- Notes:**
- 1. Hepatitis A case counts include patients classified as confirmed cases**
 - 2. Event date is generated based on the availability of data in the following order:**
 - (1) illness onset date; (2) specimen collection date; (3) date of report to public health agency.**
 - 3. Rate is calculated per 100,000 population. The population denominator is based on US Census Population. Rates are based on census data specific for each year (2006-2010 census data).**
