASSOCIATED WITH PROVIDING CHARITY CARE.

FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011, BAD DEBT EXPENSE, AT CHARGES, WAS $16.6 MILLION AND $12.3 MILLION, RESPECTIVELY. THE BAD DEBT EXPENSE IS MULTIPLIED BY THE RATIO OF COST TO CHARGES FOR PURPOSES OF INCLUSION IN THE TOTAL UNCOMPENSATED CARE AMOUNT IDENTIFIED ABOVE.

THE CONNECTICUT DISPROPORTIONATE SHARE HOSPITAL PROGRAM ("CDSHP") WAS ESTABLISHED TO PROVIDE FUNDS TO HOSPITALS FOR THE PROVISION OF UNCOMPENSATED CARE AND IS FUNDED, IN PART, BY A 1% ASSESSMENT ON HOSPITAL NET INPATIENT SERVICE REVENUE. DURING THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011, THE HOSPITAL RECEIVED $20.0 MILLION AND $5.0 MILLION, RESPECTIVELY, IN DISTRIBUTIONS FROM CDSHP, OF WHICH APPROXIMATELY $12.6 MILLION AND $3.5 MILLION WAS RELATED TO CHARITY CARE. THE HOSPITAL MADE PAYMENTS INTO CDSHP OF $16.9 MILLION AND $4.2 MILLION FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011, RESPECTIVELY, FOR THE 1% ASSESSMENT.

ADDITIONALLY, THE HOSPITAL PROVIDES BENEFITS FOR THE BROADER COMMUNITY WHICH INCLUDES SERVICES PROVIDED TO OTHER NEEDY POPULATIONS THAT MAY NOT QUALIFY AS POOR BUT NEED SPECIAL SERVICES AND SUPPORT. BENEFITS INCLUDE THE COST OF HEALTH PROMOTION AND EDUCATION OF THE GENERAL COMMUNITY, INTERNS AND RESIDENTS, HEALTH SCREENINGS, AND MEDICAL RESEARCH. THE BENEFITS ARE PROVIDED THROUGH THE COMMUNITY HEALTH CENTERS, SOME OF WHICH SERVICE NON-ENGLISH SPEAKING RESIDENTS, DISABLED CHILDREN, AND VARIOUS COMMUNITY SUPPORT GROUPS. THE HOSPITAL VOLUNTARILY ASSISTS WITH THE DIRECT FUNDING OF SEVERAL CITY OF BRIDGEPORT PROGRAMS, INCLUDING AN ECONOMIC DEVELOPMENT PROGRAM AND A YOUTH INITIATIVE PROGRAM.

IN ADDITION TO THE QUANTIFIABLE SERVICES DEFINED ABOVE, THE HOSPITAL PROVIDES ADDITIONAL BENEFITS TO THE COMMUNITY THROUGH ITS ADVOCACY OF

Part VI Supplemental Information

COMMUNITY SERVICE BY EMPLOYEES. THE HOSPITAL'S EMPLOYEES SERVE NUMEROUS ORGANIZATIONS THROUGH BOARD REPRESENTATION, MEMBERSHIP IN ASSOCIATIONS AND OTHER RELATED ACTIVITIES. THE HOSPITAL ALSO SOLICITS THE ASSISTANCE OF OTHER HEALTHCARE PROFESSIONALS TO PROVIDE THEIR SERVICES AT NO CHARGE THROUGH PARTICIPATION IN VARIOUS COMMUNITY SEMINARS AND TRAINING PROGRAMS.

COSTING METHODOLOGY:

IN ACCORDANCE WITH THE ESTABLISHED POLICIES OF THE HOSPITAL, DURING THE REGISTRATION, BILLING AND COLLECTION PROCESS A PATIENT'S ELIGIBILITY FOR FREE CARE FUNDS IS DETERMINED. FOR PATIENTS WHO WERE DETERMINED BY THE HOSPITAL TO HAVE THE ABILITY TO PAY BUT DID NOT, THE UNCOLLECTED AMOUNTS ARE BAD DEBT EXPENSE. THE HOSPITAL'S COST ACCOUNTING SYSTEM UTILIZES PATIENT-SPECIFIC DATA TO ACCUMULATE AND DERIVE COSTS RELATED TO THESE BAD DEBT ACCOUNTS.

PART III, LINE 8: MEDICARE EXPLANATION:

THE ENTIRE MEDICARE LOSS PRESENTED SHOULD BE TREATED AS A COMMUNITY BENEFIT FOR THE FOLLOWING REASONS: THE IRS COMMUNITY BENEFIT STANDARD INCLUDES THE PROVISION OF CARE TO MEDICARE BENEFICIARIES, IRS REVENUE RULING 69-545 INDICATES THAT HOSPITALS OPERATE FOR THE PROMOTION OF HEALTH IN THE COMMUNITY WHEN IT PROVIDES CARE TO PATIENTS WITH GOVERNMENTAL HEALTH BENEFITS, THE ORGANIZATION PROVIDES CARE TO MEDICARE PATIENTS REGARDLESS OF MEDICARE SHORTFALLS (REDUCING THE BURDEN ON THE GOVERNMENT), AND MANY OF THE MEDICARE PARTICIPANTS WOULD HAVE QUALIFIED FOR THE CHARITY CARE OR OTHER MEANS TESTED PROGRAMS ABSENT BEING ENROLLED IN THE MEDICARE PROGRAM. THE MEDICARE SHORTFALL REPORTED IS DETERMINED BY THE HOSPITAL'S COST ACCOUNTING SYSTEM, TSI.

PART III, LINE 9B: COLLECTION PRACTICES EXPLANATION:

IF, AT ANY TIME, THE HOSPITAL, OR A COLLECTION AGENCY OR LAW FIRM, RECEIVES INFORMATION THAT A PATIENT IS OR MAY BE ELIGIBLE FOR FINANCIAL ASSISTANCE UNDER ONE OF THESE PROGRAMS, OR UNDER ANY GOVERNMENTAL OR OTHER PROGRAM, THE HOSPITAL, COLLECTION AGENCY OR LAW FIRM SHALL, CONSISTENT WITH CONNECTICUT LAW, CEASE COLLECTION EFFORTS UNTIL THE HOSPITAL DETERMINES THE PATIENT'S ELIGIBILITY FOR ASSISTANCE.

BRIDGEPORT HOSPITAL:

PART V, SECTION B, LINE 19D:

THE PCAG COMMUNITY HEALTH NEEDS ASSESSMENT SUBCOMMITTEE, WHICH INCLUDES THE PCAG MEMBERS AND ALL LOCAL TOWN HEALTH DEPARTMENTS IN A SUCCESSFUL COMMUNITY-WIDE COLLABORATION, INITIATED THE FIRST PHASE OF THE CHNA BY COMPLETING A COMPREHENSIVE INVENTORY OF EXISTING HEALTH STATUS INDICATORS AND ASSET MAPPING. HEALTH SCORECARDS WERE COMPLETED FOR EACH TOWN BASED ON HEALTHY PEOPLE 2020 BENCHMARKS, DATA GAPS WERE IDENTIFIED AND A CONSULTANT WAS SELECTED TO ASSIST WITH FILLING IN THE DATA GAPS AND LEADING THE DEVELOPMENT OF THE RESULTING COMMUNITY HEALTH IMPROVEMENT PLAN. THE CONSULTANT WORK PLAN FOR FY 2013 INCLUDES THE DEVELOPMENT OF A SURVEY TOOL TO BE USED FOR PRIMARY DATA COLLECTION, FOCUS GROUPS AND KEY STAKEHOLDER INTERVIEWS. LOCAL PCAG REPRESENTATIVES WERE ALSO VERY INVOLVED AT THE STATE LEVEL TO DEVELOP A STATE-WIDE APPROACH COMMUNITY HEALTH NEEDS ASSESSMENTS TO FACILITATE FUTURE ALIGNMENT ACROSS THE STATE OF CONNECTICUT.

