The accumulated benefit obligation at the end of 2008 and 2007 was \$23,243,987 and \$22,172,918, respectively.

Net periodic pension cost included the following components:

	<u>2008</u>	<u>2007</u>
Service cost	\$ 909,163	\$ 1,127,375
Interest cost on projected benefit obligation	1,599,959	1,572,113

(9) Pension Plans, (Continued)

(a) Defined Benefit Plan, (Continued)

The estimated amount that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year is \$384,000.

The following weighted average assumptions were used by the Plan's actuary to determine net periodic pension cost and benefit obligations at September 30, 2008 and 2007:

	<u>2008</u>	<u>2007</u>
Weighted average discount rate for benefit obligations	6.50%	6.25%
Discount rate for net periodic pension costs	6.25	5.75
Rate of increase in future compensation levels	4.00	4.50
Expected long-term rates of return on assets	7.75	6.50

The average future years of service are 13.96 and 14.18 for the years ended September 30, 2008 and 2007, respectively.

Plan assets were invested in the following classes of securities:

	<u>2008</u>	<u>2007</u>
Equity	71%	70%
Fixed income	28	29
Cash and cash equivalents	1	1
	<u>100%</u>	<u>100%</u>

The Plan's overall investment objective is to provide a long-term return that is expected to meet future benefit payment requirements. A long-term horizon has been adopted in establishing an investment policy such that the likelihood and duration of investment losses are carefully weighed against the long-term potential for appreciation of assets. The Plan's investment policy requires investments to be diversified across individual securities, industries, market capitalization and valuation characteristics. In addition, various techniques are utilized to monitor, measure and manage risk.

The Medical Center has contributed approximately \$811,000 to the Plan during 2009. See note 20 for further discussion on the current status of contributions to the Plan.

(b) Defined Contribution Plan

Beginning in 1990, the Medical Center established a Defined Contribution Plan (the DC Plan) covering substantially all of its nonunion employees. The Medical Center contributes on behalf of employees an amount equal to 0.1% of an employee's salary times the sum of the employee's age and years of service. The maximum contribution the Medical Center shall make will be 6.5% of an employee's salary in any Plan year subject to certain limitations established under the Internal Revenue Code. Contributions made to the DC Plan by the Medical Center were approximately \$745,000 and \$717,300 for the years ended September 30, 2008 and 2007, respectively. Subsequent to year-end, the Medical Center amended this plan to cease employer contributions.

The Medical Center has a tax sheltered annuity plan, whereby eligible employees are automatically enrolled in the plan at an elective deferral rate of 2% of their annual compensation unless a written election to opt out of the plan is made. Employee contributions are allowed up to the allowed IRS maximum contribution. The Medical Center matches half of the employee's contribution to the plan, up to a maximum of 3% of earned wages. During the years ended September 30, 2008 and 2007, the Medical Center contributed approximately \$200,500 and \$168,900 to the plan, respectively. Subsequent to year-end, the Medical Center amended this plan and changed the match to a discretionary match.

RHRI maintains a 401(k) salary deferral plan (the RHRI Plan). Employees qualifying under the RHRI Plan may make pretax contributions, up to statutory limits. RHRI will match employee contributions at a rate of twenty percent (20%), up to three percent (3%) of the employee's annual salary. In addition, RHRI is required under union contract to contribute an amount equal to 2% of gross annual salaries for all eligible employees regardless of their participation in the RHRI Plan. Contributions made by the plan by RHRI were approximately \$130,600 and \$122,900 for the years ended September 30, 2008 and 2007, respectively. At September 30, 2008, RHRI has a payable due to the Plan of approximately \$102,000 related to a discretionary contribution declared in 2007 that has not been remitted to the plan.

(10) Leases

The Medical Center leases various equipment under capital leases expiring through 2013. The present value of future minimum capital lease payments as of September 30, 2008 are:

Year ending September 30:		
2009	\$	1,260,082

Less current portion of capital lease obligations		<u>1,182,655</u>
Capital lease obligations, net of current portion	\$	<u><u>796,815</u></u>

The net book value of equipment under capital leases amounted to approximately \$1,152,000 and \$1,881,000 as of September 30, 2008 and 2007, respectively.

The Medical Center leases various equipment and space under non-cancelable operating leases which expire at various dates through fiscal year 2028. In addition, the Medical Center rents certain equipment on a day to day basis. Total rental expense for these operating leases and daily equipment rentals for the years ended September 30, 2008 and 2007 totaled approximately \$2,311,000 and \$2,396,000, respectively. Approximate future minimum lease payments under these leases are as follows:

(11) Patient Service Revenue and Related Reimbursement

A major portion of the Medical Center's revenue is received from third-party payors. The following is a percentage breakdown of gross revenues by payor type for the years ended September 30:

	2008	2007
Medicare	31%	32%
Blue Cross	30	29
Medicaid	7	7
United	14	15
HMO	8	7
Other third-party payor	5	5
Self-pay	5	5
Total	100%	100%

Cost reports filed annually with third party payors are subject to audit prior to final settlement. Cost reports for fiscal years 2006 and prior have been audited and settled. Changes in prior year estimated settlements with third-party payors and other changes in estimates increased net patient service revenue by approximately \$852,000 and \$1,030,000 for the years ended September 30, 2008 and 2007, respectively. In addition, the Medical Center was a participant in a group reimbursement appeal in which a court determined the Medicare program had incorrectly interpreted regulations in prior years. The Medical Center received a settlement amount of \$1,112,600 during the year ended September 30, 2008.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with laws and regulations can be subject to future government review and interpretation as well as significant regulatory action; failure to comply with such laws and regulations can result in fines, penalties and exclusion from the Medicare and Medicaid programs.

The Medical Center grants credit to patients, substantially all of whom are local residents. The Medical Center generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans, or policies (e.g. Medicare, Medicaid, Blue Cross, health maintenance organizations, and commercial insurance policies). Because of the Medical Center's policy of granting credit to patients regardless of their ability to pay, the Medical Center provides a significant amount of services for which payment is never received. During the years ended September 30, 2008 and 2007, the Medical Center provided \$13,452,969 and \$12,270,056, respectively, for uncollectible patient accounts.

On October 1, 1994, an amendment to the Rhode Island Title XIX Program State Plan went into effect relating to disproportionate share hospital policy for compliance with the Federal Social Security Act. This amendment resulted in additional payments to compensate hospitals for indigent patients. Disproportionate share payments, net of licensing fees, of \$2,502,252 and \$1,216,733 were recorded in fiscal 2008 and fiscal 2007, respectively, as a component of net patient service revenue.

(12) Concentrations of Credit Risk

At September 30, 2008, the Medical Center has \$4,142,151 on deposit with a local financial institution. Per an agreement with this institution, surplus operating funds are swept daily and invested in various overnight repurchase agreements.

Of the funds held in the Medical Center's name, at September 30, 2008, \$3,262,670 was invested in overnight repurchase agreements, and \$109,133 was held in demand deposit accounts. The funds held in the overnight repurchase agreement are not considered to be a "deposit" and thus are not insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund. The funds held in certain demand deposit accounts exceed Federal Depository Insurance limits; however, the financial institution has a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Medical Center maintains funds in an account at a financial brokerage institution. The account balance is insured by the Securities Investor Protection Corporation (SIPC) up to \$500,000 (including up to \$100,000 for cash balances). The aggregate amount of all balances in excess of the insured limit was approximately \$3,168,000 and \$7,451,900 at September 30, 2008 and 2007, respectively. Historically, the Medical Center has not experienced any losses on this account.

(13) Related-Party Transactions

At September 30, 2008 and 2007, the Medical Center had outstanding receivable balances from its affiliates as follows:

	2008	2007
LHS Investments	\$ 105,362	\$ 103,862
Landmark Occupational Medicine	1,054,206	1,054,206
LHS Management Company	3,679,378	3,679,269

Less estimated uncollectibles	5,175,357	5,175,266
Noncurrent due from affiliates	\$ —	\$ —

(14) Commitments and Contingencies

(a) Contingencies

The Medical Center is involved in various malpractice claims and legal proceedings of a nature considered normal to its business. The claims are in various stages and some may ultimately be brought to trial. While it is not feasible to predict or determine the outcome of any of these claims, it is the opinion of management that the liability, if any, to the Medical Center in excess of insurance coverage will not have a material adverse effect on the financial position of the Medical Center.

(14) Commitments and Contingencies, (Continued)

(b) Insurance Reserve

The Medical Center has malpractice insurance under a claims-made policy. Should this claims-made policy not be renewed or replaced with equivalent insurance, occurrences during its term but reported subsequently will be uninsured.

In order to provide for the possibility that the claims made policies will not be renewed, the Medical Center has accrued an estimated premium for a tail insurance policy totaling approximately \$1,230,600 at September 30, 2008.

PHICO was the Medical Center's insurer for professional, general and excess liability insurance on a claims-made basis from October 1, 1999 through October 1, 2001. PHICO was placed into receivership by the Commonwealth Court of Pennsylvania effective February 1, 2002. The Medical Center believes that any exposure related to the insolvency of PHICO is not material to the consolidated financial statements.

(c) Severance Agreements

The Medical Center has severance agreements with certain executive officers that become operative only upon involuntary termination without cause. The severance plan for certain executive officers involuntarily terminated without cause have been accrued in the consolidated financial statements. Severance plans that are not operative have not been accrued in the consolidated financial statements.

(d) Labor Union

At September 30, 2008, the Medical Center had approximately 1,300 employees. Of this total, approximately 478 employees are represented by the Northern Rhode Island United Nurses and Allied Professionals, Local 5067. The current labor agreement expired on September 30, 2009, and they are currently negotiating a new contract. The Medical Center has not experienced any labor stoppages or interruptions in the recent past. See note 20 for further discussion on the labor union.

(15) Joint Venture

The Medical Center and Radiation Therapy Services, Inc. (a for-profit company) (RTS) formed a joint venture in 2004 principally to provide radiation therapy services in Rhode Island. The joint venture, Southern New England Regional Cancer Center, LLC (SNERCC) is a limited liability company and is accounted for under the equity method of accounting. The initial members of SNERCC are RTS whose interest is 62% and the Medical Center whose interest is 38%. The investment in SNERCC for the years ended September 30, 2008 and 2007 was \$869,162 and \$732,422, respectively.

(16) Hospital License Fee

The State of Rhode Island requires all hospitals to pay an annual hospital licensing fee. The licensing fee is calculated as a percentage of gross patient service revenue derived from the Medical Center's last filed cost report. The total due and paid to the State from the Medical Center was \$3,529,932 and \$2,888,712 for 2008 and 2007, respectively. The 2007 license fee was paid. At September 30, 2008, payment of the 2008 license fee was pending determination by the Superior Court of the State of Rhode Island of the amount applicable to the time period prior to June 26, 2008, the effective date of the Special Master appointment (see note 1). The court had ordered the Medical Center to escrow \$3,577,360 for payment of said fee. On May 17, 2010, the Court ordered a portion of the escrow balance totaling \$1,834,775 to be paid in full settlement of the 2008 hospital license fee. The Medical Center has accrued the Court ordered amount of the 2008 license fee as a current liability in the consolidated financial statements.

(17) Deferred Gain

In September 2003, the Medical Center sold real property that consisted of patient care, administrative, retail and commercial space (the Plaza) for \$3,500,000 in cash and recognized a gain on the sale of the Plaza of \$3,455,795. Concurrently, the Medical Center entered into a 12-year lease agreement for leasing a portion of the commercial space in the Plaza with one option to renew the lease for an additional 3 years. The gain on the sale has been deferred and is being recognized over the related lease term (15 years or \$230,386 per year).

In February 2008, the Medical Center sold the land and building that comprise the Fogarty unit for approximately \$6,040,000 in cash and recognized a gain on the sale of the building and land of \$5,521,487. Concurrently, the Medical Center and RHRI entered into 10-year lease agreements for 38% and 62%, respectively, of the square footage within the Fogarty unit building with options to renew the leases for up to 25 additional years. The gain on the sale has been deferred and is being recognized over the related lease term (20 years or \$276,000 per year), which represents the time period of the initial lease term together with renewal options that provide economic incentives to the lessees, if exercised. Sale proceeds of \$580,000 were used to fund an escrow account to secure future rent payments from the Medical Center for five years.

(18) Functional Expenses

The Medical Center provides health care services to residents within its geographic location. Expenses related to providing these services for the years ended September 30 are as follows:

	<u>2008</u>	<u>2007</u>
Health care services	\$ 108,642,441	\$ 104,042,257

(19) Supplemental Cash Flow Information

During the years ended September 30, 2008 and 2007, cash paid for interest was \$795,224 and \$377,841, respectively.

The accompanying consolidated statement of cash flows for the year ended September 30, 2008 exclude the effects of non-cash investing and financing activities that relates to the acquisition of certain equipment under a capital lease in the amount of \$343,389.

The accompanying consolidated statements of cash flows for the year ended September 30, 2008, exclude the effect of non-cash investing and financing activities related to the portion of asset retirement obligation applied against gain on sale of building during the year of \$682,254.

The accompanying consolidated statements of cash flows for the year ended September 30, 2008, exclude the effect of non-cash operating and investing activities related to the proceeds from sale of the building retained by the seller as future rents during the year of \$580,000, as well as a deferred gain on the sale of the building in the amount of \$5,521,487.

(20) Subsequent Events

Debt Repayment

The Medical Center did not fully meet the quarterly deposits required to provide sinking funds from which the trustee could make the October 1, 2008 principal and interest payments to Series 2005 bondholders. As required under the Loan and Trust Agreement, the trustee transferred \$261,994 from the Debt Service Reserve Fund in order to make the October 1, 2008 payments to bondholders. Following this transfer, the balance of the Debt Service Reserve Fund of \$1,155,119 was less than the required minimum, which constitutes an additional Event of Default as defined in the Loan and Trust Agreement.

At September 30, 2009, the balance of the Debt Service Reserve Fund was less than the required minimum, which constitutes an additional Event of Default as defined in the Loan and Trust Agreement.

The Medical Center defaulted on scheduled interest and principal payments to bondholders maturing on October 1, 2009 due to a shortfall in the debt service reserve fund. The deficiency totaling \$381,733 was funded by Radian Asset Assurance, Inc. (Radian), the insurer of the bonds. Additionally, on April 1, 2010, Radian paid bond interest in the amount of \$242,975 on the Medical Center's behalf.

On May 18, 2010, the Special Master entered into a settlement agreement with Radian to be executed upon approval by the court. On May 25, 2010, the Medical Center received the final order from the court approving the settlement agreement. The approved settlement agreement requires the Medical Center pay in cash the sum of \$5,400,000 in full satisfaction of the bond obligation and secured claims against the Medical Center by the Trustee of the bonds and Radian. Upon receipt of the payment, the Trustee and Radian will release and discharge of their respective liens against the assets of the Medical Center.

(20) Subsequent Events, (Continued)

Debt Repayment, (Continued)

The source of the cash payment from the Medical Center was (1) approximately \$1,800,000 of cash paid by the Medical Center and (2) secured borrowings of up to \$3,600,000 from two private lending sources (\$1,600,000 from CRB Holdings, Inc. and \$2,000,000 from Caritas). The transaction resulted in the Medical Center recognizing a net gain on the forgiveness of debt and interest of approximately \$5,964,800.

In connection with the final order from the court approving the settlement agreement for the bond obligation, discussed in note 7, Blue Cross was granted a valid and perfected third priority security interest in the Medical Center's receivables, including health care insurance receivables, and all proceeds thereof.

Negotiating Agreement

In September 2009, the Medical Center entered into an exclusive negotiating arrangement (Exclusivity Provision) with Caritas Christi Healthcare (Caritas Christi). In April 2010, the Superior Court approved a request by the Special Master for the Medical Center to enter into a one year Management Advisory Agreement (the Agreement) with Caritas Christi. The Agreement was subsequently terminated and on December 16, 2010 the Superior Court terminated the Exclusivity Provision. No amounts were paid to Caritas Christi under the Agreement.

Pension Funding

The Medical Center did not deposit the required quarterly installments to the Plan in the amount of approximately \$2,343,600 due on June 15, 2011. The Medical Center filed the required forms with the Pension Benefit Guarantee Corporation (PBGC) within the required 10 day response time to report the missed payment. The Court appointed Special Master has indicated that the payment will not be made by the Medical Center and Plan termination procedures will be initiated.

Union Negotiations

The Medical Center delayed from October 1, 2008 to January 1, 2009 a 2% pay increase due to union employees, and has not paid an additional 2% pay increase due to union employees on April 1, 2009. A demand for arbitration was filed with the American Arbitration Association on November 10, 2008 in accordance with the collective bargaining agreement; however, this demand has not yet been recognized by the Court. As a result of the Mastership, the Medical Center and the Special Master do not believe the Medical Center is obligated to pay these increases and, therefore, has not accrued for them in the financial statements. However, in the event the Court were to rule in favor of the union employees, the Medical Center could be obligated to pay up to approximately \$1,350,000, which includes potential retroactive pay increases from October 1, 2008 to January 1, 2009, as well as the additional increases beginning April 1, 2009 through September 14, 2011.

Asset Purchase Agreement

On May 26, 2011, the Medical Center signed an asset purchase agreement (APA) with Steward Medical Holdings Subsidiary Four, Inc. (SMHSF) and Steward Health Care System LLC. The APA was approved by the court on June 8, 2011. In conjunction with the APA, the Medical Center entered into an advisory agreement with SMHSF. Under the terms of the advisory agreement, SMHSF will provide advisory services at no charge to the Medical Center as long as the transactions contemplated in the APA are consummated. Otherwise, a monthly fee of \$35,000 will be charged for each month of service rendered. In addition, the advisory agreement allows for a credit facility to be utilized by the Medical Center to fund working capital needs through the closing of the APA. The Medical Center can borrow up to \$5,000,000 under the terms of the advisory agreement, and as of the date of this report has borrowed \$1,000,000. Currently the APA is being reviewed by the Rhode Island Department of Health and the Attorney General of the State of Rhode Island.

Management of the Medical Center has evaluated subsequent events through September 14, 2011, which is the date these financial statements were available to be issued.

September 14, 2011

Kahn, Litwin, Renza & Co., Ltd.
951 North Main Street
Providence, RI 02904

We are providing this letter in connection with your audits of the consolidated balance sheets of Landmark Medical Center and Affiliates as of September 30, 2009 and 2008, and the related consolidated statements of operations, changes in net deficit, and cash flows for the years then ended for the purpose of expressing an opinion as to whether the consolidated financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows of Landmark Medical Center and Affiliates (the "Medical Center") in conformity with accounting principles generally accepted in the United States of America. We confirm that we are responsible for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. We are also responsible for adopting sound accounting policies, establishing and maintaining internal control, and preventing and detecting fraud.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of September 14, 2011 the following representations made to you during your audit.

1. The consolidated financial statements referred to above are fairly presented in conformity with accounting principles generally accepted in the United States of America.
2. We have made available to you all—
 - a. Financial records and related data.
 - b. Minutes of the meetings of trustees, committees of trustees, or summaries of actions of recent meetings for which minutes have not yet been prepared.

- c. All fiscal intermediary, and third party payor reports and information.
3. There have been no communications (oral or written) from regulatory agencies, governmental representatives, employees, or others concerning investigations or allegations of noncompliance with laws and regulations in any jurisdiction (including those related to the Medicare and Medicaid antifraud and abuse statutes), deficiencies in financial reporting practices, or other matters that could have a material adverse effect on the consolidated financial statements.
4. There are no material transactions that have not been properly recorded in the accounting records underlying the consolidated financial statements.
5. You have proposed adjusting journal entries (see attached schedule) to our consolidated financial statements that will be posted to the Medical Center's accounts. We have approved those adjustments.
6. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.
7. We have no knowledge of any fraud or suspected fraud affecting the Medical Center involving
 - a. Management,
 - b. Employees who have significant roles in internal control, or
 - c. Others where the fraud could have a material effect on the consolidated financial statements.
8. We have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, regulators, or others.
9. The following have been properly recorded or disclosed in the consolidated financial statements:
 - a. Related party transactions and related accounts receivable or payable, including sales, purchases, loans, transfers, leasing arrangements, and guarantees.
 - b. Guarantees, whether written or oral, under which the Medical Center is contingently liable.
 - c. All accounting estimates that could be material to the consolidated financial statements, including the key factors and significant assumptions underlying those estimates, and we believe the estimates are reasonable in the circumstances.
 - d. Off-balance sheet activities, including accounting policies relating to non-consolidation and revenue recognition. Specifically those off-balance sheet activities in which the Medical Center is a sponsor or transferor, the majority owners of the off-balance sheet vehicle are independent third parties who have made and

- maintained a substantive capital investment in the vehicle, control the vehicle, and have substantive risks and rewards of the assets of the vehicle, including residuals.
- e. Significant common ownership or management control relationships requiring disclosure.
 - f. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances and lines of credit or similar arrangements.
 - g. Agreements to repurchase assets previously sold, including sales with recourse.
 - h. Changes in accounting principle affecting consistency, other than as described in the notes to the financial statements.
 - i. Assets and/or liabilities under the Medical Center's control.
 - j. Rights to the assets held by a recipient organization (unless the recipient organization was explicitly granted variance power) as an interest in the net assets of the recipient organization, a beneficial interest or receivable.
10. There are no estimates that may be subject to a material change in the near term that have not been properly disclosed in the consolidated financial statements. We understand that near term means the period within one year of the date of the consolidated financial statements. In addition, we have no knowledge of concentrations existing at the date of the consolidated financial statements that make the company vulnerable to the risk of a near-term severe impact that have not been properly disclosed in the consolidated financial statements.
 11. Adequate consideration has been given to, and appropriate provision made for estimated adjustments to revenue, such as for denied claims and changes to diagnosis related group (DRG) assignments.
 12. We are responsible for making the fair value measurements and disclosures included in the consolidated financial statements, including determining the fair value of investments for which a readily determinable fair value does not exist. As part of fulfilling this responsibility, we have established an accounting and financial reporting process for determining the fair value measurements and disclosures, considered the appropriateness of valuation methods, adequately supported any significant assumptions used, and ensured that the presentation and disclosure of the fair value measurements are in accordance with accounting principles generally accepted in the United States of America. We believe the assumptions and methods used by us, including those used by specialists engaged by us, are appropriate in the circumstances and the resulting valuations and disclosures are reasonable.
 13. All peer review organizations, fiscal intermediary, and third party payor reports and information have been made available.
 14. Receivables reported in the consolidated financial statements represent valid claims against debtors for sales or other charges arising on or before balance sheet date and have been appropriately reduced to their estimated realizable values.

15. In regard to cost reports filed with third parties:

- a. Except as disclosed in the financial statements, all required Medicare, Medicaid, and similar reports have been properly filed.
- b. Management is responsible for the accuracy and propriety of all cost reports filed.
- c. All costs reflected on such reports are appropriate and allowable under applicable reimbursement rules and regulations and are patient related and properly allocated to applicable payors.
- d. The reimbursement methodologies and principles employed are in accordance with applicable rules and regulations.
- e. Adequate consideration has been given to, and appropriate provision made for, audit adjustments by intermediaries, third party payors, or other regulatory agencies.
- f. All items required to be disclosed, included disputed costs that are being claimed to establish a basis for a subsequent appeal, have been fully disclosed in the cost report.
- g. Recorded third party settlements include differences between filed (and to be filed) cost reports and calculated settlements, which are necessary based on the historical experience or new or ambiguous regulations that may be subject to differing interpretations. While management believes the entity is entitled to all amounts claimed on the cost reports, management also believes the amounts of these differences are appropriate.

16. Processes are in effect to address notifications where billings to third-party payors do not comply in all material respects with applicable coding guidelines and laws and regulations (including those dealing with Medicare and Medicaid antifraud and abuse), and billings reflect only charges for goods and services that were medically necessary; ordered in writing by a treating physician; properly approved by regulatory bodies, if required, and properly rendered.

17. There are no:

- a. Violations or possible violations of laws or regulations, such as those related to the Medicare and Medicaid antifraud and abuse statutes, including but not limited to the Medicare and Medicare Anti-Kickback Statutes, Limitation on Certain Physician Referrals (the Stark law), and the False Claims Act, in any jurisdiction, whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency other than those disclosed or accrued in the financial statements.
- b. Unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with authoritative guidance.
- c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by authoritative guidance.

- d. Designations of net assets disclosed to you that were not properly authorized and approved, or reclassifications of net assets that have not been properly reflected in the consolidated financial statements.
18. The following information about financial instruments with off balance sheet risk and financial instruments with concentration of credit risk has been properly disclosed in the consolidated financial statements:
 - a. Extent, nature, and terms of financial instruments with off balance sheet risk;
 - b. The amount of credit risk of financial instruments with off-balance sheet credit risk and information about the collateral supporting such financial instruments; and
 - c. Significant concentrations of credit risk arising from all financial instruments and information about the collateral supporting such financial instruments.
 19. The Medical Center is responsible for determining the fair value of financial instruments as required by authoritative guidance. The amounts disclosed represent the Medical Center's best estimate of the fair value of financial instruments required to be disclosed under authoritative guidance (and other assets and liabilities, if separately disclosed). The Medical Center also has disclosed the methods and significant assumptions used to estimate the fair value of financial instruments.
 20. We have no personal knowledge of any officer or trustee of the Medical Center, or any other person acting under the direction thereof, having taken any action to fraudulently influence, coerce, manipulate or mislead you during your audit.
 21. The Medical Center has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral except as made known to you and disclosed in the notes to the consolidated financial statements.
 22. We have reviewed long lived assets and certain identifiable intangibles to be held and used for impairment whenever events or changes in circumstances have indicated that the carrying amount of assets might not be recoverable and have appropriately recorded the adjustment.
 23. We have complied with all restrictions on resources (including donor restrictions) and all aspects of contractual and grant agreements that would have a material effect on the consolidated financial statements in the event of noncompliance.
 24. Management is responsible for compliance with the laws, regulations, donor restrictions, and provisions of contracts and grant agreements applicable to the Medical Center. Management has identified and disclosed to you all laws, regulations, donor restriction, and provisions of contracts and grant agreements that have a direct and material effect on the determination of financial statement amounts.
 25. Note 1 to the consolidated financial statement discloses all of the matters of which we are aware that are relevant to the Medical Center's ability to continue as a going concern, including significant conditions and events, and managements plans.

26. The Medical Center has accounted for asset retirement obligations in accordance with authoritative guidance. The Medical Center recognized the obligations when incurred using management's best estimate of fair value. In addition, the asset retirement obligation for the Forgarty unit has been removed as the Medical Center's liability was transferred with the sale.
27. Tax exempt bonds issued have retained their tax exempt status.
28. The Medical Center has adopted the recognition requirements of authoritative guidance, and has recognized the funded status of its defined benefit retirement plan in the consolidated balance sheet.
29. The actuarial assumptions and methods used to measure pension liability and costs for financial accounting purposes are appropriate in the circumstances.
30. Provisions, when material, have been made for:
 - a. Losses to be sustained from inability to fulfill any commitment and provide services.
 - b. Estimated losses to be sustained as a result of retroactive adjustments by third-party payors under reimbursement agreements that are subject to examination, including denied claims, changes to DRG assignments or other classification criteria affecting reimbursement.
 - c. Loss to be sustained as a result of adjustments resulting from review of Medicare or other payor claim data by the payors' reviewers with which the Medical Center has agreements.
 - d. Losses to be sustained as a result of purchase commitments for inventory quantities in excess of normal requirements or at prices in excess of prevailing market prices.
 - e. Losses to be sustained as a result of the reduction of excess or obsolete inventories to their estimated net realizable value.
 - f. Audit adjustments by fiscal intermediaries, third party payors, and other regulatory agencies.
31. The Medical Center and its subsidiaries have been recognized as exempt from federal income taxes under Section 501 (a) of the Internal Revenue Code of 1986 as an organization described in Section 501 (c) (3) of the Code, as evidenced by our determination letter. Since the date of our determination letters, no changes have occurred in the organizations or operation of the Medical Center that would affect our tax exempt status. Provision has been made, where material, for any federal, state, or local income, excise, employment, property, sales and use, or other tax liability.
32. We are unaware of any violation of all other material provisions of the Internal Revenue Code of 1986, as amended.
33. The Medical Center has a reasonable basis for allocation of functional expenses.

