

2013 TIDE TEACHING IMMUNIZATION DELIVERY & EVALUATION

Required for SSV Vaccine Contact and Backup

Completion of Module 7, Vaccine Storage, Handling and Administration **ONLY**, is required by the Rhode Island Immunization State Supplied Vaccine, SSV Program. Print a copy of completion and make available at the request of the program.

Go to: http://tide.musc.edu/users/new?registration_type=ce

Welcome! Please complete the form (found online below) to obtain an individual account and access the course for credit. If you've already registered, please [login](#) (see upper right corner of page). Fields marked with an asterisk (*) are required for credit.

If you do not need to receive CE credit for the course, use the [short registration](#) instead. The short registration will provide you with self-printable certificates of completion that do NOT carry CE credit.

To receive credit for a module, you must:

- Score at least 70% on the module quiz
- Complete the module evaluation
- You are required to register online with the Medical University of South Carolina Office of Continuing Medical Education. You will then be able to print your CME/CEU certificate yourself.

Once you have registered:

- click on Vaccine Storage & Administration, read instructions > arrive at Module and begin
- Complete the scenarios, quiz and evaluation.
- Return to the Module Menu screen
- Click > Certificate of Completion (print copy)
- For CEU confirmation, return to Module Menu screen. Login to CME Tracker System link and note activity code number given. Continue >
- Enter Activity Code. Sign in > *"I am/am not a Medical University of South Carolina (MUSC) employee"*.
- Verify completion. Submit >
- Indicate number of credits. Continue >
- Display certificate >
- Print Certificate of CEU Credit