THE 2012 EFFORTS OF THE PRIMARY CARE ACTION GROUP IS MEANT TO COMPLIMENT AND EXPAND PREVIOUS EFFORTS INCLUDING THE 2010 BRIDGEPORT HOSPITAL LED REVIEW OF PAST NEEDS ASSESSMENT REPORTS, LOCAL, REGIONAL, STATE AND NATIONAL PUBLIC HEALTH DATA AND STATE HOSPITAL AND OTHER LOCAL PROVIDER DATA TO IDENTIFY THE KEY HEALTH ISSUES IN THE COMMUNITY. WHERE POSSIBLE, DATA FOR INSURED PATIENTS WAS SPECIFICALLY COMPARED TO THAT OF UNINSURED PATIENTS TO IDENTIFY DIFFERENCES. THIS DATA WAS ALSO UTILIZED BY THE CITY OF BRIDGEPORT TO CREATE SPECIFIC QUESTIONS FOR A 2011 ASSESSMENT THAT RESULTED IN THE CREATION OF FACT SHEETS FOR PRIORITY AREAS INCLUDING: OBESITY, CHRONIC DISEASE: DIABETES AND

RESEARCH

STATE CANCER REGISTRIES ENABLE PUBLIC HEALTH PROFESSIONALS TO BETTER UNDERSTAND AND ADDRESS CANCER BURDEN. REGISTRY DATA ARE CRITICAL FOR TARGETING PROGRAMS FOCUSED ON RISK-RELATED BEHAVIORS OR ON ENVIRONMENTAL RISK FACTORS. SUCH INFORMATION IS ALSO ESSENTIAL FOR IDENTIFYING WHEN AND WHERE CANCER SCREENING EFFORTS SHOULD BE ENHANCED AND FOR MONITORING THE TREATMENT PROVIDED TO CANCER PATIENTS. IN ADDITION, RELIABLE REGISTRY DATA ARE FUNDAMENTAL TO A VARIETY OF

RESEARCH EFFORTS, INCLUDING THOSE AIMED AT EVALUATING THE EFFECTIVENESS OF CANCER PREVENTION, CONTROL OR TREATMENT PROGRAMS. IN THE UNITED STATES, THESE DATA ARE REPORTED TO A CENTRAL STATEWIDE REGISTRY FROM VARIOUS MEDICAL FACILITIES INCLUDING HOSPITALS, PHYSICIANS'S OFFICES, THERAPEUTIC RADIATION FACILITIES, FREESTANDING SURGICAL CENTERS AND PATHOLOGY LABORATORIES. DURING FY 2012, THE TOTAL COST ASSOCIATED WITH THE BRIDGEPORT HOSPITAL CANCER REGISTRY WAS $239,400.

THE CLINICAL TRIALS COOPERATIVE GROUP PROGRAM AT BRIDGEPORT HOSPITAL, WHICH IS SPONSORED BY THE NATIONAL CANCER INSTITUTE (NCI), IS DESIGNED TO PROMOTE AND SUPPORT CLINICAL TRIALS OF NEW CANCER TREATMENTS, EXPLORE METHODS OF CANCER PREVENTION AND EARLY DETECTION, AND STUDY QUALITY-OF-LIFE ISSUES AND REHABILITATION DURING AND AFTER TREATMENT. GET HEALTHY CT EXPANDED ITS REACH AND IMPACT THIS YEAR. THE COALITION, WHICH WAS FORMED NEARLY TWO YEARS AGO BY MEMBERS OF PRIMARY CARE ACTION GROUP, LAUNCHED A WEBSITE TO PROVIDE INFORMATION ABOUT ITS MISSION AND MEMBER ORGANIZATIONS, AS WELL AS EDUCATION AND ACCESS TO RESOURCES ON HOW TO EAT HEALTHY AND BE PHYSICALLY ACTIVE. IT APPLIED FOR A CMS INNOVATIONS GRANT AND A CDC COMMUNITY TRANSFORMATION GRANT, AND IN APRIL, CREATED AND DISSEMINATED A HEALTHY EATING PLEDGE TO LOCAL ORGANIZATIONS AND BUSINESSES, ASKING THEM TO AGREE TO SERVE HEALTHY FOODS AT MEETINGS. OVER 50 ORGANIZATIONS, INCLUDING BRIDGEPORT HOSPITAL, BUSINESSES, NON-PROFIT ORGANIZATIONS AND CHURCHES, HAVE SIGNED THE PLEDGE AND ARE SERVING HEALTHIER FOODS, WHICH WILL HELP THE COMMUNITY REDUCE OBESITY OVER TIME. A PHYSICAL ACTIVITY PLEDGE AIMED AT HELPING EMPLOYERS TO ENCOURAGE PHYSICAL ACTIVITY FOR THEIR EMPLOYEES WAS IMPLEMENTED IN SEPTEMBER.

Report of Independent Auditors

The Board of Directors
Bridgeport Hospital

We have audited the accompanying balance sheets of Bridgeport Hospital (the "Hospital") as of September 30, 2012 and 2011, and the related statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial free of material misstatement. We were not engaged to perform an audit of the al control over financial reporting. Our audits included consideration of internal control ove ancial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control over financial reporting. Accordingly, we express no such opinion. An au also includes examining, on a test basis, evidence supporting the amounts and disclosures in the fina ial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bridgeport Hospital as of September 30, 2012 and 2011, and the results of its operations and its changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

As discussed in Notes 1 and 9 to the accompanying financial statements, in 2012 the Hospital changed its method of accounting for estimated insurance claims receivable and estimated insurance claims liabilities with the adoption of Accounting Standards Update 2012-24, *Presentation of Insurance claims and Related Insurance Recoveries.*

1. Organization and Significant Accounting Policies

Bridgeport Hospital (the "Hospital") is a voluntary association incorporated under the General Statutes of the State of Connecticut. Bridgeport Hospital & Healthcare Services, Inc. ("BHHS"), a Connecticut not-for-profit corporation, is the sole member of the following not-for-profit, non-stock corporations: the Hospital, Bridgeport Hospital Foundation, Inc. (the "Foundation"), Southern Connecticut Health System Properties, Inc. ("Properties").

Yale-New Haven Health Services Corporation ("YNHHSC") is the sole member of BHHS and two similar organizations. Each of these three tax-exempt organizations serves as the sole member/parent for its respective delivery network of regional health care providers and related entities. Under the terms of an agreement with YNHHSC, BHHS and the Hospital continue to operate autonomously with separate boards, management and medical staff; however, YNHHSC approves the Hospital's strategic plans, operating and capital budgets, and Board appointments.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectibles for accounts receivable for services to patients, and liabilities, including estimated receivables and payables to third-party payors and professional liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the amounts of revenue and expenses during the reporting period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

During fiscal 2012 the Hospital recorded a change in estimate of approximately $4.1 million related to favorable third-party settlements and during fiscal 2011 recorded a change in estimate of approximately $5.0 million related to favorable third-party settlements.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the Hospital has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity. See Notes 5 and 6 for additional information relative to temporarily and permanently restricted net assets.

1. Organization and Significant Accounting Policies (continued)

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value on the date the promise is received. All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, which are not classified as assets limited as to use or restricted or held in the long-term investment portfolio.

Cash and cash equivalents are maintained with domestic financial institutions with deposits which exceed federally insured limits. It is the Hospital's policy to monitor the financial strength of these institutions.

Accounts Receivable

Patient accounts receivable result from the health care services provided by the Hospital. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowances for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to third-party payor programs.

Investments

The Hospital has designated all investments reported in the accompanying balance sheets as trading securities. As such, unrealized gains and losses are included in the excess of revenue and over expenses.

1. Organization and Significant Accounting Policies (continued)

Investments in marketable equity securities with readily determinable fair market values and all investment in debt securities (marketable investments) are measured at fair value based on quoted market prices.

The Hospital participates in the Yale New Haven Health System Investment Trust (the "Trust"), a unitized Delaware Investment Trust created to pool assets for investment by the Health System non-profit entities. The Trust is comprised of two pools: the Long-Term Investment Pool ("L-TIP") and the Intermediate-Term Investment Pool ("I-TIP"). Governance of the Trust is performed by the Yale New Haven Health System Investment Committee.