34. The Medical Center is not subject to the requirements of OMB Circular A-133 or 45 CFR Section 74.26, *Uniform Administrative Requirements for Awards and Sub-awards to Institutions of Higher Education, Medical Centers, Other Nonprofit Organizations, and Commercial Organizations; and Certain Grants and Agreements with States, Local Governments and Indian Tribal Governments*, as it did not expend more than \$500,000 in federal awards during the year ended September 30, 2009.
35. We are unaware of any failure to make good faith effort to classify net assets as unrestricted, temporarily restricted or permanently restricted based on our assessment of the donor's intention, as specified in original donor correspondence where available. Where not available, we used other corroborating evidential matter including minutes of the Board, accounting records and financial statements. To the extent that we were unable to review original donor correspondence to determine the amount of the original gift and donor additions, our determination of such amount was based on our best estimate considering the relevant facts and circumstances. Amounts classified as temporarily restricted are subject to donor-imposed purpose or time restrictions which precluded us from expending such amounts or recognizing such amounts as unrestricted as of September 30, 2009. In addition, we believe that classified appreciation and income related to such donations have been recorded in accordance with relevant donor or statutory restrictions.
36. In regards to the nonattest services performed by you, we have:
- a. Made all management decisions and performed all management functions.
 - b. Designated an individual with suitable skill, knowledge, or experience to oversee the services.
 - c. Evaluated the adequacy and results of the services performed.
 - d. Accepted responsibility for the results of the services.
 - e. Established and maintained internal controls, including monitoring ongoing activities.
37. As disclosed in Note 14 in the consolidated financial statements, the Medical Center and the Special Master do not believe the Medical Center is obligated to pay the scheduled pay increases due to the union employees and therefore has not accrued for them in the financial statements. However, in the event the Court were to rule in favor of the union employees, the Medical Center could be obligated to pay up to approximately \$1,350,000, which includes potential retroactive pay increases from October 1, 2008 to January 1, 2009, as well as the additional increases beginning April 1, 2009 through September 14, 2011.
38. As disclosed in Note 20 in the consolidated financial statements, the Medical Center did not make its required contribution of approximately \$2,343,600 to its defined benefit pension plan due on June 15, 2011. The Medical Center filed the required forms with the Pension Benefit Guarantee Corporation (PBGC) within the required 10 day response time. Payment will not be made and termination procedures will be initiated.

Independent Auditors' Report

To Jonathan N. Savage, Esq.,
in his capacity as Court-appointed Special Master
for Landmark Medical Center:

We have audited the accompanying consolidated balance sheets of Landmark Medical Center and Affiliates (the Medical Center) as of September 30, 2009 and 2008, and the related consolidated statements of operations, changes in net deficit, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Medical Center's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Landmark Medical Center and Affiliates as of September 30, 2009 and 2008, and the results of their operations, changes in net deficit, and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Medical Center will continue as a going concern. As discussed in note 1 to the consolidated financial statements, the Medical Center has suffered recurring losses from operations and has a net asset deficiency that raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in note 1. The consolidated financial statements do not include any adjustments, other than the separation of pre-mastership payables, which might result from the outcome of this uncertainty.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information is presented for the purpose of additional analysis and is not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

(1) Description of Organization

Landmark Medical Center (the Medical Center) is a nonprofit organization providing acute care medical services. It is accredited by the Joint Commission on Accreditation of Hospitals and participates as a provider in Medicare, Medicaid, and third party programs. The Medical Center was created effective September 1, 1988, through the consolidation of The Woonsocket Hospital and the John E. Fogarty Memorial Hospital. Services are provided at the Woonsocket unit in Woonsocket, Rhode Island, and the Fogarty unit in North Smithfield, Rhode Island. Landmark Health Systems, Inc. (LHS) is a nonprofit holding company and is the sole member of the Medical Center.

On June 28, 2005, the Landmark Healthcare Foundation (the Foundation) was formed as a 501(c)(3) organization to support the Medical Center in fundraising and philanthropic needs. The Foundation is a subsidiary of the Medical Center and is fully consolidated into the Medical Center's financial statements.

The Medical Center owns a 50% financial interest and has certain other rights that provide it with control over a Physician Hospital Organization (PHO). Since the Medical Center exercises control over the PHO, the PHO's financial statements have been consolidated into the Medical Center's financial statements.

Landmark Physician Office Services (LPOS) was formed in June 2006 to operate a physician practice within the geographic service area of the Medical Center. LPOS is a subsidiary of the Medical Center, and its financial statements are consolidated into the Medical Center's financial statements.

The Medical Center owns a 50% financial interest in Rehabilitation Hospital of Rhode Island (RHRI). On June 1, 2000, LHS became the other 50% owner of RHRI. Since the Medical Center also has certain other rights that allow it to exercise control over RHRI, RHRI's financial statements have been consolidated into the Medical Center's financial statements.

All material intercompany accounts and transactions are eliminated in consolidation.

Liquidity

The Medical Center and its affiliates have experienced recurring losses and have an accumulated deficit of approximately \$37,156,000 as of September 30, 2010. In addition, as discussed in note 7, the Medical Center was unable to maintain certain financial covenants required under its Loan and Trust Agreement for the years ended September 30, 2009 and 2008.

Historically, the Medical Center and its affiliates have financed their operations and met their capital requirements through funds generated from operations, the issuance of long-term debt, equipment lines of credit, a working capital line of credit, payor advances, and short-term investments. As of September 30, 2010, the Medical Center had cash and cash equivalents of approximately \$3,800,000 to finance its future operating and capital requirements.

Management's projections indicate continuing losses will result from maintaining current operations for the next twelve months. Management is taking actions to reduce expenditures from operations. Management has also sold certain property to generate cash flows for operations. In addition, building housing the operations of the Rehabilitation Hospital of Rhode Island (RHRI) and the associated land was sold on February 13, 2008 to a real estate investment trust in a sale-leaseback transaction (see note 17).

KLR

On June 26, 2008, the Superior Court of the State of Rhode Island appointed a Special Master to take possession of the property and assets of the Medical Center and preserve same until further order of the Court. Approximately \$7,800,000 of payables to vendors were outstanding at the time of Mastership.

On November 14, 2008, the Superior Court of the State of Rhode Island appointed a Special Master to take possession of the property and assets of RHRI and preserve same until further order of the Court. Approximately \$320,000 of payables to vendors were outstanding at the time of Mastership.

As of September 14, 2011, however, the Medical Center continues to operate both the acute and rehabilitation facilities, and to fund operations for both. The combined entity has unrestricted cash balances of approximately \$1,400,000 at September 14, 2011. See note 20 for further discussion on subsequent events.

There can be no assurance that actual cash outflows and liquidity needs will not exceed management's projections or that the Medical Center and RHRI will be able to fund operations on a long-term basis in the absence of other sources of cash flow. There can be no assurances that any additional required longer-term financing will be available through additional bank borrowings or long-term debt offerings or, that if such financing is available, that it will be available on terms acceptable to the Medical Center.

These conditions raise substantial doubt about the Medical Center's ability to continue as a going concern.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant areas which are affected by the use of estimates include valuation of the allowance for uncollectible accounts, recoverability of long-lived assets, valuation of third-party payor settlements, and valuation of pension obligations.

(b) Cash and Cash Equivalents

The Medical Center considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

LANDMARK MEDICAL CENTER AND AFFILIATES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Years Ended September 30, 2009 and 2008

KLR

(c) Investments

Investments in equity securities and mutual funds with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets.

Investment income on proceeds of borrowings that are held by a trustee is reported as other revenue. Investment income and any unrealized losses on Board-designated assets are recorded as non-operating gains. Investment income and any unrealized losses from all other unrestricted assets is recorded as non-operating investment income or as an addition to temporarily restricted net assets when restricted by donor. Realized investment gains of Board-designated assets are recorded as non-operating gains. Realized investment gains and losses of all other unrestricted assets are recorded as non-operating gains or as an addition to temporarily restricted net assets when restricted by donor.

A decline in the market value of an investment security below its cost is recognized through an impairment charge. The impairment charge is included in the deficiency of revenue and gains over expenses in the consolidated statements of operations and a new cost basis is established.

(d) Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

(e) Funds Limited as to Use

Funds limited as to use include assets held by trustees under indenture agreements and assets restricted by donors.

(f) Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

(g) Property and Equipment

Property and equipment (including other real estate) is recorded at cost. Capital leases are recorded at their present value at the beginning of the lease term. Donated items are recorded at fair market value at the date of contribution. Depreciation on property and equipment is provided using the straight-line method based upon the estimated useful lives of each asset. Amortization on capital leases is provided using the straight-line method over the lesser of the lease terms or useful lives. These useful lives range from three to eight years for equipment and ten to forty years for buildings.

KLR

(h) Long-Lived Assets

In accordance with authoritative guidance, long-lived assets, such as property, plant, and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, the Medical Center first compares undiscounted cash flows expected to be generated by the asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying value exceeds its fair value. Fair value is determined through various valuation techniques, including discounted cash flow models, quoted market values and third-party independent appraisals, as considered necessary.

(i) Asset Retirement Obligations

The fair value of a liability for legal obligations associated with asset retirements is recognized in the period in which it is incurred, in accordance with authoritative guidance, if a reasonable estimate of the fair value of the obligation can be made. When the liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligations is depreciated over the useful life of the related asset.

Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the consolidated statements of operations and changes in unrestricted net assets.

(j) Temporarily Restricted Net Assets

Temporarily restricted net assets are those whose use by the Medical Center has been limited by donors to a specific time period or purpose.

(k) Charity Care and Provision for Uncollectible Patient Accounts

The Medical Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Medical Center does not intend to pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Medical Center grants credit without collateral to patients, most of whom are local residents and are insured under third-party agreements. Additions to the allowance for uncollectible accounts are made by means of the provision for uncollectible accounts. Accounts written off as uncollectible are deducted from the allowance and subsequent recoveries are added. The amount of the provision for uncollectible accounts is based upon management's assessments of historical and expected net collections, business and economic conditions, trends in federal and state governmental health care coverage and other collection indicators.

(l) Net Patient Service Revenue

The Medical Center has individual agreements with numerous third party payors that provide reimbursement to the Medical Center at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Costs related to Medicaid patients are reimbursed under a prospective cost contract with the Medical Center, whereby reimbursement is based on projected costs. Under the prospective cost contract, the Medical Center's rate is based on certain budgeted expenditures and budgeted volume negotiated with the Medicaid program. Volume variances from budget are reimbursable to the Medical Center or due to Medicaid at marginal cost factors.

Medicare utilizes a prospective reimbursement system for inpatient services wherein payment is based on the classification of a case into a diagnosis-related group (DRG). Outpatient services related to Medicare beneficiaries are paid based on a prospectively determined reimbursement methodology based on ambulatory payment classification (APC) and fee schedules.

Other payors reimburse the Medical Center a per diem rate for most inpatient services. Outpatient services related to other payors' beneficiaries are paid based on an established fee schedule.

(m) Income Taxes

The Medical Center is a not-for-profit organization described under Internal Revenue Code (IRC) Section 501(c)(3) and is generally exempt from federal income taxes under IRC Section 501(a).

Authoritative guidance requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Medical Center's tax returns to determine whether the tax positions are "more likely than not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax benefit or expense in the current year.

The Medical Center annually files IRS Form 990 – Return of Organization Exempt from Income Tax reporting various information that the IRS uses to monitor the activities of tax-exempt entities.

RHRI is a Delaware Limited Partnership. Accordingly, no provision for federal or state income taxes has been recorded by RHRI as the income or loss is passed through to the partners and thereby included in each partner's federal and state tax returns.

In 2009, the Medical Center and RHRI adopted authoritative guidance pertaining to uncertain tax positions. Such adoption did not impact the consolidated financial position or results of operations. The Medical Center's and RHRI's tax returns for 2006, 2007, and 2008 are subject to examination by the IRS, generally for three years after they were filed. There are no tax examinations in progress.

All other entities described in note 1 are current in the filings of their required tax returns.

(n) Reclassification

Certain amounts in the 2008 consolidated financial statements have been reclassified to conform to 2009 financial statement presentation.

(3) Charity Care and Community Services

The Medical Center maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges forgone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies, and equivalent service statistics. The following information measures the level of charity care provided during the years ended September 30:

	2009	2008
Charges foregone, based on established rates	\$ 4,555,600	\$ 3,853,900
Estimated costs and expenses incurred to provide charity care	1,500,000	1,300,000
	33%	34%

The Medical Center also provides numerous other services to the community free of charge. These services include health care screenings, educational programs, support groups, foreign language translation, and social services eligibility assistance.

In addition, the Medical Center subsidizes the cost of treating patients enrolled in public assistance programs where reimbursement is below cost.

(4) Funds Limited as to Use

(a) Investments

During the year ended September 30, 2008, the Medical Center liquidated its investment portfolio.

(b) Funds Limited as to Use

The composition of assets limited as to use at September 30, 2009 and 2008 is set forth in the following table. Investments are stated at fair value.

During 2008, the Superior Court of the State of Rhode Island ordered the Medical Center to escrow \$3,577,360 for payment of the hospital license fee (see note 16). The escrow increase from 2008 to 2009 is the result of interest income earned on the funds.

Investment income and gains from investments, funds limited as to use and cash equivalents are comprised of the following for the years ended September 30, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
Interest and dividend income	\$ 157,147	\$ 169,958

	<u>28,549</u>	<u>1,270,402</u>
Property and equipment, net	<u>\$ 11,804,349</u>	<u>\$ 13,688,726</u>

During the year ended September 30, 2009, the Medical Center disposed of equipment with a cost of \$92,334 and net book value of \$27,327. A loss of \$2,515 was recognized upon disposal of the equipment.

The Medical Center has asset retirement obligations (AROs) totaling approximately \$333,800 which represents its obligation to remediate specific environmental matters in the event the Medical Center were to renovate or demolish certain buildings in the future. The liabilities were originally measured at fair value and subsequently are adjusted for accretion expense and changes in the amount or timing of the estimated cash flows. The corresponding asset retirement costs are capitalized as part of the carrying amount of the related long-lived asset and depreciated over the asset's remaining life. The following table presents the activity for AROs for the years ended September 30, 2009 and 2008:

(6) Line of Credit

During the year ended September 30, 2008, the Medical Center's and RHRI's respective lines of credit were cancelled and the prior year end balance of \$2,000,000 was repaid.

(7) Long-term Debt

Long-term debt at September 30, 2009 and 2008 consists of the following:

	2009	2008
Hospital Financing Revenue Bonds, 2005 Series, \$14,125,000 of Serial Bonds payable annually through October 1, 2019 at rates ranging from 3.00% to 5.00%	\$ 11,745,000	\$ 12,525,000

The Loan and Trust Agreement relating to the bonds requires the Medical Center to comply with certain financial and non-financial covenants. The Medical Center was not in compliance with these covenants at September 30, 2009 and 2008 and has not received a waiver from the lender. Because the Medical Center has not obtained a waiver of these covenant defaults, the outstanding balance of the Series 2005 Bonds as of September 30, 2009 and 2008 has been classified as a current liability in the accompanying consolidated financial statements. The bonds were paid in full subsequent to year end (see note 20).

On August 10, 2005, the Medical Center refunded its 1993 Series Bonds at a par value of \$15,210,000 with Series 2005 Hospital Financing Revenue Refunding Bonds with a par value of \$14,125,000 in order to take advantage of interest rate savings. The Series 2005 issue consists of serial bonds maturing October 1 of each year beginning October 1, 2006 and continuing through final maturity October 1, 2019. Bonds maturing on or prior to October 1, 2015 were not subject to optional redemption except under extraordinary circumstances.

Bonds maturing on or after October 1, 2016 were subject to optional redemption beginning on October 1, 2015 at par plus accrued interest to the redemption date, at the option of the Institution. The Series 2005 Bonds are insured by Radian Asset Assurance, Inc. and were secured by a mortgage on the Medical Center's main campus located at 115 Cass Avenue, Woonsocket, RI.

An agreement underlying the bonds requires the Medical Center to maintain certain trustee held funds as follows:

Debt Service Reserve Fund – The debt service reserve fund is composed of Medical Center monies held by the trustee for transfer to the debt service fund to cover any deficiency in the debt service fund.

Debt Service Fund – The Medical Center is required to make quarterly deposits with the trustee sufficient to provide a sinking fund for the payment of principal and interest to bondholders when due.

The balances in such funds are summarized below. The balance of the Debt Service Fund and the Debt Service Reserve Fund at September 30, 2009 and 2008 is not in compliance with the agreement (see note 20):

	2009	2008
Debt Service Reserve Fund	\$ 899,326	\$ 1,417,112

(8) Temporarily Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2009 and 2008:

	2009	2008
Purchase of equipment	\$ 55,480	\$ 46,671
Indigent care	58,270	60,448
Health education	12,235	11,235

	\$ 126,369	\$ 119,082

Approximately \$17,000 and \$602,000 of temporarily restricted net assets were released from restriction for other specified purposes in 2009 and 2008, respectively.

(9) Pension Plans

(a) Defined Benefit Plan

The Medical Center has a defined benefit pension plan (the Plan) covering substantially all of its union employees. The benefits are based on years of service and the employee's compensation. The Medical Center's funding policy for the Plan is to contribute an amount sufficient to satisfy the minimum funding requirements of the Internal Revenue Code. The measurement date for the Plan is September 30.

The Medical Center recognizes in its balance sheet an asset for the plan's overfunded status or a liability for the plan's underfunded status. The Medical Center measures the plan's assets and its obligations that determine its funded status as of the end of the Medical Center's fiscal year and recognizes changes in the funded status of the plan in the year in which the changes occur, and reports these changes in other comprehensive income. In addition, actuarial gains and losses that are not immediately recognized as net periodic pension cost are recognized as a component of unrestricted net deficit and amortized into net periodic pension cost in future periods.

The following table sets forth the funded status of the Medical Center's pension plan for union employees and amounts recognized in the consolidated balance sheets at September 30, 2009 and 2008:

	2009	2008
Change in benefit obligation:		
Projected benefit obligation at beginning of year	\$ 26,878,660	\$ 26,303,000

Amounts recognized in unrestricted net assets consist of:

	2009	2008
Net actuarial losses	\$ 15,237,491	\$ 7,809,105

The accumulated benefit obligation at the end of 2009 and 2008 was \$29,734,252 and \$23,243,897, respectively.

Net periodic pension cost included the following components:

	2009	2008
Service cost	\$ 980,653	\$ 909,163
Interest cost on projected benefit obligation	1,748,136	1,599,959
Expected return on plan assets	(1,501,366)	(1,767,981)
Amortization of net loss	396,264	54,405
Net periodic pension cost	\$ 1,623,687	\$ 795,546

The estimated amount that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year is \$881,300.

The following weighted average assumptions were used by the Plan's actuary to determine net periodic pension cost and benefit obligations at September 30, 2009 and 2008:

	2009	2008
Weighted average discount rate for benefit obligations	5.62%	6.50%
Discount rate for net periodic pension cost	6.50	6.25
Rate of increase in future compensation levels	4.00	4.00
Expected long-term rates of return on assets	7.75	7.75

The average future years of service are 13.78 and 13.96 for the years ended September 30, 2009 and 2008, respectively.

Plan assets were invested in the following classes of securities:

	2009	2008
Equity	65%	71%
Fixed income	34	28
Cash and cash equivalents	1	1
	100%	100%

The Plan's overall investment objective is to provide a long-term return that is expected to meet future benefit payment requirements. A long-term horizon has been adopted in establishing an investment policy such that the likelihood and duration of investment losses are carefully weighed against the long-term potential for appreciation of assets. The Plan's investment policy requires investments to be diversified across individual securities, industries, and market capitalization and valuation characteristics. In addition, various techniques are utilized to monitor, measure and manage risk.

The Medical Center has contributed approximately \$353,700 to the Plan during 2010. See note 20 for further discussion on the current status of contributions to the Plan.

Total expected benefit payments are as follows:

Year ending September 30:		
2010	\$	738,000
2011		776,000
2012		921,000
2013		1,184,000

2015-2019		9,740,000
Thereafter		19,871,600
Projected benefit obligation		\$ 34,593,600

(b) Defined Contribution Plan

Beginning in 1990, the Medical Center established a defined contribution plan (the DC Plan) covering substantially all of its nonunion employees. The Medical Center contributes on behalf of employees an amount equal to 0.1% of an employee's salary times the sum of the employee's age and years of service. The maximum contribution the Medical Center shall make will be 6.5% of an employee's salary in any Plan year subject to certain limitations established under the Internal Revenue Code. Contributions made to the DC Plan by the Medical Center were approximately \$745,000 for the year ended September 30, 2008. During the year ended September 30, 2009, the plan was amended to cease employer contributions.

The Medical Center has a tax sheltered annuity plan, whereby eligible employees are automatically enrolled in the plan at an elective deferral rate of 2% of their annual compensation unless a written election to opt out of the plan is made. Employee contributions are allowed up to the allowed IRS maximum contribution. The Medical Center matches half of the employee's contribution to the plan, up to a maximum of 3% of earned wages. During the years ended September 30, 2009 and 2008, the Medical Center contributed approximately \$179,800 and \$208,500, respectively, to the plan. During 2010, the Medical Center amended this plan and changed the employer match to a discretionary match.

RHRI maintains a 401(k) salary deferral plan (the RHRI Plan). Employees qualifying under the RHRI Plan may make pretax contributions, up to statutory limits. RHRI will match employee contributions at a rate of twenty percent (20%), up to three percent (3%) of the employee's annual salary. In addition, RHRI is required under union contract to contribute an amount equal to 2% of gross annual salaries for all eligible employees regardless of their participation in the RHRI Plan. Contributions made to the Plan by RHRI were approximately \$21,100 for the years ended September 30, 2009 and 2008. At September 30, 2009 and 2008, RHRI has a payable due to the Plan of approximately \$102,000 related to a discretionary contribution declared in 2007 that has not been remitted to the plan.

(10) Leases

The Medical Center leases various equipment under capital leases expiring through 2013. The present value of future minimum capital lease payments as of September 30, 2009 are:

Year ending September 30:	
2010	\$ 607,693
2011	83,136
2012	83,136
2013	<u>83,136</u>
Total minimum lease payments	857,101
Less amount representing interest (rates range from 3.7% to 8.4%)	<u>60,286</u>
Present value of net minimum capital lease payments	796,815
Less current portion of capital lease obligations	<u>576,874</u>
Capital lease obligations, net of current portion	<u>\$ 219,941</u>

The net book value of equipment under capital leases amounted to approximately \$696,000 and \$1,152,000 as of September 30, 2009 and 2008, respectively.

The Medical Center leases various equipment and space under non-cancelable operating leases which expire at various dates through fiscal year 2028. In addition, the Medical Center rents certain equipment on a day to day basis. Total rental expense for these operating leases and daily equipment rentals for the years ended September 30, 2009 and 2008 totaled approximately \$1,910,800 and \$2,311,000, respectively. Approximate future minimum lease payments under these leases are as follows:

(11) Patient Service Revenue and Related Reimbursement

A major portion of the Medical Center's revenue is received from third-party payors. The following is a percentage breakdown of gross revenues by payor type for the years ended September 30:

	<u>2009</u>	<u>2008</u>
Medicare	31%	31%
Blue Cross	28	30
Medicaid	5	7
HMO	10	8
United	16	14
Other third-party payor	5	5
Self-pay	5	5
	<u>100%</u>	<u>100%</u>

Cost reports filed annually with third party payors are subject to audit prior to final settlement. Cost reports for fiscal years 2006 and prior have been audited and settled. Changes in prior year estimated settlements with third-party payors and other changes in estimates increased net patient service revenue by approximately \$312,400 and \$852,000 for the years ended September 30, 2009 and 2008, respectively. In addition, the Medical Center was a participant in a group reimbursement appeal in which a court determined the Medicare program had incorrectly interpreted regulations in prior years. The Medical Center received a settlement amount of \$373,300 and \$1,112,600 during the years ended September 30, 2009 and 2008, respectively.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with laws and regulations can be subject to future government review and interpretation as well as significant regulatory action; failure to comply with such laws and regulations can result in fines, penalties and exclusion from the Medicare and Medicaid programs.

The Medical Center grants credit to patients, substantially all of whom are local residents. The Medical Center generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans, or policies (e.g. Medicare, Medicaid, Blue Cross, health maintenance organizations, and commercial insurance policies). Because of the Medical Center's policy of granting credit to patients regardless of their ability to pay, the Medical Center provides a significant amount of services for which payment is never received. During the years ended September 30, 2009 and 2008, the Medical Center provided \$14,139,992 and \$13,452,969, respectively, for uncollectible patient accounts.

On October 1, 1994, an amendment to the Rhode Island Title XIX Program State Plan went into effect relating to disproportionate share hospital policy for compliance with the Federal Social Security Act. This amendment resulted in additional payments to compensate hospitals for indigent patients. Disproportionate share payments, net of licensing fees, of \$1,192,368 and \$2,502,252 were recorded in fiscal 2009 and fiscal 2008, respectively, as a component of net patient service revenue.

(12) Concentrations of Credit Risk

At September 30, 2009, the Medical Center has \$5,282,063 on deposit with a local financial institution. Per an agreement with this institution, surplus operating funds are swept daily and invested in various overnight repurchase agreements.

Of the funds held in the Medical Center's name at September 30, 2009, \$4,890,146 was invested in overnight repurchase agreements and \$392,700 was held in demand deposit accounts. The funds held in the overnight repurchase agreement are not considered to be a "deposit" and thus are not insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund. The funds held in certain demand deposit accounts exceed Federal Depository Insurance limits; however, the financial institution has a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Medical Center maintains funds in an account at a financial brokerage institution. The account balance is insured by the Securities Investor Protection Corporation (SIPC) up to \$500,000 (including up to \$100,000 for cash balances). The aggregate amount of all balances in excess of the insured limit was approximately \$1,188,000 and \$3,168,000 at September 30, 2009 and 2008, respectively. Historically, the Medical Center has not experienced any losses on this account.

(13) Related-Party Transactions

At September 30, 2009 and 2008, the Medical Center had outstanding receivable balances from its affiliates as follows:

	2009	2008

(14) Commitments and Contingencies

(a) Contingencies

The Medical Center is involved in various malpractice claims and legal proceedings of a nature considered normal to its business. The claims are in various stages and some may ultimately be brought to trial. While it is not feasible to predict or determine the outcome of any of these claims, it is the opinion of management that the liability, if any, to the Medical Center in excess of insurance coverage will not have a material adverse effect on the financial position of the Medical Center.

(b) Insurance Reserve

The Medical Center has malpractice insurance under a claims-made policy. Should this claims-made policy not be renewed or replaced with equivalent insurance, occurrences during its term but reported subsequently will be uninsured.

In order to provide for the possibility that the claims made policies will not be renewed, the Medical Center has accrued an estimated premium for a tail insurance policy totaling approximately \$1,280,300 at September 30, 2009.

(c) Severance Agreements

The Medical Center has severance agreements with certain executive officers that become operative only upon involuntary termination without cause. Severance plans that are not operative have not been accrued in the consolidated financial statements.

(d) Labor Union

At September 30, 2009, the Medical Center had approximately 1,033 employees. Of this total, approximately 532 employees are represented by the Northern Rhode Island United Nurses and Allied Professionals, Local 5067. The current labor agreement expired on September 30, 2009, and they are currently negotiating a new contract. The Medical Center has not experienced any labor stoppages or interruptions in the recent past.

The Medical Center delayed from October 1, 2008 to January 1, 2009 a 2% pay increase due to union employees, and has not paid an additional 2% pay increase due to union employees on April 1, 2009. A demand for arbitration was filed with the American Arbitration Association on November 10, 2008 in accordance with the collective bargaining agreement; however, this demand has not yet been recognized by the Court. As a result of the Mastership, the Medical Center and the Special Master do not believe the Medical Center is obligated to pay these increases and, therefore, has not accrued for them in the financial statements. However, in the event the Court were to rule in favor of the union employees, the Medical Center could be obligated to pay up to approximately \$1,350,000, which includes potential retroactive pay increases from October 1, 2008 to January 1, 2009, as well as the additional increases beginning April 1, 2009 through September 14, 2011.

(15) Joint Venture

The Medical Center and Radiation Therapy Services, Inc. (a for-profit company) (RTS) formed a joint venture in 2004 principally to provide radiation therapy services in Rhode Island. The joint venture, Southern New England Regional Cancer Center, LLC (SNERCC) is a limited liability company and is accounted for under the equity method of accounting. The members of SNERCC are RTS whose interest is 62% and the Medical Center whose interest is 38%. The investment in SNERCC for the years ended September 30, 2009 and 2008 was \$889,260 and \$869,162, respectively.

