

# Protect your baby against hepatitis B

**Doctors recommend that all infants receive their first dose of hepatitis B vaccine before leaving the hospital.**

Don't leave your baby unprotected.  
Talk to your baby's doctor about  
hepatitis B vaccine today.

**For more information, contact  
the Rhode Island Department of Health  
401-222-5960 / RI Relay 711; [www.health.ri.gov](http://www.health.ri.gov)**