Under the terms of the investment management agreement with the Trust, withdrawals of the Hospital's investment in the L-TIP can be made annually by the Hospital on July 1. Amounts withdrawn are subject to a schedule that allows larger withdrawals with longer notice periods. As of September 30, 2011, the Hospital can withdraw 100% of its investment in the L-TIP on July 1, 2012. Withdrawals of the Hospital's investment in the I-TIP in any amount can be made quarterly with 30 days advance notice.

Certain alternative investments (non-traditional, not-readily-marketable assets) are structured such that the Hospital holds limited partnership interests or pooled units and are accounted for under the equity method and utilizing Yale University's (the "University") reported net asset value per unit for measurement of the units' fair value for the Yale University investment.

Individual investment holdings within the alternative investments may, in turn, include investments in both non-marketable and market-traded securities. Valuations of those investments and, therefore, the Hospital's holdings may be determined by the investment manager or general partner. Fund of funds investments are primarily based on financial data supplied by the underlying investee funds. Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment. The equity method reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The investments may indirectly expose the Hospital to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts and other derivative products. While these financial instruments may contain varying degrees of risk, the Hospital's risk with respect to such transactions is limited to its capital balance in each investment. The financial statements of the investees are audited annually by independent auditors.

1. Organization and Significant Accounting Policies (continued)

The Trust has an agreement with the University's investment office (the "Investment Management Agreement") which allows the University to manage a portion of the Trust's investments as part of the University's Endowment Pool (the "Pool"). Under the terms of the agreement for the years ended September 30, 2012 and 2011, the Trust transferred $50.0 million and $100.0 million, respectively, to the University in exchange for units in the Pool. The Trust's interest in the Pool is reported at fair value based on the net asset value per units held. The Pool invests in domestic equity, foreign equity, absolute return, private equity, real estate, fixed income and cash.

Under the terms of the investment management agreement with the University, withdrawals of the Trust's investment in the Pool can be made annually by the Trust on July 1. For withdrawals of amounts less than $150.0 million or 75% of the Trust's investment in the Pool, $100.0 million or 50% of the Trust's investment in the Pool, and $50.0 million or 25% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 180 days, 90 days, and 30 days, respectively, prior to the University's fiscal year ending June 30. For withdrawals greater than $150.0 million or more than 75% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 270 days prior to the University's fiscal year end of June 30.

In 2011 the Investment Management Agreement between the Trust and the University was modified to allow the Trust to obtain a cash advance, up to a maximum of $75 million, on a monthly basis. For these advances, an interest charge of Prime plus two percent (2%) will be paid by the Trust. Repayments on the advances are made by the Trust by way of redemptions of a sufficient number of the Trust's units in the Endowment using the June 30th unit valuation. No advances have been requested or taken by the Trust.

Net realized gains and losses on investments, interest and dividends are included in excess of revenue over expenses unless the income or loss is restricted by donor or law. The change in unrealized gains and losses on all investments is included in the excess of revenue over expenses unless the income or loss is restricted by the donor.

Assets Limited as to Use

Assets limited as to use include assets held by trustee under bond indenture agreements. Amounts required to meet current liabilities are reported as current assets. These funds primarily consist of U.S. Government obligations, corporate obligations, mutual funds and money market funds. Changes in unrealized gains and losses are recorded in the excess of revenue over expenses.

1. Organization and Significant Accounting Policies (continued)

Inventories

Inventories, included in prepaid expenses and other current assets, are stated at the lower of cost or market. The Hospital values its inventories using the first-in, first-out method.

Deferred Financing Costs

Deferred financing costs represent costs incurred to obtain long-term financing. Amortization of the costs is provided using a method that approximates the interest method over the remaining term of the applicable indebtedness. Refer to Note 7 for additional information relative to debt-related matters.

Benefits and Insurance

The Hospital provides medical, dental, hospitalization and prescription drug benefits to employees for which it is self-insured. Liabilities have been accrued for claims, including claims incurred but not reported ("IBNRs"), which are based on Hospital-specific experience. At September 30, 2012 and 2011, the estimated liability for self-insured employee medical, prescription and other benefit claims and IBNRs aggregated approximately $1.0 million and $1.3 million, respectively, and is included in accrued expenses in the accompanying balance sheets.

The Hospital is effectively self-insured for workers' compensation claims. Estimated amounts are accrued for claims, including IBNRs, which are based on Hospital-specific experience. At September 30, 2012 and 2011, the estimated liability for self-insured workers' compensation claims and IBNRs, discounted at 3.0% in 2012 and 3.5% in 2011, aggregated approximately $5.2 million and $4.1 million, respectively, and is included in other long-term liabilities in the accompanying balance sheets.

Property, Plant and Equipment

Property, plant and equipment purchased are carried at cost and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation and amortization are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in operations. Depreciation of property, plant and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives ranging from 3 to 40 years.

1. Organization and Significant Accounting Policies (continued)

Goodwill

In 2011, the Hospital acquired certain tangible and intangible assets of Cardiac Specialists, P.C. for $1.6 million. As a result of the transaction, goodwill in the amount of approximately $0.8 million was recorded and is included in other assets at September 30, 2012 and 2011.

The Hospital is required to perform an annual review of its goodwill for impairment. Based on the Hospital's review at September 30, 2012 and 2011, goodwill was determined not to be impaired.

Excess of Revenue Over Expenses

In the accompanying statements of operations and changes in net assets, excess of revenue over expenses is the performance indicator. Peripheral or incidental transactions are included in excess of revenue over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue; other gains and losses are classified as non-operating gains and losses.

Consistent with industry practice, contributions of, or restricted to, property, plant, and equipment, net change in Interest in Bridgeport Hospital Foundation, Inc., transfers of assets to and from affiliates for other than goods and services, and pension and other post-retirement liability adjustments are excluded from the performance indicator but are included in the changes in net assets.

Income Taxes

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") and is exempt from federal or state income taxes on related income pursuant to Section 501(a) of the Code.

Interest in Bridgeport Hospital Foundation, Inc.

The Hospital recognizes its accumulated interest in the net assets held by the Foundation as interest in Bridgeport Hospital Foundation, Inc. The Hospital recognizes the periodic change in such interest in its statements of operations and changes in net assets (net change in interest in Bridgeport Hospital Foundation, Inc.).

1. Organization and Significant Accounting Policies (continued)

Asset Retirement Obligation

The Hospital maintains an asset retirement obligation liability related to the estimated future costs to remediate environmental liabilities in certain buildings. The asset and asset retirement obligation liability were approximately $0.4 million and $12.8 million, respectively, at September 30, 2012 and approximately $0.5 million and $13.3 million, respectively, at September 30, 2011.

Reclassifications

Certain reclassifications have been made to the year ended September 30, 2011 balances previously reported in the balance sheets in order to conform with the year ended September 30, 2012 presentation.

Change in Accounting Principle

In August 2010, the Financial Accounting Standards Board ("FASB") issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which provides clarification to companies in the health care industry on the accounting for and presentation of professional and similar contingent liabilities. Under the new guidance, these liabilities should not be presented net of insurance recoveries and an insurance recovery receivable should be recognized on the same basis as the liabilities, subject to the need for a valuation allowance for uncollectible accounts. The new guidance became effective for the Hospital as of October 1, 2011. The Hospital elected to retrospectively adopt the guidance as of October 1, 2010. The adoption resulted in an increase to current assets and liabilities of approximately $10.1 million and an increase to long-term assets and liabilities of approximately $32.3 million as of September 30, 2011. The adoption did not affect the Hospital's financial condition, net results of operations, or cash flows.

New Accounting Pronouncements

In July 2011, the FASB issued Accounting Standards Update No. 2011-07, "Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities" ("ASU 2011-07"). Under ASU 2011-07, provision for bad debts related to patient service revenue will be presented as a deduction from patient service revenue (net of contractual allowances and discounts) on the statement of operations with

1. Organization and Significant Accounting Policies (continued)

enhanced footnote disclosure on the policies for recognizing revenue and assessing bad debts. The Hospital will adopt the presentation changes to the statement of operations for periods beginning after December 15, 2011.