(16) Hospital License Fee

The State of Rhode Island requires all hospitals to pay an annual hospital licensing fee. The licensing fee is calculated as a percentage of gross patient service revenue derived from the Medical Center's last filed cost report. At September 30, 2009, payment of the 2008 license fee was pending determination by the Superior Court of the State of Rhode Island of the amount applicable to the time period prior to June 26, 2008, the effective date of the Special Master appointment (see note 1). During 2008, the court had ordered the Medical Center to escrow \$3,577,360 for payment of said fee. On May 17, 2010, the Court ordered a portion of the escrow balance totaling \$1,834,775 to be paid in full settlement of the 2008 hospital license fee. The Medical Center has accrued the Court ordered amount of the 2008 license fee as a current liability in the consolidated financial statements. The 2009 fee was paid in full prior to September 30, 2009.

(17) Deferred Gain

In September 2003, the Medical Center sold real property that consisted of patient care, administrative, retail and commercial space (the Plaza) for \$3,500,000 in cash and recognized a gain on the sale of the Plaza of \$3,455,795. Concurrently, the Medical Center entered into a 12-year lease agreement for leasing a portion of the commercial space in the Plaza with one option to renew the lease for an additional 3 years. The gain on the sale has been deferred and is being recognized over the related lease term (15 years or \$230,386 per year).

In February 2008, the Medical Center sold the land and building that comprise the Fogarty unit for approximately \$6,040,000 in cash and recognized a gain on the sale of the building and land of \$5,521,487. Concurrently, the Medical Center and RHRI entered into 10-year lease agreements for 38% and 62%, respectively, of the square footage within the Fogarty unit building with options to renew the leases for up to 25 additional years. The gain on the sale has been deferred and is being recognized over the related lease term (approximately 20 years or \$276,000 per year), which represents the time period of the initial lease term together with renewal options that provide economic incentives to the lessees, if exercised. Sale proceeds of \$580,000 were used to fund an escrow account to secure future rent payments from the Medical Center for five years.

(18) Functional Expenses

The Medical Center provides health care services to residents within its geographic location. Expenses related to providing these services for the years ended September 30 are as follows:

	2009	2008
Health care services	\$ 107,413,125	\$ 108,642,441
General and administrative	28,575,693	28,820,240
	\$ 135,988,818	\$ 137,462,681

(19) Supplemental Cash Flow Information

During the years ended September 30, 2009 and 2008, cash paid for interest was \$645,657 and \$795,224, respectively.

The accompanying consolidated statement of cash flows for the year ended September 30, 2008 exclude the effects of non-cash investing and financing activities that relates to the acquisition of certain equipment under a capital lease in the amount of \$343,389.

The accompanying consolidated statements of cash flows for the year ended September 30, 2008, exclude the effect of non-cash investing and financing activities related to the portion of asset retirement obligation applied against gain on sale of building during the year of \$682,254.

The accompanying consolidated statements of cash flows for the year ended September 30, 2008 exclude the effect of non-cash operating and investing activities related to the proceeds from sale of the building retained by the seller as future rents during the year of \$580,000, as well as a deferred gain on the sale of the building in the amount of \$5,521,487.

(20) Subsequent Events

Debt Repayment

At September 30, 2009, the balance of the Debt Service Reserve Fund was less than the required minimum, which constitutes an additional Event of Default as defined in the Loan and Trust Agreement.

The Medical Center defaulted on scheduled interest and principal payments to bondholders on October 1, 2009 due to a shortfall in the Debt Service Reserve Fund. The deficiency totaling \$381,733 was funded by Radian Asset Assurance, Inc. (Radian), the insurer of the bonds. Additionally, on April 1, 2010, Radian paid bond interest in the amount of \$242,975 on the Medical Center's behalf.

On May 18, 2010, the Special Master entered into a settlement agreement with Radian to be executed upon approval by the court. On May 25, 2010, the Medical Center received the final order from the court approving the settlement agreement. The approved settlement agreement requires the Medical Center pay in cash the sum of \$5,400,000 in full satisfaction of the bond obligation and secured claims against the Medical Center by the Trustee of the bonds and Radian. Upon receipt of the payment, the Trustee and Radian will release and discharge of their respective liens against the assets of the Medical Center. The source of the cash payment from the Medical Center was (1) approximately \$1,800,000 of cash paid by the Medical Center and (2) secured borrowings of \$3,600,000 from two private lending sources (\$1,600,000 from CRB Holdings, Inc. and \$2,000,000 from Caritas). The transaction resulted in the Medical Center recognizing a net gain on the forgiveness of debt and interest of approximately \$5,964,800.

In connection with the final order from the court approving the settlement agreement for the bond obligation, discussed in note 7, Blue Cross was granted a valid and perfected third priority security interest in the Medical Center's receivables, including health care insurance receivables, and all proceeds thereof.

Negotiating Agreement

In September 2009, the Medical Center entered into an exclusive negotiating arrangement (Exclusivity Provision) with Caritas Christi Healthcare (Caritas Christi). In April 2010, the Superior Court approved a request by the Special Master for the Medical Center to enter into a one year Management Advisory Agreement (the Agreement) with Caritas Christi. The Agreement was subsequently terminated and on December 16, 2010 the Superior Court terminated the Exclusivity Provision. No amounts were paid to Caritas Christi under the Agreement.

Pension Funding

The Medical Center did not deposit the required quarterly installments to the Plan in the amount of approximately \$2,343,600 due on June 15, 2011. The Medical Center filed the required forms with the Pension Benefit Guarantee Corporation (PBGC) within the required 10 day response time to report the missed payment. The Court appointed Special Master has indicated that the payment will not be made by the Medical Center and Plan termination procedures will be initiated.

Asset Purchase Agreement

On May 26, 2011, the Medical Center signed an asset purchase agreement (APA) with Steward Medical Holdings Subsidiary Four, Inc. (SMHSF) and Steward Health Care System LLC. The APA was approved by the court on June 8, 2011. In conjunction with the APA, the Medical Center entered into an advisory agreement with SMHSF. Under the terms of the advisory agreement, SMHSF will provide advisory services at no charge to the Medical Center as long as the transactions contemplated in the APA are consummated. Otherwise, a monthly fee of \$35,000 will be charged for each month of service rendered. In addition, the advisory agreement allows for a credit facility to be utilized by the Medical Center to fund working capital needs through the closing of the APA. The Medical Center can borrow up to \$5,000,000 under the terms of the advisory agreement, and as of the date of this report has borrowed \$1,000,000. Currently the APA is being reviewed by the Rhode Island Department of Health and the Attorney General of the State of Rhode Island.

Management of the Medical Center has evaluated subsequent events through September 14, 2011, which is the date these financial statements were available to be issued.

Mr. Jonathan N. Savage, Special Master
Shechtman Halperin Savage, LLP.
1080 Main Street
Pawtucket, RI 02860

Dear Mr. Savage:

We are pleased to confirm our understanding of the services we are to provide for Landmark Medical Center and Affiliates and Landmark Health Systems, Inc. for the year ended September 30, 2010, and Northern Rhode Island Rehab Management Associates, L.P. (d/b/a Rehabilitation Hospital of Rhode Island) for the year ended December 31, 2010.

We will perform the following services:

1. We will audit the balance sheets of Landmark Medical Center and Affiliates and Landmark Health Systems, Inc. as of September 30, 2010 and the related statements of operations, changes in net assets and cash flows for the year then ended.

We will audit the balance sheet of Northern Rhode Island Rehab Management Associates, L.P. (d/b/a Rehabilitation Hospital of Rhode Island) as of December 31, 2010 and the related statements of operations, partners' capital and cash flows for the year then ended.

The objective of our audits is the expression of an opinion about whether your financial statements are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audits will be conducted in accordance with generally accepted auditing standards established by the Auditing Standards Board (United States) and will include tests of your accounting records and other procedures we consider necessary to enable us to express such an opinion. If our opinion is other than unqualified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audits or are unable to form or have not formed an opinion, we may decline to express an opinion or to issue a report as a result of this engagement.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will also request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. We will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from errors, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations that are attributable to the Organization or to acts by management or employees acting on behalf of the Organization.

Because an audit is designed to provide reasonable, but not absolute, assurance and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform you of any material errors and any fraudulent financial reporting or misappropriation of assets that come to our attention. We will also inform you of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Our audit will include obtaining an understanding of the Organization and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. However, during the audit, we will communicate to you and those charged with governance internal control related matters that are required to be communicated under professional standards.

You are responsible for making all management decisions and performing all management functions; for designating an individual with suitable skill, knowledge, or experience to oversee the tax services and any other nonattest services we provide; and for evaluating the adequacy and results of those services and accepting responsibility for them.

You are responsible for establishing and maintaining internal controls, including monitoring ongoing activities; for the selection and application of accounting principles; and for the fair presentation in the financial statements of financial position, changes in net assets, and cash flows in conformity with accounting principles generally accepted in the United States of America. Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Mr. Jonathan N. Savage, Special Master
October 1, 2010

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the Organization involving (a) management, (b) employees who have significant roles in internal control, and (c) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the Organization received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring the Organization complies with applicable laws and regulations and for taking timely and appropriate steps to remedy any fraud, illegal acts, or violations of contracts or grant agreements that we may report.

We understand that your employees will:

- Provide a complete and final adjusted trial balance one week before the start of fieldwork
- Prepare all cash, accounts receivable and other confirmations we request
- Document internal control procedures
- Pull all invoices selected in our testing and subsequently refile those invoices
- Pull all other items selected in our testing and subsequently refile those items
- Prepare the financial statements with supporting documentation for all entities
- Perform detailed account analysis as directed by our staff

2. We will prepare the following tax returns for your review and approval for the fiscal years ended:

September 30, 2010

- * Landmark Hospital Foundation 990
- * Landmark Medical Center 990
- * Landmark Health Systems, Inc. Workers' Compensation Trust 990
- * Landmark Health Systems, Inc. 990
- * Landmark Health Systems Properties 1120
- * Landmark Health Systems Investments 1120

December 31, 2010

- * Northern Rhode Island Rehab Management Associates, L.P. 1065

Our work in connection with the preparation of your returns does not include any procedures designed to discover defalcations or other irregularities, should any exist.

We will use professional judgment in resolving questions where the tax law is unclear, or where there may be conflicts between the taxing authorities' interpretations of the law and other supportable positions. Unless otherwise instructed by you, we will resolve such questions in your favor whenever possible.

Mr. Jonathan N. Savage, Special Master

The law provides various penalties that may be imposed when taxpayers understate their tax liability. If you would like information on the amount or circumstances of these penalties, please contact us. Because the tax attributes of certain entities flow through to its owners, the penalty for substantial understatement of tax relating to the entity items may be imposed on the owners. Accordingly, we will discuss tax positions that may increase the risk of exposure to penalties with you before completing preparation of returns.

Management is responsible for the proper recording of transactions in the books of accounts, for the safeguarding of assets, and for the substantial accuracy of the financial records. You represent that the information you are supplying to us is accurate and complete to the best of your knowledge and that your expenses for meals, entertainment, travel, gifts and vehicle use are supported by records as required by law. We will not verify the information you give us. However, we may ask you for clarification of some of the information. You have the final responsibility for the income tax returns and, therefore, you should review them carefully before you sign and file them.

Your returns may be selected for review by the taxing authorities. Any proposed corrective adjustments by the examining agent are subject to certain rights of appeal. In the event of such government tax examination, we will be available upon request to represent you and will render additional invoices for the time and expenses incurred.

Mike Tousignant is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it.

* * * * *

Our fees for these services are based on our final 2009 fees and will be determined once those audits are completed. In an effort to keep our overhead costs under control, we have developed the progress billing schedule below to coincide with the overall timing of our work. Please understand that we, like most companies, incur interest costs which affect our fees.

Retainer, due upon execution of this letter	\$30,000
Second progress billing	\$60,000
Third progress billing	\$60,000
Fourth progress billing	Balance*

* Balance shall not exceed \$50,000 without prior approval from your office

If we encounter any problems that we are not aware of at this time which prevent us from completing our work in the normal course, we will notify you prior to continuing with our engagement so that we may resolve the issues in a mutually satisfactory fashion. Please see our attached explanation of the typical causes of fee adjustments. Our fees for services will generally be based on time expended and out-of-pocket costs.

Mr. Jonathan N. Savage, Special Master

However, they might also include other factors deemed relevant, including the difficulty of the questions and the skill required to perform the accounting, tax or business consulting services properly; time limitations imposed either by you or the circumstances; the nature and length of the professional relationship between us; and the experience, reputation and ability of the individual or individuals assigned to the engagement. Ten bound reports will be provided to your Organization.

All invoices are due and payable upon presentation. In order to offset borrowing costs that we incur when our billings are not paid timely, a late payment charge of 1.5% per month will be assessed on any unpaid balance after deduction of current payments, credits, and allowances made within 30 days of date of billing.

We are also available to consult with you in the areas of taxation, accounting, systems analysis and strategic business planning, as you may deem necessary in the circumstances.

* * * * *

Our professional standards require that we perform certain additional procedures whenever our reports are included, or we are named as accountants, auditors, or "experts" in a document used in a public or private offering of equity or debt securities. If you intend to publish or otherwise reproduce the financial statements and make reference to our firm, you agree to provide us with printer's proof or masters for our review and approval before printing. You also agree to provide us with a copy of the final reproduced material for our approval before it is distributed.

During our engagement, certain members of our staff will be assisting you. If you offer a member of our staff employment and they choose to accept, we would incur a significant fee to find replacement personnel, and therefore, we would expect reimbursement for such costs. Customarily, the fee approximates 25-35% of the first year's salary. In the event that you do hire one of our staff, you agree to reimburse 35% of the first year's salary for that placement service.

We are providing this letter in connection with your audits of the consolidated balance sheets of Landmark Medical Center and Affiliates as of September 30, 2010 and 2009, and the related consolidated statements of operations, changes in net deficit, and cash flows for the years then ended for the purpose of expressing an opinion as to whether the consolidated financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows of Landmark Medical Center and Affiliates (the "Medical Center") in conformity with accounting principles generally accepted in the United States of America. We confirm that we are responsible for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. We are also responsible for adopting sound accounting policies, establishing and maintaining internal control, and preventing and detecting fraud.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of September 14, 2011 the following representations made to you during your audit.

1. The consolidated financial statements referred to above are fairly presented in conformity with accounting principles generally accepted in the United States of America.
2. We have made available to you all—
 - a. Financial records and related data.
 - b. Minutes of the meetings of trustees, committees of trustees, or summaries of actions of recent meetings for which minutes have not yet been prepared.

- c. All fiscal intermediary, and third party payor reports and information.
3. There have been no communications (oral or written) from regulatory agencies, governmental representatives, employees, or others concerning investigations or allegations of noncompliance with laws and regulations in any jurisdiction (including those related to the Medicare and Medicaid antifraud and abuse statutes), deficiencies in financial reporting practices, or other matters that could have a material adverse effect on the consolidated financial statements.
4. There are no material transactions that have not been properly recorded in the accounting records underlying the consolidated financial statements.
5. You have proposed adjusting journal entries (see attached schedule) to our consolidated financial statements that will be posted to the Medical Center's accounts. We have approved those adjustments.
6. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.
7. We have no knowledge of any fraud or suspected fraud affecting the Medical Center involving
 - a. Management,
 - b. Employees who have significant roles in internal control, or
 - c. Others where the fraud could have a material effect on the consolidated financial statements.
8. We have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, regulators, or others.
9. The following have been properly recorded or disclosed in the consolidated financial statements:
 - a. Related party transactions and related accounts receivable or payable, including sales, purchases, loans, transfers, leasing arrangements, and guarantees.
 - b. Guarantees, whether written or oral, under which the Medical Center is contingently liable.
 - c. All accounting estimates that could be material to the consolidated financial statements, including the key factors and significant assumptions underlying those estimates, and we believe the estimates are reasonable in the circumstances.
 - d. Off-balance sheet activities, including accounting policies relating to non-consolidation and revenue recognition. Specifically those off-balance sheet activities in which the Medical Center is a sponsor or transferor, the majority owners of the off-balance sheet vehicle are independent third parties who have made and maintained a substantive capital investment in the vehicle, control the vehicle, and have substantive risks and rewards of the assets of the vehicle, including residuals.

- e. Significant common ownership or management control relationships requiring disclosure.
 - f. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances and lines of credit or similar arrangements.
 - g. Agreements to repurchase assets previously sold, including sales with recourse.
 - h. Changes in accounting principle affecting consistency, other than as described in the notes to the financial statements.
 - i. Assets and/or liabilities under the Medical Center's control.
 - j. Rights to the assets held by a recipient organization (unless the recipient organization was explicitly granted variance power) as an interest in the net assets of the recipient organization, a beneficial interest or receivable.
10. There are no estimates that may be subject to a material change in the near term that have not been properly disclosed in the consolidated financial statements. We understand that near term means the period within one year of the date of the consolidated financial statements. In addition, we have no knowledge of concentrations existing at the date of the consolidated financial statements that make the company vulnerable to the risk of a near-term severe impact that have not been properly disclosed in the consolidated financial statements.
 11. Adequate consideration has been given to, and appropriate provision made for estimated adjustments to revenue, such as for denied claims and changes to diagnosis related group (DRG) assignments.
 12. We are responsible for making the fair value measurements and disclosures included in the consolidated financial statements, including determining the fair value of investments for which a readily determinable fair value does not exist. As part of fulfilling this responsibility, we have established an accounting and financial reporting process for determining the fair value measurements and disclosures, considered the appropriateness of valuation methods, adequately supported any significant assumptions used, and ensured that the presentation and disclosure of the fair value measurements are in accordance with accounting principles generally accepted in the United States of America. We believe the assumptions and methods used by us, including those used by specialists engaged by us, are appropriate in the circumstances and the resulting valuations and disclosures are reasonable.
 13. All peer review organizations, fiscal intermediary, and third party payor reports and information have been made available.
 14. Receivables reported in the consolidated financial statements represent valid claims against debtors for sales or other charges arising on or before balance sheet date and have been appropriately reduced to their estimated realizable values.

15. In regard to cost reports filed with third parties:

- a. Except as disclosed in the financial statements, all required Medicare, Medicaid, and similar reports have been properly filed.
- b. Management is responsible for the accuracy and propriety of all cost reports filed.
- c. All costs reflected on such reports are appropriate and allowable under applicable reimbursement rules and regulations and are patient related and properly allocated to applicable payors.
- d. The reimbursement methodologies and principles employed are in accordance with applicable rules and regulations.
- e. Adequate consideration has been given to, and appropriate provision made for, audit adjustments by intermediaries, third party payors, or other regulatory agencies.
- f. All items required to be disclosed, included disputed costs that are being claimed to establish a basis for a subsequent appeal, have been fully disclosed in the cost report.
- g. Recorded third party settlements include differences between filed (and to be filed) cost reports and calculated settlements, which are necessary based on the historical experience or new or ambiguous regulations that may be subject to differing interpretations. While management believes the entity is entitled to all amounts claimed on the cost reports, management also believes the amounts of these differences are appropriate.

16. Processes are in effect to address notifications where billings to third-party payors do not comply in all material respects with applicable coding guidelines and laws and regulations (including those dealing with Medicare and Medicaid antifraud and abuse), and billings reflect only charges for goods and services that were medically necessary; ordered in writing by a treating physician; properly approved by regulatory bodies, if required, and properly rendered.

17. There are no:

- h. Violations or possible violations of laws or regulations, such as those related to the Medicare and Medicaid antifraud and abuse statutes, including but not limited to the Medicare and Medicare Anti-Kickback Statutes, Limitation on Certain Physician Referrals (the Stark law), and the False Claims Act, in any jurisdiction, whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency other than those disclosed or accrued in the financial statements.
- i. Unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with authoritative guidance.
- j. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by authoritative guidance.

- k. Designations of net assets disclosed to you that were not properly authorized and approved, or reclassifications of net assets that have not been properly reflected in the consolidated financial statements.
18. The following information about financial instruments with off balance sheet risk and financial instruments with concentration of credit risk has been properly disclosed in the consolidated financial statements:
 - l. Extent, nature, and terms of financial instruments with off balance sheet risk;
 - m. The amount of credit risk of financial instruments with off-balance sheet credit risk and information about the collateral supporting such financial instruments; and
 - n. Significant concentrations of credit risk arising from all financial instruments and information about the collateral supporting such financial instruments.
19. The Medical Center is responsible for determining the fair value of financial instruments as required by authoritative guidance. The amounts disclosed represent the Medical Center's best estimate of the fair value of financial instruments required to be disclosed under authoritative guidance (and other assets and liabilities, if separately disclosed). The Medical Center also has disclosed the methods and significant assumptions used to estimate the fair value of financial instruments.
20. We have no personal knowledge of any officer or trustee of the Medical Center, or any other person acting under the direction thereof, having taken any action to fraudulently influence, coerce, manipulate or mislead you during your audit.
21. The Medical Center has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral except as made known to you and disclosed in the notes to the consolidated financial statements.
22. We have reviewed long lived assets and certain identifiable intangibles to be held and used for impairment whenever events or changes in circumstances have indicated that the carrying amount of assets might not be recoverable and have appropriately recorded the adjustment.
23. We have complied with all restrictions on resources (including donor restrictions) and all aspects of contractual and grant agreements that would have a material effect on the consolidated financial statements in the event of noncompliance.
24. Management is responsible for compliance with the laws, regulations, donor restrictions, and provisions of contracts and grant agreements applicable to the Medical Center. Management has identified and disclosed to you all laws, regulations, donor restriction, and provisions of contracts and grant agreements that have a direct and material effect on the determination of financial statement amounts.
25. Note 1 to the consolidated financial statement discloses all of the matters of which we are aware that are relevant to the Medical Center's ability to continue as a going concern, including significant conditions and events, and managements plans.

26. The Medical Center has accounted for asset retirement obligations in accordance with authoritative guidance. The Medical Center recognized the obligations when incurred using management's best estimate of fair value. In addition, the asset retirement obligation for the Fogarty unit has been removed as the Medical Center's liability was transferred with the sale.
27. Tax exempt bonds issued have retained their tax exempt status.
28. The Medical Center has adopted the recognition requirements of authoritative guidance, and has recognized the funded status of its defined benefit retirement plan in the consolidated balance sheet.
29. The actuarial assumptions and methods used to measure pension liability and costs for financial accounting purposes are appropriate in the circumstances.
30. Provisions, when material, have been made for:
 - o. Losses to be sustained from inability to fulfill any commitment and provide services.
 - p. Estimated losses to be sustained as a result of retroactive adjustments by third-party payors under reimbursement agreements that are subject to examination, including denied claims, changes to DRG assignments or other classification criteria affecting reimbursement.
 - q. Loss to be sustained as a result of adjustments resulting from review of Medicare or other payor claim data by the payors' reviewers with which the Medical Center has agreements.
 - r. Losses to be sustained as a result of purchase commitments for inventory quantities in excess of normal requirements or at prices in excess of prevailing market prices.
 - s. Losses to be sustained as a result of the reduction of excess or obsolete inventories to their estimated net realizable value.
 - t. Audit adjustments by fiscal intermediaries, third party payors, and other regulatory agencies.
31. The Medical Center and its subsidiaries have been recognized as exempt from federal income taxes under Section 501 (a) of the Internal Revenue Code of 1986 as an organization described in Section 501 (c) (3) of the Code, as evidenced by our determination letter. Since the date of our determination letters, no changes have occurred in the organizations or operation of the Medical Center that would affect our tax exempt status. Provision has been made, where material, for any federal, state, or local income, excise, employment, property, sales and use, or other tax liability.
32. We are unaware of any violation of all other material provisions of the Internal Revenue Code of 1986, as amended.

33. The Medical Center has a reasonable basis for allocation of functional expenses.
34. The Medical Center is not subject to the requirements of OMB Circular A-133 or 45 CFR Section 74.26, *Uniform Administrative Requirements for Awards and Sub-awards to Institutions of Higher Education, Medical Centers, Other Nonprofit Organizations, and Commercial Organizations; and Certain Grants and Agreements with States, Local Governments and Indian Tribal Governments*, as it did not expend more than \$500,000 in federal awards during the year ended September 30, 2010.
35. We are unaware of any failure to make good faith effort to classify net assets as unrestricted, temporarily restricted or permanently restricted based on our assessment of the donor's intention, as specified in original donor correspondence where available. Where not available, we used other corroborating evidential matter including minutes of the Board, accounting records and financial statements. To the extent that we were unable to review original donor correspondence to determine the amount of the original gift and donor additions, our determination of such amount was based on our best estimate considering the relevant facts and circumstances. Amounts classified as temporarily restricted are subject to donor-imposed purpose or time restrictions which precluded us from expending such amounts or recognizing such amounts as unrestricted as of September 30, 2010. In addition, we believe that classified appreciation and income related to such donations have been recorded in accordance with relevant donor or statutory restrictions.
36. In regards to the nonattest services performed by you, we have:
- u. Made all management decisions and performed all management functions.
 - v. Designated an individual with suitable skill, knowledge, or experience to oversee the services.
 - w. Evaluated the adequacy and results of the services performed.
 - x. Accepted responsibility for the results of the services.
 - y. Established and maintained internal controls, including monitoring ongoing activities.
37. As disclosed in Note 13 in the consolidated financial statements, the Medical Center and the Special Master do not believe the Medical Center is obligated to pay the scheduled pay increases due to the union employees and therefore has not accrued for them in the financial statements. However, in the event the Court were to rule in favor of the union employees, the Medical Center could be obligated to pay up to approximately \$1,350,000, which includes potential retroactive pay increases from October 1, 2008 to January 1, 2009, as well as the additional increases beginning April 1, 2009 through September 14, 2011.

38. As disclosed in Note 19 in the consolidated financial statements, the Medical Center did not make its required contribution of \$2,343,600 to its defined benefit pension plan due on June 15, 2011. The Medical Center filed the required forms with the Pension Benefit Guarantee Corporation (PBGC) within the required 10 day response time. Payment will not be made and termination procedures will be initiated.
39. Except as disclosed in note 19 to the consolidated financial statements no events have occurred subsequent to the balance sheet date and through the date of this letter that would require adjustment to, or disclosure in, the consolidated financial statements.

Very truly yours,

Landmark Medical Center and Affiliates

Independent Auditors' Report

To Jonathan N. Savage, Esq.,
in his capacity as Court-appointed Special Master
for Landmark Medical Center:

We have audited the accompanying consolidated balance sheets of Landmark Medical Center and Affiliates (the Medical Center) as of September 30, 2010 and 2009, and the related consolidated statements of operations, changes in net deficit, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Medical Center's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Landmark Medical Center and Affiliates as of September 30, 2010 and 2009, and the results of their operations, changes in net deficit, and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Medical Center will continue as a going concern. As discussed in note 1 to the consolidated financial statements, the Medical Center has suffered recurring losses from operations and has a net asset deficiency that raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in note 1. The consolidated financial statements do not include any adjustments, other than the separation of pre-mastership payables, which might result from the outcome of this uncertainty.

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The supplementary information is presented for the purpose of additional analysis and is not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

(1) Description of Organization

Landmark Medical Center (the Medical Center) is a nonprofit organization providing acute care medical services. It is accredited by the Joint Commission on Accreditation of Hospitals and participates as a provider in Medicare, Medicaid, and third party programs. The Medical Center was created effective September 1, 1988, through the consolidation of The Woonsocket Hospital and the John E. Fogarty Memorial Hospital. Services are provided at the Woonsocket unit in Woonsocket, Rhode Island, and the Fogarty unit in North Smithfield, Rhode Island. Landmark Health Systems, Inc. (LHS) is a nonprofit holding company and is the sole member of the Medical Center.

On June 28, 2005, the Landmark Healthcare Foundation (the Foundation) was formed as a 501(c)(3) organization to support the Medical Center in fundraising and philanthropic needs. The Foundation is a subsidiary of the Medical Center and is fully consolidated into the Medical Center's financial statements.

The Medical Center owns a 50% financial interest and has certain other rights that provide it with control over a Physician Hospital Organization (PHO). Since the Medical Center exercises control over the PHO, the PHO's financial statements have been consolidated into the Medical Center's financial statements.

Landmark Physician Office Services (LPOS) was formed in June 2006 to operate a physician practice within the geographic service area of the Medical Center. LPOS is a subsidiary of the Medical Center, and its financial statements are consolidated into the Medical Center's financial statements.

The Medical Center owns a 50% financial interest in Rehabilitation Hospital of Rhode Island (RHRI). On June 1, 2000, LHS became the other 50% owner of RHRI. Since the Medical Center also has certain other rights that allow it to exercise control over RHRI, RHRI's financial statements have been consolidated into the Medical Center's financial statements.

All material intercompany accounts and transactions are eliminated in consolidation.

Liquidity

The Medical Center and its affiliates have experienced recurring losses and have an accumulated deficit of approximately \$37,156,000 as of September 30, 2010.

Historically, the Medical Center and its affiliates have financed their operations and met their capital requirements through funds generated from operations, the issuance of long-term debt, equipment lines of credit, a working capital line of credit, payor advances, and short-term investments. As of September 30, 2010, the Medical Center had cash and cash equivalents of approximately \$3,800,000 to finance its operating and capital requirements.

On June 26, 2008, the Superior Court of the State of Rhode Island appointed a Special Master to take possession of the property and assets of the Medical Center and preserve same until further order of the Court. Approximately \$7,800,000 of payables to vendors were outstanding at the time of Mastership.

On November 14, 2008, the Superior Court of the State of Rhode Island appointed a Special Master to take possession of the property and assets of RHRI and preserve same until further order of the Court. Approximately \$320,000 of payables to vendors were outstanding at the time of Mastership.

KLR

Management's projections indicate continuing losses will result from maintaining current operations for the next twelve months. Management is taking actions to reduce expenditures from operations. Management has also sold certain property to generate cash flows for operations.

During the year ended September 30, 2010, the Medical Center negotiated a settlement of its Loan and Trust Agreement in an effort to reduce outstanding liabilities (see note 6).

In September 2009, the Medical Center entered into an exclusive negotiating arrangement (Exclusivity Provision) with Caritas Christi Healthcare (Caritas Christi). In April 2010, the Superior Court approved a request by the Special Master for the Medical Center to enter into a one year Management Advisory Agreement (the Agreement) with Caritas Christi. The Agreement was subsequently terminated and on December 16, 2010 the Superior Court terminated the Exclusivity Provision. No amounts were paid to Caritas Christi under the Agreement.

As of September 14, 2011, however, the Medical Center continues to operate both the acute and rehabilitation facilities, and to fund operations for both. The combined entity has unrestricted cash balances of approximately \$1,400,000 at September 14, 2011.

There can be no assurance that actual cash outflows and liquidity needs will not exceed management's projections or that the Medical Center and RHRI will be able to fund operations on a long-term basis in the absence of other sources of cash flow. There can be no assurances that any additional required longer-term financing will be available through additional bank borrowings or long-term debt offerings or, that if such financing is available, that it will be available on terms acceptable to the Medical Center.

These conditions raise substantial doubt about the Medical Center's ability to continue as a going concern.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant areas which are affected by the use of estimates include valuation of the allowance for uncollectible accounts, recoverability of long-lived assets, valuation of third-party payor settlements, and valuation of pension obligations.

(b) Cash and Cash Equivalents

The Medical Center considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

(c) Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Years Ended September 30, 2010 and 2009

KLR

(d) Funds Limited as to Use

Funds limited as to use include assets held by trustees under indenture agreements and assets restricted by donors.

(e) Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

(f) Property and Equipment

Property and equipment (including other real estate) is recorded at cost. Capital leases are recorded at their present value at the beginning of the lease term. Donated items are recorded at fair market value at the date of contribution. Depreciation on property and equipment is provided using the straight-line method based upon the estimated useful lives of each asset. Amortization on capital leases is provided using the straight-line method over the lesser of the lease terms or useful lives. These useful lives range from three to eight years for equipment and ten to forty years for buildings.

(g) Long-Lived Assets

In accordance with authoritative guidance, long-lived assets, such as property, plant, and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, the Medical Center first compares undiscounted cash flows expected to be generated by the asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying value exceeds its fair value. Fair value is determined through various valuation techniques, including discounted cash flow models, quoted market values and third-party independent appraisals, as considered necessary.

(h) Asset Retirement Obligations

The fair value of a liability for legal obligations associated with asset retirements is recognized in the period in which it is incurred, in accordance with authoritative guidance, if a reasonable estimate of the fair value of the obligation can be made. When the liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligations is depreciated over the useful life of the related asset.

KLR

Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the consolidated statements of operations and changes in unrestricted net assets.

(i) *Temporarily Restricted Net Assets*

Temporarily restricted net assets are those whose use by the Medical Center has been limited by donors to a specific time period or purpose.

(j) *Charity Care and Provision for Uncollectible Patient Accounts*

The Medical Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Medical Center does not intend to pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Medical Center grants credit without collateral to patients, most of whom are local residents and are insured under third-party agreements. Additions to the allowance for uncollectible accounts are made by means of the provision for uncollectible accounts. Accounts written off as uncollectible are deducted from the allowance and subsequent recoveries are added. The amount of the provision for uncollectible accounts is based upon management's assessments of historical and expected net collections, business and economic conditions, trends in federal and state governmental health care coverage and other collection indicators.

(k) *Net Patient Service Revenue*

The Medical Center has individual agreements with numerous third party payors that provide reimbursement to the Medical Center at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Costs related to Medicaid patients are reimbursed under a prospective cost contract with the Medical Center, whereby reimbursement is based on projected costs. Under the prospective cost contract, the Medical Center's rate is based on certain budgeted expenditures and budgeted volume negotiated with the Medicaid program. Volume variances from budget are reimbursable to the Medical Center or due to Medicaid at marginal cost factors.

Medicare utilizes a prospective reimbursement system for inpatient services wherein payment is based on the classification of a case into a diagnosis-related group (DRG). Outpatient services related to Medicare beneficiaries are paid based on a prospectively determined reimbursement methodology based on ambulatory payment classification (APC) and fee schedules.

Other payors reimburse the Medical Center a per diem rate for most inpatient services. Outpatient services related to other payors' beneficiaries are paid based on an established fee schedule.

(l) Income Taxes

The Medical Center is a not-for-profit organization described under Internal Revenue Code (IRC) Section 501(c)(3) and is generally exempt from federal income taxes under IRC Section 501(a).

Authoritative guidance requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Medical Center's tax returns to determine whether the tax positions are "more likely than not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax benefit or expense in the current year.

The Medical Center annually files IRS Form 990 – Return of Organization Exempt from Income Tax reporting various information that the IRS uses to monitor the activities of tax-exempt entities.

RHRI is a Delaware Limited Partnership. Accordingly, no provision for federal or state income taxes has been recorded by RHRI as the income or loss is passed through to the partners and thereby included in each partner's federal and state tax returns.

In 2009, the Medical Center and RHRI adopted authoritative guidance pertaining to uncertain tax positions. Such adoption did not impact the consolidated financial position or results of operations. The Medical Center's and RHRI's tax returns for 2007, 2008, and 2009 are subject to examination by the IRS, generally for three years after they were filed. There are no tax examinations in progress.

All other entities described in note 1 are current in the filings of their required tax returns.

(m) Reclassification

Certain amounts in the 2009 financial statements have been reclassified to conform to 2010 financial statement presentation.

(3) Charity Care and Community Services

The Medical Center maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges forgone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies, and equivalent service statistics. The following information measures the level of charity care provided during the years ended September 30:

	2010	2009
Charges foregone, based on established rates	\$ 5,290,700	\$ 4,555,600
Estimated costs and expenses incurred to provide charity care	1,700,000	1,500,000

The Medical Center also provides numerous other services to the community free of charge. These services include health care screenings, educational programs, support groups, foreign language translation, and social services eligibility assistance.

In addition, the Medical Center subsidizes the cost of treating patients enrolled in public assistance programs where reimbursement is below cost.

(4) Funds Limited as to Use

The composition of assets limited as to use at September 30, 2010 and 2009 is set forth in the following table.

	2010	2009
Cash and cash equivalents - current liabilities (note 6)	\$ -	\$ 899,793

The Medical Center has asset retirement obligations (AROs) totaling approximately \$333,800 which represents its obligation to remediate specific environmental matters in the event the Medical Center were to renovate or demolish certain buildings in the future. The liabilities were originally measured at fair value and subsequently are adjusted for accretion expense and changes in the amount or timing of the estimated cash flows. The corresponding asset retirement costs are capitalized as part of the carrying amount of the related long-lived asset and depreciated over the asset's remaining life. The following table presents the activity for AROs for the years ended September 30, 2010 and 2009:

	<u>2010</u>	<u>2009</u>

2012	115,022
2013	79,493
	<u>\$ 3,923,958</u>

On August 10, 2005, the Medical Center refunded its 1993 Series Bonds at a par value of \$15,210,000 with Series 2005 Hospital Financing Revenue Refunding Bonds with a par value of \$14,125,000 in order to take advantage of interest rate savings. The Series 2005 issue consisted of serial bonds maturing October 1 of each year beginning October 1, 2006 and continuing through final maturity October 1, 2019. Bonds maturing on or prior to October 1, 2015 were not subject to optional redemption except under extraordinary circumstances.

Bonds maturing on or after October 1, 2016 were subject to optional redemption beginning on October 1, 2015 at par plus accrued interest to the redemption date, at the option of the Institution. The Series 2005 Bonds were insured by Radian Asset Assurance, Inc. and were secured by a mortgage on the Medical Center's main campus located at 115 Cass Avenue, Woonsocket, RI.

An agreement underlying the bonds required the Medical Center to maintain certain trustee held funds as follows:

Debt Service Reserve Fund – The debt service reserve fund is composed of Medical Center monies held by the trustee for transfer to the debt service fund to cover any deficiency in the debt service fund.

Debt Service Fund – The Medical Center is required to make quarterly deposits with the trustee sufficient to provide a sinking fund for the payment of principal and interest to bondholders when due.

The balance in the Debt Service and Debt Service Reserve Funds (the Funds) totaled \$899,793 at September 30, 2009. The balance of the Funds at September 30, 2009 was not in compliance with the agreement.

The Loan and Trust Agreement relating to the bonds required the Medical Center to comply with certain financial and non-financial covenants. The Medical Center was not in compliance with these covenants at September 30, 2009 and did not receive a waiver from the lender. As a result the outstanding balance of the Series 2005 Bonds as of September 30, 2009 has been classified as a current liability in the accompanying consolidated financial statements.

The Medical Center defaulted on scheduled interest and principal payments to bondholders on October 1, 2009, due to a shortfall in the Debt Service Reserve Fund. The deficiency totaling \$381,733 was funded by Radian Asset Assurance, Inc. (Radian), the insurer of the bonds. Additionally, on April 1, 2010, Radian paid bond interest in the amount of \$242,975 on the Medical Center's behalf.

On May 18, 2010, the Special Master entered into a settlement agreement with Radian to be executed upon approval by the court. On May 25, 2010, the Medical Center received the final order from the court approving the settlement agreement. The approved settlement agreement required the Medical Center pay in cash the sum of \$5,400,000 in full satisfaction of the bond obligation and secured claims against the Medical Center by the Trustee of the bonds and Radian. Upon receipt of the payment, the Trustee and Radian released and discharged of their respective liens against the assets of the Medical Center.

The source of the cash payment from the Medical Center was (1) approximately \$1,800,000 of cash paid by the Medical Center and (2) secured borrowings of \$3,600,000 from two private lending sources (\$1,600,000 from CRB Holdings, Inc. and \$2,000,000 from Caritas). The transaction resulted in the Medical Center recognizing a net gain on forgiveness of debt and interest of approximately \$5,964,800.

The note payable to CRB Holdings, Inc. is secured by all accounts and health care insurance receivables of the Medical Center. This agreement requires the Medical Center to maintain an adjusted receivables balance of \$7,000,000 as defined by the agreement, which is reported monthly to the lender. As of September 30, 2010, management believes it is in compliance with the terms of the agreement. Payment on the note payable was due on June 7, 2011. On June 15, 2011 the court approved an emergency petition for instructions to refinance the note with a private lending source, Northborough Capital Partners, LLC. The terms of the refinanced note payable mirror the terms of the note payable to CRB Holdings, Inc. Payment is due June 15, 2012.

The note payable to Caritas is secured by property owned by the Medical Center. The Medical Center is required to comply with certain financial covenants. As of September 30, 2010, management believes that the Medical Center was in compliance with such covenants. Payment on the note was due on June 4, 2011, however, as a result of the Asset Purchase Agreement discussed in Note 19 the note shall be deemed paid at closing by virtue of Steward Health Care System LLC, as successor-in-interest to Caritas.

(7) Temporarily Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Purchase of equipment	\$ 146,213	\$ 55,480
Indigent care		58,270

Other	<u>12,431</u>	<u>384</u>
	<u>\$ 171,379</u>	<u>\$ 126,369</u>

Approximately \$116,200 and \$17,000 of temporarily restricted net assets were released from restriction for other specified purposes in 2010 and 2009, respectively.

(8) Pension Plans

(a) Defined Benefit Plan

The Medical Center has a defined benefit pension plan (the Plan) covering substantially all of its union employees. The benefits are based on years of service and the employee's compensation. The Medical Center's funding policy for the Plan is to contribute an amount sufficient to satisfy the minimum funding requirements of the Internal Revenue Code. The measurement date for the Plan is September 30.

The Medical Center recognizes in its balance sheet an asset for the plan's overfunded status or a liability for the plan's underfunded status. The Medical Center measures the plan's assets and its obligations that determine its funded status as of the end of the Medical Center's fiscal year and recognizes changes in the funded status of the plan in the year in which the changes occur, and reports these changes in other comprehensive income. In addition, actuarial gains and losses that are not immediately recognized as net periodic pension cost are recognized as a component of unrestricted net deficit and amortized into net periodic pension cost in future periods.

The following table sets forth the funded status of the Medical Center's pension plan for union employees and amounts recognized in the consolidated balance sheets at September 30, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Change in benefit obligation:		
Projected benefit obligation at beginning of year	\$ 34,593,621	\$ 26,878,660

Amounts recognized in unrestricted net deficit consist of:

	2010	2009
Net actuarial losses	\$ 16,548,613	\$ 15,237,491

The accumulated benefit obligation at the end of 2010 and 2009 was \$34,715,789 and \$29,734,252, respectively.

Net periodic pension cost included the following components:

	2010	2009
Service cost	\$ 1,306,795	\$ 980,653
Interest cost on projected benefit obligation	1,910,413	1,748,136
Expected return on plan assets	(1,390,658)	(1,501,366)
Amortization of net loss	846,995	396,264
Net periodic pension cost	\$ 2,673,545	\$ 1,623,687

The estimated amount that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year is \$965,000.

The following weighted average assumptions were used by the Plan's actuary to determine net periodic pension cost and benefit obligations at September 30, 2010 and 2009:

	2010	2009
Weighted average discount rate for benefit obligations	5.14%	5.62%
Discount rate for net periodic pension cost	5.62	6.50
Rate of increase in future compensation levels	4.00	4.00
Expected long-term rates of return on assets	7.50	7.75

The average future years of service are 13.72 and 13.78 for the years ended September 30, 2010 and 2009, respectively.

Plan assets were invested in the following classes of securities, whose fair values are determined by utilizing quoted prices in active markets for identical assets:

	2010	2009
Equity	66%	65%
Fixed income	34	34
Cash and cash equivalents	-	1
	100%	100%

The Plan's overall investment objective is to provide a long-term return that is expected to meet future benefit payment requirements. A long-term horizon has been adopted in establishing an investment policy such that the likelihood and duration of investment losses are carefully weighed against the long-term potential for appreciation of assets. The Plan's investment policy requires investments to be diversified across individual securities, industries, and market capitalization and valuation characteristics. In addition, various techniques are utilized to monitor measure and manage risk.

The required employer contributions to the Plan during fiscal 2011 are approximately \$3,917,000; however, the Medical Center has not made any contributions to the Plan (note 19).

Total expected benefit payments are as follows:

Year ending September 30:					
2011		\$	823,000		
2012			935,000		
2013			1,197,000		
2014			1,366,000		
2015			1,554,000		
2016-2020			10,977,000		
Thereafter			22,998,900		
Projected benefit obligation			<u>\$ 39,850,900</u>		

(b) Defined Contribution Plan

Beginning in 1990, the Medical Center established a defined contribution plan (the DC Plan) covering substantially all of its nonunion employees. Prior to a plan amendment in 2009, the Medical Center contributed on behalf of employees an amount equal to 0.1% of an employee's salary times the sum of the employee's age and years of service. The maximum contribution the Medical Center would make was 6.5% of an employee's salary in any Plan year subject to certain limitations established under the Internal Revenue Code. During the year ended September 30, 2009, the plan was amended to cease employer contributions.

The Medical Center has a tax sheltered annuity plan. Employee contributions are allowed up to the allowed IRS maximum contribution. Prior to a plan amendment in 2009, the Medical Center matched half of the employee's contribution to the plan, up to a maximum of 3% of earned wages. During the year ended September 30, 2009, the Medical Center contributed approximately \$179,800 to the plan. During 2010, the Medical Center amended this plan and changed the employer match to a discretionary match, with no such match made for 2010.

RHRI maintains a 401(k) salary deferral plan (the RHRI Plan). Employees qualifying under the RHRI Plan may make pretax contributions, up to statutory limits. RHRI will match employee contributions at a rate of twenty percent (20%), up to three percent (3%) of the employee's annual salary. In addition, RHRI is required under union contract to contribute an amount equal to 2% of gross annual salaries for all eligible employees regardless of their participation in the RHRI Plan. Contributions made to the Plan by RHRI were approximately \$26,600 and \$21,100 for the years ended September 30, 2010 and 2009, respectively. At September 30, 2010, RHRI has a payable due to the Plan of approximately \$102,000 related to a discretionary contribution declared in 2007 that has not been remitted to the plan.

(9) Leases

The Medical Center leases various equipment under capital leases expiring through 2013. The present value of future minimum capital lease payments as of September 30, 2010 are:

Year ending September 30:	
2011	\$ 83,136
2012	83,136
2013	83,136
Total minimum lease payments	249,408
Less amount representing interest (rates of 3.7% to 8.4%)	29,467
Present value of net minimum capital lease payments	219,941
Less current portion of capital lease obligations	67,303
Capital lease obligations, net of current portion	\$ 152,638

The net book value of equipment under capital leases amounted to approximately \$593,800 and \$696,000 as of September 30, 2010 and 2009, respectively.

The Medical Center leases various equipment and space under non-cancelable operating leases which expire at various dates through fiscal year 2028. In addition, the Medical Center rents certain equipment on a day to day basis. Total rental expense for these operating leases and daily equipment rentals for the years ended September 30, 2010 and 2009 totaled approximately \$1,793,200 and \$1,910,800, respectively. Approximate future minimum lease payments under these leases are as follows:

Year ending September 30:	
2011	\$ 730,800

(10) Patient Service Revenue, Reimbursement and Receivables

A major portion of the Medical Center's revenue is received from third-party payors. The following is a percentage breakdown of gross revenues by payor type for the years ended September 30:

	2010	2009
Medicare	33%	31%
Blue Cross	25	28
Medicaid	4	5
HMO	10	10
United	18	16
Other third-party payor	5	5
Self-pay	5	5
	100%	100%

Cost reports filed annually with third party payors are subject to audit prior to final settlement. Cost reports for fiscal years 2006 and prior have been audited and settled. Changes in prior year estimated settlements with third-party payors and other changes in estimates increased net patient service revenue by approximately \$312,400 for the year ended September 30, 2009. There were no changes in prior year estimated settlements for the year ended September 30, 2010. In addition, the Medical Center was a participant in a group reimbursement appeal in which a court determined the Medicare program had incorrectly interpreted regulations in prior years. The Medical Center received a settlement amount of \$152,700 and \$373,300 during the years ended September 30, 2010 and 2009, respectively.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with laws and regulations can be subject to future government review and interpretation as well as significant regulatory action; failure to comply with such laws and regulations can result in fines, penalties and exclusion from the Medicare and Medicaid programs.

The Medical Center grants credit to patients, substantially all of whom are local residents. The Medical Center generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans, or policies (e.g. Medicare, Medicaid, Blue Cross, health maintenance organizations, and commercial insurance policies). Because of the Medical Center's policy of granting credit to patients regardless of their ability to pay, the Medical Center provides a significant amount of services for which payment is never received. During the years ended September 30, 2010 and 2009, the Medical Center provided \$15,724,029 and \$14,139,992, respectively, for uncollectible patient accounts.

On October 1, 1994, an amendment to the Rhode Island Title XIX Program State Plan went into effect relating to disproportionate share hospital policy for compliance with the Federal Social Security Act. This amendment resulted in additional payments to compensate hospitals for indigent patients. Disproportionate share payments, net of licensing fees, of \$965,613 and \$1,192,368 were recorded in fiscal 2010 and fiscal 2009, respectively, as a component of net patient service revenue.

In connection with the final order from the court approving the settlement agreement for the bond obligation, discussed in note 6, Blue Cross was granted a valid and perfected third priority security interest in the Medical Center's receivables, including health care insurance receivables, and all proceeds thereof.

(11) Concentrations of Credit Risk

At September 30, 2010, the Medical Center has \$2,669,464 on deposit with a local financial institution. Per an agreement with this institution, surplus operating funds are swept daily and invested in various overnight repurchase agreements.

Of the funds held in the Medical Center's name at September 30, 2010, \$2,237,235 was invested in overnight repurchase agreements and \$432,229 was held in demand deposit accounts. The funds held in the overnight repurchase agreement are not considered to be a "deposit" and thus are not insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund. The funds held in certain demand deposit accounts exceed Federal Depository Insurance limits; however, the financial institution has a strong credit rating and management believes the credit risk related to these deposits is minimal.

(12) Related-Party Transactions

At September 30, 2010 and 2009, the Medical Center had outstanding receivable balances from its affiliates as follows:

	2010	2009
LHS Investments	\$ 106,862	\$ 105,362
Landmark Occupational Medicine	1,054,206	1,054,206
LHS Management Company	3,679,378	3,679,378

	5,174,527	5,173,027
Less estimated uncollectibles	5,174,527	5,173,027
Noncurrent due from affiliates	\$ -	\$ -

(13) Commitments and Contingencies

(a) Contingencies

The Medical Center is involved in various malpractice claims and legal proceedings of a nature considered normal to its business. The claims are in various stages and some may ultimately be brought to trial. While it is not feasible to predict or determine the outcome of any of these claims, it is the opinion of management that the liability, if any, to the Medical Center in excess of insurance coverage will not have a material adverse effect on the financial position of the Medical Center.

(b) Insurance Reserve

The Medical Center has malpractice insurance under a claims-made policy. Should this claims-made policy not be renewed or replaced with equivalent insurance, occurrences during its term but reported subsequently will be uninsured.

In order to provide for the possibility that the claims made policies will not be renewed, the Medical Center has accrued an estimated premium for a tail insurance policy totaling approximately \$2,600,000 at September 30, 2010.

(c) Severance Agreements

The Medical Center has severance agreements with certain executive officers that become operative only upon involuntary termination without cause. Severance plans that are not operative have not been accrued in the consolidated financial statements.

(d) Labor Union

At September 30, 2010, the Medical Center had approximately 1,214 employees. Of this total, approximately 497 employees are represented by the Northern Rhode Island United Nurses and Allied Professionals, Local 5067. The current labor agreement expired on September 30, 2009, and they are currently negotiating a new contract. The Medical Center has not experienced any labor stoppages or interruptions in the recent past.

The Medical Center delayed from October 1, 2008 to January 1, 2009 a 2% pay increase due to union employees, and has not paid an additional 2% pay increase due to union employees on April 1, 2009. A demand for arbitration was filed with the American Arbitration Association on November 10, 2008 in accordance with the collective bargaining agreement; however, this demand has not yet been recognized by the Court. As a result of the Mastership, the Medical Center and the Special Master do not believe the Medical Center is obligated to pay these increases and, therefore, has not accrued for them in the financial statements. However, in the event the Court were to rule in favor of the union employees, the Medical Center could be obligated to pay up to approximately \$1,350,000, which includes potential retroactive pay increases from October 1, 2008 to January 1, 2009, as well as the additional increases beginning April 1, 2009 through September 14, 2011.

(14) Joint Venture

The Medical Center and Radiation Therapy Services, Inc. (a for-profit company) (RTS) formed a joint venture in 2004 principally to provide radiation therapy services in Rhode Island. The joint venture, Southern New England Regional Cancer Center, LLC (SNERCC) is a limited liability company and is accounted for under the equity method of accounting. The members of SNERCC are RTS whose interest is 62% and the Medical Center whose interest is 38%. The investment in SNERCC for the years ended September 30, 2010 and 2009 was \$1,046,317 and \$889,260, respectively.

(15) Hospital License Fee

The State of Rhode Island requires all hospitals to pay an annual hospital licensing fee. The licensing fee is calculated as a percentage of gross patient service revenue derived from the Medical Center's last filed cost report. The total due and paid to the State from the Medical Center was \$5,503,871 and \$5,670,375 for 2010 and 2009, respectively. The 2010 and 2009 fees were paid in full prior to each year-end.

At September 30, 2009, payment of the 2008 license fee was pending determination by the Superior Court of the State of Rhode Island of the amount applicable to the time period prior to June 26, 2008, the effective date of the Special Master appointment (see note 1). During 2008, the court had ordered the Medical Center to escrow \$3,577,360 for payment of said fee. On May 17, 2010, the Court ordered a portion of the escrow balance totaling \$1,834,775 to be paid in full settlement of the 2008 hospital license fee.

(16) Deferred Gain

In September 2003, the Medical Center sold real property that consisted of patient care, administrative, retail and commercial space (the Plaza) for \$3,500,000 in cash and recognized a gain on the sale of the Plaza of \$3,455,795. Concurrently, the Medical Center entered into a 12-year lease agreement for leasing a portion of the commercial space in the Plaza with one option to renew the lease for an additional 3 years. The gain on the sale has been deferred and is being recognized over the related lease term (15 years or \$230,386 per year).

In February 2008, the Medical Center sold the land and building that comprise the Fogarty unit for approximately \$6,040,000 in cash and recognized a gain on the sale of the building and land of \$5,521,487. Concurrently, the Medical Center and RHRI entered into 10-year lease agreements for 38% and 62%, respectively, of the square footage within the Fogarty unit building with options to renew the leases for up to 25 additional years. The gain on the sale has been deferred and is being recognized over the related lease term (approximately 20 years or \$276,000 per year), which represents the time period of the initial lease term together with renewal options that provide economic incentives to the lessees, if exercised. Sale proceeds of \$580,000 were used to fund an escrow account to secure future rent payments from the Medical Center for five years.

(17) Functional Expenses

The Medical Center provides health care services to residents within its geographic location. Expenses related to providing these services for the years ended September 30 are as follows:

	2010	2009
Health care services	\$ 112,472,524	\$ 107,413,125
General and administrative	29,918,887	28,575,693

(18) Supplemental Cash Flow Information

During the years ended September 30, 2010 and 2009, cash paid for interest was \$804,971 and \$645,657, respectively.

The accompanying statement of cash flows for the year ended September 30, 2010 excluded the effect of non-cash financing activities related to the forgiveness of debt and interest in the amount of \$6,261,926.

(19) Subsequent Events

Pension Funding

The Medical Center did not deposit the required quarterly installments to the Plan in the amount of approximately \$2,343,600 due on June 15, 2011. The Medical Center filed the required forms with the Pension Benefit Guarantee Corporation (PBGC) within the required 10 day response time to report the missed payment. The Court appointed Special Master has indicated that the payment will not be made by the Medical Center and Plan termination procedures will be initiated.

Other

During 2010 the State of Rhode Island accepted a proposal by the Special Master and the Medical Center to exempt any "for profit" entity that acquires the Medical Center from paying sales tax for a period of 12 years.

Asset Purchase Agreement

On May 26, 2011, the Medical Center signed an asset purchase agreement (APA) with Steward Medical Holdings Subsidiary Four, Inc. (SMHSF) and Steward Health Care System LLC. The APA was approved by the court on June 8, 2011. In conjunction with the APA, the Medical Center entered into an advisory agreement with SMHSF. Under the terms of the advisory agreement, SMHSF will provide advisory services at no charge to the Medical Center as long as the transactions contemplated in the APA are consummated. Otherwise, a monthly fee of \$35,000 will be charged for each month of service rendered. In addition, the advisory agreement allows for a credit facility to be utilized by the Medical Center to fund working capital needs through the closing of the APA. The Medical Center can borrow up to \$5,000,000 under the terms of the advisory agreement, and as of the date of this report has borrowed \$1,000,000. Currently the APA is being reviewed by the Rhode Island Department of Health and the Attorney General of the State of Rhode Island.