In August 2010, the Financial Accounting Standards Board (FASB) issued amended guidance relating to measuring charity care for disclosures. The amended guidance requires that the level of charity care provided be presented based on the direct and indirect costs of the charity services provided. Separate disclosure of the amount of any cash reimbursements received for providing charity care must also be disclosed. The new disclosure requirements became effective for the Hospital on October 1, 2011 and are included in the accompanying financial statements for all periods presented.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges and per diem payments. Net patient service revenue is affected by the Connecticut Disproportionate Share Hospital Program, includes premium revenue and is reported at the estimated net realizable amounts due from patients, third-party payors and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations.

Third-party payor receivables included in other receivables were $5.3 million and $2.4 million at September 30, 2012 and 2011, respectively. Third-party payor receivables included in other long-term assets were $2.8 million and $1.9 million at September 30, 2012 and 2011, respectively. Third-party payor liabilities included in other current liabilities were $6.1 million and $4.0 million at September 30, 2012 and 2011, respectively. Third-party payor liabilities included in other long-term liabilities were $14.9 million and $13.8 million at September 30, 2012 and 2011, respectively.

The Hospital has established estimates based on information presently available, of amounts due to or from Medicare, Medicaid and third-party payors for adjustments to current and prior year payment rates, based on industry-wide and Hospital-specific data. Such amounts are included in

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

the accompanying balance sheets. Additionally, certain payors' payment rates for various years have been appealed by the Hospital. If the appeals are successful, additional income applicable to those years might be realized.

Revenue from Medicare and Medicaid programs accounted for approximately 36% and 18%, respectively, of the Hospital's net patient service revenue for the year ended September 30, 2012 and 36% and 17% for the year ended September 30, 2011. Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 39% and 32%, respectively, for the year ended September 30, 2012 and approximately 37% and 32%, respectively, for the year ended September 30, 2011. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term.

The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital. Cost reports for the Hospital, which serve as the basis for final settlement with government payors, have been settled by final settlement through 2007 for Medicare and 1994 for Medicaid. Other years remain open for settlement.

The significant concentrations of accounts receivable for services to patients include 21% from Medicare, 13% from Medicaid, and 66% from non-governmental payors at September 30, 2012 and 27% from Medicare, 13% from Medicaid, and 60% from non-governmental payors at September 30, 2011.

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

Net patient service revenue is comprised of the following for the years ended September 30, 2012 and 2011 (in thousands):

	2012	2011
Gross revenue from patients	**$ 1,390,798**	$ 1,300,540
Deductions:		
Contractual allowances	**942,001**	861,347
Charity and free care (at charges)	**28,181**	29,578
Net patient service revenue	**$ 420,616**	$ 409,615

3. Uncompensated Care and Community Benefit Expense

The Hospital's commitment to community service is evidenced by services provided to the poor and benefits provided to the broader community. Services provided to the poor include services provided to persons who cannot afford healthcare because of inadequate resources and/or who are uninsured or underinsured.

The Hospital makes available free care programs for qualifying patients. In accordance with the established policies of the Hospital, during the registration, billing and collection process a patient's eligibility for free care funds is determined. For patients who were determined by the Hospital to have the ability to pay but did not, the uncollected amounts are bad debt expense. For patients who do not avail themselves of any free care program and whose ability to pay cannot be determined by the Hospital, care given but not paid for, is classified as charity care.

Together, charity care and bad debt expense represent uncompensated care. The estimated cost of total uncompensated care is approximately $17.7 million and $16.5 million for the years ended September 30, 2012 and 2011, respectively. The estimated cost of uncompensated care is based on the ratio of cost to charges, as determined by claims activity. The allocation between bad debt and charity care is determined based on management's analysis on the previous 12 months of hospital data. This analysis calculates the actual percentage of accounts written off or designated as bad debt vs. charity care while taking into account the total costs incurred by the hospital for each account analyzed.

3. Uncompensated Care and Community Benefit Expense (continued)

The estimated cost of charity care provided was $11.2 million and $11.7 million for the years ended September 30, 2012 and 2011, respectively. The estimated cost of charity care is estimated using the ratio of cost to gross charges applied to the gross uncompensated cost associated with providing charity care.

For the years ended September 30, 2012 and 2011, bad debt expense, at charges, was $16.6 million and $12.3 million, respectively. The bad debt expense is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above.

The Connecticut Disproportionate Share Hospital Program ("CDSHP") was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by a 1% assessment on hospital net inpatient service revenue. During the years ended September 30, 2012 and 2011, the Hospital received $20.0 million and $5.0 million, respectively, in distributions from CDSHP, of which approximately $12.6 million and $3.5 million was related to charity care. The Hospital made payments into CDSHP of $16.9 million and $4.2 million for the years ended September 30, 2012 and 2011, respectively, for the 1% assessment.

Additionally, the Hospital provides benefits for the broader community which includes services provided to other needy populations that may not qualify as poor but need special services and support. Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings, and medical research. The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children, and various community support groups. The Hospital voluntarily assists with the direct funding of several City of Bridgeport programs, including an economic development program and a youth initiative program.

In addition to the quantifiable services defined above, the Hospital provides additional benefits to the community through its advocacy of community service by employees. The Hospital's employees serve numerous organizations through board representation, membership in associations and other related activities. The Hospital also solicits the assistance of other healthcare professionals to provide their services at no charge through participation in various community seminars and training programs.

The Hospital's ownership percentage of the Trust was approximately 7.0% and 3.5% as of September 30, 2012, and 2011, respectively. The Hospital's prorata portion of the Trust's investments are included in the above table. Primarily all of the above investments are deemed to be available for satisfying donor restrictions as they become due.

5. Endowment

The Hospital's endowment includes donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Hospital has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (CUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Hospital classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and direction of the applicable donor gift instrument at the time of the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard of prudence prescribed by CUPMIFA. In accordance with CUPMIFA, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the Hospital and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the Hospital; and (7) the investment and spending policies of the Hospital.

	2012	2011
	(In Thousands)	
Tax-exempt revenue bonds:		
Series A (fixed interest rates ranging from 3.50% to 6.625%)	$ –	$ 11,390

The Hospital's Series A and C tax-exempt revenue bonds were issued through the State of Connecticut Health and Educational Facilities Authority ("CHEFA") under a Master Trust Indenture. The bonds were due serially or via mandatory sinking fund redemptions through July 1, 2025. The bonds were collateralized by a pledge of the gross receipts of the Hospital and the Foundation (the "Obligated Group") and a first mortgage on substantially all property, plant and equipment of the Hospital. The Master Trust Indenture also placed certain limits on the incurrence of additional borrowings of the Obligated Group and required the Obligated Group to satisfy certain measures of financial performance while the revenue bonds were outstanding. The Series A and C bonds were insured by commercial bond insurers to maturity.

In November 2010, the Hospital obtained a $6.6 million term loan from CHEFA. The proceeds of the loan are to be used for the purchase and installation of energy savings equipment and various renovations and improvements to the Hospital's infrastructure. The loan is to be paid in monthly installments over 10 years at a fixed interest rate of 3.22%.

7. Debt (continued)

In May 2012, the Hospital's Series D tax-exempt revenue bonds were issued through CHEFA under a Master Trust Indenture for approximately $36.4 million, with coupons ranging from 2.0% to 5.0%, and a final maturity of July 2025. The proceeds, including a premium of approximately $4.1 million, were held in an escrow account and used for the retirement of the outstanding Series A and C revenue bonds and to pay for certain bond issuance costs of approximately $0.8 million. The bond premium is being amortized using the effective interest method and is included in interest expense in the accompanying statement of operations and changes in net assets. In connection with the refunding and refinancing, the Hospital recognized a loss in 2012 of approximately $1.8 million principally related to the write-off of deferred financing costs.

In June 2012, the Hospital obtained a $5.5 million term loan from CHEFA. The loan is to be paid in monthly installments over 5 years at a fixed rate of 1.66% with the proceeds to be used for medical and cafeteria equipment. The loan is secured by the equipment purchased with the proceeds of the loan.

Scheduled principal payments on all debt are as follows (in thousands):

	Debt	Capital Lease Obligations
2013	$ 3,736	$ 80
2014	3,949	47
2015	4,078	47

Total capital lease obligation		$ 168

Cash paid for interest for the years ended September 30, 2012 and 2011 approximated $2.7 million and $3.1 million, respectively.