Management of the Medical Center has evaluated subsequent events through September 14, 2011, which is the date these financial statements were available to be issued.

Part III Statement of Program Service Accomplishments (See the instructions.)

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

What is the organization's primary exempt purpose? ▶	Program Service Expenses (Required for 501(c)(3) and (4) orgs., and 4947(a)(1) trusts; but optional for others.)
HEALTH CARE AND ACUTE MEDICAL CARE SERVICES.	
All organizations must describe their exempt purpose achievements in a clear and concise manner. State the number of clients served, publications issued, etc. Discuss achievements that are not measurable. (Section 501(c)(3) and (4) organizations and 4947(a)(1) nonexempt charitable trusts must also enter the amount of grants and allocations to others.)

Part III Statement of Program Service Accomplishments (See the instructions.)

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

What is the organization's primary exempt purpose? ▶	Program Service Expenses (Required for 501(c)(3) and (4) orgs., and 4947(a)(1) trusts; but optional for others.)
HEALTH CARE AND ACUTE MEDICAL CARE SERVICES.	
All organizations must describe their exempt purpose achievements in a clear and concise manner. State the number of clients served, publications issued, etc. Discuss achievements that are not measurable. (Section 501(c)(3) and (4) organizations and 4947(a)(1) nonexempt charitable trusts must also enter the amount of grants and allocations to others.)	
a INPATIENT MEDICAL/SURGICAL PATIENT DAYS DECREASED BY 2,584 (OR 7.8%) FROM FY 2006 TO FY 2007. THIS CHANGE WAS THE RESULT OF DECREASES IN MEDICAL/SURGICAL CASES AS A RESULT OF INCREASED COMPETITION IN THE MARKET OVERALL.	
(Grants and allocations \$) If this amount includes foreign grants, check here ▶ <input type="checkbox"/>	
b INPATIENT PSYCHIATRIC DAYS INCREASED 5.8% (OR 300 PATIENT DAYS) FROM FY 2006 TO FY 2007 AS A RESULT OF MARKET TRENDS IN PSYCHIATRIC INPATIENT ADMISSIONS.	
(Grants and allocations \$) If this amount includes foreign grants, check here ▶ <input type="checkbox"/>	
c OBSTETRIC PATIENT DAYS DECREASED BY 16 (OR 1%) FROM FY 2006 TO FY 2007 . THIS WAS DUE LARGELY TO THE SOMEWHAT LIMITED BED CAPACITY FOR THIS SERVICE LINE.	
(Grants and allocations \$) If this amount includes foreign grants, check here ▶ <input type="checkbox"/>	
d OUTPATIENT EMERGENCY ROOM VISITS DECREASED BY 7.5% (3,384 CASES) FROM FY 2006 TO FY 2007. THIS VOLUME DECREASE WAS A RESULT OF DIRECT COMPETITION FROM THE OPENING OF A NEW URGENT CARE CENTER JUST A FEW MILES FROM THE HOSPITAL.

General Rule-

For organizations filing Form 990, 990-EZ, or 990-PF that received, during the year, \$5,000 or more (in money or property) from any one contributor. (Complete Parts I and II.)

Special Rules-

For a section 501(c)(3) organization filing Form 990, or Form 990-EZ, that met the 33 1/3% support test of the regulations under sections 509(a)(1)/170(b)(1)(A)(vi), and received from any one contributor, during the year, a contribution of the greater of \$5,000 or 2% of the amount on line 1 of these forms. (Complete Parts I and II.)

For a section 501(c)(7), (8), or (10) organization filing Form 990, or Form 990-EZ, that received from any one contributor, during the year, aggregate contributions or bequests of more than \$1,000 for use *exclusively* for religious, charitable, scientific, literary, or educational purposes, or the prevention of cruelty to children or animals. (Complete Parts I, II, and III.)

For a section 501(c)(7), (8), or (10) organization filing Form 990, or Form 990-EZ, that received from any one contributor, during the year, some contributions for use *exclusively* for religious, charitable, etc., purposes, but these contributions did not aggregate to more than \$1,000. (If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Do not complete any of the Parts unless the **General Rule** applies to this organization because it received nonexclusively religious, charitable, etc., contributions of \$5,000 or more during the year.) ▶ \$ _____

Caution: Organizations that are not covered by the General Rule and/or the Special Rules do not file Schedule B (Form 990, 990-EZ, or 990-PF), but they must check the box in the heading of their Form 990, Form 990-EZ, or on line 2 of their Form 990-PF, to certify that they do not meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

FORM 990 OTHER INVESTMENT INCOME STATEMENT 1

DESCRIPTION	AMOUNT
AFFILIATE INCOME FROM NORTHERN RHODE ISLAND REHAB MANAGEMENT	749,877.
AFFILIATE INCOME FROM PHYSICIANS HOSPITAL ORGANIZATION	<27,891.>
AFFILIATE INCOME FROM SOUTHERN NEW ENGLAND REGIONAL CANCER CENTER, LLC	28,152.
TOTAL TO FORM 990, PART I, LINE 7	750,138.

FOOTNOTES STATEMENT 2

TAX-EXEMPT BOND INFORMATION, FORM 990, PART IV, LINE 64A:

HOSPITAL FINANCING REVENUE BONDS, 2005 SERIES, \$14,125,000 OF SERIAL BONDS PAYABLE ANNUALLY THROUGH OCTOBER 1, 2019 AT RATES RANGING FROM 3.0% TO 5.0%.	13,340,000.
PLUS UNAMORTIZED BOND PREMIUM	278,286.
TOTAL TO LINE 64A	13,618,286.

ON AUGUST 10, 2005, THE MEDICAL CENTER REFUNDED THE 1993 SERIES BONDS AT A PAR VALUE OF \$15,210,000 WITH SERIES 2005 HOSPITAL FINANCING REVENUE REFUNDING BONDS WITH A PAR VALUE OF \$14,125,000 IN ORDER TO TAKE ADVANTAGE OF INTEREST RATE SAVINGS. THE SERIES 2005 ISSUE CONSISTS OF SERIAL BONDS MATURING OCTOBER 1 OF EACH YEAR BEGINNING OCTOBER 1, 2006 AND CONTINUING THROUGH FINAL MATURITY OCTOBER 1, 2019. BONDS MATURING ON OR PRIOR TO OCTOBER 1, 2015 ARE NOT SUBJECT TO OPTIONAL REDEMPTION EXCEPT UNDER EXTRAORDINARY CIRCUMSTANCES. BONDS MATURING ON OR AFTER OCTOBER 1, 2016 ARE SUBJECT TO OPTIONAL REDEMPTION BEGINNING ON OCTOBER 1, 2015 AT PAR VALUE PLUS ACCRUED INTEREST TO THE REDEMPTION DATE, AT THE OPTION OF THE INSTITUTION. THE SERIES 2005 BONDS ARE INSURED BY RADIAN ASSET ASSURANCE INC. AND ARE SECURED BY A MORTGAGE ON THE MEDICAL CENTER'S MAIN CAMPUS LOCATED AT 115 CASS AVENUE, WOONSOCKET, RI.

THE LOAN AND TRUST AGREEMENT RELATING TO THE BONDS CONTAINS

CERTAIN RESTRICTIVE COVENANTS INCLUDING THAT THE MEDICAL CENTER MAINTAIN A MINIMUM DEBT SERVICE COVERAGE RATION AND A MINIMUM NUMBER OF DAYS CASH ON HAND, AS DEFINED IN THE AGREEMENT.

AS A RESULT OF THE DEBT SERVICE COVERAGE RATIO AND THE CASH RESERVE NOT MEETING THE TERMS OF THE AGREEMENT, AN EVENT OF DEFAULT AS DEFINED IN THE LOAN AND TRUST AGREEMENT HAS OCCURRED. BECAUSE THE MEDICAL CENTER HAS NOT OBTAINED A WAIVER OF THESE COVENANT DEFAULTS, THE OUTSTANDING BALANCE OF THE SERIES 2005 BONDS AS OF SEPTEMBER 30, 2007 HAS BEEN CLASSIFIED AS A CURRENT LIABILITY.

REASON FOR AMENDED RETURN:

THIS RETURN IS BEING AMENDED TO CORRECTLY REPORT THE AMOUNTS FOR LANDMARK MEDICAL CENTER WHICH HAD INCLUDED THE ACTIVITY OF LANDMARK PHYSICIANS OFFICE SERVICES WHEN ORIGINALLY FILED. AN INCOME TAX RETURN, FORM 1120, FOR LANDMARK PHYSICIANS OFFICE SERVICES (20-5025078) IS BEING FILED.

Despite a relatively high case mix index, LMC has consistently provided substantial volumes of service at low cost in comparison to other area hospitals. This is demonstrated by examining certain asset and cost factors common to all hospitals, as adjusted for volume and case mix. Table 1, below, provides annual costs (FY08), case-mix indices and annual volumes for all acute care hospitals in Rhode Island.

Landmark Service Area

Landmark service area in Rhode Island:

Steward St. Anne’s Hospital Service Area

Currently, the only Steward affiliate hospital with a service area that crosses the Rhode Island border is Steward St. Anne’s Hospital. Steward St. Anne’s Hospital is located in Fall River, Massachusetts. It draws some of its volume from the southeast corner of Rhode Island in the towns of Tiverton and Portsmouth. The Steward hospital affiliates define their service areas based on historical discharge volume. The primary service area (PSA) is defined by 80% of total discharges, while the secondary service area (SSA) captures additional discharges up to 90%. In certain circumstances contiguous zip codes are also added to the service area. A map of the Steward St. Anne’s Hospital service area, with a chart of the PSA and SSA, is shown below:

I. Executive Summary

Under Rhode Island Statute, the Office of the Health Insurance Commissioner (OHIC) is responsible for enforcing statutes regarding commercial health insurers in the state. An analysis of commercial insurers' payments to hospitals in 2008 was conducted to assess the existence of any payment variation by health plan or hospital and to assess the effects of any variation on two statutory standards for Commercial Insurer conduct: fair treatment of providers, and efforts to promote health insurance affordability. Findings from this analysis are summarized below.

General Characteristics of Hospital Payments

This report analyzes average hospital inpatient payments from the two major health plans. It focuses specifically on the eleven acute care hospitals in Rhode Island – excluding Bradley, Butler, The Rehabilitation Hospital of Rhode Island, and Eleanor Slater Hospital (a public long term care hospital).

- ❖ The average split of hospital payments from the two insurers was 76 percent from BCBSRI and 24 percent from UHCNE and roughly reflected their enrollment and premium shares in the RI commercial insurance market.
- ❖ Overall, casemix-adjusted average rates of reimbursement to the eleven acute care hospitals for medical and surgical services varied by less than five percent between the two health plans.
- ❖ The vast majority (76 percent) of the payments were made to the five acute care hospitals affiliated with either the Lifespan Corporation (46 percent) or Care New England Health System (30 percent), while only 24 percent of the payments went to the remaining six unaffiliated community hospitals.
- ❖ There was a wide variation in inpatient vs. outpatient revenue from the two health plans, ranging from 30 percent inpatient and 70 percent outpatient revenue for Westerly Hospital, to 56 percent inpatient and 44 percent outpatient revenue at Rhode Island Hospital. The average across all hospitals was evenly split at 50 percent inpatient and 50 percent outpatient revenue.

Variations in payment among the Eleven Acute Care Hospitals in Rhode Island

Variations in commercial inpatient medical-surgical payment rates (75 percent of all inpatient payments) were combined for both insurers and analyzed for each hospital. Four measures were used to compare payment from the plans to the hospitals: payment per diem, payment per stay, case mix-adjusted payment per stay, and payment per stay relative to what Medicare would pay. Because no measure is perfect, emphasis is placed on findings that are robust across all measures.

- ❖ The average payment per stay, adjusted for casemix, was about 116 percent of what Medicare would have paid for the same set of patients. Medicare payment levels form a common benchmark in payment negotiations nationwide, since Medicare payment levels are public knowledge and are intended to approximate the cost of care. Nationally, as in Rhode Island, private-sector insurers usually pay somewhat more than Medicare.¹

Variation in Payments to Hospitals from Commercial Insurers
January 2010

- ❖ However, variation in average case mix adjusted inpatient rates of reimbursement between hospitals was significant, ranging from 79 percent of Medicare’s comparable payment (at Roger Williams) to 167 percent (at Kent).
- ❖ Hospitals affiliated with either of the two systems in Rhode Island are compensated on a case mix adjusted basis at 149 percent of Medicare for Care New England hospitals and 117 percent of Medicare for Lifespan hospitals. In comparison, unaffiliated hospitals are paid at an average of 97 percent of Medicare.

These findings are summarized in the following table:

	Lifespan	CNE	Unaffiliated	Average
Per Diem Payments	\$3,696	\$3,266	\$2,397	\$3,238
Payment Per Stay	\$14,586	\$12,164	\$9,437	\$12,687
Average Casemix adjusted payment per stay indexed to overall average,	1.08	1.19	.75	1.00
Casemix adjusted payment per stay as a percent of Medicare payment	117%	149%	97%	116%

For outpatient care, precise analyses could not be conducted. Inter-hospital differences for outpatient payments appeared narrower than for inpatient payments. They also appear to parallel, rather than compensate for, inpatient variations.

Hypotheses for higher commercial insurers payments to system-affiliated hospitals include greater leverage possessed by these systems in contract negotiations, greater burdens of teaching care, higher levels of uncompensated care and cost-shifting to commercial insurers resulting from Medicare and Medicaid underpayments. There is no evidence that system-affiliated hospitals have relatively higher unreimbursed uncompensated care or teaching costs than unaffiliated hospitals, and the three highest-paid hospitals have unremarkable Medicaid and Medicare volumes. There is considerable evidence that the hospital systems - particularly Care New England - possess power in particular service markets that gives them negotiating leverage.

The overall effect of any variation on “fair treatment of providers”

The public policy affirming the private negotiation of payments between insurers and hospitals for commercially insured populations has resulted in wide variations in payments to hospitals on a case mix-adjusted basis and compared to Medicare. As a result, hospitals affiliated with systems are paid more for similar services than un-affiliated hospitals. They are also paid more relative to Medicare, which attempts

Variation in Payments to Hospitals from Commercial Insurers
January 2010

to adjust for the costs of teaching and uncompensated care. This outcome can be deemed as fair only if Medicare's method of payment is assessed as unfair.

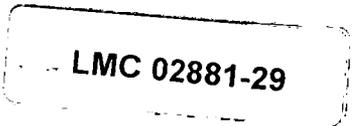

Eliminating any variation in commercial inpatient medical surgical payments would shift up to 15 million dollars in commercial inpatient medical-surgical payments between hospitals in a given year. The most substantial adjustments would be for Kent (a 44 percent reduction) and Roger Williams (a 32 percent increase). No assessment could be done for outpatient payment.

The overall effect of any variation on health insurance affordability in the state

The effects of this variation in payment levels on the affordability of health insurance depends on an assessment of what is determined to be a fair level of reimbursement. If all hospitals were to accept the lowest rate of inpatient payment currently accepted by any hospital, it would reduce hospital inpatient payments by 48 percent, which could reduce commercial insurance premiums by up to 3.9 percent. Alternatively, paying hospitals at the highest level negotiated would increase hospital inpatient payments by 30 percent, which could increase needed premiums by up to 5 percent. No analysis was possible for outpatient payments.

No reliable national comparisons to the estimate of 116 percent of Medicare that insurers pay in Rhode Island could be found. Figures quoted nationally range up to 140% of Medicare, so it may be safe to conclude that on average hospitals in RI are not relatively overpaid for inpatient services.

Any effort to address the apparent relative underpayment of unaffiliated hospitals in RI that simply raised their payment levels would raise overall payment levels and thus adversely affect health insurance affordability. Such efforts would also best be coupled with expectations for reforming not only how much hospitals are paid but how they are paid, to address concerns about the inherently inflationary aspects of the current fee for service payment system which dominates both Medicare and commercial hospital payment mechanisms.

II. Introduction

As part of their administrative efforts, health insurers negotiate contracts with providers on behalf of insurance customers. The terms of these contracts include units of service and rates of pay, and are considered proprietary information. These terms have direct effects on the affordability and quality of health insurance and medical care services used by insurance customers. This practice of assembling and privately negotiating for suppliers' services on behalf of a customer in exchange for an aggregate price is consistent with many other industries. However, the process of private negotiations conducted by medical providers and insurers is at odds with the method that public purchasers use for obtaining the same services. Medicare uses standardized, publicly accessible price schedules, which are subject to public discussion, analysis and adjustment. In April 2010, the Rhode Island fee-for-service Medicaid program plans to implement a similar payment method with price schedules posted on the Internet.

Under Rhode Island Statute, the Office of the Health Insurance Commissioner (OHIC) is responsible for enforcing statutes regarding commercial health insurers in the state. Its activities include guarding the solvency of health insurers in RI; protecting the interests of consumers; encouraging fair treatment of providers; encouraging policies and developments that improve the quality and efficiency of health care service delivery and outcomes; and encouraging and directing insurers toward policies that advance the welfare of the public through efficiency, quality improvement and appropriate access.²

Annual health insurance premium rates for both large employer groups and small employer groups in Rhode Island require OHIC approval. To inform this annual review, OHIC collects and reviews the major rate factors used by health insurers to develop their proposed premium rates. In conjunction with its review of rate factors³ for 2009, OHIC collected and reviewed confidential hospital and other provider payment data from Blue Cross & Blue Shield of Rhode Island (BCBSRI) and United Healthcare of New England (UHCNE).⁴ This report provides summary analyses, utilizing this data submission.

The purpose of this report is to understand what variations exist in per patient payments by commercial insurers to hospitals as a result of the private contracting process. This is important to understand for two reasons central to OHIC's statutory responsibility:

1. OHIC is responsible for holding health plans in RI accountable for fair treatment of providers.⁵ To the extent that variations in provider payments exist for like services, this could constitute unfair treatment.
2. OHIC is responsible for holding health plans in RI responsible for their statutory obligation to improve the affordability of RI's health system.⁶ Payments to hospitals comprise approximately 40

³ Annual health insurance premium rates for both large employer groups and small employer groups in Rhode Island require the Office of the Health Insurance Commissioner (OHIC) approval. To inform this annual review, OHIC collects and reviews the major factors used by health insurers to develop their proposed premium rates. These factors, collectively called "rate factors", include: medical cost inflation trends, contributions to reserves/profits, and administrative costs. The first factor, medical cost inflation trends, consists of estimated inflation rates of price and utilization for each of five medical service categories. These categories are: hospital inpatient services, hospital outpatient services; pharmacy, primary care and other medical.

⁴ Although Tufts submitted rate factors, as a new market entrant they did not have hospital payment data to analyze.

percent of health insurance premiums. Variations in hospital payment rates may affect the affordability of health insurance in RI.

The hospital payment analysis in this report draws on analysis done by ACS Government Healthcare Solutions as a consultant to OHIC. The data set was provided by the two insurers, and included payments for inpatient and outpatient services to RI's eleven acute care hospitals, two psychiatric hospitals, and one rehabilitation hospital affiliated with an acute care hospital. The data set included CY 2008 services paid through March 2009 and excluded pending claims. The data set did not include payment information for Medicare, Medicaid Fee for Service, Medicaid Managed Care (RIte Care), other commercial insurers, or individual policies. ACS organized the data and conducted a simulation of Medicare payment; the findings and discussion in this report are those of OHIC. ⁷

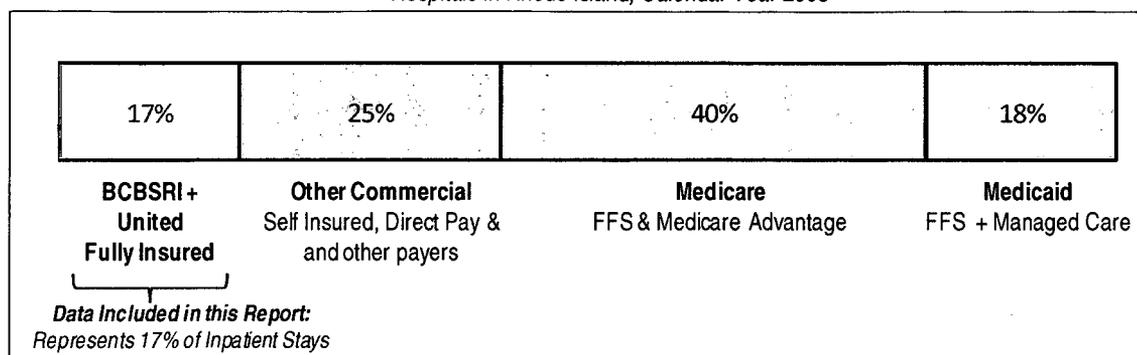

III. Source Data and Summary Findings by Hospital

The dataset included a total of \$321 million in payments to Rhode Island hospitals by insurers for both inpatient and outpatient services. Payments to the state operated long term care hospital – Eleanor Slater Hospital – were not included in the dataset.

The dataset included only those payments for small/large group policy-holders with risk-based contracts with BCBSRI and UHCNE. As shown in Figure 1, fully insured commercial business is only seventeen percent of the inpatient volume of Rhode Island's hospitals. However, although self insured and individual insurance payments are not included in this analysis, the rates of payment used by commercial insurers for these two lines of business – based on representations to OHIC - are thought to be similar in most cases to those for self- insured employer contracts and the payment policies being analyzed here could effect of 42% of the inpatient volume at Rhode Island hospitals..

⁷ The Office of the Health Insurance Commissioner gratefully acknowledges the work of Kevin Quinn and Connie Courts of ACS, Cara Sammartino, Emory University Public Health Intern, and several reviewers in producing this report. The analysis offered here is from OHIC.

Health plan enrollment data submitted to OHIC indicates that fully insured commercial enrollment constitutes 59% of total plan commercial self- or fully insured. If utilization and hospital payment methodology for self-insured products are consistent with fully insured business, then the \$310 million in hospital payments depicted in table one are representative of \$525 million in total payments to hospitals by BCBSRI and United for commercial enrollees.

Variation in Payments to Hospitals from Commercial Insurers
 January 2010

At OHIC’s request, health plans submitted hospital inpatient payment data by MS-DRG (regardless of whether the payment was made on a DRG basis)¹¹. This provided the basis for comparison of payments on an acuity-adjusted basis, which allows for an “apples to apples” comparison of payment levels between hospitals. This also provided the basis for the comparison of health plan payments to what Medicare Fee for Service would have paid for the same service.

A comparison of the relative amount paid to each acute care hospital by each health plan, for inpatient and outpatient services combined, provides a perspective on the relative hospital revenue from BCBSRI, the dominant health plan in RI, vs. UHCNE for each hospital (see Figure 2). Payer splits range from 83 percent BCBSRI payments vs. 17 percent UHCNE payments at South County and Westerly Hospitals to a split of 71 percent BCBSRI payments vs. 29 percent UHCNE payments at Kent and Newport Hospitals. The average split of hospital revenue from the two insurers is 76 percent from BCBSRI and 24 percent from UHCNE and roughly reflects their enrollment and premium shares in the RI commercial insurance market. Differences between hospitals in this regard may reflect employers’ choice of health plan in a hospital’s primary service area.

Figure 2: Percent of Hospital Revenue from BCBSRI vs. UHCNE

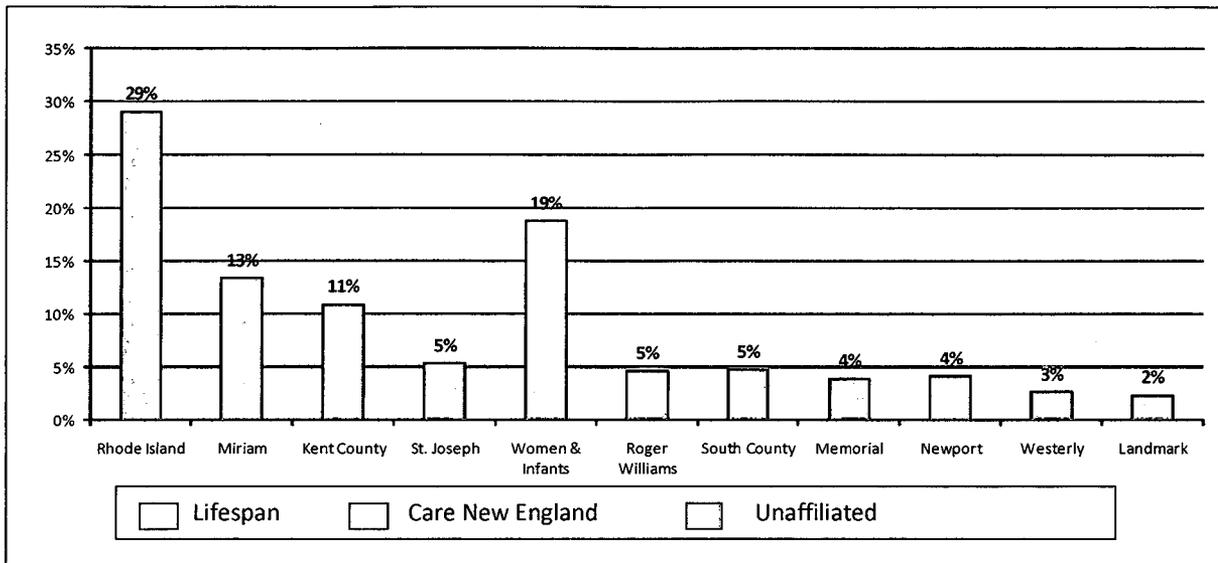

Acute Care Hospitals in Rhode Island, Calendar Year 2008

As shown in Figure 3, of the combined inpatient and outpatient payments reported by the two health plans, 29 percent of these payments were made to RI Hospital; two percent of these payments were made to Landmark Hospital; and the other nine acute care hospitals making up the rest fell within this range.

¹¹ DRG – or Diagnosis Related Groups – is used by Medicare as a way of categorizing diseases and procedures into units of service provided by hospitals. This permits standardized payments and analysis. MS-DRG refers to a subsequent refinement of the same categorization.

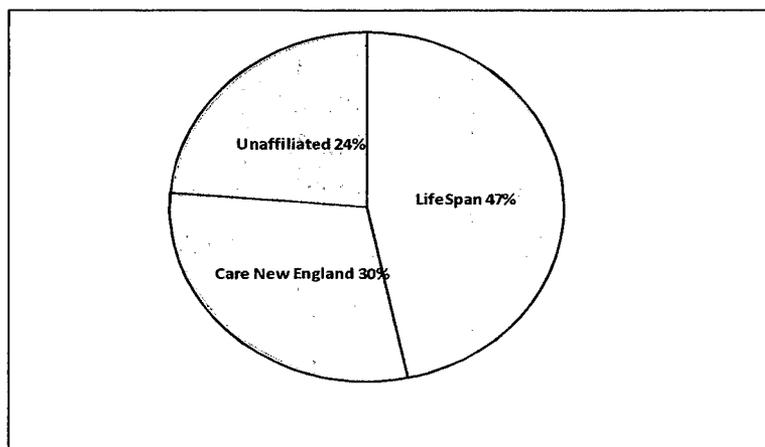

Figure 3: Percent of Total Health Plan Payments by Hospital
Acute Care Hospitals in Rhode Island, Calendar Year 2008

Rhode Island has two large hospital systems. Lifespan is the largest system, comprising Rhode Island Hospital, The Miriam Hospital, Newport Hospital, and Bradley Hospital. Care New England is composed of Women and Infants Hospital, Kent County Memorial Hospital and Butler Hospital. Unaffiliated hospitals are community hospitals which are not part of the Lifespan Corporation or Care New England hospital systems and that were not affiliated with each other in 2008 or 2009. Six hospitals meet this criterion: Roger Williams Hospital, St. Joseph Hospital (who plan to affiliate with each other beginning in 2010), South County Hospital, Memorial Hospital, Landmark Medical Center, and Westerly Hospital.

Figure 4 shows the share of payments by each hospital system and for unaffiliated hospitals. The vast majority (76 percent) of the payments were made to the 5 acute care hospitals affiliated with either the Lifespan Corporation (47 percent) or Care New England Health System. (30 percent), while only 24 percent of the payments went to the remaining 6 unaffiliated community hospitals.

A comparison between hospitals shows a wide variation in inpatient vs. outpatient payments from the two health plans, ranging from 30 percent inpatient payments and 70 percent outpatient payments for Westerly Hospital, to 56 percent inpatient payments and 44 percent outpatient payments at Rhode Island and Women & Infants hospitals (Figure 5). The average across all hospitals was an even split at 50 percent inpatient payments and 50 percent outpatient payments.

IV. Variation in Inpatient Medical/Surgical Service Payments among Health Insurers to the Eleven Acute Care Hospitals in RI

A detailed quantitative analysis was conducted to measure the extent of variation in health plan inpatient payments from the two health plans. This analysis included payments to the eleven acute care hospitals in Rhode Island. It was limited to medical/surgical services, which comprise 75 percent of inpatient payments to acute care hospitals, and excluded behavioral health and obstetrics admissions. A summary of the data used for this analysis is provided in Table 2.

Table 2: Summary of Hospital Payments Included in the Dataset

Total Hospital Payments in Dataset	\$321 Million
Payments to the Eleven Acute Care Hospitals	\$310 Million
Inpatient Payments to Acute Care Hospitals	\$155 Million
Inpatient Payments to Acute Care Hospitals for Medical Surgical Services	\$117 Million

Comparisons of payment rates for behavioral health admissions were not included because comparable health plan payment data were not available. Comparisons of payment rates for obstetrical admissions

were also not included because variation in payment methodologies across insurers made comparisons to medical surgical categories and between health plans difficult.¹²

Average hospital payment rates for BCBSRI were compared to average hospital payment rates for UHCNE, across all hospitals combined, adjusted for case-mix. On average across all inpatient hospital payments, the two health plans pay about the same for inpatient hospital stays. Case mix-adjusted inpatient payments, on average across all hospitals, differed by less than five percent between the two insurers studied¹³. Because the analysis found that inter-hospital variation was significantly greater than the inter-plan variation, the remainder of this report will focus on average differences in payments to hospitals.

To compare payment rates from the plans to the hospitals, four measures were used. No measure is perfect, but if all measures tend to tell the same story this increases the confidence in the robustness of the findings. The measures are: payment per diem, payment per stay, case mix-adjusted payment per stay, and payment compared with what Medicare would have paid for the same set of stays.¹⁴ In principle, case-mix adjusted payment is the most appropriate measure, but all measures are described so that readers can draw their own inferences.

A. Per Diem Payment

Payment per diem is the simplest comparison. This measure implicitly assumes that all hospital days are similar and consume similar amounts of resources, when in fact there are substantial differences among patients in the care they need per day. Further analysis is then needed to determine if any differences found between hospitals are compensated for by efficiency differences, or if they may be due to differences in patient severity.

Figure 6 shows significant variation in payment per diem, from \$1,888 per day to \$4,012 per day. In general, payment per day is higher for larger urban hospitals, and lower for community hospitals. As shown in Figure 7, payment per diem to the system hospitals – Lifespan and Care New England – is a third higher than to unaffiliated community hospitals.

¹² Obstetric payments and Outpatient payments are discussed separately in Section V.

¹³ A detailed analysis was performed, comparing inpatient payment rates for medical surgical services by health plan.

¹⁴ A fifth possible measure would be payment compared with hospital charges. However, charges have become almost meaningless as a measure of hospital resources. On average in Rhode Island, hospital charges are about two and a half times higher than hospital costs. See American Hospital Association, AHA Hospital Statistics, 2009 Edition (Chicago: AHA, 2009), p. 129. Hospitals vary significantly in how aggressively they mark up charges over cost, so comparison of pay-to-charge ratios is of limited validity when making comparisons between hospitals.

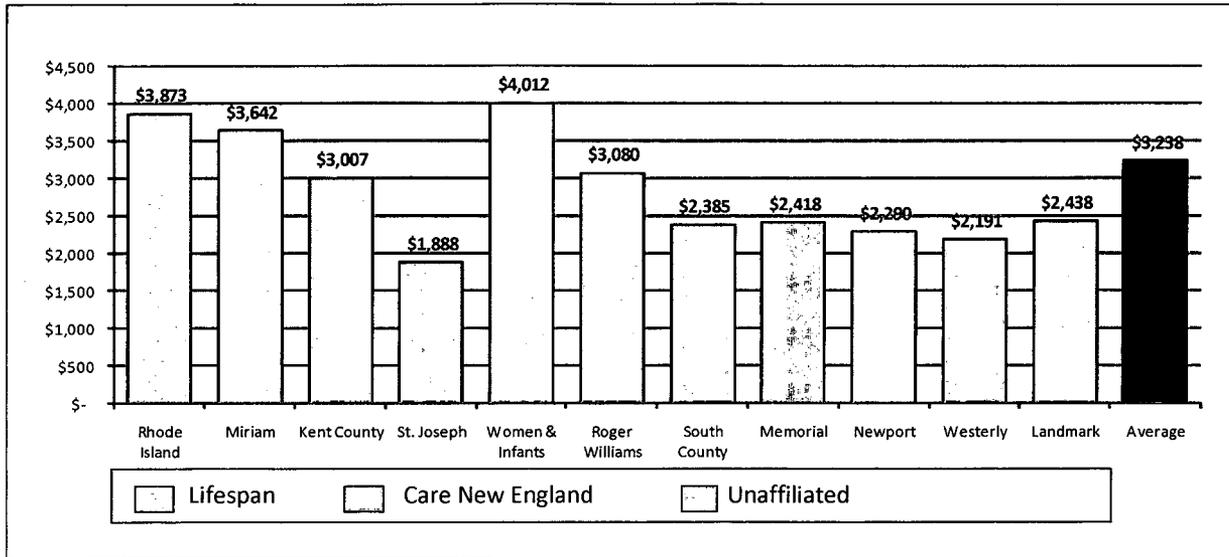

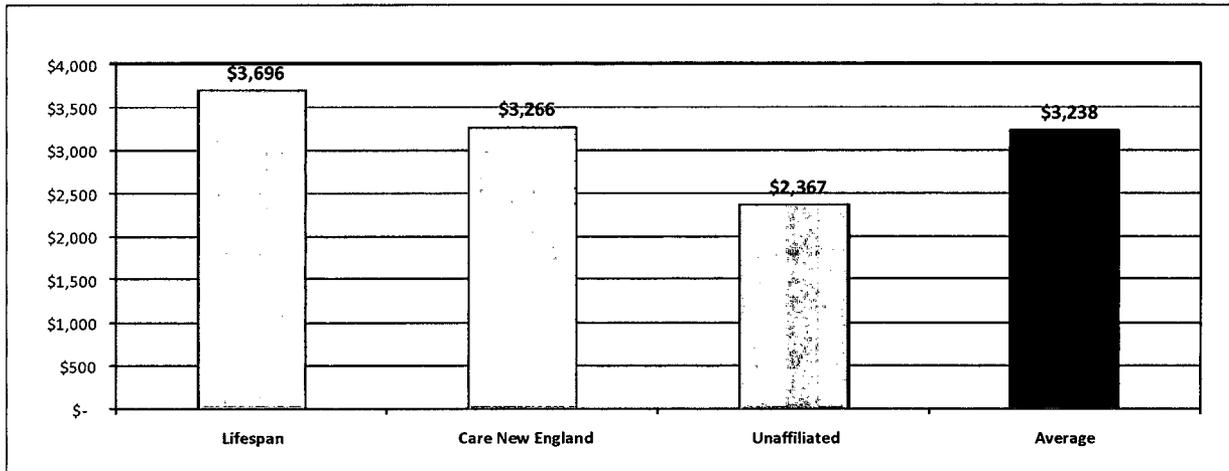

Figure 7 Average Med/Surg Payment per Inpatient Day (“Per Diem”) by Hospital Affiliation

B. Payment per Stay

Payment per stay is a more sophisticated measure than payment per diem. The hospital stay is the clinically meaningful unit of payment. Payment per stay captures both the average length of stay and the implicit payment per diem. Analyzing payments on a per stay basis thus adjusts for relative hospital efficiency but does not consider the complexity of a hospital’s patient population.

Figure 8 again shows significant variation, from \$7,730 per stay at Westerly Hospital to \$15,378 at Rhode Island Hospital – almost a doubling. As was true with payment per diem, payment per stay to the system

Variation in Payments to Hospitals from Commercial Insurers

hospitals – Lifespan and Care New England – is about a third higher than to the unaffiliated community hospitals.

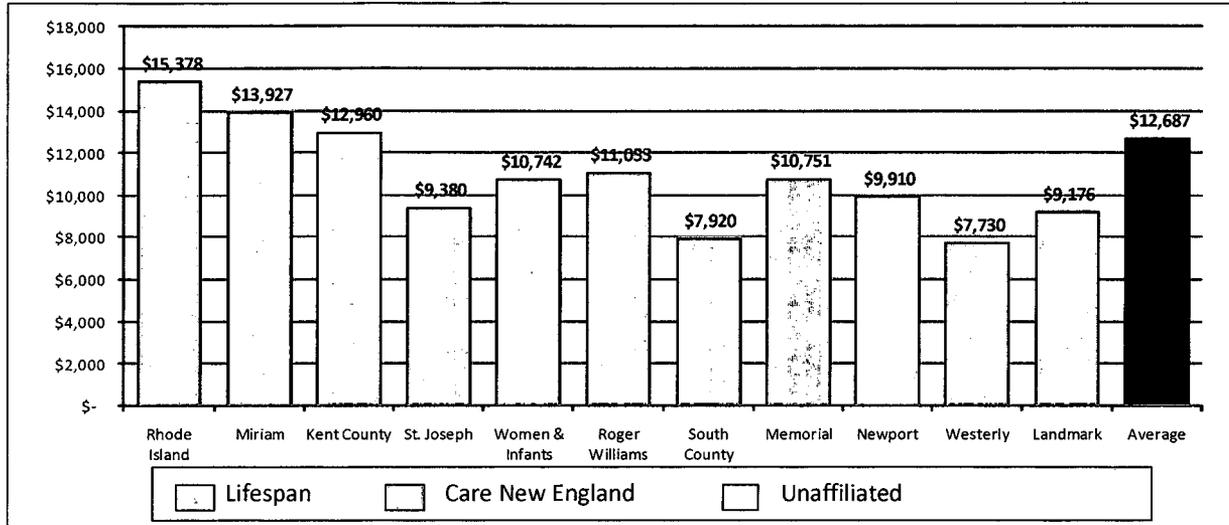

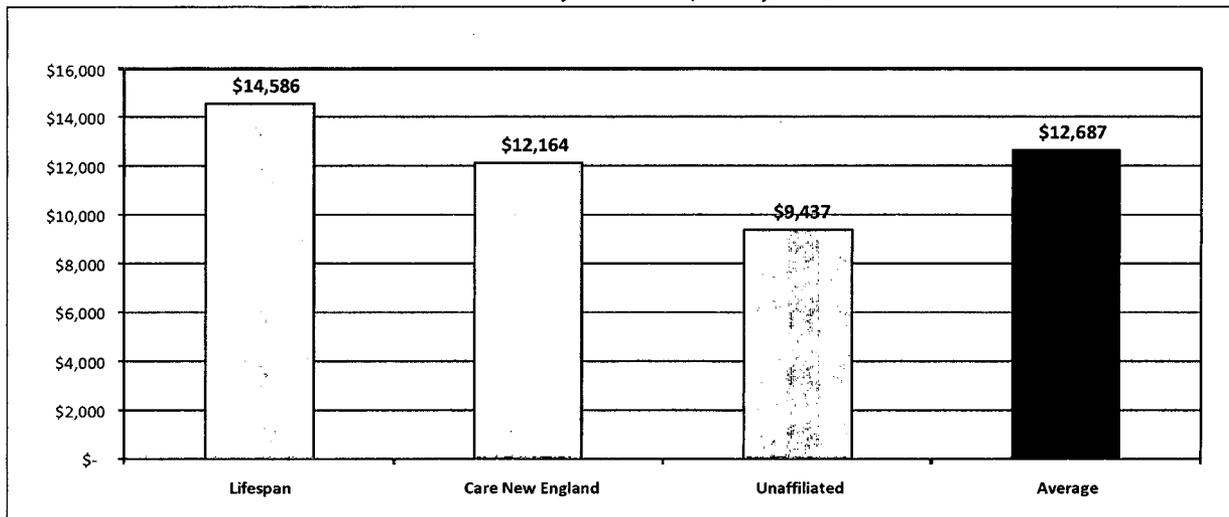

Figure 9: Average Payment per Inpatient Med/Surg Stay by Hospital Affiliation
BCBSRI and UHCNE Fully Insured Hospital Payments, CY 2008

C. Case-mix Adjusted Payment per Stay

Case-mix adjusted payment per stay is, in principle, the most appropriate measure because it adjusts for the significant differences in case mix across hospitals. Validity of the comparison depends heavily on the validity of the case mix measure itself. For this analysis, BCBSRI and United were asked to submit data by Medicare Severity Diagnosis Related Group (MS-DRG), regardless of whether they used MS-DRGs in calculating payment. MS-DRGs are the most commonly used measure of hospital case mix

Variation in Payments to Hospitals from Commercial Insurers

nationwide. For example, MS-DRGs differentiate between simple pneumonia, pneumonia with a complication, and pneumonia with a major complication. Although MS-DRGs are not suitable for all types of patients (especially newborns and obstetrics) they are very appropriate for the medical-surgical patients described in this analysis.¹⁵

In Figure 10, every hospital would be at 100 percent if each received the same payment on a case mix-adjusted basis. Instead, we see the same pattern as in Figures 7 and 9, where the system hospitals tend to receive higher payment than the unaffiliated hospitals. However, the relative rankings change. Kent County Hospital is paid 20 percent higher than the average across all the hospitals while South County Hospital is paid 35 percent less than the average across all hospital analyzed.

Figure 10: Case Mix Adjusted Inpatient Med/Surg Payments, Indexed to Average Payment per Inpatient Stay
BCBSRI and UHCNE Fully Insured Hospital Payments, CY 2008

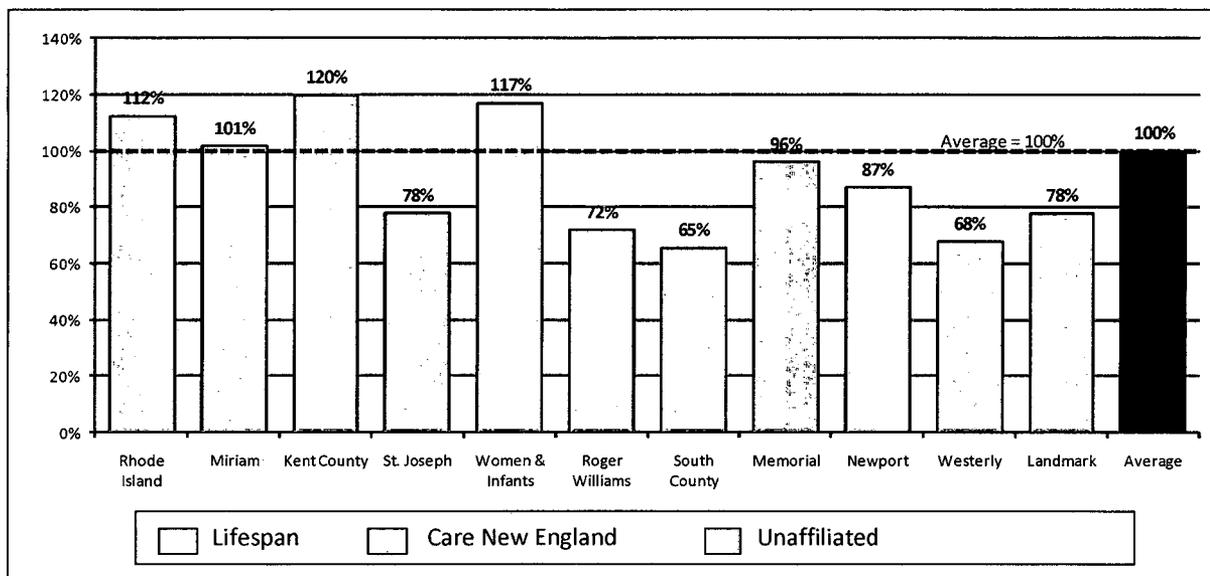

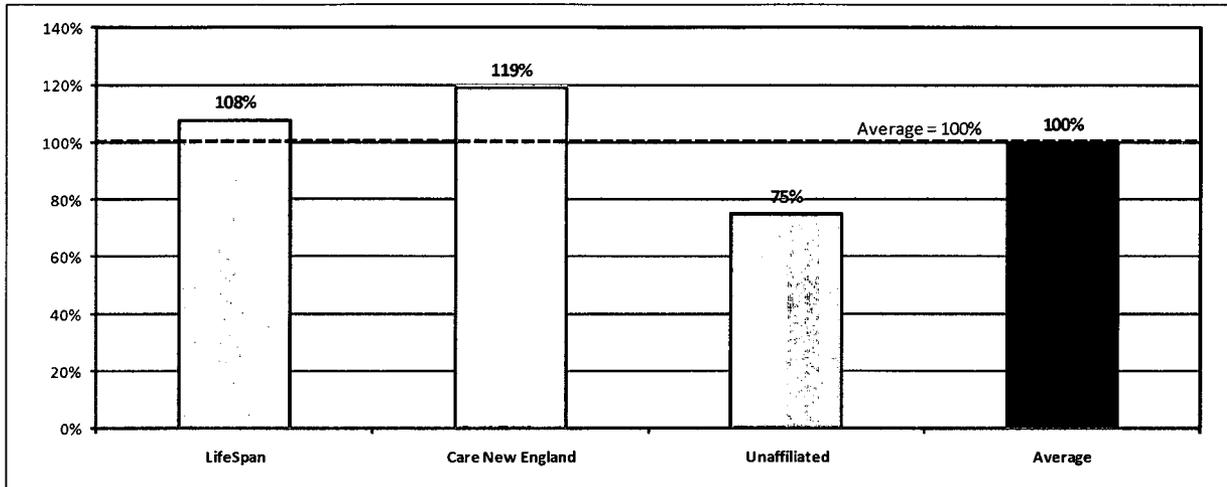

Figure 11 groups hospitals by affiliation status. When case mix is accounted for, Care New England hospitals appear to be the highest compensated group for equivalent inpatient services, replacing Lifespan (see Figure 9 for analysis without case mix adjustment). In addition, the case-mix adjusted per stay equivalent payment rate for system hospitals – Lifespan and Care New England – is 47 percent higher than the per stay equivalent payment rate for unaffiliated community hospitals.

There could be other reasons for payment variation beyond case mix, which this analysis does not capture. Hypotheses include higher base costs due to teaching responsibilities or levels of uncompensated care, contracting strategies and leverage, and differing levels of performance quality or outcomes.

D. Payment Compared with Medicare

As the dominant payer for hospital services nationwide, Medicare is often considered a benchmark in analyzing hospital payment rates. Medicare rates are sufficient to cover 96 percent of the average cost of caring for Medicare inpatients nationwide¹⁶ For this measure, the consultants to OHIC (ACS Government Healthcare Solutions) repriced each inpatient stay in the analytical dataset using Medicare payment principles. The most important component is the Medicare base payment, which comprises the MS-DRG relative weight times the Medicare DRG base price (called the standard amount)¹⁷. Because MS-DRGs are used in calculating Medicare payment, this comparison is automatically adjusted for case mix.

Figure 12 shows that, on average, the plans paid hospitals approximately 116 percent of what Medicare would have paid for the same set of patients¹⁸. As did earlier figures, Figure 12 also shows that the system hospitals tend to be paid a higher percentage of the Medicare benchmark than the unaffiliated hospitals.

It is important to note that as the dominant hospital payer, Medicare does not negotiate payment levels like its commercial counterparts - it sets them, based on an assessment of allowable costs, including

¹⁶ Medicare Payment Advisory Commission, Medicare Payment Policy, Report to Congress (Washington, DC: MedPAC, March 2009), p. 56.

¹⁷ Although there is only one wage area defined for Rhode Island by Medicare, some Rhode Island hospitals have successfully asked Medicare to use Massachusetts or Connecticut wage areas in calculating the DRG base price for their hospitals. The Medicare payment estimates used in this analysis reflect the RI, MA or CT wage areas applicable to each hospital, based on information from the CMS web site.

¹⁸ Calculation of the Medicare payment should be considered approximate. This calculation also included other hospital-specific components, such as payment for capital and indirect medical education. Outlier payments were approximated as 5% of DRG payments; since the consultants did not have claim-specific data, it was not possible for them to calculate actual outlier payments. Medicare payment for direct medical education was omitted from the analysis due to lack of specific information. For the state's teaching hospitals, Medicare payments are therefore slightly understated and the ratio of commercial payments to Medicare payments are slightly overstated.

appropriate differences attributable to case mix, uncompensated care, teaching and local costs of living. Medicare calculations represent a common benchmark and payment methodology, and provide a working definition of “fair payment” to the extent a public process is deemed to produce a fair outcome.¹⁹

Medicare also represents a national standard or benchmark for payment levels. This addresses a weakness of the case mix adjusted methodology employed in the previous section, which is useful for comparing hospitals to one another but offers only an assessment of relative differences between hospital payments.

Significant variation was found between the hospitals in case mix-adjusted payments per stay indexed to Medicare. In fact, commercial payments to hospitals bear little similarity to Medicare payment levels (Figure 12). Kent County Memorial Hospital had the highest payment relative to Medicare; the hospital’s average case mix-adjusted payment equivalent per stay was 67 percent higher than what Medicare would have paid. Roger Williams and Westerly Hospital payments were lower than the Medicare equivalent payment. Figure 12 also demonstrates that the four hospitals with the highest case mix-adjusted payment relative to Medicare were hospitals affiliated with either Lifespan or Care New England.

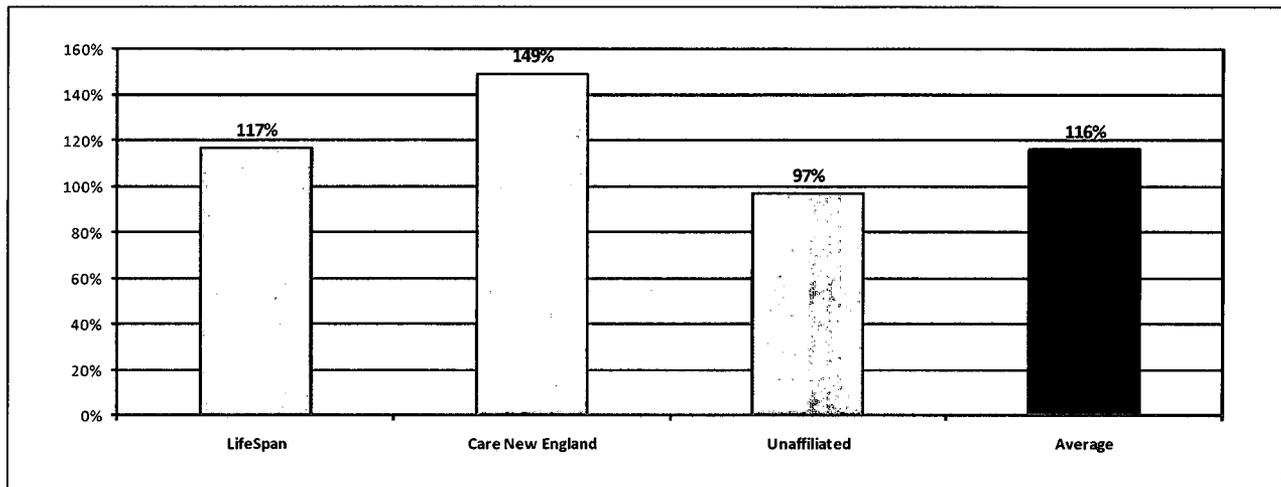

Figure 12: CMI-Adjusted Inpatient Med/Surg Payments, Indexed to Percent of Medicare Fee for Service
BCBSRI and UHCNE Fully Insured Hospital Payments, CY 2008

¹⁹ There is considerable controversy over what constitutes allowable costs and whether Medicare’s method of calculating them is fair and accurate. To the extent a hospital considers the process to be neither fair nor accurate and to the extent a hospital has economic leverage, the private negotiating process with commercial payers represents an opportunity to recoup expenses not reimbursed by Medicare and additional payments for other purposes. This mixed model of hospital payment – where public payers determine appropriate and allowable costs and set rates and commercial payers negotiate them on behalf of private purchasers creates a confusing set of incentives and opportunities for cost shifting by both hospitals and payers.

Figure 13 presents the same information aggregated by hospital system membership. Compared to Figure 11, adding Medicare payment as a benchmark emphasizes the relative overpayment of Care New England by commercial insurers relative to levels Medicare considers appropriate.

**Figure 13: CMI-Adjusted Inpatient Med/Surg Payments
Indexed to Percent of Medicare Fee for Service by Hospital System**
BCBSRI and UHCNE Fully Insured Hospital Payments, CY 2008

Hospitals are forced by statute to serve all patients, regardless of ability to pay. Some hospitals assume additional programs for training physicians. Both of these responsibilities can create additional cost burdens, which, as has been noted, Medicare attempts to calculate in a hospital-specific fashion and pay for. While the Medicare reimbursements attempt to pay for its share of costs associated with these responsibilities, not all costs, the fact that commercial payments exceed these levels would indicate that commercial insurers are paying for at least their share of these costs, as calculated by Medicare.

V. Effect of Excluded Services on this Analysis

As noted previously, three major service areas were excluded from this analysis: inpatient behavioral health, inpatient obstetrics and all outpatient services. To what extent does their exclusion affect this analysis and can any more general observations be drawn from the data submitted by the plans?

A. Behavioral Health Admissions

These represent seven percent of all inpatient payments in the data set (as compared to 72 percent for medical/surgical services) and are concentrated at Bradley (part of the Lifespan System) and Butler (a Care New England member) hospitals²⁰. In Rhode Island, United Healthcare “carves out” behavioral health care to another unit of the parent company; the carve-out data were not included in the data set submitted to OHIC for this analysis. Therefore no analysis was done of payments for these services.

B. Obstetrics and Newborn Admissions

These represent 20 percent of all inpatient payments. Seventy to eighty percent of all cases analyzed were at Women and Infants. As indicated previously, variations in billing units used by hospitals and insurers, possible grouper limitations and lack of a comparable Medicare payment all make conclusions difficult. Some analysis was done with the following findings:

- Greater variations in payment between plans - on a per diem and per case basis - exist for obstetrics and for newborn care than for medical/surgical services.
- On average, both obstetrics and newborn services at Women and Infants are reimbursed about 50% higher per stay than at the average of other hospitals. The plans pay substantially higher rates for obstetrical care to Women and Infants Hospital than to the other hospitals with obstetrics and delivery services, regardless of whether rates are measured on per diem, per stay without casemix adjustment, or per stay with casemix adjustment.

However, because of incomplete coding and possible limitations in the MS-DRG, case mix adjustment for obstetrics and newborns could not be conducted. This makes comparisons very limited, since Women and Infants has the only level one Neonatal Intensive Care Unit in the region and thus attracts all severe cases which in turn raises its costs per stay.

C. Outpatient Services

The outpatient payment data obtained by OHIC, shown in Table 1, summarizes outpatient payments by plan and hospital and shows that outpatient services now constitute 50 percent of payments to hospitals from commercial insurers on average. Thus, payments for outpatient services have a significant impact on both hospital revenue and on the cost of health insurance. Unlike for inpatient services, hospitals and insurers use a wide variety of payment methods and specific service definitions for outpatient services. As a result, the outpatient payment data provided by insurers is much less standardized than the inpatient

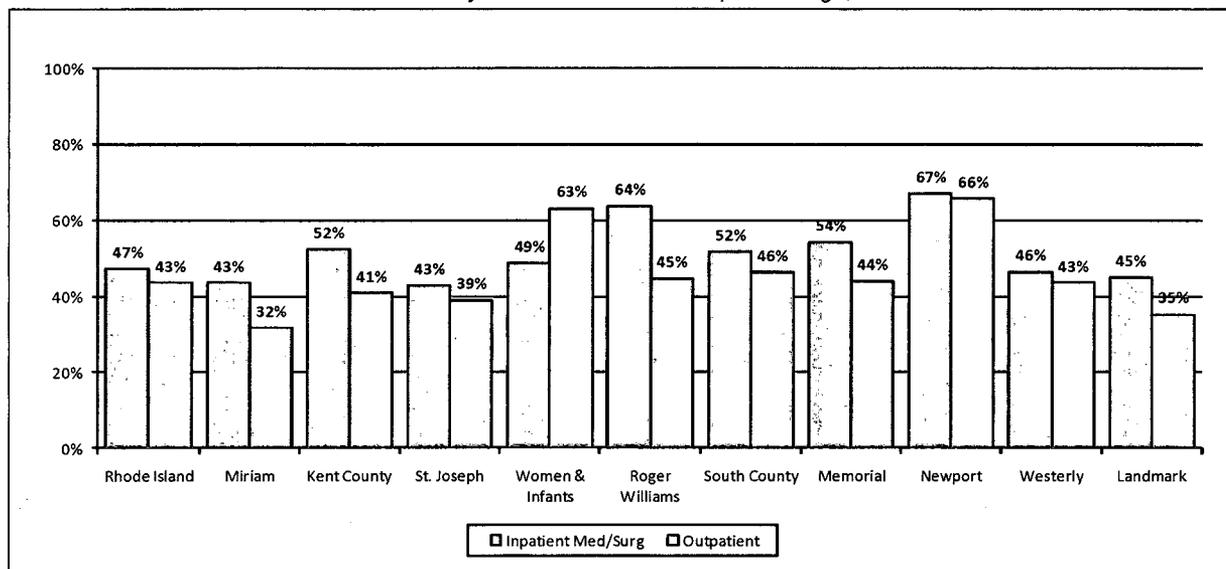

²⁰ Medical-surgical payments represent 72 percent of inpatient payments in the dataset, which includes Bradley, Butler and the Rehab Hospital of Rhode Island. Medical-surgical payments represent 75 percent of all inpatient payments to the eleven acute care hospitals analyzed, as shown in Table 2.