7. Debt (continued)

In connection with the Series D bonds, the Hospital is required to maintain certain financial covenants. At September 30, 2012 and 2011 the Hospital was in compliance with its financial debt covenants.

Assets recorded under the capital lease obligations totaled $0.2 million and $0.3 million as of September 30, 2012 and 2011, respectively. Accumulated depreciation for the capital lease obligations totaled $0.1 million for September 30, 2012 and 2011, respectively.

8. Retirement Benefit Plans

The Hospital and certain other affiliates of BHHS have a defined benefit pension plan covering substantially all employees. The benefits are based on years of service and employees' average compensation as defined by the plan documents. The Hospital and affiliates of BHHS make contributions in amounts sufficient to meet the required benefits to be paid to plan participants as they become due as required under the Employee Retirement Income Security Act of 1974.

On June 30, 2006, the Hospital and certain other affiliates of BHHS froze their defined benefit plan. On October 1, 2006 the Hospital and certain other affiliates of BHHS instituted a defined contribution plan covering substantially all employees. The Hospital matches employee 403(b) contributions on a bi-weekly basis, as defined by the defined contribution plan documents, and provides an annual contribution to the employees' accounts based on each employee's year of service and compensation. The Hospital expensed approximately $9.6 million and $10.1 million relating to the defined contribution plan for the years ended September 30, 2012 and 2011, respectively. Amounts due to the defined contribution plan amounted to $4.8 million and $5.8 million at September 30, 2012 and 2011, respectively, and are included in accrued expenses.

The Hospital's investment strategy for its pension assets, balances the liquidity needs of the pension plan with the long-term return goals necessary to satisfy future pension obligations. The target asset allocation seeks to capture the equity premium granted by the capital markets over the long-term while ensuring security of principal to meet near term expenses and obligations through the fixed income allocation. The allocations of the investment pool to various sectors of the markets are designed to reduce volatility in the portfolio.

8. Retirement Benefit Plans (continued)

The Hospital's pension portfolio return assumption of 6.75% is based on the targeted weighted-average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension expenses.

Cash Flows

Contributions: The Hospital and its affiliates expected contribution to the defined benefit pension plan in fiscal year 2013 is approximately $6.5 million.

Estimated future benefit payments: The Hospital and its affiliates expect to pay the following benefit payments as appropriate in thousands:

2013	$ 7,015
2014	7,309
2015	7,551
2016	7,959
2017	8,445
2018 to 2023	51,725

In addition, certain employees participate in a Hospital sponsored nonqualified pension benefit program. Included in other long-term liabilities in the accompanying balance sheets at September 30, 2012 and 2011 is approximately $0.5 million and $1.2 million, respectively, related to the obligation for the nonqualified benefits. The Hospital has established a trust with fair values of approximately $0.5 million and $1.1 million at September 30, 2012 and 2011, respectively, to fund the obligation. Such amounts are included in other assets in the accompanying balance sheets.

9. Professional Liability and Self-Insurance Arrangements

Yale-New Haven Hospital ("YNHH") and a number of academic medical centers are shareholders in The Medical Center Insurance Company, Ltd. (the "Captive"). The Captive was formed to insure for professional and comprehensive general liability risks of its shareholders and certain affiliated entities of the shareholders. On October 1, 1997, the Hospital was added to the YNHH program as an additional insured. The Captive and its wholly-owned subsidiary write direct insurance and reinsurance for varying levels of per claim limit exposure. The Captive has reinsurance coverage from outside reinsurers for amounts above the per claim limits. Premiums are based on modified claims made coverage and are actuarially determined based on actual experience of the Hospital, and the Captive. The Hospital pays insurance premiums to YNHHSC.

9. Professional Liability and Self-Insurance Arrangements (continued)

The estimate for modified claims-made professional liabilities and the estimate for incidents that have been incurred but not reported aggregated approximately $54.7 million and $55.6 million at September 30, 2012 and 2011, respectively. The undiscounted estimate for incidents that have been incurred but not reported aggregated approximately $13.9 million and $15.5 million at September 30, 2012 and 2011, respectively, and is included in professional insurance liabilities in the accompanying consolidated statements of financial position at the actuarially determined present value of approximately $12.1 million and $13.3 million, respectively, based on a discount rate of 3.0% and 3.5% for the years ended September 30, 2012 and 2011, respectively.

The Hospital has recorded related insurance recoveries receivable of approximately $42.5 million and $42.4 million at September 30, 2012 and 2011, respectively, in consideration of the expected insurance recoveries for the total discounted modified claims-made insurance. The current portion of professional liabilities and the related insurance receivable represents an estimate of expected settlements and insurance recoveries over the next 12 months.

The Hospital's estimates for professional insurance liabilities are based upon complex actuarial calculations which utilize factors such as historical claims experience for the Hospital and related industry factors, trending models, estimates for the payment patterns of future claims and present value discount factors. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Revisions to estimated amounts resulting from actual experience differing from projected expectations are recorded in the period the information becomes known or when changes are anticipated.

10. Commitments and Contingencies

Various lawsuits and claims arising in the normal course of operations are pending or are in progress against the Hospital. Such lawsuits and claims are either specifically covered by insurance as explained in Note 9 or are deemed to be immaterial. While the outcome of these lawsuits cannot be determined at this time, management believes that any loss which may arise from these actions will not have a material adverse effect on the financial position or results of operations of the Hospital.

10. Commitments and Contingencies (continued)

The Hospital has an irrevocable letter of credit with a bank to provide coverage to the State of Connecticut for workers compensation claims. There were no amounts outstanding under this letter of credit during fiscal years 2012 and 2011.

The Hospital has obtained a surety bond to provide coverage to the State of Connecticut for unemployment compensation in 2012 and 2011. There are no amounts outstanding during fiscal years 2012 and 2011.

The Hospital has various lease agreements. Lease expense for the fiscal years 2012 and 2011 was approximately $2.9 million and $3.1 million, respectively. Future minimum payments under these leases are as follows:

2013	$ 2,837

2015	1,628
2016	1,558

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act ("HITECH"). The provisions were designed to increase the use of electronic health record ("EHR") technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments. Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal fiscal year 2015.

The Hospital uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized when the Hospital is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received. EHR incentive payment revenue for Medicaid totaling $1.7 million for the year ended September 30, 2012, is included in other revenue in the accompanying 2012 consolidated statement of operations. Income from incentive payments is subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were calculated. Additionally, the Hospital's attestation of compliance with the meaningful use criteria is subject to audit by the federal government.

15. Fair Value Measurements

In determining fair value, the Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Hospital also considers nonperformance risk in the overall assessment of fair value.

ASC 820-10, *Fair Value Measurements*, establishes a three tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

- **Level 1:** Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.
- **Level 2:** Observable inputs that are based on data not quoted in active markets, but corroborated by market data.
- **Level 3:** Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

15. Fair Value Measurements (continued)

Financial assets carried at fair value as of September 30, 2012 and 2011 are classified in the following tables in two of the three categories described above (in thousands):

PART II, COMMUNITY BUILDING ACTIVITIES:

GREENWICH HOSPITAL IS ONE OF THE TOP FIVE EMPLOYERS IN GREENWICH WITH 1,813 EMPLOYEES IN 2014. THE HOSPITAL PROVIDES IN-KIND AND FINANCIAL SUPPORT FOR SEVERAL ECONOMIC INITIATIVES THROUGHOUT FAIRFIELD AND WESTCHESTER COUNTIES. MEMBERS OF THE HOSPITAL'S LEADERSHIP AND MANAGEMENT STAFF ALSO SUPPORT ECONOMIC AND COMMUNITY DEVELOPMENT BY SERVING ON THE BOARDS OF THE GREENWICH CHAMBER OF COMMERCE AND THE PORT CHESTER-RYE BROOK-RYE TOWN CHAMBER OF COMMERCE. THROUGH THESE

Part VI Supplemental Information *(Continuation)*

ORGANIZATIONS, GREENWICH HOSPITAL ADVOCATES FOR AND FACILITATES INCREASED ECONOMIC DEVELOPMENT FOR THE AREA.

GREENWICH HOSPITAL ALONG WITH MANY OTHER HOSPITALS ACROSS THE COUNTRY UTILIZES THE COMMUNITY BENEFITS INVENTORY FOR SOCIAL ACCOUNTABILITY DATABASE DEVELOPED BY LYON SOFTWARE TO CATALOG ITS COMMUNITY BENEFIT AND COMMUNITY BUILDING ACTIVITIES AND THE GUIDELINES DEVELOPED BY THE CATHOLIC HOSPITAL ASSOCIATION (CHA) IN ORDER TO CATALOG THESE BENEFITS. THESE TWO ORGANIZATIONS HAVE WORKED TOGETHER FOR OVER TWENTY YEARS TO PROVIDE SUPPORT TO NON-FOR-PROFIT HOSPITALS TO DEVELOP AND SUSTAIN EFFECTIVE COMMUNITY BENEFIT PROGRAMS.

THE MOST RECENT VERSION OF THE CHA GUIDE FOR PLANNING AND REPORTING COMMUNITY BENEFIT DEFINES COMMUNITY BUILDING ACTIVITIES AS PROGRAMS THAT ADDRESS THE ROOT CAUSES OF HEALTH PROBLEMS, SUCH AS POVERTY, HOMELESSNESS AND ENVIRONMENTAL PROBLEMS. THESE ACTIVITIES ARE CATEGORIZED INTO EIGHT DISTINCT AREAS INCLUDING PHYSICAL IMPROVEMENT AND HOUSING, ECONOMIC DEVELOPMENT, COMMUNITY SUPPORT, ENVIRONMENTAL IMPROVEMENTS, LEADERSHIP DEVELOPMENT AND TRAINING FOR COMMUNITY MEMBERS, COALITION BUILDING, ADVOCACY FOR COMMUNITY HEALTH IMPROVEMENTS, AND WORKFORCE DEVELOPMENT.

YALE NEW HAVEN HEALTH ENHANCES THE LIVES OF THOSE WE SERVE BY PROVIDING ACCESS TO INTEGRATED, HIGH-VALUE, PATIENT-CENTERED CARE IN COLLABORATION WITH OTHERS WHO SHARE OUR VALUES. AS SUCH, GREENWICH HOSPITAL IS INCREASINGLY AWARE OF HOW SOCIAL DETERMINANTS IMPACT THE HEALTH OF INDIVIDUALS AND COMMUNITIES. A PERSON'S HEALTH AND CHANCES OF BECOMING SICK AND DYING EARLY ARE GREATLY INFLUENCED BY POWERFUL SOCIAL FACTORS SUCH AS EDUCATION, INCOME, NUTRITION, HOUSING AND NEIGHBORHOODS. DURING FISCAL YEAR 2014, GREENWICH HOSPITAL PROVIDED NEARLY $319,410 IN FINANCIAL AND IN-KIND DONATIONS. THE HOSPITAL CONSIDERS THESE INVESTMENTS PART OF ITS OVERALL COMMITMENT OF BUILDING STRONGER NEIGHBORHOODS. EXAMPLES BELOW

Part VI Supplemental Information *(Continuation)*

FOCUS ON THE AREAS OF REVITALIZING OUR NEIGHBORHOODS AND CREATING EDUCATIONAL OPPORTUNITIES.

REVITALIZING OUR NEIGHBORHOODS

ONE OF SEVERAL COMMUNITY INITIATIVES UNDERTAKEN BY GREENWICH HOSPITAL TO ENHANCE ACCESS TO HEALTHY, AFFORDABLE FOOD IS COMMUNITY GARDENS. THIS PROGRAM IS ADMINISTERED IN COLLABORATION WITH THE COUNCIL OF COMMUNITY SERVICES, PORT CHESTER SCHOOLS AND AREA CHURCHES TO PROVIDE FRESH VEGETABLES TO PARTICIPANTS IN PORT CHESTER'S FOUR FOOD PANTRIES, SEVEN SOUP KITCHENS AND NUTRITION CENTERS. THE COUNCIL OF COMMUNITY SERVICES ORGANIZES VOLUNTEERS TO PLANT AND HARVEST THE CROPS. OVER THE PAST SEVERAL YEARS, THE PROGRAM HAS PROVIDED THOUSANDS OF LOW-INCOME PORT CHESTER FAMILIES WITH FRESH VEGETABLES. THE COMMUNITY GARDENS ENCOURAGE HEALTHY EATING HABITS, ENCOURAGES CHILDREN TO TRY NEW VEGETABLES, CONNECTS CHILDREN TO NATURE AND THE ENVIRONMENT, AIMS TO PREVENT CHILDHOOD OBESITY, AND PROMOTES PHYSICAL ACTIVITY WHILE ENCOURAGING NEW WAYS OF LEARNING AND PROMOTING HEALTH EDUCATION. THE HOSPITAL PROVIDES IN-KIND SUPPORT FOR THE INITIATIVE.

TO SUPPORT DRIVING SAFETY, GREENWICH HOSPITAL AND THE AARP CO-SPONSORED AN EDUCATIONAL DRIVING PROGRAM FOR OLDER ADULTS WITH APPROXIMATELY 370 WESTCHESTER AND FAIRFIELD COUNTY ADULTS ATTENDING THE PROGRAM. THE EDUCATIONAL DRIVING PROGRAM PROMOTES SAFETY AND IS INTENDED TO REDUCE ACCIDENT RATES AMONG DRIVERS AGE 55 AND OLDER.

GREENWICH HOSPITAL WAS ALSO THE RECIPIENT OF A DONATION OF FUNDS TO DEVELOP A COMMUNITY FLOWER GARDEN ON ITS PROPERTY TO BE OPEN TO THE PUBLIC. VARIOUS COMMUNITY CEREMONIES AND CELEBRATIONS ARE CONDUCTED IN THE GARDEN INCLUDING CANCER SURVIVOR PROGRAMS AND THE TREE OF LIGHT

PROGRAM. EACH WINTER, GREENWICH HOSPITAL PROVIDES A WARM CENTER FOR THE COMMUNITY IN ITS NOBLE CONFERENCE CENTER. THIS WARM CENTER IS AVAILABLE TO THOSE IN NEED DUE TO POWER OUTAGES, SNOW STORMS AND FREEZING TEMPERATURES. INCLUDED IN THE WARM CENTER ARE COTS, HOT BEVERAGES, HAND WARMERS AND MAGAZINES.

CREATING EDUCATIONAL OPPORTUNITIES

HIGHER EDUCATIONAL ATTAINMENT IS ASSOCIATED WITH BETTER HEALTH STATUS AND LONGER LIFE. FOR EXAMPLE, ADULTS AGED 25-50 YEARS WHO HAVE A COLLEGE DEGREE WILL ON AVERAGE LIVE FIVE YEARS LONGER THAN THOSE WITH LESS THAN A HIGH SCHOOL EDUCATION. TO ENCOURAGE THE PURSUIT OF HIGHER EDUCATION, GREENWICH HOSPITAL SPONSORED SEVERAL PROGRAMS TO INTRODUCE MIDDLE AND HIGH SCHOOL STUDENTS TO POTENTIAL HEALTH CARE CAREERS.

GREENWICH HOSPITAL, THROUGH A JOINT EFFORT WITH HIGH SCHOOLS IN PORT CHESTER AND GREENWICH, PROVIDED AN EDUCATIONAL PROGRAM INTRODUCING STUDENTS TO HEALTH CARE CAREER OPPORTUNITIES. A TOTAL OF 22 STUDENTS PARTICIPATED IN THE PROGRAM, WHICH IS AIMED AT EDUCATING AND INSPIRING STUDENTS TO PURSUE FULFILLING HEALTH CARE CAREERS. THE AFTER-SCHOOL PROGRAM WAS HELD OVER FOUR WEEKS AND INCLUDED A TOUR OF GREENWICH HOSPITAL AND ITS JOHN AND ANDREA FRANK SYN:APSE SIMULATION CENTER. THE SIMULATION CENTER OFFERS HANDS-ON TRAINING USING A HIGH-FIDELITY MANNEQUIN THAT CAN SPEAK AND RESPOND PHYSIOLOGICALLY TO MEDICATIONS AND TREATMENT.