Variation in Payments to Hospitals from Commercial Insurers
January 2010

payment data. Due to this limitation in the outpatient data, it was not possible to create credible payment comparisons of outpatient payments by Health Plans to each of the hospitals using this data set.

However, analyses that could be generated for outpatient payments were comparisons between inpatient and outpatient payments for each hospital based on percentage of charges. This comparison is provided below in Figure 14.

Figure 14: Comparison of Outpatient and Inpatient Payment Levels by BCBSRI and UHCNE Combined
Measured as Payment as Percent of Hospital Charge, CY 2008

There are significant drawbacks of this method of analysis in making comparisons across hospitals because the method for calculating charges is not standardized across plans, there is no adjustment for patient severity (although this is less of a concern for outpatient services) and there is no ready comparison to a Medicare payment and its definition of allowable costs.

However, the outpatient data is useful in determining how well a particular hospital is paid for outpatient services relative to that same hospital's payment for inpatient services. Figure 14 shows the relative similarity in level of payment for inpatient and outpatient services relative to hospital charge for each hospital. This is an indication that outpatient payments do not appear to compensate for the variations in inpatient payment levels.

Inter-hospital differences for outpatient payments appear narrower than for inpatient payments. This may reflect greater price competition for outpatient services from non-hospital providers.

VI. Effect of the Variability in Hospital Payment Rates on the Affordability of Health Insurance

Calculations were made to estimate the effects of this variability on payments to providers and total health plan expenses (see Table 3). It can be argued that differentiated payments to hospitals that by analysis appear to be correlated only with system membership is “unfair”. Table 3 estimates the redistribution in inpatient payments if there were no variability between hospitals and all were paid at the same levels. It then looks at the effect of those levels on the affordability of health insurance.

Table 3 indicates that eliminating any variation in commercial inpatient medical surgical payments would shift \$9 million dollars in commercial inpatient medical-surgical payments between hospitals in a given year. If this dataset is representative of all commercial payments, it would shift up to \$15 million between hospitals.²¹ The most substantial adjustments would be for Kent (a 44 percent reduction) and Roger Williams (a 32 percent increase).

Table 3 also indicates that if the two health plans studied paid all hospitals at the lowest average negotiated rate (79 percent of Medicare) for inpatient services, they would spend \$50 million dollars less than they did, or about 3.9 percent of total premium.²³ Again assuming that the dataset analyzed is

²¹ As noted previously, we estimate that the commercial fully insured dataset analyzed is likely representative of all commercial payments, including the self insured and individual markets. Data reported by carriers to OHIC indicates that risk contracts (fully insured) account for approximately 59 percent of total enrollment.

²² Differences in totals due to rounding.

representative of all commercial payments, they would spend up to \$84 million less.²⁴ Correspondingly, paying at the most expensive average negotiated rate (167 percent of Medicare) would increase expenses by \$65 million, or 5 percent of premium.

This analysis does not include outpatient payments, which are equal to the size of inpatient payments. If outpatient payment rates by hospital showed similar patterns of variability, then fair treatment of provider concerns as represented above would be exacerbated and similar additive savings and expenses could be expected for health insurance premiums.²⁵

This analysis should not be construed as indicating that setting commercial inpatient rates is appropriate policy or that a level of 79 percent of Medicare is financially sustainable for hospitals. In preparing this report, no credible national comparisons to the Commercial to Medicare payment ratio in Rhode Island could be located.²⁶ If found, such a figure could provide an external reference point for assessing whether the commercial inpatient medical/surgical rates in RI are relatively affordable or not. In the absence of that, the MedPac analysis that in 2008 Medicare inpatient payments amounted to 96% of hospitals' costs²⁷ remains the most credible standard.

²⁴ As noted previously, we estimate that the commercial fully insured dataset analyzed is likely representative of all commercial payments, including the self insured and individual markets. Data reported by carriers to OHIC indicates that risk contracts (fully insured) account for approximately 59 percent of total enrollment.

²⁵ As noted previously, conclusions on outpatient payments were far more limited: Outpatient payment variation by hospital appears to exist and parallels (rather than compensates for) inpatient payment variance. The magnitude could not be estimated.

²⁶ Data from MedPac and the American Hospital Association AHA may indicate a comparable figure as high as 140% but it is not apparent that the analytical methods used were consistent with those employed by ACS for this study.

²⁷ See footnote 16.

VII. Discussion

Adjusted for case mix, commercial inpatient medical surgical service payments to hospitals in Rhode Island vary significantly and appear to be related to system membership. The five acute care hospitals affiliated with either Care New England or Lifespan, with 76 percent of the commercial insurance business in Rhode Island, appear to be significantly better-paid than the six unaffiliated community hospitals. In addition, the hospital system with perhaps the most unique service has the highest case-adjusted payments. Care New England – with the only neo-natal intensive care services, and 70-80 percent of the obstetrical deliveries in the state - appears to be significantly better-paid than Lifespan relative to Medicare. These findings are consistent with what has previously been seen in other reports. An analysis for the Governor's Community Hospital Task Force²⁸ indicated in broad terms that variations in commercial payment rates existed across hospitals in Rhode Island. The *Boston Globe* investigated system membership and found a significant relationship between the total payments Boston hospitals received and whether or not that hospital was part of a system²⁹. Other studies have noted similar relations between size, system membership and either payments to hospitals or their reported costs.³⁰

Why might system hospitals be paid more than unaffiliated hospitals? One explanation might be that insurers' payments are subsidizing the hospitals in the provision of uncompensated care and the highly paid hospitals bear a disproportionate burden. Analysis by the Department of Health of net uncompensated care burdens (defined as uncompensated care less Medicaid and Medicare payments for uncompensated care as a percentage of total patient revenues) in 2007 did not support this hypothesis. Care New England's net uncompensated care burden of 2.12% was less than either Lifespan (3.53%) or unaffiliated hospitals (2.31%).³¹

A second explanation is that payments vary because of a "cost shift" whereby hospitals seek higher payment levels from private insurers to offset lower payment levels from Medicare and/or Medicaid. This hypothesis would imply that commercial payments are highest to hospitals where relative Medicare and Medicaid patient volumes are highest. This is not the case with the three highest paid hospitals relative to Medicare - Kent County, Miriam and Newport. Based on fiscal year 2009 charge data, these three hospitals have among the lowest Medicaid patient loads in the state and Medicare patient loads which are at the average (Kent and Newport).³²

A third explanation is that the plans pay more to hospitals affiliated with Care New England and Lifespan because of the teaching costs borne by Rhode Island Hospital, Miriam Hospital, and Women and Infants

Hospital in particular. Either the insurers wish to explicitly subsidize medical education or the costs of medical education affect the negotiations with the hospitals. However, Figures 10 and 12 showed that casemix-adjusted payments were high for Kent Hospital, a Care New England hospital that does not have a teaching program, and low for Memorial Hospital and Roger Williams Medical Center, unaffiliated hospitals with significant teaching components.

Overall, it appears that the most likely reason for the differentials in commercial insurers' payments comes down to the balance of negotiating strength between the parties, as is true elsewhere in our economy. Negotiating strength for a hospital relative to an insurer presumably reflects a balance of factors such as location, number specialized services, volume of care, quality of care, hospital cost, and the number of competitors for services. Care New England provides for approximately 80% of the deliveries in the state each year and has the only neonatal intensive care unit in the state. This constitutes considerable power in a very large market (new born births).

As noted in the introduction to this report, the statute founding the Office of the Health Insurance Commissioner gives the Office two standards relevant to this analysis – the responsibility for insurers to treat providers fairly and to adopt policies that promote affordability of health insurance. These two are to be held in tension – paying all hospitals at 167 percent of Medicare rates may be fair, but probably is not affordable. How does this analysis help assess the effects in Rhode Island of the private contracting process between insurers and hospital providers on these two standards?

What is fair?

A workable definition of a fair hospital payment process is equal treatment of equal parties under equal circumstances. The focus of this definition is on the payers and whether they treat hospitals equally. This appears to be the legislative intent in the OHIC statute. The analysis in this report indicates that while health plans do not appear to be treating hospitals equally with regard to payments – as indicated by varying levels of payment for similar services – they are “equally unequal”; that is the hospitals which are paid relatively well are paid well by both health plans, apparently due to system affiliation and the resulting negotiating leverage possessed by those systems.

A second definition of fair treatment of providers in hospital payment practices could be “equal opportunity” for hospitals. In this case, the focus is less on the health plans, than the public policies that govern the payment determination process. Since the 1980s, public policy in Rhode Island and elsewhere has favored private negotiation strategies between insurers and hospitals as a way to adjudicate fairness. Advocates of such a policy would argue that the discrepancies in payment found in this analysis are simply the workings of the market, which should be allowed to continue. Such a perspective would assume that the market is rewarding higher quality and value at certain hospitals with higher prices. This study looked only at price and did not attempt to assess the value obtained for the price paid.

If there is an inequality at work in the way hospitals are paid for services in Rhode Island, it appears to be an inequality resulting from current market-based public policies where – based on this analysis - the greater the hospital market power, the higher the payment, rather than one resulting from health plan strategy. A hospital payment system for commercial insurers that relies on public payer methodologies – for instance one that pays all hospitals at the same percent of Medicare levels or a state overseen rate setting process such as exists in Maryland - might appear to treat providers more equitably than the

current policy. However, if the public payer methodology fails to capture relevant and publicly desirable differences in circumstances or outcomes between hospitals, then a fairness standard is not met.

What is affordable?

Does the 16 percent premium paid by commercial insurers relative to Medicare for inpatient medical surgical services contribute to health insurance that is relatively more affordable? Although no direct comparisons to this analysis could be found, the premium paid in aggregate by commercial insurers to hospitals compared to Medicare appears to be consistent or on the low side when compared to national averages or other states.³³

Could a contracting process that is fairer also be more affordable? Care must be taken that in addressing any unfairness in the current hospital payment process, affordability is not worsened. Simply raising rates to unaffiliated hospitals in RI will worsen health insurance affordability.

Affordability can be set either by the free market or government oversight or subsidy. A policy contradiction exists between the federal and state government's method of determining appropriate prices for hospital services - an elaborate price setting methodology under Medicare and a similar one under Medicaid - and the private negotiation process employed by commercial insurers. The first approach treats hospital services as public goods, the government as monopsony power with quality and safety overseen by regulation. The second relies on existence of the conditions of a free and fair market to adjudicate fair prices and quality: perfect information; no participant with market power to set prices; no barriers to entry or exit; and equal access to production technology. At best these approaches are inconsistent - creating opportunities for cost shifting and inefficiencies - and at worst they are irreconcilable.

While Medicare's price is a starting point for provider-insurer negotiations, the end point is often not known - by reasons of contract law and contract terms. Is this proprietary protection of information in the public interest? Would its more frequent disclosure be inherently inflationary as the bottom half chases the top? Or will it result in public calls for alternatives to the market mechanism for adjudicating fairness and affordability?

Finally, numerous analyses point to the inherent flaws and faulty incentives in the current hospital payment methodologies, which create inherently inflationary trends.³⁴ This report would indicate that that health insurance affordability in Rhode Island is not threatened by the relative variations in payments for like services that exists among hospitals or in current absolute hospital payment levels. The primary threat is a payment system - perpetuated by Medicare - in which hospitals benefit when they perform more services on more people. In Rhode Island, the private contracting process has not produced these types of payment reforms. Any effort to address concerns about the fair treatment of unaffiliated hospitals or the market power possessed by current or proposed hospital systems should also increase the likelihood of meaningful hospital payment reform to improve health insurance affordability in Rhode Island.

VIII. Appendix: Methods and Limitations

There are several methodological limitations to this analysis:

- There was no independent verification of the accuracy of the data submitted by the health plans to the analysts or by the hospitals to the health plans. .
- In excluding obstetrics and behavioral health, approximately 28 percent of inpatient payments are not analyzed. It is possible that a different payment pattern exists for the excluded services.
- Payments for outpatient services comprise more than half of all payments to hospitals for patients with commercial insurance. They received only a limited analysis. It is possible that a more comprehensive analysis may yield different conclusions than the directional ones offered here.
- The data are for claims paid in the period under study. It does not capture any subsequent changes in payment rates or methodologies. Thus, the highly publicized renegotiation between BCBSRI and Care New England during the fall of 2008 is not reflected in this data³⁵.
- The payments included only those for small/large group policyholders with risk-based contracts with BCBSRI and UHCNE. This accounts for less than 20 percent of total hospital payments. The data set did not include groups with self-insured arrangements with BCBSRI or UHCNE. Nor did it include payment information for Medicare, Medicaid Fee for Service, Medicaid Managed Care (RItE Care), other commercial insurers, or individual policies.^{36 37}
- The MS-DRG grouper was used to assess case mix severity. Although evaluated extensively, it is not a perfect tool.
- To the extent Medicare payments are used as a standard, its method of accounting for hospital costs – including uninsured care and academic training – may be incomplete or inaccurate and thus not capture appropriate and allowable variations in costs.
- The Medicare payment rate used as a standard in this report excludes payment for direct medical education due to lack of specific information. For the state’s teaching hospitals, Medicare payments are therefore slightly understated and the ratio of commercial payments to Medicare payments slightly overstated.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Use of Medical Imaging

Use of Medical Imaging

Use of Medical Imaging (tests like Mammograms, MRIs, and CT scans)

These measures give you information about hospitals' use of medical imaging tests for outpatients based on the following:

- Protecting patients' safety, such as keeping patients' exposure to radiation and other risks as low as possible.
- Following up properly when screening tests such as mammograms show a possible problem.
- Avoiding the risk, stress, and cost of doing imaging tests that patients may not need.

The information shown here is limited to medical imaging facilities that are part of a hospital or associated with a hospital. These facilities can be inside or near the hospital, or in a different location. This information only includes medical imaging done on outpatients. Medical imaging tests done for patients who have been admitted to the hospital as inpatients aren't included.

These measures are based on Medicare claims data.

Serious Complications and Deaths

This section shows serious complications that patients with Original Medicare experienced during a hospital stay, and how often patients who were admitted with certain conditions died while they were in the hospital. These complications and deaths can often be prevented if hospitals follow procedures based on best practices and scientific evidence.

Hospital Acquired Conditions

This section shows certain injuries, infections, or other serious conditions that patients with Original Medicare got while they were in the hospital. These conditions, also known as "Hospital Acquired Conditions," are usually very rare. If they ever occur, hospital staff should identify and correct the problems that caused them.

Please note that the numbers shown here do not take into account the different kinds of patients treated at different hospitals. For this reason, they should not be used to compare one hospital to another.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Heart Attack or Chest Pain Process of Care Measures

An acute myocardial infarction (AMI), also called a heart attack, happens when one of the heart's arteries becomes blocked and the supply of blood and oxygen to part of the heart muscle is slowed or stopped. When the heart muscle doesn't get the oxygen and nutrients it needs, the affected heart tissue may die. These measures show some of the standards of care provided, if appropriate, for most adults who have had a heart attack. Read more information about heart attack care. Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Hospital Acquired Conditions

This section shows certain injuries, infections, or other serious conditions that patients with Original Medicare got while they were in the hospital. These conditions, also known as "Hospital Acquired Conditions," are usually very rare. If they ever occur, hospital staff should identify and correct the problems that caused them.

Please note that the numbers shown here do not take into account the different kinds of patients treated at different hospitals. For this reason, they should not be used to compare one hospital to another.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Heart Attack or Chest Pain Process of Care Measures

An acute myocardial infarction (AMI), also called a heart attack, happens when one of the heart's arteries becomes blocked and the supply of blood and oxygen to part of the heart muscle is slowed or stopped. When the heart muscle doesn't get the oxygen and nutrients it needs, the affected heart tissue may die. These measures show some of the standards of care provided, if appropriate, for most adults who have had a heart attack. Read more information about heart attack care. Learn why Heart Attack Process of Care Measures are Important.

Use of Medical Imaging

Use of Medical Imaging

Use of Medical Imaging (tests like Mammograms, MRIs, and CT scans)

These measures give you information about hospitals' use of medical imaging tests for outpatients based on the following:

- Protecting patients' safety, such as keeping patients' exposure to radiation and other risks as low as possible.
- Following up properly when screening tests such as mammograms show a possible problem.
- Avoiding the risk, stress, and cost of doing imaging tests that patients may not need.

The information shown here is limited to medical imaging facilities that are part of a hospital or associated with a hospital. These facilities can be inside or near the hospital, or in a different location. This information only includes medical imaging done on outpatients. Medical imaging tests done for patients who have been admitted to the hospital as inpatients aren't included.

These measures are based on Medicare claims data.

Serious Complications and Deaths

This section shows serious complications that patients with Original Medicare experienced during a hospital stay, and how often patients who were admitted with certain conditions died while they were in the hospital. These complications and deaths can often be prevented if hospitals follow procedures based on best practices and scientific evidence.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Heart Attack or Chest Pain Process of Care Measures

An acute myocardial infarction (AMI), also called a heart attack, happens when one of the heart's arteries becomes blocked and the supply of blood and oxygen to part of the heart muscle is slowed or stopped. When the heart muscle doesn't get the oxygen and nutrients it needs, the affected heart tissue may die. These measures show some of the standards of care provided, if appropriate, for most adults who have had a heart attack. Read more information about heart attack care. Use of Medical Imaging

Use of Medical Imaging

Use of Medical Imaging (tests like Mammograms, MRIs, and CT scans)

These measures give you information about hospitals' use of medical imaging tests for outpatients based on the following:

- Protecting patients' safety, such as keeping patients' exposure to radiation and other risks as low as possible.
- Following up properly when screening tests such as mammograms show a possible problem.
- Avoiding the risk, stress, and cost of doing imaging tests that patients may not need.

The information shown here is limited to medical imaging facilities that are part of a hospital or associated with a hospital. These facilities can be inside or near the hospital, or in a different location. This information only includes medical imaging done on outpatients. Medical imaging tests done for patients who have been admitted to the hospital as inpatients aren't included.

These measures are based on Medicare claims data.

Patient Safety Measures

Serious Complications and Deaths

This section shows serious complications that patients with Original Medicare experienced during a hospital stay, and how often patients who were admitted with certain conditions died while they were in the hospital. These complications and deaths can often be prevented if hospitals follow procedures based on best practices and scientific evidence.

Hospital Acquired Conditions

This section shows certain injuries, infections, or other serious conditions that patients with Original Medicare got while they were in the hospital. These conditions, also known as "Hospital Acquired Conditions," are usually very rare. If they ever occur, hospital staff should identify and correct the problems that caused them.

Please note that the numbers shown here do not take into account the different kinds of patients treated at different hospitals. For this reason, they should not be used to compare one hospital to another.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Hospital Acquired Conditions

This section shows certain injuries, infections, or other serious conditions that patients with Original Medicare got while they were in the hospital. These conditions, also known as "Hospital Acquired Conditions," are usually very rare. If they ever occur, hospital staff should identify and correct the problems that caused them.

Please note that the numbers shown here do not take into account the different kinds of patients treated at different hospitals. For this reason, they should not be used to compare one hospital to another.

Process of Care Measures

Surgical Care Improvement Project Process of Care Measures

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.

Heart Attack or Chest Pain Process of Care Measures

An acute myocardial infarction (AMI), also called a heart attack, happens when one of the heart's arteries becomes blocked and the supply of blood and oxygen to part of the heart muscle is slowed or stopped. When the heart muscle doesn't get the oxygen and nutrients it needs, the affected heart tissue may die. These measures show some of the standards of care provided, if appropriate, for most adults who have had a heart attack. Read more information about heart attack care: Learn why Heart Attack Process of Care Measures are Important.

Use of Medical Imaging

Use of Medical Imaging

Use of Medical Imaging (tests like Mammograms, MRIs, and CT scans)

These measures give you information about hospitals' use of medical imaging tests for outpatients based on the following:

- Protecting patients' safety, such as keeping patients' exposure to radiation and other risks as low as possible.
- Following up properly when screening tests such as mammograms show a possible problem.
- Avoiding the risk, stress, and cost of doing imaging tests that patients may not need.

The information shown here is limited to medical imaging facilities that are part of a hospital or associated with a hospital. These facilities can be inside or near the hospital, or in a different location. This information only includes medical imaging done on outpatients. Medical imaging tests done for patients who have been admitted to the hospital as inpatients aren't included.

These measures are based on Medicare claims data.

PROVIDENCE, SC.

SUPERIOR COURT

Gary J. Gaube, Chief Executive Officer :
and Trustee, :
Plaintiff :

vs. :

P.B. No: 08-4371

Landmark Medical Center, :
Defendant :

ORDER APPOINTING PERMANENT SPECIAL MASTER

This cause came to be heard on the Petition for Appointment of Permanent Special Master for the Defendant, and it appearing that the notice provided by the Order of this Court previously entered herein has been given, and upon consideration thereof, it is hereby

ORDERED, ADJUDGED AND DECREED:

1. That Jonathan N. Savage, Esq. of 1080 Main Street, Pawtucket, Rhode Island, be and hereby is appointed Permanent Special Master (the "Special Master") of Defendant, and of all the estate, assets, effects, property and business of Defendant of every name, kind, nature and description, with all the powers of a Permanent Receiver as set forth herein. On such notice as may be required, if any, the Permanent Special Master may apply to this Court for enhanced powers other than those powers specifically enumerated or otherwise set forth herein.

2. That said Permanent Special Master shall, no later than five (5) days from the date hereof, file herein a bond in the amount of \$1,000,000.00 with corporate surety thereon authorized to do business in the State of Rhode Island conditioned that the Permanent Special Master will well and truly perform the duties of said office.

3. That said Permanent Special Master be and hereby is authorized, empowered and directed to take possession and charge of said estate, assets, effects, property and business of the Defendant, including cash surrender value of any insurance owned by Defendant, and to preserve the same, and is hereby vested with title to the same; to collect and receive the debts, property and other assets and effects of said Defendant, including such cash surrender value, with full power to prosecute, defend, adjust and compromise all claims and suits of, by or against said Defendant and to appear, intervene or become a party in all suits, actions or proceedings relating to said estate, assets, effects and property as may in the judgment of the Permanent Special Master be necessary or desirable for the protection, maintenance and preservation of the property and assets of said Defendant.

4. That this appointment is made in succession to the appointment of Temporary Special Master heretofore made by order of this Court, and the Permanent Special Master

shall take and be vested with the title to all assets, property and choses-in-action which have heretofore accrued to the Temporary Special Master with power to confirm and ratify in writing such agreements as are entered into by such Temporary Special Master and to carry out and perform the same.

5. That the Permanent Special Master is authorized and directed to engage the services of PricewaterhouseCoopers, LLP, 80 State Street, Albany, New York, in accordance with the terms of engagement as more specifically set forth in the Engagement Letter attached hereto and incorporated herein, to assist the Permanent Special Master with evaluating the current state of the Defendant's operations, including, but not limited to, the evaluation of the leadership structure and management processes, the evaluation of processes related to the delivery of patient care and the performance of other core activities, the evaluation of financial and operational performance and the status of previously recommended corrective actions/initiatives. In connection therewith the Permanent Special Master is authorized to execute and deliver said Engagement Letter.

6. That the Permanent Special Master is authorized to continue the business of the Defendant until further order of this Court, and to employ such persons as may be desirable for the foregoing purposes (except that the Permanent Special Master shall first obtain *ex parte* approval to hire attorneys, accountants and turn around professionals) and, in connection therewith, to use such moneys as shall come into the Permanent Special Master's hands and possession, as far as the same shall be necessary, for the above purposes and for continuing the business of said Defendant until further Order of this Court.

7. That the Permanent Special Master is authorized to incur expenses for goods and services and to purchase for cash such merchandise, supplies and materials as in the Permanent Special Master's discretion may be desirable or necessary for continuance of the business of the Defendant.

8. That said Permanent Special Master be, and hereby is, authorized and empowered, as soon as there are sufficient funds available, to pay all City, State and United States taxes of any kind, nature and description, including withholding taxes, as well as wages due employees, with such employees being relieved of the necessity of filing claims with the Permanent Special Master unless the amount paid or shown on the books of the Defendant is not acceptable to any employee, in which case said employee may file his/her claim in the same manner as other creditors.

9. In fulfillment of the reporting requirements set forth in Rule 53(e) and Rule 66(e) of the Superior Court Rules of Civil Procedure, the Permanent Special Master shall file with the Court the Reports referred to in said Rules, as and when the Permanent Special Master deems necessary or advisable under the circumstances, or, in any event, as and when required by Order of this Court. In addition, the Permanent Special Master shall file with the Court, on or before May 1st and October 1st of each year, a Control Calendar Report in accordance with Rhode Island Superior Court Administrative Order No. 98-7. Notwithstanding the above, the Permanent Special Master shall continue to report to the Court on a regular basis.

10. That the Permanent Special Master shall continue to discharge said Permanent Special Master's duties and trusts hereunder until further order of this Court; that the right is reserved to the Permanent Special Master and to the parties hereto to apply to this Court for any other or further instructions to said Permanent Special Master and that this Court reserves the right, upon such Notice, if any, as it shall deem proper, to make such further orders herein as may be proper, and to modify this Order from time to time.

11. That, pursuant to and in compliance with Rhode Island Supreme Court Executive Order No. 95-01, if applicable, this Court finds that the designation of the aforescribed person for appointment as Permanent Special Master is warranted and required because of said Permanent Special Master's specialized expertise and experience.

12. All creditors or other claimants hereby are ordered to file under oath with the Permanent Special Master at 1080 Main Street, Pawtucket, Rhode Island 02860 on or before November 24, 2008, a statement setting forth their claims, including, but without limiting the generality of the foregoing, the name and address of the claimant, the nature and amount of such claim, a statement of any security or lien held by the claimant to which such claimant is or claims to be entitled, and also a statement as to any preference or priority which the claimant claims to be entitled to over the claims of any other or all other claimants or creditors.

13. That the commencement, prosecution, or continuance of the prosecution, of any action, suit, arbitration proceeding, hearing, or any foreclosure, reclamation or repossession proceeding, both judicial and non-judicial, or any other proceeding, in law, or in equity or under any statute, or otherwise, against said Defendant or any of its property, in any Court, agency, tribunal, or elsewhere, or before any arbitrator, or otherwise by any creditor, stockholder, corporation, partnership or any other person, or the levy of any attachment, execution or other process upon or against any property of said Defendant, or the taking or attempting to take into possession any property in the possession of the Defendant or of which the Defendant has the right to possession, or the cancellation at any time during the Mastership proceeding herein of any insurance policy, lease or other contract with Defendant, by any of such parties as aforesaid, other than the Permanent Special Master designated as aforesaid, or the termination of telephone, electric, gas or other utility service to Defendant, by any public utility, without obtaining prior approval thereof from this Honorable Court, in which connection said Permanent Special Master shall be entitled to prior notice and an opportunity to be heard, are hereby restrained and enjoined until further Order of this Court.

14. That the Permanent Special Master shall continue to meet with the Director of the Rhode Island Department of Health (the "Director") and the Rhode Island Department of the Attorney General (the "Attorney General") on a schedule decided between the Permanent Special Master, the Director and the Attorney General at which meetings the Permanent Special Master shall advise and consult with the Director and the Attorney General regarding (i) the status and quality of patient care, (ii) the financial stability of the Defendant's business and (iii) any material changes that the Permanent Special Master plans to make to the scope and/or delivery of the Defendant's provision of health care services, in advance of making any such material change.