GREENWICH HOSPITAL ALSO PROVIDED MIDDLE AND HIGH SCHOOL STUDENTS THE OPPORTUNITY TO GET AN IN-DEPTH LOOK INTO VARIOUS HEALTH CARE CAREERS THROUGH AN AFTER-SCHOOL PROGRAM SPONSORED IN PARTNERSHIP WITH THE BOY SCOUTS OF AMERICA'S GREENWICH CHAPTER. WHILE TOURING THE HOSPITAL, PARTICIPANTS LEARNED ABOUT A VARIETY OF HOSPITAL SETTINGS AND SPOKE WITH

FOR PATIENTS WHO WERE DETERMINED BY THE HOSPITAL TO HAVE THE ABILITY TO PAY BUT DID NOT, THE UNCOLLECTED AMOUNTS ARE BAD DEBT EXPENSE. THE HOSPITAL'S COST ACCOUNTING SYSTEM UTILIZES PATIENT-SPECIFIC DATA TO ACCUMULATE AND DERIVE COSTS RELATED TO THESE BAD DEBT ACCOUNTS.

PART III, LINE 4:

THE HOSPITAL'S COMMITMENT TO COMMUNITY SERVICE IS EVIDENCED BY SERVICES PROVIDED TO THE POOR AND BENEFITS PROVIDED TO THE BROADER COMMUNITY. SERVICES PROVIDED TO THE POOR INCLUDE SERVICES PROVIDED TO PERSONS WHO CANNOT AFFORD HEALTHCARE BECAUSE OF INADEQUATE RESOURCES AND/OR WHO ARE UNINSURED OR UNDERINSURED.

Report of Independent Auditors

The Board of Directors
Bridgeport Hospital

We have audited the accompanying financial statements of Bridgeport Hospital ("the Hospital"), which comprise the balance sheets as of September 30, 2013 and 2012, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

A member firm of Ernst & Young Global Limited

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bridgeport Hospital at September 30, 2013 and 2012, and the results of its operations and changes in its net assets and its cash flows for the years then ended in conformity with U S generally accepted accounting principles

Change in Presentation of the Provision for Bad Debts

As discussed in Note 1 to the accompanying financial statements, in 2013, the Hospital adopted the provisions of Accounting Standards Update No 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*, which resulted in a change to the presentation of the provision for bad debts in the accompanying statements of operations and changes in net assets effective October 1, 2011 Our opinion is not modified with respect to this matter

Notes to Financial Statements

September 30, 2013

1. Organization and Significant Accounting Policies

Bridgeport Hospital (the Hospital) is a voluntary association incorporated under the General Statutes of the State of Connecticut Bridgeport Hospital & Healthcare Services, Inc (BHHS), a Connecticut not-for-profit corporation, is the sole member of the following not-for-profit, non-stock corporations the Hospital, Bridgeport Hospital Foundation, Inc (the Foundation), Southern Connecticut Health System Properties, Inc (Properties)

Yale-New Haven Health Services Corporation (YNHHSC) is the sole member of BHHS and two similar organizations Each of these three tax-exempt organizations serves as the sole member/parent for its respective delivery network of regional health care providers and related entities Under the terms of an agreement with YNHHSC, BHHS and the Hospital continue to operate autonomously with separate boards, management and medical staff, however, YNHHSC approves the Hospital's strategic plans, operating and capital budgets, and Board appointments

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectibles for accounts receivable for services to patients, and liabilities, including estimated receivables and payables to third-party payors and professional liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements Estimates also affect the amounts of revenue and expenses during the reporting period There is at least a reasonable possibility that certain estimates will change by material amounts in the near term Actual results could differ from those estimates

During fiscal 2013, the Hospital recorded a change in estimate of approximately $6 4 million related to favorable third-party settlements and during fiscal 2012 recorded a change in estimate of approximately $4 1 million related to favorable third-party settlements

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the Hospital has been limited by donors to a specific time period or purpose Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity See Notes 5 and 6 for additional information relative to temporarily and permanently restricted net assets

1. Organization and Significant Accounting Policies (continued)

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value on the date the promise is received All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, which are not classified as assets limited as to use or restricted or held in the long-term investment portfolio

Cash and cash equivalents are maintained with domestic financial institutions with deposits which exceed federally insured limits It is the Hospital's policy to monitor the financial strength of these institutions

Accounts Receivable

Patient accounts receivable result from the health care services provided by the Hospital Additions to the allowance for doubtful accounts result from the provision for bad debts Accounts written off as uncollectible are deducted from the allowance for doubtful accounts

The amount of the allowances for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators See Note 2 for additional information relative to third-party payor programs

Investments

The Hospital has designated all investments reported in the accompanying balance sheets as trading securities As such, unrealized gains and losses are included in the excess of revenue and over expenses

1. Organization and Significant Accounting Policies (continued)

Investments in marketable equity securities with readily determinable fair market values and all investment in debt securities (marketable investments) are measured at fair value based on quoted market prices

The Hospital participates in the Yale New Haven Health System Investment Trust (the Trust), a unitized Delaware Investment Trust created to pool assets for investment by the Health System non-profit entities The Trust is comprised of two pools the Long-Term Investment Pool (L-TIP) and the Intermediate-Term Investment Pool (I-TIP) Governance of the Trust is performed by the Yale New Haven Health System Investment Committee

Under the terms of the investment management agreement with the Trust, withdrawals of the Hospital's investment in the L-TIP can be made annually by the Hospital on July 1 Amounts withdrawn are subject to a schedule that allows larger withdrawals with longer notice periods As of September 30, 2013, the Hospital can withdraw 100% of its investment in the L-TIP on July 1, 2012 Withdrawals of the Hospital's investment in the I-TIP in any amount can be made quarterly with 30 days advance notice

Certain alternative investments (non-traditional, not-readily-marketable assets) are structured such that the Hospital holds limited partnership interests or pooled units and are accounted for under the equity method and utilizing Yale University's (the University) reported net asset value per unit for measurement of the units' fair value for the Yale University investment

Individual investment holdings within the alternative investments may, in turn, include investments in both non-marketable and market-traded securities Valuations of those investments and, therefore, the Hospital's holdings may be determined by the investment manager or general partner Fund of funds investments are primarily based on financial data supplied by the underlying investee funds Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment The equity method reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses The investments may indirectly expose the Hospital to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts and other derivative products While these financial instruments may contain varying degrees of risk, the Hospital's risk with respect to such transactions is limited to its capital balance in each investment The financial statements of the investees are audited annually by independent auditors

1. Organization and Significant Accounting Policies (continued)

The Trust has an agreement with the University's investment office (the Investment Management Agreement) which allows the University to manage a portion of the Trust's investments as part of the University's Endowment Pool (the Pool) Under the terms of the agreement for the year ended September 30, 2012, the Trust transferred $50 0 million to the University in exchange for units in the Pool The Trust's interest in the Pool is reported at fair value based on the net asset value per units held The Pool invests in domestic equity, foreign equity, absolute return, private equity, real estate, fixed income and cash

Under the terms of the investment management agreement with the University, withdrawals of the Trust's investment in the Pool can be made annually by the Trust on July 1 For withdrawals greater than $150 0 million or 75% of the Trust's investment in the Pool, $100 0 million or 50% of the Trust's investment in the Pool, and $50 0 million or 25% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 180 days, 90 days, and 30 days, respectively, prior to the University's fiscal year ending June 30 For withdrawals greater than $150 0 million or more than 75% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 270 days prior to the University's fiscal year end of June 30

In 2011 the Investment Management Agreement between the Trust and the University was modified to allow the Trust to obtain a cash advance, up to a maximum of $75 million, on a monthly basis For these advances, an interest charge of Prime plus two percent (2%) will be paid by the Trust Repayments on the advances are made by the Trust by way of redemptions of a sufficient number of the Trust's units in the Endowment using the June 30th unit valuation No advances have been requested or taken by the Trust