15. That Notice be given of the entry of this Order by the Clerk of this Court by publication of a copy of the annexed Permanent Special Master Notice once in The Superior Court Counties of Providence & Bristol Providence, Rhode Island.

July 25, 2008

Mr. Jonathan N. Savage
Special Master
Landmark Medical Center
115 Cass Avenue
Woonsocket, RI 02895

Dear Mr. Savage,

This letter confirms that PricewaterhouseCoopers LLP ("we" or "us" or "PwC") is pleased to be engaged to provide the services described below to the Special Master ("you") on behalf of Landmark Medical Center ("LMC", "Hospital").

Our Understanding of your Needs

Landmark Medical Center, a not-for-profit hospital located in Woonsocket, Rhode Island, has faced increasing financial losses, ending FY2007 with a reported \$7 million deficit. The Hospital has recently sought a merger with Memorial Hospital, another not-for-profit hospital in Rhode Island. As part of that process, the Hospital filed a waiver with the Legislature to expedite the Hospital Conversion Act, which was not approved. The Superior Court has since appointed a Special Master to oversee LMC's operations.

PricewaterhouseCoopers was engaged in March of 2007 by LMC's Board of Trustees as a result of LMC's violation of bond covenant related to Debt Service Coverage (DSCR) for the fiscal year ended 9/30/06, which required LMC to engage an external consultant to report on the status of the organization and its corrective actions. PwC issued a Management Consultant Report on May 28, 2007 that outlined the Hospital's operating gap, the quantified initiatives, other issues under development and commentary on the relative adequacy of the initiatives to close the operating gap.

The Special Master is looking to evaluate the status of corrective actions and initiatives proposed by PwC in the Report and understand other potential opportunities for operational and financial improvement. We will advise and assist the Special Master in connection with the foregoing and with any affiliation or merger transaction that Landmark Medical Center may enter into.

Scope of Our Services

You are engaging us to provide the following services (the "Services"):

PricewaterhouseCoopers will assist the Special Master with evaluating the current state of the Hospital's operations, including the evaluation of the leadership structure and processes and the status of corrective actions/initiatives that were recommended by PwC in a Management Consultant Report dated May 28, 2007. PwC will conduct an assessment of various aspects of the Hospital's operations with the objective of identifying opportunities for performance improvement (i.e. revenue and/or cash enhancement, cost reduction, improved efficiency, etc.). PwC will also participate in the development of an affiliation or acquisition strategy that will include but not be limited to the articulation of goals, establishment of priorities, vetting of various approaches, communication with the key stakeholders and establishment of timelines.

LMC 02891

1. **Operations Assessment** - PwC will evaluate the processes with which LMC delivers patient care and performs other core activities. The following represents descriptions of selected approaches to be utilized for this area of the engagement:

- ⇒ Operations - PwC will benchmark staffing levels (FTEs by department) and volume statistics (e.g. patient days, ED visits) against comparable industry levels and identify potential areas for improvement. Once identified, PwC will interview management and staff, review the physical layout where services are provided and specific operational information (staffing plans, roles, responsibilities, hours of operation, etc.) to gain an understanding of the operations. PwC will then propose changes such as service reconfigurations, alternative approaches to staffing, etc. in order to improve the overall efficiency with which services are provided.
- ⇒ Programs - PwC will review an analysis of product line profitability from both a service and payor perspective and evaluate the pros and cons of specific programs and services. Discussions will be held with Management and recommendations will be developed, as applicable, for the expansion, elimination or adjustments to those programs or services with the objective of improving the overall financial performance of LMC. Adjustments may incorporate performance improvement analyses around inpatient length-of-stay, outsourcing of services, etc.

Finally, proposed recommendations will be reviewed with department management and LMC leadership and will be accompanied by outlines for key implementation steps to facilitate the changes and ultimate realization of the efficiencies. Each recommendation will also include quantification, where applicable, of the estimated improvement and the associated timing and will be presented to the Special Master for consideration.

2. **Physician Support** - PricewaterhouseCoopers will compile a summary of financial and operational performance on all physician-specific activities (i.e. volume statistics, revenues, salaries, benefits, stipends, income guarantees, support, etc.), and associated statistical information (both office activity and hospital admissions, as applicable). In addition, all related physician contracts will be reviewed, summarized and evaluated with respect to term, conditions for bonus and termination of contract, expiration, escalation clauses, etc. Finally, operational issues including the structure of the physician practices, practice administration, contract maintenance, billing, etc. will be analyzed. The financial, statistical and operational information will form the basis for recommendations to the Special Master related to opportunities to reduce overall physician costs and/or adjust roles of specific physicians to optimize the value of LMC's investment in physician services.
3. **Non-labor Spending** - PwC will review materials management processes with respect to personnel, contract maintenance, utilization of optimal pricing, opportunities for standardization, etc. The review will include data analysis as well as interviews with various departmental leadership (Materials Management, OR, Cath Lab, etc.). Based on the data analysis and information gathered during interviews, PwC will develop recommendations around any opportunities identified to reduce non-labor costs in the related areas of the operation. PwC will also review and evaluate any pursuits currently identified by LMC and validate or challenge the opportunities. Resulting recommendations and / or evaluation of existing pursuits will be presented to the Special Master for consideration.
4. **Revenue Cycle** - PwC will evaluate various components of the revenue cycle in an effort to identify opportunities to improve the overall revenue realization of both services provided, services billed and cash collected. Among the areas that will be evaluated are inpatient and outpatient coding, clinical documentation, physician billing and collection, and other components of the revenue cycle. PwC will utilize a combination of data analysis, medical records reviews and interviews with departmental and Hospital management. Based on the data analysis and information gathered during interviews, PwC will develop recommendations around any opportunities identified to improve revenue realization including estimated quantification of opportunities, outlines of implementation steps and estimated timing to realize benefits. In addition, PwC will also review and evaluate any pursuits currently

identified by LMC and validate or challenge the opportunities. Resulting recommendations and / or evaluation of existing pursuits will be presented to the Special Master for consideration.

- 5. **Institutional Profile** - PricewaterhouseCoopers will assist in the update of an institutional profile. This profile will incorporate an outline of service offerings, data analysis around LMC's market and competitors on a service-specific level, inpatient and outpatient utilization trends from a service area perspective, etc. This information will be utilized both internally as education material and will also be utilized to facilitate discussions with other facilities with which LMC may want to consider affiliation options.
- 6. **Affiliation Process** - As LMC enters into discussions with potential affiliation or merger partners, PwC will provide advice and counsel in connection with the potential transaction.

Deliverables

We expect to provide you with the following deliverables:

Deliverables resulting from this engagement will include, for each of the areas described under the Scope of Our Services section:

- Summaries of assessments including findings, observations and associated recommendations for each of the individual areas reviewed. The summaries will incorporate, where applicable, outlines of key implementation steps, quantified estimates of opportunities and associated timing for each.
- For those pursuits currently underway for which PwC is reviewing and validating and/or challenging the opportunity, a summary will be provided for each pursuit including an outline of existing information and PwC's observations and recommendations associated with the individual pursuit along with recommended alternatives, where applicable.
- Summary of the aggregate assessment results, estimated values and associated timing, for presentation to the Special Master for its consideration along with detailed summaries outlined above.

These deliverables will be prepared in conjunction with you and will not be branded with PwC's name. You will review them, revise as you deem appropriate, and approve them prior to your use.

Ownership and Use

We are providing these Services solely for your use and benefit and pursuant to a client relationship exclusively with you. We disclaim any contractual or other responsibility to others based upon these Services or upon any deliverables or advice we provide, and we shall have no liability to any third party in connection with the Services. Insofar as our work is not intended to be relied upon by third parties, without our written consent you will not: provide our deliverables or advice to customers, lenders, underwriters, insurers, investors, potential merger partners, other parties with whom you may enter into discussions for merger, acquisition, affiliation or other similar transactions with regard to Landmark Medical Center or anyone who has or may obtain a financial interest in Landmark Medical Center; publicly disclose anything we provide or publicly refer to PwC or the Services; or give assurance to others based upon the Services.

We understand that you are a court appointed fiduciary in the case entitled Gary J. Gaube, Chief Executive Officer and Trustee vs. Landmark Medical Center which is docketed in the records of the Clerk of the Providence County Superior Court as P.B. No. 08-4371, (presently the Honorable Michael A. Silverstein). We agree that anything that we provide to you may be shared with the Honorable Michael A. Silverstein or any other judge who may preside over that matter (collectively "the Court").

We further agree to make ourselves reasonably available for discussions with you and the Court whenever you inform us that you have received a request from the Court for you and us to so appear. To the extent that any third party gains access, through the Court or otherwise, to any deliverables or advice we provide to you in this engagement, such third party is precluded from relying on such deliverables or advice or using the same for any purpose other than as expressly permitted in this or the preceding paragraph of this letter.

You will own all tangible written material delivered to you under this engagement letter, except as follows: PwC will own its working papers and preexisting materials and any general skills, know-how, processes, or other intellectual property (including a non-client specific version of any deliverables) which may have been discovered or created by PwC as a result of its provision of the Services. You will have a nonexclusive, non-transferable license to use such materials included in the deliverables for your own internal use as part of such deliverables.

Because we accept no liability to third parties with respect to the Services and deliverables, you agree to indemnify and hold us harmless from and against any and all third party claims, suits and actions, and all associated damages, settlements, losses, liabilities, costs, and expenses, including without limitation reasonable attorneys fees, arising from or relating to the Services and/or deliverables under this agreement, except to the extent finally determined to have resulted from our gross negligence or intentional misconduct relating to such Services and/or Deliverables.

Our Responsibilities

We will perform the Services in accordance with the Standards for Consulting Services established by the American Institute of Certified Public Accountants. Accordingly, we will not provide an audit or attest opinion or other form of assurance, and we will not verify or audit any information provided to us.

Protected Health Information

We acknowledge that in connection with this engagement we may have access to protected health information ("PHI"), consisting of individually identifiable health information. We agree that we (a) will not use or further disclose PHI other than as permitted by this engagement letter or required by law or professional regulation; (b) will use appropriate safeguards to prevent use or disclosure of PHI that we create, receive, maintain, or transmit on your behalf other than as permitted by this engagement letter or required by law or professional regulation; (c) for electronic PHI, will implement appropriate administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of the electronic PHI; (d) will require that all of our subcontractors and agents to whom we provide PHI pursuant to the terms of this engagement letter agree to all of the same restrictions and conditions to which we are bound, including reasonable and appropriate safeguards to protect this PHI; (e) will report to you, within a reasonable period of time, any unauthorized use or disclosure of PHI or security incident that results in the unauthorized access, use, disclosure, modification, or destruction of your electronic PHI promptly upon becoming aware of it, and will mitigate, to the extent practicable, any harmful effects known to us; (f) will make available for access PHI that we maintain as part of a designated record set; (g) will make available for amendment and incorporate any amendment to PHI that we maintain as part of a designated record set; (h) will make available upon your request an accounting of disclosures; (i) will make available to the Secretary of Health and Human Services upon reasonable notice our policies and procedures as necessary to determine your HIPAA compliance as it relates to this engagement; (j) upon termination of this engagement letter, will return or destroy all PHI received from you that we maintain, except that we will retain that PHI that is required for our working papers prepared in connection with this engagement, or otherwise is infeasible to return or destroy (and we will extend the protections of this engagement letter to any such retained information); (k) will authorize termination of the engagement letter by you if you reasonably determine that we have violated a material term of our obligations to protect PHI, but only so long as no cure is reasonably possible, and that you may report such violation as required if no cure

is feasible and termination also is not feasible; (l) will use and disclose aggregated information, limited data sets and deidentified PHI only as permitted or required by law or regulation; (m) may use the information we receive in connection with this engagement, if necessary (1) for our proper management and administration; or (2) to carry out our legal responsibilities; and (n) may disclose the information we receive in connection with this engagement for our proper management and administration if (1) the disclosure is required by law; or (2) we (i) obtain reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the person; and (ii) the person notifies us of any instances of which it is aware in which the confidentiality of the information has been breached.

Your Responsibilities

Our role is advisory only. You are responsible for all management functions and decisions relating to this engagement, including evaluating and accepting the adequacy of the scope of the Services in addressing your needs. You are also responsible for the results achieved from using any Services or deliverables. You will designate a competent member of your management to oversee the Services. It is your responsibility to establish and maintain your internal controls. We expect that you will provide accurate and complete information and reasonable assistance, and we will perform the engagement on that basis.

Our Engagement Team

The project team will be led by:

- Gerard Bielak, Engagement Partner
- Geoffrey Coffman, Concurring Partner
- Matthew Lusnar, Engagement Director
- Anna Dang, Engagement Manager

Fees and Expenses

Our fee is based on the time required by our professionals to complete the engagement. Individual hourly rates vary according to the experience and skill required. Hourly rates may be revised from time to time, and the adjusted rates will be reflected in billings. The schedule below reflects the professional fees range by staff level.

	<u>Low</u>	<u>High</u>
Partner	\$545	\$640
Director	\$365	\$470
Manager	\$325	\$355
Senior Associate	\$245	\$270
Associate	\$200	\$230

We also will bill you for our reasonable out-of-pocket expenses and our internal per ticket charges for booking travel; the bills will be issued every two-weeks. Invoices are due within 14 days of the invoice date. If we began performing the Services before this engagement letter was signed, this letter will be considered effective as of the date we began providing the Services.

Termination and Dispute Resolution

Either party may terminate the Services by giving notice to that effect. Any dispute relating in any way to the Services or this letter shall be resolved by arbitration. The arbitration will be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association then in

effect. The arbitration will be conducted before a panel of three arbitrators. The arbitration panel shall have no power to award non-monetary or equitable relief of any sort. It shall also have no power to award: damages in excess of two times the total amount of fees paid to us under this engagement letter; lost profits; or consequential, indirect, punitive, exemplary or special damages. You accept and acknowledge that any demand for arbitration arising from or in connection with the Services must be issued within one year from the date you became aware or should reasonably have become aware of the facts that give rise to our alleged liability and in any event no later than two years after any such cause of action accrued.

This engagement letter and any dispute relating to the Services will be governed by and construed, interpreted and enforced in accordance with the laws of the State of New York, without giving effect to any provisions relating to conflict of laws that would require the laws of another jurisdiction to apply.

Limitations on Liability

Except to the extent finally determined to have resulted from our gross negligence or intentional misconduct, our liability to pay damages for any losses incurred by you or Landmark Medical Center as a result of breach of contract, negligence or other tort committed by us, regardless of the theory of liability asserted, is limited to no more than two times the total amount of fees paid to us under this engagement letter. In addition, we will not be liable in any event for lost profits or any consequential, indirect, punitive, exemplary or special damages. Also, we shall have no liability to you or Landmark Medical Center arising from or relating to any third party hardware, software, information or materials selected or supplied by you.

Other Matters

Neither party may assign or transfer this engagement letter, or any rights, obligations, claims or proceeds from claims arising under it, without the prior written consent of the other party, and any assignment without such consent shall be ineffective. If any provision of this Agreement is found to be unenforceable, the remainder of this Agreement shall be enforced to the extent permitted by law. You agree we may use your name in experience citations and recruiting materials. This engagement letter supersedes any prior understandings, proposals or agreements with respect to the Services, and any changes must be agreed to in writing.

**ORDER APPROVING SPECIAL MASTER'S TWENTIETH
INTERIM REPORT AND REQUEST FOR FEES**

This matter having come on for Hearing on June 2, 2011, on the Special Master's Twentieth Interim Report and Request for Fees (the "Twentieth Report"), the Rhode Island Office of the Attorney General's (the "Attorney General") Response to the Special Master's Twentieth Interim Report and Request for Fees (the "Response") and Blue Cross Blue Shield of Rhode Island's ("Blue Cross") Limited Objection to the Special Master's Twentieth Interim Report and Request for Fees and the Court being satisfied that Notice of said Hearing has been given to all stockholders and creditors of the Defendant as set forth in the Affidavit of Notice filed by the Special Master relative to the Twentieth Report. Following a presentation by the Special Master and comment by the Attorney General and Blue Cross, it is hereby:

ORDERED, ADJUDGED AND DECREED:

1. That the Twentieth Report of Jonathan N. Savage, Permanent Special Master herein, and all acts, doings, and disbursements of said Special Master to date are hereby approved, confirmed and ratified;

2. That by the agreement of the Special Master and the Attorney General, of the \$11,566.10 held by the Special Master in accordance with the Order approving the Special Master's Nineteenth Interim Report and Request for Fees (the "Nineteenth Report"), the Special

Master may pay himself in the amount of \$7,662.10 and the amount of \$3,904.00 shall continue to be HELD pending further Order of this Court;

3. That the Special Master's Fees accrued between March 1, 2011 and March 31, 2011, in the amount of \$63,768.00, related to the Blue Cross litigation, captioned as *Jonathan N. Savage, in his capacity as Special Master of Landmark Medical Center v. Blue Cross Blue Shield of Rhode Island, Inc.*, and docketed as P.B. No. 11-1560, shall be set aside and are not presently considered by this Court;

4. That the Special Master's Fees accrued between March 1, 2011 and March 31, 2011, in the amount of \$26,010.50, identified in the Attorney General's Response as "unsupported, excessive, or redundant fees," shall be HELD pending further Order of this Court;

5. That the remainder of the Special Master's Fees associated with the Twentieth Report are hereby approved and the Special Master is hereby directed to pay himself that portion of his interim fees and costs which accrued during the period of March 1, 2011 through March 31, 2011, in the amount of \$100,929.00;

6. That the Special Master is authorized to pay himself the amount of \$26,010.50 from those reserve funds presently totaling \$185,998.49, which this Court has previously directed the Special Master to hold in reserve;

7. Regarding the issues raised by the Attorney General at the Hearing on the Nineteenth Report relative to True North Communications ("True North") and Capitol City Group ("CCG"), this Court (a) approves and ratifies all prior payments made by the Special Master to True North and CCG; and (b) authorizes the Special Master to satisfy any and all current outstanding invoices issued by True North and CCG to the Special Master. Further, on a go forward basis, this Court directs that the invoices issued by True North and CCG to the Special Master include detailed descriptions of the services provided and that the Special Master provide those descriptions to the Court under seal;

8. That the Special Master's Bond previously posted in this matter shall remain in place until ordered cancelled by this Court; and

Steward Health Care System
Economic Impact: Progress Report
November 2010 – June 2011

Steward

Believe.

Steward Health Care System LLC (Steward), the largest fully integrated community care organization in New England and the seventh largest employer in Massachusetts, was created in November of 2010. At its inception, Steward consisted of six hospitals with 1,359 inpatient beds and approximately 13,000 employees.

In the following eight months, Steward experienced a period of dramatic growth.

This growth is fueled by out-of-state investment dollars and has had a profound impact on the Massachusetts economy. This impact falls into a number of categories: expansion, construction, job creation and tax generation.

Expansion.

In the past eight months
Steward has acquired
two additional hospitals:

- **Merrimack Valley Hospital** (Haverhill, MA)
107-bed acute care hospital with 550 employees
- **Nashoba Valley Medical Center** (Ayer, MA)
57-bed acute care hospital with 530 employees

Steward has also signed
and executed asset
purchase agreements
for **five more hospitals:**

- **Morton Hospital and Medical Center** (Taunton, MA)
154-bed acute care hospital with 1,100 employees
- **Landmark Medical Center** (Woonsocket, RI)
214-bed acute care hospital with 750 employees
- **Rehabilitation Hospital of Rhode Island** (North Smithfield, RI)
70-bed rehabilitation hospital with 150 employees
- **Quincy Medical Center** (Quincy, MA)
196-bed acute care hospital with 1,100 employees
- **Saints Medical Center** (Lowell, MA)
157-bed acute care hospital with 1,300 employees

STEWARD HEALTH CARE SYSTEM LLC

Each of these acquisitions comes with a capital commitment to upgrade existing facilities over the course of the next few years. For the existing eight Steward hospitals, plus the five upcoming acquisitions,

Steward will have spent a **total of \$260 million** for facility renovations, upgrades and expansion by the end of 2011.

This includes:

- **\$10 million** for a new radiation therapy center at St. Elizabeth's Medical Center in Brighton, MA
- **\$30 million** for a new emergency department at Good Samaritan Medical Center in Brockton, MA
- **\$10 million** for a renovated and expanded operating room suite at Carney Hospital in Dorchester, MA
- **\$7 million** for a renovated and expanded cardiac catheterization lab at Norwood Hospital in Norwood, MA

The logo for Steward, featuring the word "Steward" in a white serif font on a black background. The logo is partially obscured by a large black rectangular shape above it and a white rectangular shape to its right.

Steward

Construction.

At the time of its creation, Steward's facilities totaled more than 3.5 million square feet in Massachusetts. Since November 2010,

Steward has expanded its physical presence in Massachusetts by more than **770,000 square feet**

of new or renovated space. This includes newly acquired office and physician space, as well as new construction at existing Steward facilities.

This dramatic expansion required more than \$122 million in capital to complete. Moving forward, Steward has committed to spend approximately

\$270 million on new construction projects over the next five years.

STEWARD HEALTH CARE SYSTEM LLC

System growth to date in Massachusetts:

- More than **56,000 sq. ft.** in **Methuen**
- More than **109,000 sq. ft.** in **Fall River**
- More than **48,000 sq. ft.** in **Dorchester**
- More than **60,000 sq. ft.** in **Norwood**
- Approx. **100,000 sq. ft.** in **Westwood**
- More than **58,000 sq. ft.** in **Brockton**
- Approx. **2,000 sq. ft.** in **Stoughton**
- More than **20,000 sq. ft.** in **Brighton**
- More than **38,000 sq. ft.** in **Boston**
- More than **158,000 sq. ft.** in **Ayer**
- More than **137,000 sq. ft.** in **Haverhill**

Steward

Job Creation.

Steward has 14,000 employees and is the seventh largest employer in Massachusetts.

Since November, the existing system has grown by more than **300 new full-time jobs.**

More than half of this job growth consists of new doctors and nurses. In addition to this growth, Steward's construction activity has generated approximately

500 new construction jobs throughout the state.

Steward's upcoming activity is expected to add an additional 500–800 construction jobs in Massachusetts within the next year.

STEWARD HEALTH CARE SYSTEM LLC

LMC 03210

According to a housing and urban development formula, the economic stimulus Steward is creating with these construction projects

has resulted in almost
**4,000 new jobs in
these communities.**

This job creation projection will increase significantly as Steward moves forward with additional expansion and renovation projects.

Steward

Tax Generation.

Unlike all but two hospitals in
Massachusetts, Steward is a taxable entity.

Steward facilities will pay approximately

\$9 million annually
in property taxes

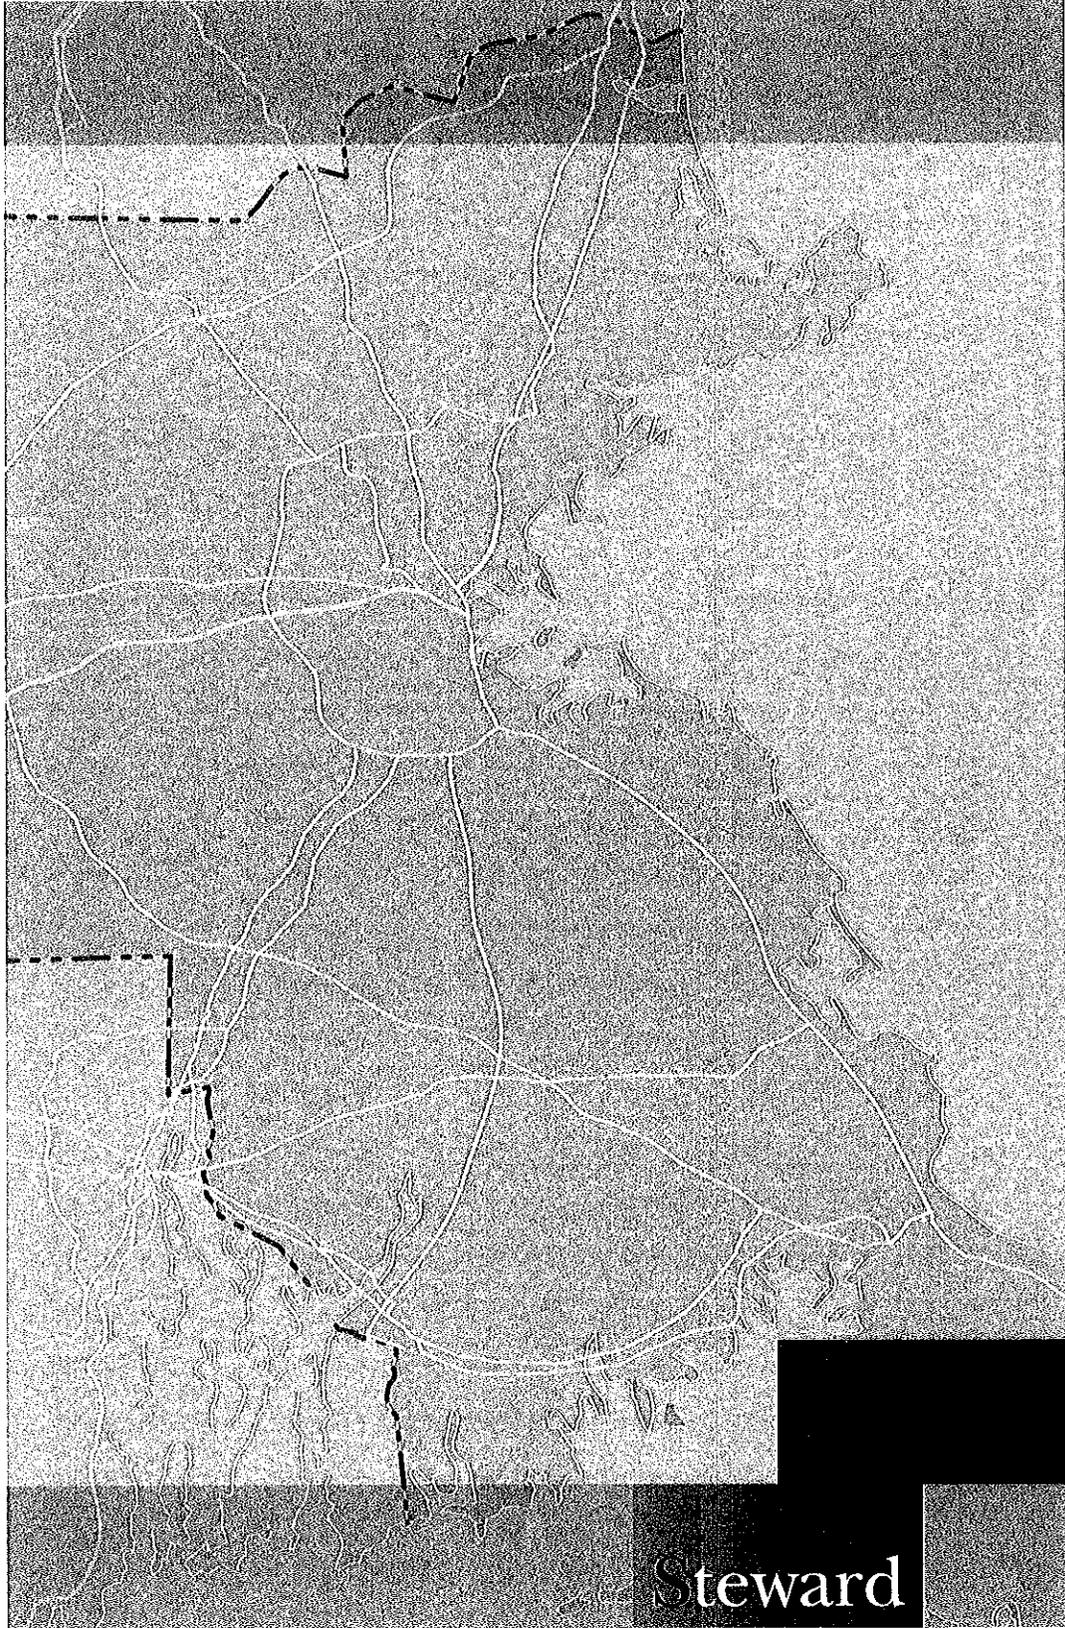

to local Massachusetts communities for
the eight current Steward hospitals.

In 2012, Steward Health Care System
will pay a total of approximately

\$80 million in state
and local taxes

to the communities where we live.