Net realized gains and losses on investments, interest and dividends are included in excess of revenue over expenses unless the income or loss is restricted by donor or law The change in unrealized gains and losses on all investments is included in the excess of revenue over expenses unless the income or loss is restricted by the donor

Assets Limited as to Use

Assets limited as to use include assets held by trustee under bond indenture agreements Amounts required to meet current liabilities are reported as current assets These funds primarily consist of U S Government obligations, corporate obligations, mutual funds and money market funds Changes in unrealized gains and losses are recorded in the excess of revenue over expenses

1. Organization and Significant Accounting Policies (continued)

Inventories

Deferred Financing Costs

Deferred financing costs represent costs incurred to obtain long-term financing Amortization of the costs is provided using a method that approximates the interest method over the remaining term of the applicable indebtedness The accumulated amortization of deferred financing costs was approximately $0 1 million at September 30, 2013 and 2012 See Note 7 for additional information relative to debt-related matters

1. Organization and Significant Accounting Policies (continued)

Reclassifications

Certain reclassifications have been made to the year ended September 30, 2012 balances previously reported in the financial statements in order to conform with the year ended September 30, 2013 presentation, including the reclassification of provision for doubtful accounts on the statements of operations related to the adoption of ASU 2011-07

Change in Accounting Principle

In July 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* ("ASU No 2011-07") In accordance with ASU No 2011-07, the Hospital changed the presentation of its statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue, similar to contractual allowances and discounts Additionally, the Hospital has provided enhanced disclosures about its policies for recognizing revenue and assessing bad debts, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts The Hospital adopted this accounting standard update as of October 1, 2012, and retrospectively applied the presentation of the provision for bad debts in the accompanying statements of operations and changes in net assets to all periods presented The enhanced disclosure requirements are required in the period of adoption and subsequent reporting periods (see Note 2) The Hospital's adoption of this update has no effect on the previously reported excess of revenue over expenses or on net assets

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue

The Hospital has agreements with third party payors that provide for payments to the Hospital at amounts different from its established rates The difference is accounted for as allowances Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges and per diem payments Net patient service revenue is affected by the Connecticut Disproportionate Share Hospital Program, includes premium revenue and is reported at the estimated net realizable amounts due from patients, third party payors and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations

Third-party payor receivables included in other receivables were $2 7 million and $5 3 million at September 30, 2013 and 2012, respectively Third-party payor receivables included in other long-term assets were $3 4 million and $2 8 million at September 30, 2013 and 2012, respectively Third-party payor liabilities included in other current liabilities were $4 5 million and $6 1 million at September 30, 2013 and 2012, respectively Third-party payor liabilities included in other long-term liabilities were $13 4 million and $14 9 million at September 30, 2013 and 2012, respectively

The Hospital has established estimates based on information presently available, of amounts due to or from Medicare, Medicaid and third-party payors for adjustments to current and prior year payment rates, based on industry-wide and Hospital-specific data Such amounts are included in the accompanying balance sheets Additionally, certain payors' payment rates for various years have been appealed by the Hospital If the appeals are successful, additional income applicable to those years might be realized

Revenue from Medicare and Medicaid programs accounted for approximately 38% and 18%, respectively, of the Hospital's net patient service revenue for the year ended September 30, 2013 and 36% and 18% for the year ended September 30, 2012 Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 39% and 31%, respectively, for the year ended September 30, 2013, and approximately 39% and 32%, respectively, for the year ended September 30, 2012 Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term

The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital Cost reports for the Hospital, which serve as the basis for final settlement with government payors, have been settled by final settlement through 2009 for Medicare and 2008 for Medicaid Other years remain open for settlement

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

	Third-Party	Self-Pay	Total All Payors
Patient service revenue (net of contractual allowances and discounts)	$418,510	$15,301	$433,811

Deductibles and copayments under third-party payment programs within the third-party payor amount above are the patient's responsibility and the Hospital considers these amounts in its determination of the provision for bad debts based on collection experience Accounts receivable are also reduced by an allowance for doubtful accounts In evaluating the collectability of accounts receivable, the Hospital analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts

2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

The Hospital's allowance for doubtful accounts totaled approximately $29 3 million and $19 0 million at September 30, 2013 and 2012, respectively The allowance for doubtful accounts for self-pay patients was approximately 78 5% and 77 0% of self-pay accounts receivable as of September 30, 2013 and 2012, respectively Overall, the total of self-pay discounts and write-offs did not change significantly in 2013 The Hospital did not experience significant changes in write-off trends and did not change its charity care policy in 2013

3. Uncompensated Care and Community Benefit Expense

The Hospital's commitment to community service is evidenced by services provided to the poor and benefits provided to the broader community Services provided to the poor include services provided to persons who cannot afford healthcare because of inadequate resources and/or who are uninsured or underinsured

The Hospital makes available free care programs for qualifying patients In accordance with the established policies of the Hospital, during the registration, billing and collection process a patient's eligibility for free care funds is determined For patients who were determined by the Hospital to have the ability to pay but did not, the uncollected amounts are bad debt expense For patients who do not avail themselves of any free care program and whose ability to pay cannot be determined by the Hospital, care given but not paid for, is classified as charity care

Together, charity care and bad debt expense represent uncompensated care The estimated cost of total uncompensated care is approximately $22 3 million and $17 7 million for the years ended September 30, 2013 and 2012, respectively The estimated cost of uncompensated care is based on the ratio of cost to charges, as determined by claims activity The allocation between bad debt and charity care is determined based on management's analysis on the previous 12 months of hospital data This analysis calculates the actual percentage of accounts written off or designated as bad debt vs charity care while taking into account the total costs incurred by the hospital for each account analyzed

The estimated cost of charity care provided was $16 4 million and $11 2 million for the years ended September 30, 2013 and 2012, respectively The estimated cost of charity care is estimated using the ratio of cost to gross charges applied to the gross uncompensated cost associated with providing charity care

3. Uncompensated Care and Community Benefit Expense (continued)

For the years ended September 30, 2013 and 2012, bad debt expense, at charges, was $15 0 million and $16 6 million, respectively For the years ended September 30, 2013 and 2012, bad debt expense, at cost, was $5 9 million and $6 6 million, respectively The bad debt expense is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above

The Connecticut Disproportionate Share Hospital Program (CDSHP) was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by a 1% assessment on hospital net inpatient service revenue During the years ended September 30, 2013 and 2012, the Hospital received $17 7 million and $20 0 million, respectively, in distributions from CDSHP, of which approximately $12 6 million was related to charity care The Hospital made payments into CDSHP of $16 9 million and $16 9 million for the years ended September 30, 2013 and 2012, respectively, for the 1% assessment

Additionally, the Hospital provides benefits for the broader community which includes services provided to other needy populations that may not qualify as poor but need special services and support Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings, and medical research The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children, and various community support groups The Hospital voluntarily assists with the direct funding of several City of Bridgeport programs, including an economic development program and a youth initiative program

In addition to the quantifiable services defined above, the Hospital provides additional benefits to the community through its advocacy of community service by employees The Hospital's employees serve numerous organizations through board representation, membership in associations and other related activities The Hospital also solicits the assistance of other healthcare professionals to provide their services at no charge through participation in various community seminars and training programs

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH) The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal fiscal year 2015

The Hospital uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments Under this accounting policy, EHR incentive payment revenue is recognized when the Hospital is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received Medicare EHR incentive payment revenue was approximately $2 6 million for the year ended September 30, 2013 and Medicaid EHR incentive payment revenue was approximately $1 0 million and $1 7 million, respectively for the years ended September 30, 2013 and 2012 EHR incentive payment revenue is included in other revenue in the accompanying statement of operations from Income

ASC 820-10, *Fair Value Measurements*, establishes a three tier valuation hierarchy for fair value disclosure purposes This hierarchy is based on the transparency of the inputs utilized for the valuation The three levels are defined as follows

- **Level 1:** Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities This established hierarchy assigns the highest priority to Level 1 assets
- **Level 2:** Observable inputs that are based on data not quoted in active markets, but corroborated by market data

15. Fair Value Measurements (continued)

- **Level 3:** Unobservable inputs that are used when little or no market data is available The Level 3 inputs are assigned the lowest priority
